ID & Management Workshops:  
☐ $75  ☐ $60 (NCPMA Member)

Make checks payable to North Carolina State University

Mail registration form and payment to:

Patty Alder  
NCSU, Department of Entomology  
Campus Box 7613  
Raleigh, NC 27695-7613

All workshops take place at the NCSU Structural Pest Management Training Facility located at 4000 Chi Road, Raleigh, NC 27603
**About the Workshops**

The structural pest identification and management workshops are 1/2-day courses. Class participants will use a combination of pest habitat, behavioral, and morphological characteristics to identify structural pests. While the workshops focus heavily on identification, workshops also include management strategies and demonstrations.

**Fee**

$75.00  
$60.00 (NCPMA Members)  
*Discounted rate offered when 3 or more individuals from the same company register! Contact us for details.*

**Continuing Certification Units (CCU's)**

Certified applicators and licensees are eligible for 4 P-Phase CCUs upon completion of each workshop. The workshops have also been approved for CCUs in SC, VA, TN, and GA.

**Register Early!**

Each workshop is limited to 30 participants, so register early.

**Workshop Dates**

- **All workshops:** 9:00am - 1:00pm  
  - **Ants:** Oct 3  
  - **Cockroaches:** Oct 4

---

**NORTH CAROLINA TERMITE TECHNICIAN PROGRAM**

**Program Dates**

*Sept 18-19*

**Overview**

The NC Termite Technician Training Program is a 1½-day course that includes both classroom and field instruction. In the outdoor pavilion, class participants get a firsthand look at basic construction elements and how they relate to termite infestation and treatment.  

*Participants must have at least six months on-the-job experience in termite work.*

**Fee**

$200.00  
$175.00 (NCPMA Members)  
*Discounted rate offered when 3 or more individuals from the same company register! Contact us for details.*

**Program**

**Day 1 (9:00am - 5:00pm)**

Basics of termite ID, biology & inspection, basic construction elements, rules and regulations, understanding termiticide labels, vehicle setup, inspections & spill control, treatment specifications & construction elements review

**Program, cont.**

**Day 2 (8:30am - 2:00pm)**

Inspection & graphing exercise, soil treatment equipment & calibration, soil treatment demonstration

**Examination**

An exam is given in the afternoon of the second day. Participants who pass the test will receive a certificate of completion and a uniform patch.

**Continuing Certification Units (CCU's)**

Certified applicators are also eligible for 10 W-Phase CCUs upon completion of the course. This program has also been approved for CCUs in SC, VA, TN, and GA.

**Rain or Shine!**

Since the schedule includes field activities each day, please wear appropriate footwear and clothing.

**Register Early!**

This program is limited to 20 participants, so register early.

---

**LICENSE EXAM SPECIMEN REVIEW**

**About the Reviews**

A critical part of the structural pest control license exam is pest identification. The review sessions will provide individuals preparing to take the exams an opportunity to study insect specimens. These are not the actual specimens used for the exam but are representative of the specimens that may be on the exams. The sessions are self-guided; you review the specimens at your own pace. Reference guides will be available (the NCPCA Field Guide to Structural Pests), but you may also bring your own reference materials. Appointments are required to review the specimens.

**Review Dates**

- **July 11, July 31 (Aug exam), Sept 12, Oct 1, Nov 6, Dec 4**

**Fee**

$35.00

**Registration**

Specimens will be available for review by appointment only. Register in advance simply by contacting Patty Alder at 919.513.3805 or pmalder@ncsu.edu at least two business days in advance.
