To join the session:
1. Go to the Elluminate meeting URL (links above).
2. Under section 2, "User Authentication", select "Guest."
3. Type in your email address where indicated.
4. Type in your full name for "Display Name".
5. Click the small "Log In" button on the right side of the screen.
6. When prompted, click on "OK" to open the meeting with Java.
7. If you get a security warning that the application's digital signature could not be verified, click on "Run."
8. Once the session begins, run the Audio Setup Wizard (Tools > Audio > Audio Setup Wizard).

If you have any problems logging in to the session or hearing the audio, call 866-388-8674, option 2.

All sessions will be recorded and accessible online for later viewing. Links to the recorded sessions will be posted on the PDIC web site http://www.ncsu.edu/pdic/

Note to new users: If you have never used Elluminate before, run the following set-up steps at least 24 hours ahead of time, using the same location and equipment that you will use when you attend the actual Elluminate session(s).

a. Go to http://www.elluminate.com/support
b. Under "First Time Users", click on "Elluminate Live!"
c. Step 1 should show checkmarks that you have supported versions of your operating system and of Java. If not, update them or contact your system administrator.
d. Ignore steps 2 through 4 on that page.
e. Logon to the NCSU Elluminate Live! Configuration Room and follow the instructions there: http://elluminate.wolfware.ncsu.edu/join_meeting.html?meetingId=1261501465800
