Dr. Terry Klopfenstein is a Professor in the Animal Science Department at the University of Nebraska-Lincoln. He earned his bachelor's degree in 1961, his master's degree in 1963, and his doctorate in 1965 from Ohio State University. He joined the Animal Science Department at Nebraska in 1965. He is currently teaching a course in Animal System Analysis, graduate courses, and a feedlot internship class. Dr. Klopfenstein's major areas of research are the improvement of feeding value of forages and crop residues, protein utilization, and systems of beef production.

Dr. Klopfenstein received the 981 AFMA Nutrition Award from the American Society of Animal Science. He was elected President of the Midwest Section of the American Society of Animal Science in 1988. In 1988 was named Kermit Wagner Professor of Animal Science and in 1992 received the University of Nebraska-Lincoln Distinguished Teaching Award for Agriculture. In 1997, he was elected President of the American Society of Animal Science. Dr. Klopfenstein was elected President of the Board of Directors of the Federation of Animal Science Societies in 2000.
