2006 Junior Dairy Quiz Bowl Questions    Round 06

Phase B  5 Questions  Correct answers are worth 10 points each.

Only the team being asked the questions is to be in the room. Each team will be asked these 5 questions. Answers are to be given by a team captain, but assistance may come from any team member. A question may be repeated only once. Answers must be started within 20 seconds. Partial credit may be given at the discretion of the judges. After one team has been questioned, the other team will enter the contest room and be asked the same 5 questions.

1. True or False
   An embryo with two X chromosomes will result in a female calf.

   ANS: True

2. About how many additional pounds of milk will a cow produce if she consumes 1 more pound of feed dry matter?

   a) 0 to 1  b) 2 to 3  c) 5 to 6  d) 8 to 10

   ANS: b) 2 to 3

3. On a feed ration report, you see that the copper concentration is listed as 10 ppm. What does ppm stand for?

   ANS: parts per million

4. What is the term used to describe the total protein in a feed?

   ANS: Crude protein

5. Which one of the following describes the process of homogenization in milk?

   a) clarification  b) pasteurization  c) the manufacturing process that distributes the fat evenly throughout milk

   ANS: c) the manufacturing process that distributes the fat evenly throughout milk
Phase C 20 Questions Correct answers are worth 15 points each.

Both teams are in the room for Phase C. The first contestant to signal will answer the question within 5 seconds after being acknowledged by the moderator. Failure to do so will cost that team 10 points. Any contestant answering a question without being acknowledged by the moderator will lose 10 points. If an answer is incorrect, members of the other team will have the opportunity to answer the question without having it reread except for true/false, either or and yes or no type questions. If an answer is given in these types of questions, the question will be replaced with a tie breaker question, and given to the other team. No points are deducted for giving an incorrect answer. Team members are not allowed to discuss the answers in this phase. No partial credit is available in Phase C, except for bonus questions. If neither team can offer an answer to the question within 10 seconds, the moderator will give the answer and the question will be dropped but neither team will forfeit points.

1. SPC is a measure of bacteria counts in milk. What do the letters SPC stand for?
   a) Standard Plate Count  b) Somatic Pasteurization Count  c) Second Preliminary Count  d) Super Plate Count

ANS: Steve Troxler
Bonus Questions Each bonus question is worth 20 points.

Bonus questions may be earned in the toss-up round. To receive a bonus question, 3 different team members must correctly answer the toss-up questions. Bonus questions are not passed to the other team, nor are points deducted for an incomplete or incorrect answer to the question. Bonus question will be asked whenever 3 team members have answered toss-up questions correctly with the count kept individually for both teams within a match. Eligibility for bonus questions does not carry over to another match. The answers must come from the team captain but assistance can come from the other team members. Only the number or answers required by the bonus question will be accepted. Example: If the bonus has a four-part answer - the first four answers given by the team will be accepted. Answers to a bonus question must start within 20 seconds and be completed within 60 seconds.
