2004 Senior Dairy Quiz Bowl Questions  Round 01

Phase B      5 Questions      Correct answers are worth 10 points each.

Only the team being asked the questions is to be in the room. Each team will be asked these 5 questions. Answers are to be given by a team captain, but assistance may come from any team member. A question may be repeated only once. Answers must be started within 20 seconds. Partial credit may be given at the discretion of the judges. After one team has been questioned, the other team will enter the contest room and be asked the same 5 questions.

1. Name the four compartments of a dairy cow’s stomach.

ANS: Rumen, reticulum, omasum, abomasum

2. What part of the cow’s stomach has a lining that looks like a honeycomb and serves to trap foreign objects that are eaten such as wire or nails?

ANS: Reticulum

3. What is the name of the hormone produced by the ovary that makes cows come into heat?

ANS: Estrogen

4. On a feed ration report you see that the zinc concentration is listed as 40 ppm. What does ppm mean?

ANS: Parts per million

5. Which normally occurs first in a lactating dairy cow, peak milk production or peak feed intake?

ANS: Peak milk production

Phase C      20 Questions      Correct answers are worth 15 points each.
Both teams are in the room for Phase C. The first contestant to signal will answer the question within 5 seconds after being acknowledged by the moderator. Failure to do so will cost that team 10 points. Any contestant answering a question without being acknowledged by the moderator will lose 10 points. If an answer is incorrect, members of the other team will have the opportunity to answer the question without having it reread except for true/false, either or and yes or no type questions. If an answer is given in these types of questions, the question will be replaced with a tie breaker question, and given to the other team. No points are deducted for giving an incorrect answer. Team members are not allowed to discuss the answers in this phase. No partial credit is available in Phase C, except for bonus questions. If neither team can offer an answer to the question within 10 seconds, the moderator will give the answer and the question will be dropped but neither team will forfeit points.

1. What term is used to measure the accuracy of a genetic evaluation?
   a) reliability
   b) predictability
   c) marketability

ANS: a) reliability

2. Before ovulation, what is the name of the blister-like structure on the ovary that contains the egg?
   a) corpuscle   b) zygote   c) follicle   d) chromosome

ANS: c) follicle

3. When a cow is frightened, what hormone is released?
   a) progesterone   b) estrogen   c) testosterone   d) adrenaline (epinephrine)

ANS: d) adrenaline (epinephrine)

4. Which B vitamin has been shown to improve hoof health as well as milk production?
   a) biotin   b) valine   c) riboflavin   d) methionine

ANS: a) biotin

5. How many amino acids are considered to be essential in the dairy cow, and therefore are required in the diet?
a) 40  b) 30  c) 20  d) 10

ANS: d) 10

6. When cattle are grazing lush pasture, what can a deficiency of magnesium in the diet cause?

a) grass tetany   b) bloat   c) coccidiosis   d) brucellosis

ANS: a) grass tetany

a) forages   b) by-product feeds   c) bentonites   d) minerals

ANS: b) by-product feeds

15. Which of the following forages is classified as a legume?

a) fescue   b) corn silage   c) alfalfa   d) sorghum

ANS: c) alfalfa

16. What do we call the first streams of milk stripped from the udder prior to milking?

a) residual milk   b) alveoli   c) foremilk   d) lactation

ANS: c) foremilk

17. In a newborn calf, which stomach compartment is the largest relative size (as a percentage of the total stomach capacity)?

a) rumen   b) reticulum   c) omasum   d) abomasum

ANS: d) abomasum

18. What is the common name for the metabolic disorder acetonemia?

a) brucellosis   b) leptospirosis   c) ketosis

ANS: c) ketosis

19. What is the name of the class of chemicals used to kill internal parasites?

a) clostridia   b) anthelmintics   c) antibiotics
ANS:  b) anthelmintics

20. If a total mixed ration contains 47% dry matter, what percentage moisture does it contain?

ANS: 53% moisture

Bonus Questions Each bonus question is worth 20 points.

Bonus questions may be earned in the toss-up round. To receive a bonus question, 3 different team members must correctly answer the toss-up questions. Bonus questions are
not passed to the other team, nor are points deducted for an incomplete or incorrect answer to the question. Bonus question will be asked whenever 3 team members have answered toss-up questions correctly with the count kept individually for both teams within a match. Eligibility for bonus questions does not carry over to another match. The answers must come from the team captain but assistance can come from the other team members. Only the number or answers required by the bonus question will be accepted. Example: If the bonus has a four-part answer - the first four answers given by the team will be accepted. Answers to a bonus question must start within 20 seconds and be completed within 60 seconds.

1. What is the name of the sugar found only in milk?

ANS: Lactose

2. The milk replacer label shows that it contains 20% fat. How many pounds of fat will be contained in 100 pounds of the milk powder?

ANS: 20 pounds of fat

3. What is the name of the acute infection caused by the spore-forming bacteria, *Bacillus anthracis*, that primarily affects livestock?

   a) anthrax  
   b) Foot and Mouth disease  
   c) Johnes Disease  
   d) Rabies

ANS: a: anthrax
