NORTH CAROLINA STATE UNIVERSITY BULLETIN
RALEIGH, NORTH CAROLINA
NORTH CAROLINA STATE UNIVERSITY

North Carolina State University (NC State) is a national center for research, teaching and extension, and its graduate education has stood for quality for more than a century. As a land-grant state university, it shares the distinctive characteristics of these institutions nationally -- broad academic offerings, extensive public service, national and international activities, and large-scale extension and research programs.

FACULTY

NC State's faculty are the foundation for the university's academic strength with more than 2,400 Graduate Faculty in the university's ten colleges -- Agriculture and Life Sciences, Design, Education, Engineering, Natural Resources, Humanities and Social Sciences, Management, Physical and Mathematical Sciences, Textile and Veterinary Medicine. Innovators, fine mentors and nationally respected leaders in their fields, the faculty have won significant research grants and maintain an impressive record of publication. In FY 2004-2005, they received more than $199 million in externally funded grant and contract support.

Nineteen faculty are members of the National Academy of Science or National Academy of Engineering. Others are Guggenheim and Fulbright Fellows; winners of Presidential awards for Young Investigators and for Excellence in Science, Mathematics and Engineering Mentoring; and recipients of prestigious honors in their fields.

The open academic atmosphere at NC State makes for a vital exchange of ideas between graduate students and faculty who are dedicated to their roles as mentors. Typical graduate academic environments involve small groups, while students and faculty often work in solo mentor-protégé relationships.

STUDENTS

The more than 6,000 Master's and doctoral students enrolled at NC State reflect the richness and diversity energizing the university community and come from 49 states and U.S. territories and from 87 different countries. In numbers of graduates, NC State is one of America's top 40 doctorate-granting institutions according to the National Opinion Research Center Survey of Earned Doctorates. In 2005-2006, more than 1,460 men and women earned Master's degrees while over 350 earned doctoral degrees. The university takes pride in its record for rapid doctoral time-to-degree, especially given the rigor of these programs.

Graduate students play important roles in the dynamic research environment by engaging in research within traditional disciplines and as members of interdisciplinary teams, and working alongside faculty, they make vital contributions to investigations with regional, national and international impact. Basic and applied research takes place in state-of-the-art facilities, including more than four dozen specialized research centers, while the NC State Libraries rank among the nation's top 40 university libraries. Faculty and students also work closely with leading-edge corporations and research centers on Centennial campus and in nearby Research Triangle Park, including the North Carolina Supercomputing Center, the Research Triangle Institute and the North Carolina Biotechnology Center.

ACCREDITATION

NC State is a member of the National Association of State Universities and Land-Grant Colleges. It is also a member of the American Council on Education, the College Entrance Examination Board, the Council of Graduate Schools, the National Commission on Accrediting and the Southern Association of Colleges and Schools.

NC State University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate's, baccalaureate, master's, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the
accreditation of NC State University.

EXECUTIVE OFFICERS

James L. Oblinger, Chancellor
Larry A. Nielson, Provost and Executive Vice Chancellor
John G. Gilligan, Vice Chancellor for Research and Graduate Studies
James J. Zuiches, Vice Chancellor for University Extension, Engagement, and Economic Development
Mary Elizabeth Kurz, Vice Chancellor and General Counsel
Thomas H. Stafford Jr., Vice Chancellor for Student Affairs
Terry G. Wood, Vice Chancellor for University Advancement
Charles D. Leffler, Vice Chancellor for Finance and Business
Lee G. Fowler, Director of Athletics
P. J. Teal, Secretary of the University/Assistant to the Chancellor
Andy Willis, Assistant to the Chancellor for External Affairs

DEANS OF THE COLLEGES

Johnny C. Wynne, Dean, Agriculture and Life Sciences
Marvin J. Malecha, Dean, Design
Kathryn M. Moore, Dean, Education
Louis A. Martin-Vega, Dean, Engineering
Terri L. Lomax, Dean of the Graduate School
Toby L. Parcel, Dean, Humanities and Social Sciences
Ira R. Weiss, Dean, Management
Robert Brown, Dean, Natural Resources
Daniel L. Solomon, Dean, Physical and Mathematical Sciences
A. Blanton Godfrey, Dean, Textiles
Warwick A. Arden, Dean, Veterinary Medicine

GRADUATE SCHOOL - ADMINISTRATIVE OFFICE

Terri L. Lomax, Dean
Duane K. Larick, Senior Associate Dean
Rebecca C. Rufty, Associate Dean
Michael P. Carter, Interim Associate Dean
David M. Shafer, Assistant Dean
Rick Liston, Assistant Dean

BOARD OF TRUSTEES (2006-2007)

Wendell H. Murphy, Rose Hill, Chair
Robert B. Jordan III, Mount Gilead, First Vice Chair
Ann Baggett Goodnight, Cary, Second Vice Chair
D. McQueen Campbell III, Raleigh, Secretary
P.J. Teal, Cary, Assistant Secretary
Derick S. Close, Charlotte
S. Lawrence Davenport, Pactolus
Suzanne Gordon, Cary
Bob L. Mattocks II, New Bern
Burley B. Mitchell, Jr., Raleigh
C. Richard Vaughn, Mount Airy
Steve F. Warren, Greensboro
MISSION OF NORTH CAROLINA STATE UNIVERSITY

The unique mission of North Carolina State University is to serve the citizens of North Carolina as the state's only research university in the land-grant tradition. Since its founding in 1887, NC State has been committed to science and technology as pathways to human betterment and has served as an innovative educational resource, providing leadership for positive intellectual, social, and technological change. Faithful to its founding mission, the University must now meet the challenges posed by the increasing complexity of our global society and the accelerated growth in knowledge and technology. At the same time, it must continually address the effects of these developments on the environment and on the social and economic well-being of the people of North Carolina, the nation, and the world. Spurred by these new challenges, NC State will continue to fulfill its mission through the integrated functions of teaching, research, and extension, its unique form of public service.

Teaching, research, and public service will continue to be mutually enriching enterprises at NC State. The activities of research and extension interact to provide students with an environment for learning that stresses creativity, problem solving, social responsibility, and respect for human diversity. The educational and extension functions join to apply, test, and disseminate the new knowledge generated by research.

During the University's first hundred years, its distinctive mandate has led to preeminence in science, technology, and engineering. This mandate will continue to shape future development, necessitating excellence in the full spectrum of disciplines that provide the intellectual and critical foundations for understanding, anticipating, and responding to public needs.

Undergraduate education is a major responsibility of NC State. Core education is provided in science and the humanities, with specializations offered in physical, social, and life sciences, in the humanities, and in professional and technical disciplines. The atmosphere of a research university provides distinctive opportunities for undergraduates to benefit from the experience of research in the classroom, laboratory, and informal settings. Exposure to the discovery and synthesis of new information provides students with a basis for identifying and solving society's problems and builds a critical foundation for their personal growth, cultural enrichment, and professional development.

As a national center for doctoral studies, NC State embraces the responsibility to maintain excellence in graduate research and education. Students work as partners with faculty in the creation, expansion, conservation, and transmission of knowledge. Graduate education will continue to evolve as the University builds on its traditional and preeminent strengths in science, technology, and engineering and as it develops further strengths in complementary disciplines.

Research and scholarly inquiry form the foundation for education and public service at NC State. Faculty and students in all disciplines engage in the art and science of discovery in a climate of free inquiry and creativity, extending the boundaries of knowledge and horizons of human intellect. The research mandate of NC State is signified in its national classification as a Research University - Extensive.

The University's land-grant philosophy is manifest in its commitment to active stewardship of the human and natural resources of the state. NC State has been an integral part of significant economic and technological changes in North Carolina for the past one hundred years. This stewardship is expressed currently through public service activities in all the University's colleges and schools, whereby the expertise resident among the faculty and students is disseminated across the state through extension, technical assistance, professional development, lifelong education, and technology transfer programs. Loyal to the vision of its founders in the nineteenth century, NC State will continue to strive through extension and public service to improve the quality of life for North Carolinians into the twenty-first century.

NC State's dual designations as land-grant university and a Research University - Extensive form the basis for
the unique role of NC State in The University of North Carolina. NC State enters a new century with deep appreciation for the significance of these mandates and the commitment to excellence and change that they jointly require.

NONDISCRIMINATION STATEMENT

EQUAL OPPORTUNITY AND NON-DISCRIMINATION

It is the policy of the State of North Carolina to provide equality of opportunity in education and employment for all students and employees. Accordingly, the university does not practice or condone unlawful discrimination in any form against students, employees or applicants on the basis of race, color, religion, creed, sex, national origin, age, disability or veteran status. Nor does the university allow discrimination on the basis of sexual orientation with respect to internal university matters that do not contravene federal or state law and that do not interfere with the University’s relationships with outside organizations, including the federal government, the military, ROTC, and private employers. [NOTE: The NC State University equal opportunity and nondiscrimination policy includes transsexual individuals within the policy’s prohibitions against discrimination on the basis of sex. This includes actual or perceived gender identity and gender expression. See Price Waterhouse v. Hopkins, 490 U.S. 228 (1989); Smith v. City of Salem, 378 F.3d 566 (6th Circ. 2004).] Retaliation against any person complaining of discrimination is in violation of federal and state law and North Carolina State University policy, and will not be tolerated.

UNLAWFUL HARASSMENT

Harassment based upon race, color, religion, creed, sex, national origin, veteran status, age, or disability is a form of discrimination in violation of federal and state law and North Carolina State University policy and will not be tolerated. It is the internal policy of North Carolina State University to prohibit harassment on the basis of sexual orientation. Retaliation against any person complaining of harassment is in violation of federal and state law and North Carolina State University policy, and will not be tolerated. North Carolina State University will respond promptly to all complaints of harassment and retaliation. Violation of this policy can result in serious disciplinary action up to and including expulsion for students or discharge for employees.

Every individual is encouraged, and should feel free, to seek assistance, information and guidance from his/her supervisor, the Office for Equal Opportunity, the Office of Student Conduct or the Employees Relations section of Human Resources.

For additional information, contact:

Office for Equal Opportunity
1 Holladay Hall, Box 7530
North Carolina State University
Raleigh, NC  27695-7530
Phone: (919) 513-1234 or 515-3148

DISABILITY SERVICES OFFICE

Individuals desiring reasonable accommodations for their documented disabilities should contact the Disability Services Office (DSO), Suite 1900, Student Health Center, 2815 Cates Avenue, (919) 515-7653 (Voice), (919) 515-8830 (TTY). Services and accommodations are provided based on an individual's documented needs and are determined in consultation with the individual and an DSO representative. For students, such requests should be made far in advance of registration deadlines to ensure timely services and accommodations. DSO will maintain appropriate confidentiality of records and communication regarding disability.

CODE OF STUDENT CONDUCT
North Carolina State University is committed to academic integrity, and all students are required to adhere to the NC State Code of Student Conduct.

ADDITIONAL INFORMATION

If additional information is needed, contact the Graduate School, 1575 Varsity Drive, Flex Lab, Module 6, Campus Box 7102, North Carolina State University, Raleigh, NC 27695-7102 (telephone 919-515-2871).
THE GRADUATE SCHOOL

Graduate instruction was first offered at North Carolina State University in 1893, and the first doctoral degree was conferred in 1926. In the ensuing years, the Graduate School has grown steadily and now provides instruction and facilities for advanced study and research in the fields of agriculture and life sciences, design, education, engineering, natural resources, humanities and social sciences, management, physical and mathematical sciences, textiles and veterinary medicine.

The Graduate School is currently composed of more than 2,400 graduate faculty members. Educated at major universities throughout the world and established both in advanced teaching and research, these scholars guide the University's more than 6,000 Master's and doctoral students from all areas of the U.S. and many other countries.

The faculty and students have available exceptional facilities, including libraries, laboratories, modern equipment and special research areas. Additionally, a cooperative agreement exists among the Graduate Schools of the University of North Carolina at Chapel Hill, the University of North Carolina at Greensboro, Duke University and North Carolina State University which increases the educational and research possibilities associated with each.

### FALL SEMESTER, 2007

**Aug 5**  Sun  Deadline for departmental recommendations for international students for Spring, 2008 due in Graduate Admissions Office.

**Aug 6-7**  Mon-Tues  Final Exams

**Aug 7**  Tues  Last day to submit a North Carolina Residency Application to the Graduate School for Summer, 2007
   Summer graduation date but no commencement program is held. Summer graduates may participate in following Fall Commencement.

**Aug 16 and 17**  Thurs & Fri  ITA English Proficiency Screening - SPEAK Test.  9:00 to 11:00 a.m., Foreign Languages and Technology Center. Contact Catherine Morell at 515-2293 or catherine_morell@ncsu.edu for information.

**Aug 21**  Tues  New Graduate Student Orientation, 9:00 a.m. to 5:00 p.m., McKimmon Center. For more information, contact Ms. Aixa Morales-Diaz in the Graduate School at 515-4391 or aixa_morales-diaz@ncsu.edu.
   NC State University Teaching Orientation, 1:00 to 5:00 p.m., McKimmon Center. For more information, contact Dr. Alton Banks at the Faculty Center for Teaching and Learning at 513-2044 or alton_banks@ncsu.edu.
   NC State University Research Orientation, 1:00 to 5:00 p.m., McKimmon Center. For more information, contact Ms. Aixa Morales-Diaz in the Graduate School at 515-4391 or aixa_morales-diaz@ncsu.edu.
   Deadline for submission of theses or dissertations to the Graduate School, as approved by advisory committees, by candidates for master's and doctoral degrees in December 2007, in order to avoid registering for fall semester or paying tuition for Fall Semester 2007. All theses and dissertations will be submitted online as ETD's.

**Aug 22**  Wed  First day of classes

**Aug 28**  Tues  Last day to add a course without permission of instructor

**Aug 30**  Thurs  Electronic Thesis and Dissertation Workshop. (ITTC Lab, D. H. Hill Library, 10:00 to 12:00 noon.)

**Sept. 3**  Mon  Holiday (Labor Day)  University Closed

**Sept. 4**  Tues  Classes resume at 8:05 a.m.

**Sept 5**  Wed  Census Day: The tuition and fees charge is based on the official number of hours and courses carried at 11:59 p.m. on this day.
   Last day to register or to add a course.
   Last day to drop a course or change from credit to audit with a tuition adjustment.

**Sept 12**  Wed  Electronic Thesis and Dissertation Workshop. (ITTC Lab, D. H. Hill Library, 10:00 to 12:00 noon.)

**Sept 25**  Tues  Electronic Thesis and Dissertation Workshop. (ITTC Lab, D. H. Hill Library, 10:00 to 12:00 noon.)

Revised: February 2007
UNIVERSITY GRADUATE STUDENT ASSOCIATION

The University Graduate Student Association (UGSA) is an academic, political and social organization comprising all graduate students. It is governed by elected officers and representatives from departmental GSA chapters. Officially recognized by the university as the voice of graduate students, it provides graduate student representation on various university committees. The UGSA President has full voting membership on the Administrative Board of the Graduate School and meets regularly with other university officials, including the Dean of the Graduate School and the Chancellor of NC State.

The graduate student experience is filled with both opportunities and possibilities. As is the case with most graduate students, the schedule is challenging and time consuming, and finding time to explore the vast resources of NC State can be difficult. The UGSA was established with the intent to solve this problem by making the graduate experience both fruitful and more comfortable through access to the knowledge of experienced NC State graduate students.

Some services provided by the UGSA include graduate student orientation, a graduate student research symposium, outstanding TA awards, travel reimbursement for presenting original research at professional conferences, reimbursement for thesis and dissertation copies, cash rebates to departmental chapters, and assistance with electronic communications among NC State graduate students. Additionally, the UGSA hosts at least one campus-wide graduate student social event annually, allowing students to meet and make contact with their peers from across the university.

The UGSA can provide answers to questions regarding graduate student life and may be contacted via departmental representatives or the UGSA president, whose email address is available at the UGSA website. Students may visit the UGSA website for more information about the organization and how to become involved. All graduate students are invited to attend the monthly meetings and become involved with the UGSA.
GENERAL ADMISSIONS INFORMATION

Application

All applicants must submit the online NC State University Graduate School Application Form. Application is made for a specific degree program and date of enrollment (see Admissions).

Applications for admission require the following:

- Non-refundable application processing fee of $55.00 (US) for U.S. citizens and Permanent Residents or $65.00 (US) for Non-Resident Aliens (Internationals);
- One official transcript from all colleges and universities previously attended;
- Three recommendations from people who know the prospective student's academic record and potential for graduate study;
- On-line North Carolina Residency Form if claiming NC residence for tuition purposes;
- A list of courses in progress if enrolled as a Post-Baccalaureate Studies (PBS) student at NC State;
- GRE or other standardized test scores, statements of purpose, portfolios or other work samples, depending on requirements of particular program; and
- TOEFL scores, where applicable.

English Proficiency Requirements for International Students

In order to be eligible for admission to the Graduate School all international applicants, regardless of citizenship, must demonstrate proficiency in English at a level necessary to be successful in a graduate program at NC State. This requirement can be met for most applicants in one of the following ways; however, some programs may require additional evidence of English proficiency:

1. Provide Test of English as a Foreign Language (TOEFL) with a total score of at least 80 on the Internet-based Test (iBT). Minimum test scores for each section:

<table>
<thead>
<tr>
<th>Section</th>
<th>Points</th>

<tbody>
<tr>
<td>Listening</td>
<td>15</td>
</tr>
<tr>
<td>Reading</td>
<td>20</td>
</tr>
<tr>
<td>Writing</td>
<td>20</td>
</tr>
</tbody>
</table>
   | Speaking     | 20     - for admission to the Graduate School
   |              | 23     - for TA appointment where TA has direct verbal interactions with students
   |              | 26     - for TA appointment where TA presents lectures in the class or laboratory

   The maximum total score for the iBT is 120 with each section worth 30 points.

2. be a citizen of a country where English is an official language and the language of instruction in higher education; or

3. have successfully completed at least one year of full-time study in a degree program at a four-year US College or university.

NOTE: The current computer- and paper-based versions of the TOEFL test will be given until the iBT version is implemented in a particular location. Implementation should be completed by December 2006.
Admission

The procedures followed in evaluating an applicant's potential for success in graduate work and the criteria used for admissions decisions vary according to programs and colleges and reflect an evaluation of the applicant's potential to engage in graduate work and the capability of the individual programs to accommodate additional students. Most programs consider applications as they arrive, while others accumulate applications and make recommendations on admission at certain times during the year. Generally, requests for admission are considered by program admissions committees that forward the program recommendations to the Dean of the Graduate School.

Students are admitted to full or provisional status in a specific degree program. Admission is granted for a specific semester or summer term. Any change in the admission date must be requested in writing and approved by the program and Graduate School. Once the requirements for that degree program have been completed, no further registration as a graduate student will be permitted unless admission to a new graduate classification has been formally approved. Students with special objectives may request admission in the "Graduate-Unclassified Status" (see section below) or register in the "Post-Baccalaureate Studies" program through the Division of Lifelong Education.

Medical History and Immunization Records

All graduate students admitted to a degree program are required by State law to submit a Report of Medical History and Immunization documentation prior to completing their initial registration. NC State students returning to Graduate School must have their medical history on file updated at the Student Health Center. The required reports should be received in the Student Health Services at least thirty days before registration. If this requirement is not met, a student must be removed from classes.

Transcript Requirements

The University requires that official copies of transcripts of all prior course work be on file in the student's permanent record at NC State. Students are required to provide the Graduate School with official copies of their latest transcript(s) from all universities attended (official translation required for non-English transcripts), including statements of all degrees awarded, no later than the last day of classes of the first semester they are enrolled.

ADMISSION TO DEGREE PROGRAMS

Full Graduate Standing

To be considered for admission in full graduate standing, an applicant must have a Bachelor's degree from an accredited college or university as determined by a regional or general accrediting agency and must have at least a "B" (3.00/4.00) average in the undergraduate major or in the latest graduate degree program.

Exceptions on standard accreditation may be granted for applications with international degrees, including applicants with three-year degrees from institutions in Europe participating in the Bologna Process.

Provisional Admission

Students with Bachelor's degrees from accredited institutions whose scholastic records are below the standards for admission to full graduate standing may be admitted provisionally when unavoidable, extenuating circumstances affected their undergraduate averages or when progressive improvement in their undergraduate work warrants provisional admission. Students admitted provisionally under these circumstances can attain full graduate standing after completion of nine or more graduate credit hours with a minimum GPA of 3.00. Courses taken for S/U grade cannot be used as part of the minimum.
Provisional admission may be granted to applicants with Bachelor's degrees from accredited institutions who lack undergraduate work considered essential for graduate study in a major field. Applicants with Bachelor's degrees from non-accredited institutions may be granted provisional admission when their academic records warrant this status.

Full graduate standing is granted when the deficiencies responsible for the provisional status are corrected through additional course work (without graduate credit), provided the student has maintained a satisfactory academic record (3.00 GPA) on all course work taken in a graduate classification. A change from provisional status to full graduate standing is effected only upon the recommendation of the department in which the student is seeking the degree.

A graduate student is not eligible for appointment to an assistantship or fellowship while on provisional status.

**Graduate-Unclassified Status**

The Graduate-Unclassified status is a temporary classification and students admitted to this status are not candidates for degrees. They may take courses for graduate credit but may not apply more than 12 credits earned while in this status to any program leading to an advanced degree at this institution. Unclassified graduate students are expected to meet the same admissions requirements that apply to graduate students in full standing. Any individual having an interest in applying for admission as a Graduate-Unclassified Student should correspond with the Graduate Dean describing his or her particular interests and objectives prior to making application.

**Admission for International Students**

International graduate students are admitted to either full-time study in a specific graduate program or into the Graduate-Unclassified category as an international visitor. In addition to admission requirements listed elsewhere for graduate admission, applicants who are not U.S. citizens must complete and submit a Visa Clearance Form and/or a Certificate of Financial Responsibility before a final admission decision can be made. Criteria for international visitors are as follows:

1. International student visitors must state their educational objectives at NC State and the time expected to accomplish those objectives (normally one semester or one academic year). The educational objective may not be to seek a graduate degree at NC State.
2. They are expected to meet the same minimum academic admission requirements that apply to graduate students in full standing.
3. They are expected to meet the same TOEFL requirements that apply to international students who are admitted to Master's and doctoral programs if they plan to take courses. If they plan to register for research only, they are not required to take the TOEFL.
4. They must be recommended by the DGP of the program in which they plan to take courses or do research.
5. Special admission status may apply for a period not to exceed one year.
6. They may hold a research assistantship but may not hold a teaching assistantship (provided their nonimmigrant status allows on-campus employment).
7. They will not be eligible for the Graduate Student Support Plan.
8. Those in F-1 or J-1 status must maintain full-time enrollment and all other requirements based on their particular nonimmigrant status.

**Post-Baccalaureate Studies (PBS)**

The Post-Baccalaureate Studies (PBS) classification is designed for U.S. citizens or permanent residents who wish to undertake academic work beyond the Bachelor's degree but who are not currently admitted to a degree program. This classification is not open to international students with the exception of the spouse of a regularly
enrolled NC State student. In special cases where students are sponsored by an agency of the U.S. government for specialized, non-degree study, approval may be given by the Graduate School for registration in the PBS classification. The following rules apply to students who wish to register for PBS.

Please note that the following are university minimum requirements. Some departments may have more restrictive requirements.

1. All must have Bachelor's degrees from accredited institutions of higher education. Registration is through the Division of Continuing Studies.
2. All classes taken for credit by PBS students will be graded in the usual manner that applies for the particular course (A+ through F or S/U). All courses taken at NC State will appear on the student's transcript.
3. If the student is admitted as a graduate student, a maximum of twelve (12) hours may apply toward the minimum university requirement of the Master's degree (i.e., 30 credit hours) for which the student is enrolled, including hours approved for graduate credit while classified as a senior or unclassified graduate. The first twelve (12) hours of course work taken at the graduate level in the PBS category will be accepted toward degree requirements unless a request for some other combination of twelve (12) hours is made by the student's advisory committee and approved by the Graduate Dean. PBS credits cannot be transferred into a doctoral program.
4. If a student's graduate degree is terminated, he/she cannot use courses taken in PBS status after termination for credit toward the same graduate degree program.
5. The grade point average (GPA) of a graduate student who has credits in the PBS category will be based on all courses taken at the 400-800 level. However, no course taken six (6) years prior to graduation from a program can be used to meet the requirements for a later graduate degree at NC State.
6. Registration is limited to a maximum of two courses per semester. Individuals who are employed full-time should limit their PBS registrations to one course per semester.
7. The PBS classification carries with it no implication that the student will be admitted to the Graduate School in any degree classification.
8. All course work accepted for degree credit must be approved by the student's advisory committee as being germane to the program. Requests for degree credit for courses completed in the PBS classification are considered after admission to a graduate degree program when the student's Plan of Graduate Work is filed with the Graduate School.
9. PBS students are expected to familiarize themselves with Graduate School and departmental policies and to seek further advice or clarification as needed.

EVENING DEGREE PROGRAMS

Some graduate degree programs offer late afternoon and evening courses for students who are unable to attend classes during the day. These students may also have the option of earning their degree through Distance Education. For further information about these programs, students should contact the specific department.

TEACHER EDUCATION AND LICENSURE PROGRAMS

Teaching Licensure Renewal

Public school personnel who are primarily interested in "licensure credit" may enroll in the PBS program through Adult Credit Programs and Summer Sessions without forwarding transcripts of previous work to the Graduate School. In such cases, the College of Education will be responsible for assessing the adequacy of the applicant's qualifications for enrollment in the course(s) concerned.

Alternative Teacher Education Programs

These are the program areas that do not lead to degrees and require that the applicant hold an undergraduate
degree with a 2.50 overall GPA. For either licensure only or lateral entry, the student must have his/her transcript reviewed by the appropriate program coordinator. An individualized licensure plan will be drawn up that specifies professional education courses and any content courses for which the applicant is deficient. In the case of the licensure only student, student teaching will be required as well. Upon successful completion of the licensure program, the licensure only student will be recommended for an initial “A” level license; the lateral entry teacher’s provisional license teacher will be recommended for a clear "A" level license.

For additional information about these programs, please see the College of Education website for Teacher Education.

DISTANCE EDUCATION

Distance learning offers you the opportunity to participate in a different learning environment by allowing students to have instruction off campus. Valuable learning time is gained by providing an educational environment that increases accessibility and flexibility for learners.

NC State’s distance learning includes some Internet-based courses, but also offers study through the use of videotape, cable TV, interactive TV, satellite, and independent study programs. In addition, Distance Education courses require more writing than in a traditional classroom setting via electronic participation. On-line discussions and e-mail communications allow regular involvement by all students, not just a few.

Distance Education Programs

NC State offers credit courses on a vast number of subjects, with more than 100 individual distance education courses to choose from in the humanities, engineering, social sciences, textiles, physical sciences, and more.

Degree programs require admission to the university. Since each program sets its own admission requirements, students should contact the program of their interest for details. A full listing of programs is available on the Distance Education website.

Professional development courses are also available through Distance Education; all are for-credit offerings designed to meet the professional development needs of specific audiences. No admission to the university is required.

Other options include non-credit and continuing education programs such as short courses, computer training, or customized programs for businesses and other groups. No admission to the university is required to enroll in these programs.
REGISTRATION AND RECORDS

The Department of Registration and Records must have authorization from the Dean of the Graduate School before a graduate student in any classification will be permitted to register for classes. This authorization will be sent to the Department of Registration and Records at the time the student is notified of acceptance for graduate study. All students attending classes must be registered for credit or audit. Grade records are furnished the students at the end of each scheduled school term.

INTERINSTITUTIONAL REGISTRATION PROGRAM

NC State participates in an Interinstitutional Registration program with the University of North Carolina at Chapel Hill, the University of North Carolina at Greensboro, and Duke University. Under this agreement, NC State graduate students are permitted to register for classes on one of these other campuses, upon recommendation of their advisory committees. Courses offered by North Carolina A&T University and by the University of North Carolina at Charlotte over the Microelectronics Center of North Carolina communications system are also available through Interinstitutional Registration.

Even though taking a course on another campus, the student is exclusively under the administrative direction of the NC State Graduate School. Enrollment for courses on other campuses will take place on this campus, using special forms obtained from Registration and Records. Such courses are considered by the Graduate School to be a part of the student's normal load and the student will be billed for the courses through the NC State University Cashier's Office. During the summer, the procedure is somewhat different in that a student must be enrolled in a least one course on the NC State campus during the same session as the requested interinstitutional registration.

When the grading system of the other institutions varies from that of NC State, grades received under Interinstitutional Registration will be converted to the NC State system. "H," "P," "L, and "F" grades earned at the University of North Carolina at Chapel Hill and "E," "G," "S" and "F" grades earned at Duke University will be converted to "A," "B," "C" and "F" grades, respectively.

COOPERATING RALEIGH COLLEGES

The Cooperating Raleigh Colleges (CRC) is a voluntary organization composed of NC State, Meredith College, Peace College, St. Augustine's College, St. Mary's College, and Shaw University. Graduate programs are currently offered only at NC State and Meredith College, but graduate students can enroll at either institution for a course or courses not offered by their home campus.

Any NC State graduate degree student who is enrolled in at least three graduate credit hours on the NC State campus may take a course at Meredith College during fall or spring semester, provided that

- the course is not taught on the NC State campus, and
- the advisory committee considers the course educationally desirable.

NC State students may not register for more than a total of two courses in any semester at Meredith, and not more than six of the required academic credits for a master's degree at NC State may be accepted from that institution. Grades from Meredith are not used in computing a student's NC State grade point average.

Under this agreement, regular tuition and fees are paid to NC State. Special fees may be required for specific courses at Meredith, and the student is responsible for paying these fees.

ACADEMIC COMMON MARKET

The Academic Common Market (ACM) is a cooperative agreement among universities in 16 states in the
southeastern United States. The ACM allows a student to enroll in a graduate program at a university in another state without having to pay out-of-state tuition if that program of study is neither (1) offered by the public institutions in the student’s home state nor (2) commonly available in the other southeastern states.

COURSE LOAD

Fall and Spring Semesters: A full-time graduate course load is nine to 15 credits per semester (including audits). Graduate students holding assistantships, however, have additional course load restrictions.

Summer Sessions: Graduate students are not required to be registered in summer sessions. If they are full time in the previous spring semester and are continuing their graduate study in the following fall semester, they are considered to be full time in the summer. If a student needs to be registered, one credit hour is considered full time.

International Students: The U.S. Citizenship and Immigration Services (USCIS) requires international students on F-1 and J-1 visas to carry a full-time course of study to remain in status.

Graduate students holding assistantship appointments are restricted to 9 hours per semester if they hold an appointment of one-half-time or greater and 12 hours per semester if they hold a one-quarter-time appointment. With advance written permission from the Graduate School, a student may take more than the maximum semester course load during a particular semester if the total credit hours do not exceed the maximum for the term of the appointment.

FULL-TIME/PART-TIME DETERMINATION FOR ALL GRADUATE STUDENTS

NC State uses a uniform Schedule of Full-Time Status of Graduate Students for Loan Deferment, Financial Aid, Payroll Tax Withholding and Veteran's Benefits Purposes. To maintain consistency throughout the university system, faculty members do not have the authority to submit individual letters verifying the status of a graduate student. This schedule will be the only resource used to determine a student's status for these purposes. Registration and Records in Room 1000, Harris Hall processes all student loan deferments. The Graduate School will not be directly involved in preparing loan deferment letters.

These definitions apply to all graduate students, U.S. and international, participants and non-participants in the Graduate Student Support Plan.

1 Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for three (3) hours of 689 and be considered full time.

2 Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for three (3) hours of 699 and be considered full time.
Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for one (1) hour of 688 and be considered half time.

Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for one (1) hour of 699 and be considered half time.

Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for three (3) hours of 899 and be considered full time.

Students with an IN grade who have successfully completed all of the remaining degree requirements that are listed above are also eligible to register for one (1) hour of 899 and be considered half time.

Summer Sessions

Graduate students are not required by the University to be registered during the summer. However, students who receive a stipend but who are not enrolled in the University during a period of five weeks or more are subject to Social Security tax withholding. In particular, this means that Social Security taxes will be withheld from the paychecks of Graduate Research Assistants (RAs) who do not register in the summer. Specifically, Social Security taxes will be withheld in June for RAs who are not registered in Summer Session I and in July for RAs who are not registered in Summer Session II. The source of funds that pays the stipend must pay the same amount of Social Security tax as is withheld from the student's paycheck during these months.

Two special registration categories are available for Graduate Research Assistants who would not otherwise take courses in the summer: XYZ 696 (Summer Thesis Research) and XYZ 896 (Summer Dissertation Research), where XYZ represents the course prefix of a specific department or program. Each of these courses is for 1 hour of credit, with registration for 10 weeks, beginning the first day of Summer Session I. Social Security taxes will not be withheld from the June or July paychecks of RAs who register for either 696 or 896.

Please note that student who are not registered during the summer do not have access to financial aid during that period, nor do they have access to the Student Health Service unless they pay the student health fee for each of the two summer sessions.

CONTINUOUS REGISTRATION

After a student is admitted to the Graduate School and enrolls for the first time, she/he is required to maintain continuous registration, i.e., be enrolled each semester, excluding summer sessions, until she/he has either graduated or her/his graduate program at NC State has been terminated. All students who graduate during the second summer session must be registered for either the first or second summer session.

Leave of Absence

A student in good academic standing who must interrupt her/his graduate program for good reasons may request a leave of absence from graduate study for a definite period of time not to exceed one year within a given graduate program. The request should be made at least one month prior to the term involved. Upon endorsement of the request by the student's graduate advisory committee and Director of Graduate Programs, and approval by the Graduate School, the student would not be required to be registered during the leave of absence. The time that the student spends on an approved leave of absence will be included in the time allowed to complete the degree, i.e., 6 years for master's and 10 for doctoral.

Termination

Graduate students whose programs have been terminated because of failure to maintain continuous registration and who have not been granted a leave of absence during a fall or spring semester will be required to reapply for admission, and pay the admission fee ($55.00 for US Citizens and Permanent Residents or $65.00 for Non-Resident Aliens [Internationals]), if they wish to resume their graduate studies at NC State.

Adding Courses
Courses may be added during the first week of a semester, via Pack Tracks alone, or during the second week, via Pack Tracks and with permission of the instructor. In a summer session, courses may be added during the first two days via Pack Tracks alone, and/or during the third and fourth days via Pack Tracks with permission of the instructor. To add a student to a course after the deadline for adding courses, an instructor must submit a Schedule Revision Form to the School/College or Graduate Dean's approval.

**Dropping Courses**

All 500-800 level courses may be dropped through Pack Tracks without grades during the first eight weeks of a semester and during the first two weeks of a summer session. Students and advisors should consult the specific Registration and Records calendar for drop deadlines. Students should make schedule changes as early as possible in the semester. The number of hours for which a student is officially enrolled and upon which tuition and fees are based is that number in which the student is enrolled at the end of the second week of classes of a semester and at the end of the fifth day of a summer session (the last day to withdraw or drop a course with a refund). A Schedule Revision Form is required to drop a course after the deadline. No dropping of courses shall be allowed except for documented medical reasons or other verified, unforeseen grounds of personal or family hardship. Making such exceptions to policy requires the recommendation of the chair of the student's advisory committee, the DGP or Department Head, and the Dean of the Graduate School. Courses may not be dropped after the final grades have been submitted by the instructor and processed by Registration and Records.

**Dropping Minicourses**

The drop date for a five-week minicourse is the last day of the third week of the mini-course. The drop date for a seven-week minicourse is the last day of the fourth week of the minicourse. Instructors teaching minicourses (courses which last only a portion of the semester) should announce at the outset of these courses their appropriate drop deadlines.

**ACCELERATED BACHELOR'S/MASTER'S (ABM) DEGREE PROGRAM**

The objective of the accelerated Bachelors/Master's (ABM) degree program is to provide a means by which exceptional undergraduate students at NC State may complete the requirements for both the Bachelor's and Masters degrees at an accelerated pace. It provides an opportunity for exceptional undergraduate students at NC State to double count up to 12 credits and obtain a non-thesis Master's degree in the same field within 12 months of completing the Bachelor's degree or obtain a thesis based Master's degree in the same field within 18 months of completing the Bachelor's degree.

Students interested in the ABM Program should contact their department.

**GRADING AND ACADEMIC STANDING**

**The Grading System**

NC State University uses the following grading system:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points/Credit-Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.33</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
</tbody>
</table>
Grade Point Average (GPA)

The number of credit hours at the 400-level of higher that are attempted in a semester or summer session (for which regular grades are received) is divided into the total number of grade points earned to arrive at the grade point average. The cumulative and semester GPAs will include the effect of any A+ grades awarded (at 4 1/3 grade points) up to a grade point average of 4.000. The GPA will be calculated to three decimal points. Credits earned in PBS classification are also included in the GPA calculations and the determination of academic standing that become part of the Plan of Graduate Work.

Graduate Credit

To receive graduate degree credit, a grade of "C-" or higher is required in all courses taken after admission. Grades on courses taken for graduate credit as an undergraduate at NC State, in PBS classification, or transferred from other universities must have a grade of "B" or better to be transferred. All grades on courses numbered 400 and above taken in a graduate classification or for graduate credit as an undergraduate are included in the graduate GPA. Courses at the 300 level and below are not eligible for graduate credit and subsequently do not affect the graduate GPA. To graduate, a student must have a minimum 3.00 average on all graduate course work as well as all courses on his or her Plan of Graduate Work.

Graduate students who take 400-level courses that are letter graded do not have the option of taking the courses for "credit only" if they intend for the course to be part of their Plan of Graduate Work. It is appropriate for them to take selected 400-level letter-graded courses that are required by the program but will not be included in the Plan of Graduate Work for S-U grade. Examples would be 400-level courses in the student's major and FLE courses.

Grading of Graduate Courses

5XX Letter Graded Master's Courses
6XX S-U Graded Master's Courses
7XX Letter Graded Doctoral Courses (ALL 7XX courses are restricted to the following classification of students (class MR, DR, SR, SP and GR)
8XX S-U Graded Doctoral Courses (ALL 8XX courses with the exception of those specifically listed at the end of this section are restricted to the following classification of students class MR, DR, SR, SP and GR)
9XX Professional Courses in the College of Veterinary Medicine (not covered by this document)

NOTE: Courses at the 500 and 700 level are letter graded. Students cannot enroll in these courses for "credit only".

Incompletes
The grade of "IN" (Incomplete) may be given in any course at the discretion of the instructor for work not completed because of a serious interruption in the student's work not caused by their own negligence. An "IN" must not be used, however, as a substitute for an "F" when the student's performance in the course is not passing. An "IN" is only appropriate when the student's record in the course is such that the successful completion of particular assignments, projects, or tests missed as a result of a documented serious event would enable that student to pass the course. Only work missed may be averaged into the grades already recorded for that student.

A student who receives an "IN" must complete the unfinished work to have the Incomplete converted to a final grade by the end of the next semester in which the student is enrolled, provided that this period is not longer than 12 months from the end of the semester or summer session in which the "IN" was received. Otherwise, the "IN" will be automatically converted to "F" or "U," in accord with the grading approved for the particular course. All grades of "IN" must be cleared prior to graduation. Students must not register again for any courses in which they have "IN" grades. Such registration does not remove "IN" grades, and the completion of the course on the second occasion will automatically result in an "F" for the incomplete course.

Except in the case of Interinstitutional Registration, grades on courses transferred from another institution will not be included in computing the GPA.

**Grade Changes**

When submitted to the Department of Registration and Records, end-of-course grades are final and not subject to change by reason of a revision of the instructor's judgment; nor are submitted grades to be revised on the basis of a second trial (e.g., a new examination or additional work undertaken or completed). Changes may only be made within one calendar year after the date final grades were submitted in order to correct an error of computation or transcribing or where part of the student's work has been unintentionally overlooked.

**Academic Warning, Probation and Termination**

Graduate students are given a notice of academic warning if they have accumulated less than nine hours at the 400 level or above and have less than a 3.00 GPA. Graduate students are placed on academic probation if they accumulate nine or more but less than 18 credit hours at the 400 level or above and have a grade point average of less than 3.00 GPA. A student's graduate study is terminated if 18 or more credit hours at the 400 level or above are accumulated with a grade point average of less than 3.00 GPA. In the case of program termination, no further registration in a graduate classification will be permitted. Under extenuating circumstances the student will be reinstated upon the written recommendation of the department and approval by the Graduate Dean. Departments have the prerogative of recommending the termination of a student's graduate admission at any time if the student is not making satisfactory progress toward the degree.

Students who are eligible to attend the first summer session are eligible to attend either or both summer sessions. For example, students who receive a notice of "Graduate Admission Terminated" at the end of the first summer session may register for second summer session unless the major department recommends otherwise.

**Eligibility for Assistantship, Fellowship or Traineeship**

A graduate student must be in good academic standing (3.00 GPA or better) to be eligible for appointment to an assistantship, fellowship or traineeship and must be registered in each semester in which the appointment is in effect.

**Audits**

Graduate students wishing to audit a course must have the approval of their advisor and of the department
offering the course. While auditors receive no course credit, they are expected to attend class regularly. The degree to which an auditor must participate in class beyond regular attendance is optional with the instructor. Any auditing requirements should be clearly explained in writing to the student at the beginning of the semester. Should an instructor conclude that an auditor has failed to fulfill the stipulated requirements, the instructor is justified in marking NR (no recognition given for an audit) on the final grade report.

Audits (AU) in subjects in which the graduate student has had no previous experience will be evaluated at full credit value in determining course loads. Audits taken as repetition of work previously accomplished are considered at one-half their credit value in calculating course loads. With the single exception of foreign language audits, all audit registration must fall within the maximum permissible course loads. While audit registrations are evaluated for purposes of determining permissible course loads in terms of the regulations of the Graduate School, the University Cashier's Office considers all audits, except one permitted free of charge, in terms of full credit value in calculating tuition.

GRADUATION

There are three official graduations for graduate students per year, occurring at the end of the fall and spring semesters and at the end of the second summer session. Formal commencement exercises are held at the end of spring and fall semesters, but any student who graduated the preceding second summer session is eligible to participate in the December commencement. All students scheduled to graduate in the fall or spring semesters are strongly encouraged to attend the respective commencement. Any doctoral candidate wishing to have the degree conferred in absentia must notify the Graduate School in writing; master's candidates should contact their departments or programs.

DIPLOMAS

Students graduating in the spring are awarded their diplomas during the commencement exercises. The diplomas for those students graduating at the end of second summer session and the fall and those students receiving permission to receive the degree in absentia are mailed by the Department of Registration and Records which is also responsible for the ordering of diplomas.

Students earning a Master of Arts, Master of Science, Doctor of Education or Doctor of Philosophy degree will receive diplomas designating the degree but not the major or program of study. Students earning Master's degrees in a designated field will receive diplomas indicating the field of specialization, i.e., Master's of Forestry.

Students with co-majors will have those identified on their transcripts, but not on their diplomas.

DIPLOMA ORDER REQUEST CARDS

To order a diploma, a student must file a Diploma Order Request form, available from either their Graduate Secretary or the Graduate School. The cards are due at the Graduate School Office by the end of the sixth week of classes during the fall and spring semesters and by the graduation deadline noted in the Graduate School Calendar for the second summer session graduation. Until a Diploma Order Request form is filed, a diploma cannot be ordered.
TUITION AND FEES

Tuition and fees for the current semester are listed on the website for the University Cashier. Note that MBA, MAC, and veterinary students have separate tuition rates.

ALL RATES ARE SUBJECT TO CHANGE WITHOUT NOTICE

A statement of tuition and fees is mailed to each preregistered student approximately five weeks before the beginning of any term. The statement must be returned with full payment or complete financial assistance information by the due date appearing on the statement. Normally the due date is approximately two weeks before classes begin. Non-preregistered students are required to pay their tuition and fees before registering.

Audits

- During semester when registered and paying for other course work: One audit free, each additional audit same cost as for credit;
- During semester when not registered for other course work: Same cost as for credit;
- During any summer session: Same cost as for credit.

FULL-TIME FACULTY AND EMPLOYEES

Full-time faculty of instructor rank and above and other full-time employees of the University who hold membership in the Teachers' and State Employees' Retirement System may register for credit or as auditors with free tuition privileges. The tuition waiver is limited to two courses each academic year. The two classes may not be taken in the same semester and only one class may be taken during the summer. If additional courses are taken, the student will be charged for that course based upon the student's classification, residency, and the official credit hours. A fee of $7.00 does apply, however. Each applicant for free tuition must submit a tuition waiver form provided by the University.

REFUND POLICY

Refunds for official withdrawals from NC State are prorated, based upon the percentage of the enrollment period attended. No refunds are made for official withdrawals after 50% of the enrollment period. The University Cashier's website maintains refund information and the current refund schedule, as well as a refund application.

RESIDENCE STATUS FOR TUITION PURPOSES

The basis for determining the appropriate tuition charge rests upon whether a student is a resident or a nonresident for tuition purposes. When applying to graduate school, each student claiming to be a NC resident must make a statement as to the length of his or her residence in North Carolina with assessment by the institution of that statement to be conditioned by the following:

Residence--To qualify as a resident for tuition purposes, a person must become a legal resident and remain a legal resident for at least twelve months immediately prior to classification. Thus, there is a distinction between legal residence and residence for tuition purposes. Furthermore, twelve months' legal residence means more than simple abode in North Carolina. In particular, it means maintaining a domicile (permanent home of indefinite duration) as opposed to "maintaining a mere temporary residence or abode incident to enrollment in an institution of higher education." The burden of establishing facts which justify classification of a student as a resident entitled to in-state tuition rates is on the applicant, who must show his or her entitlement by the
preponderance (the greater part) of the residenciary information.

*Initiative*--Being classified a resident for tuition purposes is contingent on the student's seeking such status and providing all information that the institution may require in making the determination.

*Parents' Domicile*--If an individual, irrespective of age, has living parent(s) or court-appointed guardian of the person, the domicile of such parent(s) or guardian is, prima facie, the domicile of the individual; but this prima facie evidence of the individual's domicile may or may not be sustained by other information. Further, nondomiciliary status of parents is not deemed prima facie evidence of the applicant child's status if the applicant has lived (though not necessarily legally resided) in North Carolina for the five years preceding enrollment or re-registration.

*Effect of Marriage*--Marriage alone does not prevent a person from becoming or continuing to be a resident for tuition purposes, nor does marriage in any circumstance insure that a person will become or continue to be a resident for tuition purposes. Marriage and the legal residence of one's spouse are, however, relevant information in determining residenciary intent. Furthermore, if both a husband and his wife are legal residents of North Carolina and if one of them has been a legal resident longer than the other, then the longer duration may be claimed by either spouse in meeting the 12-month requirement for in-state tuition status.

*Military Personnel*--A current student who has been deemed to be a NC resident and who is called to serve outside the State in the armed forces does not lose North Carolina residence for tuition purposes simply by reason of such service as long as the student remains continuously enrolled in the degree program. Students from the military may prove retention or establishment of residence by reference, as in other cases, to residenciary acts accompanied by residenciary intent.

In addition, a separate North Carolina statute affords tuition rate benefits to certain military personnel, with a permanent duty station in North Carolina, and their dependents even though not qualifying for the in-state tuition rate based on the twelve months qualification. A dependent relative of a service member stationed in North Carolina is eligible to be charged the in-state tuition rate while the dependent relative is living in North Carolina with the service member and if the dependent relative has met any requirement of the Selective Service System applicable to the dependent relative. These tuition benefits may be enjoyed only if the applicable requirements for admission have been met; these benefits alone do not provide the basis for receiving those derivative benefits under the provisions of the residence classification statute reviewed elsewhere in this summary.

*Grace Period*--If a person (1) has been a bona fide legal resident, (2) has consequently been classified a resident for tuition purposes and (3) has subsequently lost North Carolina legal residence while enrolled at a public institution of higher education, that person may continue to enjoy the in-state tuition rate for a grace period of twelve months measured from the date on which North Carolina legal residence was lost. If the twelve months end during an academic term for which the person is enrolled at a State institution of higher education, the grace period extends, in addition, to the end of that term. The fact of marriage to one who continues domiciled outside North Carolina does not by itself cause loss of legal residence, marking the beginning of the grace period.

*Minors*--Minors (persons under 18 years of age) usually have the domicile of their parents, but the residence classification statute, in determining residence for tuition purposes, recognizes certain special cases.

1. If a minor's parents live apart, the minor's domicile is deemed to be North Carolina for the time period(s) that either parent, as a North Carolina legal resident, may claim and does claim the minor as a tax dependent, even if other law or judicial act assigns the minor's domicile outside North Carolina. A minor thus deemed to be a legal resident will not, upon achieving majority before enrolling at an institution of higher education, lose North Carolina legal residence if that person (1) upon becoming an adult "acts, to the extent that the person's degree of actual emancipation permits, in a manner consistent with bona fide legal residence in North Carolina" and (2) "begins enrollment at an institution of higher education not
later than the fall academic term next following completion of education prerequisite to admission at such institution."

2. If a minor has lived for five or more consecutive years with relatives (other than parents) who are domiciled in North Carolina and if the relatives have functioned during this time as if they were personal guardians, the minor will be deemed a resident for tuition purposes for an enrolled term commencing immediately after at least five years in which these circumstances have existed. If under this consideration a minor is deemed to be a resident for tuition purposes immediately prior to his or her eighteenth birthday, that person on achieving majority will be deemed a legal resident of North Carolina of at least twelve months' duration. This provision acts to confer in-state tuition status even in the face of other provisions of law to the contrary; however, a person deemed a resident of twelve months' duration pursuant to this provision continues to be a legal resident of the State only so long as he or she does not abandon North Carolina domicile.

Lost but Regained Domicile--If a student ceases enrollment at or graduates from an institution of higher education while classified a resident for tuition purposes and then both abandons and reacquires North Carolina domicile within a 12-month period, that person, if he or she continues to maintain the reacquired domicile into re-enrollment at an institution of higher education, may re-enroll at the in-state tuition rate without having to meet the usual 12-month durational requirement. However, any one person may receive the benefit of this provision only once.

Change of Status--A student admitted to initial enrollment in an institution (or permitted to re-enroll following an absence from the institutional program which involved a formal withdrawal from enrollment) must be classified by the admitting institution either as a resident or as a non-resident for tuition purposes prior to actual enrollment. A residence status classification once assigned (and finalized pursuant to any appeal properly taken) may be changed thereafter (with corresponding change in billing rates) only at intervals corresponding with the established primary divisions of the academic year.

Transfer Students--When a student transfers from one North Carolina public institution of higher education to another, he or she is treated as a new student by the institution to which he or she is transferring and must be assigned an initial residence status classification for tuition purposes.

Prevailing North Carolina Law--General Statute (G.S.) 116-143.1 is the prevailing statute governing residence status classification. A copy of the applicable law and/or implementing regulations is available for inspection in the Office of Graduate Admissions, 1575 Varsity Drive, Flex Lab, Module 6. Residence-and-Tuition Status information and applications are available online. Questions should be directed to thesis_editor@ncsu.edu.
FINANCIAL SUPPORT FOR GRADUATE STUDENTS

Graduate students may receive financial support through fellowships, traineeships and teaching or research assistantships sponsored by federal, state and private agencies. Prospective students may request consideration for financial assistance in the form of fellowships, traineeships, and assistantships by completing the appropriate sections of the admissions application form or for loans by submitting a FAFSA (Free Application for Federal Student Aid) form available from the Office of Scholarships and Financial Aid.

A graduate student must be in good academic standing (3.0 GPA or better) to be eligible for appointment to an assistantship, fellowship, or traineeship and must be registered in each semester in which the appointment is in effect. There are also minimum registration requirements for eligibility for tuition and health insurance benefits.

ASSISTANTSHIPS

The University offers approximately 2,200 assistantships each year. Stipend rates for teaching, research, extension, and services assistantships are competitive with other universities. For further information on the availability of assistantships, applicants should contact the program area of interest. Graduate Teaching Assistants, Graduate Research Assistants, and Graduate Extension Assistants may be eligible for health insurance and tuition benefits. Graduate Services Assistants do not participate in these benefits.

A completed and signed Terms and Conditions for Appointment document (or the Conditions for Appointment document, along with a letter of offer stating the "terms" of appointment) is required for all new or initial Graduate Assistantship appointments. Initiated by the department or program, the "Terms and Conditions" document states the expectations the University has for assistantships and for the individuals on these appointments, the conditions upon which they are appointed, and the benefits graduate student are entitled to in exchange for fulfilling their obligations.

FELLOWSHIPS

The Financing Graduate School Education section of the Graduate School website provides an overview of types of funding available for graduate education, descriptions of selected NC State fellowships/traineeships and grants administered by the Graduate School, and searchable databases for nationally competitive fellowships and other funding opportunities. Fellowship competitions are also routinely announced via e-mail to Directors of Graduate Programs and/or in the NC State Official Bulletin.

INSTITUTIONALLY AWARDED FELLOWSHIPS AND TRAINEESHIPS. The Graduate School, as well as some colleges, departments or programs offer fellowships/traineeships. Students are nominated for these awards by their colleges, departments, or programs with selection being made by faculty committees or by the Graduate School. For additional information on and application procedures for institutionally awarded fellowships/traineeships, individuals should contact the Graduate School or the appropriate college, department, or program. General information on institutionally awarded fellowships/traineeships and grants administered by the Graduate School is available on the Graduate School website.

NATIONALLY COMPETITIVE FELLOWSHIPS. Prospective and enrolled graduate students are encouraged to apply for national and regional fellowships in addition to awards sponsored through the University. These awards are made to an individual rather than to the University. To be considered for a nationally competitive fellowship, students apply directly to a granting organization/agency. Once awarded the fellowship (with some exceptions), the student may take it to any university to which he or she has been admitted or is enrolled. Applications and/or information on nationally competitive portable fellowship programs are available through a number of searchable databases.

Examples of institutionally awarded fellowships/traineeships and grants administered by the Graduate School are listed below. Complete eligibility requirements and information on these programs is available on the
ALUMNI ASSOCIATION GRADUATE FELLOWSHIPS. Funded by the Alumni Association and administered by the Graduate School, these University-wide graduate awards are intended to supplement fellowships and assistantships in an effort to recruit outstanding entering graduate students in any field of study to NC State. The Alumni Fellowships are currently $2,000 for the academic year, with the exception of two $3,000 awards for Public History students to assist the University Archivist. International students are eligible.

In addition to the Alumni Association Graduate Fellowships administered by the Graduate School, there are also two Alumni Association International Graduate Fellowships and one Alumni Association International Undergraduate Scholarship awarded to enrolled international students each year. These awards are for continuing students and are administered by the Office of International Services.

ANDREWS PH.D. FELLOWSHIP. This is a prestigious one-year award offered to a top entering Ph.D. student at NC State University in any discipline. Students admitted to Master’s programs leading to the Ph.D. are also eligible. The fellowship provides a stipend of $21,500, in-state tuition and fees, and health insurance.

BIOSCIENCE RESEARCH INITIATIVE FOR DOCTORAL GRADUATE EDUCATION (BRIDGE). The NC State University Doctoral BRIDGE (Bioscience Research Initiative for Doctoral Graduate Education) Program aims to increase the number of researchers in underrepresented populations in the biomedical and life sciences. The program supports graduate students in pursuit of the Master of Science degree at three Historically Black Colleges and Universities (HBCUs) and promotes their entrance into biomedical and bioscience Ph.D. programs at NC State University. Components of BRIDGE activities include faculty mentors and access to specialized equipment for Master's-level BRIDGE students, faculty research collaborations, enhanced curricula of the partner institution by sponsoring seminars and other professional activities, and a specialized summer biotechnology course. The BRIDGE program offers a two-year salary, funds for laboratory materials and supplies, and travel funds to both national meetings and to the annual BRIDGE Biomedical Symposium.

THE JERRY J. COLLIER SCHOLARSHIP provides funding to a graduate student who has earned the baccalaureate degree at NC State and who participated in a varsity sport during his or her undergraduate tenure here. The criteria for selection include academic credentials and statement of goals and objectives. The scholarship is approximately $7,500 per academic year and may be renewed on an annual basis.

DIVERSITY ENHANCEMENT GRANTS are funded by the State of North Carolina for students who are accepted in Master's or Ph.D. programs at NC State. Criteria for selection include: academic record, character, creativity, educational and economic background, race and ethnicity, gender, exceptional personal talents, unique work or service experience, and leadership potential. Applicants must add to the goal of increasing diversity in graduate education at North Carolina State University. Recipients are awarded stipends based on financial need up to $4,000 for the academic year, with an option of $500 in additional support for study in the summer session.

EMOL A. FAILS GRADUATE FELLOWSHIP. This fellowship is designed to provide supplemental support to a graduate student who is interested in career in the construction industry. It is intended to fund graduate students in graduate programs combining training in a construction-related engineering discipline with instruction in business/technology management. Fellows receive a stipend of $6,000.

GRADUATE ASSISTANCE IN AREAS OF NATIONAL NEED (GAANN) FELLOWSHIPS. The U.S. Department of Education provides support to expedite completion of the doctoral degree for graduate students committed to a career of teaching and research in an identified area of national need. In addition to an annual stipend of up to $30,000, depending on financial need, the program covers tuition, fees, health insurance, and an allowance to cover other educational expenses. To date, NC State has been awarded 118 fellowships for graduate students in the area of electronic materials, 55 fellowships in biotechnology, and 52 in scientific computation. Information is available at http://www.fis.ncsu.edu/grad_fellows/GAANN_INFO.htm.
ARThUR B. MOSS GRADUATE SCHOOL INTERNATIONAL TRAVEL GRANT FUND. Funded through an endowment provided to NC State by Arthur B. Moss, the Graduate School International Travel Grant program is designed to supplement departmental efforts to enable their doctoral candidates to make presentations at international professional conferences. The program is designed not only to give students valuable experience in making research presentations, but also to maintain and enhance NC State’s reputation internationally as one of this nation’s top research universities. Eligibility is limited to full-time doctoral students in any field of study who have achieved candidacy for their degree, and priority is given to students who are first authors on the paper to be presented.

PREPARING THE PROFESSORIATE is a program that gives faculty and doctoral students the opportunity to engage in a significant mentoring activity for an academic year. It is a central component of NC State's attempt to enrich and improve the way in which graduate students are trained at this university. The program is open to doctoral students who plan careers as research/teaching scholars at colleges and universities. In order to participate in the program, students must have completed 18 graduate credit hours in their major prior to the teaching semester, must be in good academic standing in their department, and must be at a point in their doctoral program where they have sufficient time to work with a Faculty Teaching Mentor. The program sponsors 5-6 workshops for participants throughout the academic year illuminating various aspects of college/university teaching. Ten doctoral students are selected for the program through a University-wide competition. Each of these students will receive a $2,000 stipend ($1,000 per semester). International students may be accepted into the program but due to U.S. Citizen and Immigration Service regulations will not receive the $2,000 stipend directly. However, the stipend may be deposited into a departmental account for the student's utilization for program related expenses.

UNC CAMPUS SCHOLARSHIPS. Funded by UNC General Administration, this program is designed to promote diversity at the graduate level at NC State. Eligibility is limited to new or continuing full-time doctoral students who have financial need and who are residents of North Carolina as of the beginning of the award period. Individuals who have been accepted to a Master’s degree program in a department offering the doctoral degree and who intend, and will be eligible, to pursue doctoral studies at NC State after completion of the requirements for the Master’s degree are also eligible. Criteria for selection include: academic record, character, creativity, educational and economic background, race and ethnicity, gender, exceptional personal talents, unique work or service experience, and leadership potential. Applicants must add to the goal of increasing diversity in graduate education at NC State. Stipend amounts are based on financial need up to $4,000 for the academic year, with an option of $500 in additional support for study in the summer.

WAChOVIA SUPPLEMENTAL FELLOWSHIPS. Two awards of $3,000 are available to entering graduate students in the College of Management and in the graduate program in Financial Mathematics. Selection is based on both merit and financial need.

RANDALL L. AND SUSAN P. WARD FELLOWSHIPS. The Ward Fellowship is awarded to entering doctoral students in any field of study. Eligibility is limited to U.S. citizens. Fellows will be paid a stipend of $5,000 for the academic year.

STEVE AND JANE WARREN-WOLFPACK CLUB GRADUATE FELLOWSHIPS. The Warren-Wolfpack Club Graduate Fellowship is a prestigious one-year award offered to a top entering graduate students who played a varsity sport either at NC State or at another college of university. Warren-Wolfpack Club Fellows are chosen on the basis of academic record, athletic achievement, and character and leadership. Two fellowships are available each year, and they provide a stipend of approximately $6,000 for a period of one academic year.

WALTER H. WILKINSON RESEARCH ETHICS FELLOWSHIP. Funded through an endowment established by NC State alumnus Walter H. Wilkinson, this fellowship, with a stipend of $3,000, is awarded to a doctoral student at NC State University who wishes to participate in the Research Ethics Fellows Program. Within the university’s larger Research Ethics Program, Research Ethics Fellows are doctoral students who engage in an in-depth study of research ethics for one academic year, exploring the guidelines for professional conduct and
ethical decision-making that are part of the very fabric of a research university. Each applicant applies in conjunction with a faculty mentor, the Senior Research Ethics Fellow. Together, they develop curricular materials in research ethics. Applicants must be doctoral students sufficiently advanced in their program to allow them time to work collaboratively and intensively with the Senior Fellow, and in good academic standing in their department. Students should have completed 18 credit hours in their major and had some research experience by the beginning of the fellowship term.

GRADUATE STUDENT SUPPORT PLAN

The Graduate Student Support Plan is a highly competitive support package used to attract top students to NC State. Under the Plan, students supported on a teaching or research assistantship or a fellowship of at least $666.67 per month and who meet the minimum registration requirement, receive health insurance at no cost to the student and tuition for a limited number of semesters. For a table summarizing benefits and requirements, see the GSSP Requirements-at-a-Glance.

I. GSSP BENEFITS

Full Payment of In-State Tuition
Called an in-state tuition award, this benefit is provided to all eligible students for the following periods.

For Master's Students: Four (4) semesters after their initial enrollment in the Graduate School at NC State as long as they register for a minimum of nine (9) credit hours for the first three (3) semesters and a minimum of three (3) credit hours in the fourth semester.

For Doctoral Students:

- With a Master's Degree in the same or related field, eight (8) semesters after their initial enrollment in the Graduate School at NC State as long as they register for a minimum of nine (9) credit hours for the first six (6) semesters and a minimum of three (3) credit hours for the last two semesters.
- Without a Master's Degree in the same or related field, ten (10) semesters after their initial enrollment in the Graduate School at NC State as long as they register for a minimum of nine (9) credit hours for the first eight (8) semesters and a minimum of three (3) credit hours for the last two semesters. The ten (10) semesters may include up to four (4) semesters in a Master's classification at NC State as long as they are the first four (4) semesters of graduate study at NC State.

Full Payment of Out-of-State Tuition

Tuition remission is a benefit available under the same terms and conditions as the in-state tuition award, detailed above. Students who qualify to establish North Carolina residency are encouraged to do so at the earliest possible date.

Notes on Tuition Benefits

- The University is committed to providing this benefit to all eligible students for the time periods specified. Colleges and/or departments may extend this benefit for longer periods of time at their discretion.
- This benefit applies only to tuition. All students must pay required fees unless the source of the stipend provides funds specifically earmarked to pay the recipient's fees. Such arrangements are handled through the home department.
- GSSP tuition benefits are available for the spring and fall semesters only. Summer sessions are not covered.
- If the qualifying assistantship or fellowship terminates prior to the end of the semester, the tuition award amount will be prorated according to the number of calendar days during the semester that the student is
employed. Assistantships or fellowships that being after November 30 for fall or April 30 for spring will not be considered for the proration.

- If the effective date of the qualifying assistantship or fellowship appointment is after census date for a given semester, the student will not be eligible for the tuition award for that semester.
- If the effective date of the qualifying assistantship or fellowship appointment is more than two (2) weeks after the first day of classes but on or before census day, the tuition award will be prorated.
- If the qualifying assistantship or fellowship appointment does not run for at least 30 days beyond the first day of class, no tuition benefits will be provided.
- The GSSP clock for determining eligibility for tuition benefits starts with the first semester of enrollment in Graduate school and does not stop when the student is on a leave of absence.

**Health Insurance**

The NC State Graduate Student Health Insurance plan covers all eligible students under the following terms and conditions:

- The annual coverage period is August 16-August 15. An eligible student solely supported by a Teaching Assistantship appointment (Job Code A138) that is in effect through May 15 will continue to receive coverage through the end of the coverage period even if not supported on a graduate assistantship or fellowship in the summer sessions.
- Students supported on a graduate research or extension assistantship or primary graduate fellowship will only continue to receive coverage in the summer as long as their appointment does not have an effective termination date prior to July 21.
- For students supported on both a teaching assistantship and a research assistantship, summer coverage will be based on the RA if the RA meets the minimum annualized stipend at the time summer premiums are paid in April. If the RA is subsequently terminated or its stipend reduced below the minimum annualized stipend, it will be necessary to contact the Student Financial Support Services Manager in order for the student to maintain insurance coverage based on the TA.
- Students supported on an assistantship with a combination job code that includes teaching (A178 – Teaching & Research; A438 – Extension and Teaching; A478 – Extension/Research/Teaching) will be treated like a Research Assistantship (A148) and therefore will not be subject to having the summer insurance prepaid and if that appointment terminates and the student does not have a qualifying Teaching Assistantship (A138) to go back to, there would be no further summer insurance coverage.
- There is no limitation on the number of semesters one may receive health insurance coverage.
- Eligible student coverage is at no cost to the student.
- Spouse coverage is available for purchase by the student.
- Child coverage is available for purchase by the student.
- A student who loses/terminates his/her appointment mid-year has the option of purchasing the same insurance for an additional 18 months through COBRA.

In addition, a student who loses or terminates their assistantship or fellowship but remains a degree student at the university may choose to purchase health insurance through the NC State Student Preferred Care Medical Plan for the remainder of their tenure as a degree student or until they again become eligible for the GSSP.

The coverage provided by the GSSP is equal to or better than the NC State Student Preferred Care Medical Plan. For details on insurance benefits, visit the Hill, Chesson & Woody website.

**II. GSSP REQUIREMENTS**

**Eligibility Requirements**

**Minimum Stipend Level**
To be eligible, students must be appointed on an assistantship or fellowship paid through the University
Financial Support

receiving a minimum **annualized** stipend of $3,000 per semester or $8,000 per year ($666.67 per month).

**Note:** Supplemental fellowships do not contribute to the $3,000 (or $8,000) total. Graduate Services Assistantships are not eligible for the Graduate Student Support Plan. A definition of graduate teaching assistants, graduate research assistants and graduate services assistants can be found in Section 4.2 of the Graduate Administrative Handbook.

**Appointment Deadlines**

To receive the in-state tuition award and out-of-state tuition remission, assistantship and/or fellowship appointments must be effective on or before census date of the given semester. However, to ensure tuition payments are made in a timely manner, assistantships or fellowship appointments should be approved at college level on or before census date.

**Census Date:** The census date is the 10th day of classes each fall or spring semester. This date is publicized well in advance on the GSSP website and online Graduate School calendar. It is normally the same day that the Pack Tracks registration system closed for the semester. It is also the last day to register for, add, or drop a course, or to change from credit to audit with a refund or reduction.

**Enrollment Requirements**

*Master’s Students* - Must register for a minimum of nine (9) credits each semester for the first three (3) semesters that they receive tuition benefits and a minimum of three (3) credit hours in the 4th semester.

*Doctoral Students with a Master’s degree in the same or related field upon initial admission to the Graduate School* - Must register for a minimum of nine (9) credits for each semester for the first six (6) semesters that they receive tuition benefits and a minimum of three (3) credit hours in the 7th and 8th semester.

*Doctoral Students without a Master’s degree in the same or related field upon initial admission to the Graduate School* - Must register for a minimum of nine (9) credits for each semester for the first eight (8) semesters that they receive tuition benefits and a minimum of three (3) credit hours in the 9th and 10th semester.

**Registration Deadlines**

To continue eligibility in the GSSP, students must be registered by 5:00 pm on the census date of each fall or spring semester for no fewer that the minimum credit hours indicated above. Credit hours attributed to audited classes do **not** count toward minimum semester credit-hour requirements for the GSSP. Tuition charges related to audited courses are not reimbursed by the GSSP. Credit hours attributed to distance education courses do count toward the minimum registration requirement but GSSP will not pay for more than the on-campus rate for the total hours registered.

Summer registration is not required for GSSP. However, unregistered students are required to pay a special fee to use the Student Health Center during the summer.

**Payment of Tuition and Fees**

Students may receive a billing statement from the University Cashier’s Office containing tuition charges that will be covered by the GSSP. If such charges appear and you are certain that the student qualifies for the GSSP, go to the Cashier’s Office website and complete the Notice of Sponsorship form by the deadline indicated on the tuition bill. Indicate Graduate Student Support Plan (GSSP) as their third party sponsor for tuition only and for “amount” enter the on-campus tuition rate for the total hours registered. For a list of on campus tuition rates, see [http://www7.acs.ncsu.edu/cashier/tuition/gradtuition.asp](http://www7.acs.ncsu.edu/cashier/tuition/gradtuition.asp).
Students must submit payment of fees by the deadline indicated on the tuition bill or their registration may be cancelled. If registration is cancelled and not reinstated by census date of the given semester, the student will not be eligible for benefits under GSSP.

**OTHER FINANCIAL AID**

**Long-Term Loans**

Graduate students who are American citizens or eligible non-citizens may apply for long-term, low interest loans through the Office of Scholarships and Financial Aid. To qualify for loans, students must be making satisfactory academic progress towards a degree and must complete the appropriate application materials to demonstrate that all federal eligibility requirements for loan consideration have been met. The *Free Application for Federal Student Aid* (FAFSA) is the form required to document eligibility for federal loan assistance. In addition, all graduate students must complete the *Graduate Enrollment and Benefits Status Form*, and entering graduate students must complete the university's *Institutional Financial Aid Application*. These forms are available online through the Office of Scholarship and Financial Aid. Although students are expected to apply for and to accept any available assistantships or fellowships provided by the Graduate School, it is recommended that students not wait for these decisions to be made before applying for financial aid through the Office of Scholarships and Financial Aid. If graduate assistantships or fellowships are offered, and borrowing no longer becomes necessary, students have the option to cancel their requests for loan assistance at any point.

*Federal Stafford Loans (Subsidized and Unsubsidized):* Funding for these loans is provided by private lenders. Since they are partially supported by the federal government, however, students must follow federal guidelines in applying for aid to qualify. Information on specific application procedures, loan maximums, interest rates and participating lenders may be obtained from the Office of Scholarships and Financial Aid. Students who apply for these loans and demonstrate need by federal definition qualify for Federal Subsidized Stafford Loans, meaning that the federal government pays the interest on the loan while the student is enrolled on at least a half-time basis. If no need is demonstrated, students may still borrow to meet the cost of education (minus other resources, such as scholarships, fellowships, tuition remissions, and other resources) through the Federal Unsubsidized Stafford Loan Program. Students who receive unsubsidized loans are charged interest while enrolled, although they may elect to capitalize interest payments to repay with principal upon completion of degree. For both subsidized and unsubsidized loans, repayment of principal is deferred until completion of the degree or until termination of at least half-time enrollment status.

*Graduate PLUS Loans:* The Higher Education Act of 2005 contains a new provision making graduate students eligible to borrow Federal PLUS Loans beginning July 1, 2006. The Graduate PLUS Loan may provide a valuable resource in meeting a graduate student’s full cost of attendance. Some features of the new loan include:

1. students must complete a FAFSA and exhaust Federal Stafford Loan eligibility before qualifying for a Graduate PLUS Loan;
2. students must not have an adverse credit history;
3. students may borrow up to the cost of attendance minus other aid received;
4. the PLUS loan interest rate will be a fixed rate of 8.5% but lenders may offer interest rate reduction incentives; and
5. Graduate PLUS Loan borrowers will be eligible for in-school deferments as long as they are enrolled at least half-time.

*Other Loan Options:* Because of limited institutional funds, graduate students generally are expected to apply for the maximum Federal Subsidized and Unsubsidized Stafford Loans for which they are eligible if funding is needed to assist with educational expenses. Students who need to borrow more than the maximum amounts possible through those loan programs (the combined annual maximum is $18,500) may apply for private loan assistance. The Office of Scholarships and Financial Aid can recommend a number of private loan options for
students who express an interest in such funding.

**Work-Study Jobs**

The Federal Work-Study Program is a federal program designed to provide part-time jobs to students who apply for financial aid using the Free Application for Federal Student Aid and who document need by federal guidelines. Effort is made to offer students a variety of jobs to meet their special interests and skills. Most of the jobs are on-campus, but limited opportunities for off-campus employment in community service areas are also available.

**Part-Time Jobs**

Other jobs not based on need are posted under Student Employment on NC State's homepage and under Student Job Opportunities on the Office of Scholarships and Financial Aid homepage. These jobs are open to all students.

**Short-Term Emergency Loans**

Loans, usually in amounts of $100 or less, to meet emergency expenses may be obtained on short notice (generally with 24 hours of application) at the Office of Scholarships and Financial Aid. These loans, in that they are designed for short-term, emergency use, must be repaid within about 30 days. A loan may not be taken out between semesters or between summer sessions.

**COOPERATIVE EDUCATION PROGRAM**

The Cooperative Education Program (Co-op) is designed to enhance the quality of instruction and learning by providing interested, qualified graduate students a broader understanding of their fields of study and their applicability to the world of work. Over 500 partners in industry, business and government request graduate students for their co-op positions primarily on a full-time basis. Job offers are made by the employer based on student qualifications. Employer needs are a reflection of the labor market. Work assignments are supervised by the employer and monitored by the co-op program staff. On average, 75 graduate students are at work each semester and earn an average of $18.50 per hour. Co-op participants must enroll each term of employment at a cost of $338.

For admission to the program, students must meet the following criteria:

- Full-time enrollment at NC State immediately prior to the first work session.
- Presentation of an NC State transcript when applying for the program.
- A minimum grade point average of 3.0.
- Attendance at a co-op orientation session.
- Written approval of the graduate advisor or Director of Graduate Programs.
- An interview with the Cooperative Education Director or Coordinator.

International students must also meet visa regulations pertaining to curricular practical training. Further information is provided at orientation sessions. Call 515-4427 for a schedule.

**MILITARY EDUCATION AND TRAINING**

The Reserve Officer Training Corps (ROTC) selects interested university students for enrollment in Army ROTC (AROTC), Navy (NROTC) or Air Force ROTC (AFROTC) for officer education and training leading toward a commission in the respective military service.

**Air Force ROTC**
Air Force Reserve Officers Training Corps (AFROTC) is one of the three commissioning programs in the United States Air Force. Graduate students who will be at NC State for at least two years may, upon successful completion of a five-week summer leadership training period, be enrolled in the ROTC Program. In some cases, graduate students with only three semesters remaining may enroll in AFROTC. The AFROTC curriculum stresses four main areas: leadership and management, professional knowledge, defense studies, and communication skills where students will learn valuable skills which can applied to schoolwork and apply to a job upon graduation. AFROTC offers scholarships to many of its qualified students. Most of these scholarships cover the cost of tuition, and all scholarships entitle the cadet to an allotment for books and a monthly stipend. AFROTC provides an active, exciting college program that could lead to a promising career in the US Air Force. Generally speaking, students completing the program serve four years as a commissioned officer and will gain unique experiences and knowledge valuable not only in the military but also in the civilian world as well. If a student is interested in learning to fly, the AFROTC program is a possible way to get started. Students with three or more semesters of remaining course work may be eligible to enroll in Air Force ROTC. Uniforms and books for ROTC are provided. Additional information may be obtained by call the Department of Aerospace Studies at 515-2417 or visit the website at http://www.ncsu.edu/airforce_rotc.

Army ROTC

Army ROTC is an educational program combining college electives in military science with practical leadership training to prepare men and women to become U. S. Army officers. Traditionally, Army ROTC is a four-year program with the first two years of the program comprising the Basic Course. There is also a special program for juniors and graduate students who did not take Army ROTC during their first two years of college. To enter the two-year program, a student must first participate in a five-week basic leadership instruction course. After successfully completing this course, students may qualify to join ROTC as an Advanced Course Cadet. The Advanced Course will impart valuable experience in leadership development, military history, time management, and military customs and courtesies.

ROTC training goes beyond the typical college classroom in that students will not only learn skills one would expect to find in an Army officer including how to motivate co-workers, cope with the unexpected and organize large, complex tasks, but they will also learn skills such as teamwork, tact, and effective communication which are in demand in both the civilian and business world.

Army ROTC awards scholarships to many qualified students based strictly on merit to the most outstanding students. Army ROTC Advanced Course students also receive a tax-free stipend of between $300-500 per month. Scholarship students receive tuition, the monthly stipend, and additional funding of approximately $900 each school year for books. Students entering the Advanced Course must agree to complete a period of military service, either Active Duty, Army Reserve or Army National Guard upon graduation. Students successfully completing the ROTC course will graduate with a diploma and a commission as a Second Lieutenant in the U.S. Army.

A Professor of Military Science can provide a more detailed explanation of military service obligations and can also answer any other questions that may arise about Army ROTC. Call (919) 515-2428, visit the web site at http://www.ncsu.edu/army_rotc/ or visit the offices next to Talley Student Center in Reynolds Coliseum for more information.

Navy ROTC

The Naval Reserve Officers Training Corps (NROTC) Program was established to educate and train qualified young men and women for service as a commissioned officer in the Navy or Marine Corps. The largest single source of Navy and Marine Corps officers, the NROTC program fills a vital need in preparing mature young men and women for leadership and management positions in an increasingly technical Navy and Marine Corps. The diversity that the NROTC program offers demonstrates the diversity that has made the Navy-Marine Corps team so successful. Naval ROTC is a great opportunity to learn the skills needed to lead and manage people in
the technical Navy and Marine Corps of today.

To be selected for graduate ROTC scholarships, one must have been enrolled prior to receiving their undergraduate degree from the university. For more information please call the Naval Science Department at 515-6216, LT Reynolds.
HEALTH SERVICES

Student Health Services, located in the Student Health Center, offer health care and health education to students in a facility staffed by six full-time physicians, six physician extenders, pharmacists, registered nurses, physical therapists, health educators and support staff. A travel clinic and allergy clinic are also offered. A detailed website is at www.ncsu.edu/student_health.

During fall and spring semester, Health Services is open Monday, Wednesday-Friday 8:00 a.m.-9:00 p.m. (*Tuesday 9:00 a.m.-9:00 p.m.) and Saturday 8:30 a.m.-11:30 a.m. (except during holidays and breaks). Appointments are needed to see a health care provider and may be made in person at the Health Center or by calling 515-7107. Women's health appointments are made at 515-7762. Urgent medical problems will be seen at the clinic without appointment. Physicians maintain office hours Monday through Friday, 8:00 a.m.-5:00 p.m. During summer sessions, hours are Monday-Friday, 8:00 a.m.-5:00 p.m.

All currently enrolled students are eligible for medical care. The pre-paid health fee covers professional services such as nurse and M.D. visits, some self-care and cold medications, health education and most Counseling Center visits. There is a reduced charge for laboratory and x-rays, prescriptions and specialty clinics. Students are responsible for all services received off-campus, e.g., off-campus M.D., hospital or lab/x-ray.

HEALTH INSURANCE

NC State strongly encourages each student to have accident and sickness insurance protection, either by their parents' group policy or under the NC State Student Insurance Plan. The policy offered by the University helps cover the cost of referrals to off-campus specialists or to hospitals for serious illnesses. For your protection, do not be uninsured! International students are required to have the NC State Student Insurance Plan. Information describing the NC State student plan is mailed to all students in July. Call (919) 645-0240 for additional information, or consult website www.hillchesson.com.

HOUSING

ELIGIBILITY

To be eligible to live in University Housing during the fall and spring semesters, graduate students must maintain at least six credit hours. Students who need to enroll in fewer hours, or who must drop below these minimum requirements during the semester, should contact University Housing to request an exception. For more information about housing, visit University Housing online or call (919) 515-2440.

RESIDENCE HALLS

The University operates twenty residence halls and three apartment complexes providing housing for almost 8,000 residents. A variety of residential options are available to accommodate diverse student interests and needs. At NC State, residence halls aren’t just buildings; they are living and learning centers offering a variety of opportunities for enhancing the college experience. All residence halls are air-conditioned, have high-speed Internet access, laundry rooms, and amenities such as computer labs, kitchens, and multi-purpose rooms. The residence halls offer single gender and coed options in buildings ranging in age from Watauga Hall (1906) to Wood Hall (1983). Specific information about each hall can be found on the University Housing website.

WOLF VILLAGE APARTMENTS

Wolf Village is an exciting on-campus apartment community for 1,200 NC State juniors, seniors and graduate students. Each fully furnished four-bedroom apartment contains two full bathrooms, four single bedrooms with double beds, living room, kitchen, washer/dryer unit, high speed internet in each room, and optional cable TV. Wolf Village features a fitness room, computer lab, convenience store, volleyball courts, and Wolfline bus.
WESTERN MANOR APARTMENTS

Western Manor Apartments provides 118 apartments (studio, one-bedroom, and two bedroom units) for juniors, seniors and graduate students. The apartments are located at 2300 Avent Ferry Road near NC State’s Centennial Campus and the Mission Valley Shopping Plaza with easy access to the Wolfline and CAT bus line. All apartments are unfurnished and have electric baseboard heat, 24-hour emergency maintenance, and a coin-operated laundry on the premises. Water, sewage, and trash removal are provided as part of the rent. An office is located on-site for convenience and response to problems. For more information about apartment availability, contact Western Manor Apartments at (919) 513-0599 or visit University Housing website.

EDWARD S. KING VILLAGE (ES KING VILLAGE)

ES King Village, a 295-unit apartment community (efficiency, one-bedroom, and two-bedroom units), serves NC State's married, graduate, and non-traditional undergraduate students. With a diverse multicultural environment, residents have the opportunity to experience the world in their own backyard. At ES King Village, community and convenience combine in an environment that nurtures academic success and provides for the needs of both students and families. The apartments are within easy access to Wolfline (campus bus) and city bus stops, within walking distance of grocery stores, a post office, restaurants, and zoned to a quality elementary school. Free high speed Internet and cable TV is provided in every apartment. An office is located on-site for convenience and response to problems. There are programs and activities for students, spouses, and children sponsored by the staff and Village Council. Recreational areas, playground equipment, and a new ES King Village Commons building support the community atmosphere. For more information about apartment availability, contact ES King Village at (919) 515-2430 or visit our website.

OFF-CAMPUS HOUSING

University Housing maintains self-help listings of off-campus apartments, rooms, and houses for rent as well as roommate wanted listings. These listings are available in the University Housing Office, 1112 Pullen Hall, during the hours of 7:30 a.m. - 5:00 p.m., Monday through Friday. We also provide some helpful information regarding tenants rights under North Carolina law on the University Housing website.
GRADUATE PROGRAMS

Overview

The Graduate School offers programs of study leading to both Master's and doctoral degrees. Graduate education is the final stage in the development of intellectual independence. It is different from undergraduate education in that the student is encouraged to establish premises, to hypothesize and to defend both the procedure and the conclusions of independent investigation. Emphasis is placed upon the student's scholarly development through formal course work, seminars, research and independent investigation.

Student Responsibility

Each student's program is planned with an advisory committee of graduate faculty members to provide the opportunity for gaining advanced knowledge in the particular field of study. It is the responsibility of ALL graduate students to know and understand their degree requirements. Students are responsible for the fulfillment of those requirements.
MASTER'S PROGRAMS

MASTER OF SCIENCE AND MASTER OF ARTS

All Master of Science and Master of Arts degree programs are planned with the objective of making possible a reasonable, comprehensive mastery of the subject matter in a chosen field. In most cases, the Master of Science and Master of Arts programs provide training and experience in research in order to familiarize the student with the methods, ideals and goals of independent investigation. In these cases, representative of most Master of Science and Master of Arts degree programs, a thesis is required. A small number of Master of Science and Master of Arts programs do not require a thesis.

Requirements

1. A minimum of 30 semester hours of graduate work in the degree program, unless the specific program requires more hours.
2. A reading knowledge of a foreign language (in a few programs)
3. A comprehensive written examination (in some programs)
4. A thesis (in most programs)
5. A comprehensive oral examination (except Option B programs)

Time Limit

Requirements for ALL Master's degrees must be completed within six (6) calendar years. For further information about the time limit for degrees, please see Administrative Handbook Section 3.4.

MASTER'S DEGREE IN A DESIGNATED FIELD

A number of departments and programs offer Master's degrees in designated fields. These are professional degrees and do not require a thesis.

Requirements

1. A minimum of 30 semester hours of graduate work in the degree program (unless the specific program requires more hours).
2. A comprehensive written examination (in some programs)
3. A comprehensive oral examination (except Option B programs)

OPTION B MASTER'S DEGREE

The Option B Master's degree requires that students adhere to the general guidelines for a Master of Arts or Master of Science degree with the following exceptions:

1. A comprehensive oral exam is not required
2. A thesis is not required
3. Departmental research credit hours will not be included as part of the course work
4. No more than six hours of independent study credits can be included in the 30-hour minimum
5. Individual departments define other requirements for their Option B program, such as additional course work or final projects
6. Option B Master's degree programs may not carry an officially designated minor
7. Students have a single assigned advisor rather than an advisory committee.

CREDIT HOUR REQUIREMENTS FOR MASTER'S DEGREES
A minimum of 30 semester credit hours is required for all Master's degrees; however, many programs require more than thirty. Also, many students, in order to gain the breadth desired in their programs or to make up deficits in their undergraduate degrees, will actually take more credit hours than the minimum required by their programs.

1. No more than two credit hours of departmental seminar (S/U graded) may be included in the minimum 30-credit program.
2. No more than three credit hours of Master's supervised teaching (685) may be included in the minimum 30-credit program.
3. Programs that require a thesis may include no more than six hours of Thesis Research credit (695) in the minimum 30-credit-hour program. Thesis Research credit is not appropriate in non-thesis programs.
4. Non-thesis programs may include no more than six hours of independent study credits in the minimum 30-credit program.
5. No more than ten hours of 400-level courses may be counted toward the minimal 30-hour requirement, and they may not come from the major field.
6. Non-Thesis Master's Continuous Registration - Half-Time Registration (688) credits may not be used to satisfy the 30-credit hour requirement.
7. Non-Thesis Master's Continuous Registration - Full-Time Registration (689) credits may not be used to satisfy the 30-credit hour requirement.
8. Non-thesis Master's Examination (690) credits may not be used to satisfy the 30-credit hour requirement.
9. Master's Thesis Preparation (699) credits may not be used to satisfy the 30-credit hour requirement.
10. At least 18 hours of the minimum 30 hours required for the Master's degree must be graduate credits earned while the student is enrolled in a graduate classification at NC State.
11. At least 18 hours of the 30 hour requirement may not have been, and may not be, used to satisfy degree requirements for another Master's degree at NC State.
12. Also, at least 18 of the 30 hour requirement may not have been taken while the student was enrolled in another Master's degree program, unless the student did not complete the other program. In addition, students pursuing a Master's degree after having completed a doctoral degree at NC State must complete at least 18 graduate credit hours at NC State after enrollment in the Master's program.
13. The remaining 12 credit hours, or more depending on the requirements of the specific program, may be transferred from any of the following sources or any combination thereof.

**TRANSFER CREDITS**

**Transfer of graduate credits earned at other universities**

A course that was completed at another college or university may be considered for transfer to a Master's program provided that the course is classified as a graduate course; it was completed while the student was in a graduate or post-baccalaureate classification; the grade in the course is "B" (3.00 on a 4.00 scale) or better; the college or university is accredited by one of the following six U.S. regional accrediting agencies: the Southern Association of Colleges and Schools, the Middle States Association of Colleges and Schools, the New England Association of Colleges and Schools, the North Central Association of Colleges and Schools, the Northwest Association of Colleges and Schools, or the Western Association of Colleges and Schools.

**Transfer of graduate credits earned while enrolled in an undergraduate program at NC State University**

A course that was completed while the student was enrolled as an undergraduate at NC State University may be considered for transfer to a Master's program, provided that it is at the 400-level or higher, that the grade is "B" (3.00 on a 4.00 scale) or better, that it was not counted to fulfill undergraduate requirements, and that it is recommended by the Director of Graduate Programs at the time of the student's enrollment in the Graduate School. Students admitted to the Accelerated Bachelor's/Master's program may use up to 12 hours of graduate credit to satisfy requirements for both the bachelor's and the Master's degrees. No graduate credit will be
allowed for a course completed in an undergraduate classification at another institution.

Transfer of graduate credits earned while enrolled in a previous graduate degree program at NC State University

A graduate course that was completed while the student was enrolled in a previous graduate program at NC State University may be considered for transfer to a Master's program, provided that it is at the 500-level or higher and that the grade is "B" (3.00 on a 4.00 scale) or better.

Transfer of Post-Baccalaureate Studies (PBS) graduate credits earned at NC State University

A graduate course that was completed while the student was enrolled in PBS status at NC State University may be considered for transfer to a Master's program provided that it is at the 500-level or higher and that the grade is "B" (3.00 on a 4.00 scale) or better. All PBS credits that are used to satisfy requirements of a specific Master's degree must be earned before the student is admitted to that degree program.

GRADUATE ADVISOR AND GRADUATE ADVISORY COMMITTEE

All students in graduate programs must have a graduate advisor who is a member of the Graduate Faculty in the student's major program and is appointed by the Dean of the Graduate School upon recommendation of the DGP. In the case of doctoral programs and Master's programs requiring theses and/or final oral examinations, the graduate advisor serves as chair or co-chair of the committee.

The primary function of the committee is to advise the student in all aspects of the educational program and to monitor and evaluate that student's progress toward the degree. The committee should provide an intellectually stimulating foundation for the student's professional and scholarly development and should be sensitive to any difficulties in the student's progress, research performance or methodology requiring attention. The committee certifies whether the student has met NC State's standards for a graduate degree. Advising and guiding the student on how best to qualify for the requirements of a degree is a key part of this responsibility.

In all Master's programs except those designated "Option B," the committee will consist of at least three NC State Graduate Faculty members, one of whom is designated as chair and one of whom represents the minor if one has been declared. Those Master's programs designated "Option B" require that the student choose only a major advisor or co-advisors but no committee.

PLAN OF GRADUATE WORK (POW)

The Graduate School does not require that all Master's students submit a POW. However, Master's students are encouraged to complete a POW in consultation with their advisor as soon as possible after the completion of one half of their course work. The Graduate School reserves the right to request a POW under some circumstances. In this capacity, the POW serves as a contract between the student and his or her graduate program, reducing the possibility of any later misunderstanding as to fulfilling degree requirements.

Whether submitted optionally or as part of the degree requirement, the POW should include both a list of the course work to be undertaken (in all programs) and the thesis or dissertation topic (except in non-thesis programs); be developed by the student and his/her advisory committee; be approved by the committee and the DGP or Department Head prior to submission to the Graduate School for final approval; be submitted (optional) prior to completion of one-half the total Master's program, or (mandatory) upon completion of 12 hours of a doctoral program.

LANGUAGE REQUIREMENT

Requirements for Master of Arts and Master of Science students
A reading knowledge of one modern foreign language (Germanic, Romance or Slavic) is required by some programs for the Master of Science and Master of Arts degrees. Other programs may designate that the language requirement be filled from among those languages in which the Department of Foreign Languages and Literatures conducts testing. Students should contact the major program for specific language requirements.

**Master's degrees in designated fields**

There is no language requirement in the professional Master's degree programs (Master's degrees in designated fields) with the exception of Technology for International Development, which requires knowledge of one foreign language at a level of conversational proficiency.

**MINOR**

The Graduate School does not require a minor, though individual programs may require one. If a program does not require a minor, the graduate student has the option of choosing one, except in an Option B Master's program. The minor work will usually be from a single discipline or field that in the judgment of the advisory committee provides relevant support to the major field. However, the committee has the alternative of developing an interdisciplinary minor if it best serves the needs of the student. When a student does select a minor, the advisory committee must include a representative of the minor field. The minor credits on the Plan of Graduate Work must be approved by the graduate advisory committee member representing the minor, and, in some cases, the DGP from the minor program.

**CO-MAJOR**

Students may co-major at the Master's level in programs with identical degrees, although the degrees do not necessarily have to have identical requirements, e.g., two master of science programs, one with a thesis requirement and one without. Students must obtain the approval of both graduate programs as well as appropriate representation on the advisory committee, and must meet all requirements of both programs. Students who co-major are not required to declare a minor. Co-majors must meet all requirements for majors in both programs. One degree is awarded and the co-major is noted on the transcript.

**THESIS**

Candidates for the Master of Arts or Master of Science degrees in programs requiring a thesis must undertake an original investigation into a subject, which has been approved by the student's advisory committee and DGP, and prepare a thesis. Information on form and organization of the thesis, in addition to other regulations, is presented in the University's on-line Thesis and Dissertation Guide.

**MASTER'S COMPREHENSIVE EXAMINATION**

**Written Examination**

Written examinations covering the subject matter of the major and the minor may be required. Information concerning written examination schedules should be obtained from the student's program.

**Oral Examination**

Candidates for Master's degrees, except those in Option B programs, must pass a comprehensive oral examination to demonstrate to the advisory committee that he/she possesses a reasonable mastery of the subject matter of the major and minor fields and that this knowledge can be used with promptness and accuracy. This exam takes the form of a traditional defense of the thesis in those programs requiring theses. In programs that require a thesis, the thesis must be submitted in complete form, except for such revisions which may be necessary as a result of the final oral exam, to all members of the advisory committee at least two (2) weeks
prior to the exam.

Failure of a student to pass the oral examination terminates the student's graduate work at NC State unless the graduate advisory committee unanimously requests that the Graduate School permit a re-examination. Only one re-examination will be given.

**TIME LIMIT**

All requirements for the Master's degree must be completed within six calendar years, beginning with the date the student commences courses carrying graduate credit applicable to the degree program, unless a more restrictive time limit has been established by the academic college/school or program. The term limit remains at six (6) years even if a student was on approved leave of absence during the six-year period.
DOCTOR OF PHILOSOPHY AND DOCTOR OF EDUCATION DEGREES

The doctorate symbolizes the ability of the recipient to undertake original research and scholarly work at the highest levels without supervision. The degree is therefore not granted simply upon completion of a stated amount of course work but rather upon demonstration by the student of a comprehensive knowledge and high attainment in scholarship in a specialized field of study. The student must demonstrate this ability by writing a dissertation reporting the results of an original investigation and by passing a series of comprehensive preliminary examinations in the field of specialization and related areas of knowledge, and successfully defending the dissertation.

Requirements

1. At least two residence credit points secured in continuous semesters' residence as a graduate student at the University.
2. Doctoral degrees at North Carolina State University require a minimum of 72 graduate credit hours beyond the bachelor's degree. For a student who has a master's degree from a university other than NC State, a maximum of 18 hours of relevant graduate credit from the master's degree may be applied toward this minimum, upon the recommendation of the student's Graduate Advisory Committee. If a student completes a master's degree at NC State and continues for a doctoral degree without a break in time, up to 36 credit hours taken while in master's status may be used to meet minimum requirements for the doctoral degree.
3. A preliminary comprehensive examination (written and oral components)
4. A dissertation
5. A final comprehensive oral examination

Time Limit

Doctoral students must attain candidacy for the degree within six (6) calendar years. All degree requirements must be completed within ten (10) calendar years. For further information about the time limit for degrees, please see Administrative Handbook Section 3.4.

RESIDENCE CREDITS

A student working toward a doctoral degree is expected to be registered for graduate work at NC State for at least six (6) semesters beyond the bachelor's degree. The University has basic residence requirements, as defined below, but the academic schools/colleges have the prerogative of establishing more restrictive requirements within the respective schools/colleges. Residence credit is determined by the number of semester hours of graduate work carried during a regular semester.

<table>
<thead>
<tr>
<th>Semester Credits (Hours)</th>
<th>Residence Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>9 or more</td>
<td>1</td>
</tr>
<tr>
<td>6-8</td>
<td>2/3</td>
</tr>
<tr>
<td>less than 6</td>
<td>1/3</td>
</tr>
<tr>
<td>(including registration in 590, 690 series)</td>
<td></td>
</tr>
</tbody>
</table>

At least two residence credits are necessary in continuous residence (registration in consecutive semesters) as a graduate student at the University, but failure to take courses in the summer does not break continuity.

Summer Residency
Summer course work, however, can be used in partial fulfillment of this requirement. A single summer session is equal to one-half of the corresponding amount for a regular semester. For example, six semester hours carried during a summer session will earn one-third of a residence credit; less than six credit hours will earn one-sixth of a residence credit.

GRADUATE ADVISOR AND GRADUATE ADVISORY COMMITTEE

All students in graduate programs must have a graduate advisor who is a member of the Graduate Faculty in the student's major program and is appointed by the Dean of the Graduate School upon recommendation of the DGP. In the case of doctoral programs and master's programs requiring theses and/or final oral examinations, the graduate advisor serves as chair or co-chair of the committee.

The primary function of the committee is to advise the student in all aspects of the educational program and to monitor and evaluate that student's progress toward the degree. The committee should provide an intellectually stimulating foundation for the student's professional and scholarly development and should be sensitive to any difficulties in the student's progress, research performance or methodology requiring attention. The committee certifies whether the student has met NC State's standards for a graduate degree. Advising and guiding the student on how best to qualify for the requirements of a degree is a key part of this responsibility.

A doctoral student’s committee will consist of at least four NC State Graduate Faculty members, one of whom represents the minor field if a minor has been declared. The committee is indicated on the Plan of Graduate Work. In this way, the committee is officially recommended by the DGP, and must be approved by the Graduate School at the time of the approval of the Plan of Graduate Work.

PLAN OF GRADUATE WORK (POW)

Doctoral students are required to complete a POW in consultation with their advisors. The doctoral POW, including the courses to be undertaken in the student's program and the dissertation topic, should be prepared by the doctoral student and his/her advisory committee and submitted electronically to the Graduate School. The POW as a whole should be rationally unified, with all constituent parts contributing to an organized plan of study and research, and courses must be selected from groups embracing one principal subject of concentration, the major, with the option of designating courses in a cognate field, the minor. When a student elects to designate a minor, he/she should select the minor course work from a discipline or field that, in the judgment of the advisory committee, provides relevant support to the major field.

The POW should include both a list of the course work to be undertaken (in all programs) and the dissertation topic; be developed by the student and his/her advisory committee; be approved by the committee and the DGP or Department Head prior to submission to the Graduate School for final approval; be submitted prior to completion of 12 hours of a doctoral program.

EXTERNAL MINOR

Minors granted at the doctoral level for work completed at another institution are called "external minors." Typically, in these cases a doctoral student at NC State wishes to have course work from a prior extradisciplinary Master's program at another university approved as the minor for their current doctoral degree. The DGP must recommend a representative at NC State from the discipline of the proposed external minor to both serve on the advisory committee and to review and determine whether the course work is sufficient to constitute the minor at the doctoral level.

CO-MAJOR

Students may co-major at the doctoral level with the approval of both programs and with the appointment of a co-chair from each program on the advisory committee. Co-majors are not permitted between Doctor of
Philosophy and Doctor of Education degree programs. Co-majors must meet all requirements for majors in both programs. One degree is awarded and the co-major is noted on the transcript.

CANDIDACY

A doctoral student is admitted to candidacy by the Graduate School upon passing the preliminary examinations without conditions or after fulfilling any conditions specified by the advisory committee.

COMPREHENSIVE EXAMINATIONS

Preliminary Examinations

Each doctoral student is required to take preliminary or comprehensive examinations, consisting of written examinations and an oral examination, not earlier than the end of the second year of graduate study and not later than one semester (four months) before the final oral examination.

Written examination questions may cover any phase of the course work taken by the student during graduate study or any subject logically related to an understanding of the subject matter in the major and minor areas of study. The questions are designed to measure the student's mastery of his/her field and the adequacy of preparation for research. Committee members must notify the DGP when a student has completed the written examination. Failure to pass the written portion terminates the student's work at this institution, subject to departmental and/or school/college policies with respect to reexamination.

Upon satisfactory completion of the written portion of the preliminary examinations and after completion of all course work relevant to the examination, the student submits a Request to Schedule the Doctoral Oral Examination, indicating that he/she wishes to schedule the preliminary examination.

The preliminary oral examination is conducted by the student's advisory committee and the Graduate School Representative and is open to all Graduate Faculty members. The Graduate School will notify the student and the examining committee. The oral examination is designed to test the student's ability to relate factual knowledge to specific circumstances, to use this knowledge with accuracy and promptness and to demonstrate a comprehensive understanding of the field of specialization and related areas.

A unanimous vote of approval by the members of the advisory committee is required for the student to pass the preliminary oral examination. Approval may be conditioned, however, on the successful completion of additional work in some particular field(s). All committee actions may be appealed by written application to the Graduate Dean (refer to NC State policy on grievance procedures for students).

Failure to pass the preliminary oral examination terminates the student's work at this institution unless the examining committee recommends a reexamination. No reexamination may be given until at least one full semester has elapsed, and only one reexamination is permitted in a given doctoral program.

Final Oral Examination

As with the preliminary oral examination, the chair of the student's advisory committee is in charge of conducting the final oral examination. The final oral examination is scheduled after the dissertation is complete except for such revisions as may be necessary as a result of the examination, but not earlier than one semester or its equivalent after admission to candidacy and not before all required course work has been completed or is currently in progress.

The examination consists of the candidate's defense of the methodology used, the data collected, and the conclusions reached in the research, as reported in the dissertation. It is conducted by an examining committee, which consists of the student's advisory committee and a Graduate School Representative. This examination is
open to the University community.

While the chair has the option of allowing visitors to ask questions of the candidate, the chair also has the obligation to maintain a scholarly atmosphere and to keep the student's best interest foremost. Graduate Faculty members who are not on the advisory committee will have the opportunity to express their opinions to the committee in the absence of the student. However, the final deliberations and the vote are private to the examining committee.

A unanimous vote of approval of the advisory committee is required for passing the final oral examination. Approval may be conditioned, however, on the student's meeting specific requirements prescribed by the student's advisory committee. Failure of a student to pass the examination terminates his or her work at this institution unless the advisory committee recommends a reexamination. No reexamination may be given until one full semester has elapsed and only one reexamination is permitted.

**DISSERTATION**

The doctoral dissertation is the document presenting the results of the student's original investigation in the field of primary interest. It must represent a contribution to knowledge, adequately supported by data, and be written in a manner consistent with the highest standards of scholarship. Publication is expected and encouraged.

The dissertation will be reviewed by all members of the advisory committee and must receive their approval prior to submission to the Graduate School. Information on the required form and organization of the dissertation, in addition to other regulations, is presented in the University's Thesis and Dissertation Guide. At the time of the dissertation's submission to the Graduate School, the student is also required to submit one copy each of the Survey of Earned Doctorate form and University Microfilms International Agreement form and to complete a brief, standard questionnaire about his or her experience as a graduate student at NC State. The University also requires that all doctoral dissertations be microfilmed by University Microfilms International, Ann Arbor, MI, including the publication of the abstract in Dissertation Abstracts International. The student pays the cost of this service.

**TIME LIMIT**

All students admitted to doctoral programs are allowed a maximum of six (6) calendar years from admission to the doctoral program to attain candidacy for the degree and a maximum of 10 calendar years to complete all degree requirements. Academic colleges/schools or programs may have more restrictive requirements than the above stated University policy. The term limit remains at 10 years even if a student was on approved leave of absence during the 10-year period.

**SUMMARY OF DOCTORAL PROCEDURES**

1. Application materials and required fee received
2. Application materials reviewed by graduate program
3. Graduate program forwards recommendation regarding applicant's admissibility to Graduate Dean
4. The graduate program's recommendation is reviewed and the student is notified of the action taken on the request for admission
5. Outstanding transcripts, if any, showing any or all post-secondary coursework attempted and degree(s) conferred since application should be submitted by student to the Graduate School, prior to matriculation
6. If admitted, the student arrives, reports to the graduate program, is assigned an advisor and makes out a roster of courses in consultation with the departmental advisor and DGP
7. Advisory committee of at least four NC State Graduate Faculty members, one of whom is designated as the chair and one of whom represents the minor field (where appropriate), is appointed by the Graduate Dean upon the recommendation of the DGP. The Graduate Dean also selects a Graduate Faculty member to serve as the Graduate School Representative on the student's committee
8. Student signs and submits Patent Agreement
9. A dissertation subject is selected and an outline of the proposed research is submitted to the student's advisory committee and the DGP for review and approval
10. Plan of Graduate Work is prepared by the advisory committee with the student, is approved by the DGP, and is submitted to the Graduate School for approval as soon as feasible after completion of 12 hours of course work
11. Written examinations in the major and minor fields are scheduled no earlier than the end of the second year of graduate study and not later than one semester before the final oral examination. The results of these examinations will be reported to the Graduate School
12. When all written examinations have been completed satisfactorily, the chair submits the Request for Approval to Schedule the Doctoral Oral Examination, designating the preliminary oral examination, at least two weeks prior to the suggested date. Upon approval of the request, the student and examining committee are notified of the time and place. The DGP sends the report of the exam to the Graduate School and if the exam is passed without conditions, the student is admitted to candidacy
13. A copy of the preliminary draft of the dissertation is submitted to the chair of the student's advisory committee for review.
14. The Diploma Order Request Form must be filed with the Graduate School by the end of the sixth week of the semester or summer session of anticipated graduation. Failure to submit the form by this date may result in the student's failure to receive the diploma at graduation
15. At least two weeks prior to the final oral examination, the chair of the student's advisory committee submits the dissertation to advisory committee members for review
16. Four calendar months or its equivalent after admission to candidacy or later, and after the dissertation is complete except for such revisions as may be necessary as a result of the final exam, the chair submits to the Graduate School the Request for Approval to Schedule the Doctoral Oral Examination, designating a request for permission for the candidate to take the final oral exam. Requests should be filed at least two weeks before the date of the examination. Upon approval of the request, the student and the examining committee, including a Graduate School representative, are notified of the time and place of the examination. The Graduate School Representative receives a copy of the dissertation at least one week prior to the examination
17. The Graduate School requires that all theses and dissertations be submitted electronically following the requirements in the ETD website (electronic thesis and dissertation). Specific deadlines for each semester, as well as formatting requirements, are posted in the online Thesis and Dissertation Guide, located within the ETD website.
18. The dissertation is reviewed by the Graduate School to ensure that the format conforms to the specifications prescribed in the Thesis and Dissertation Guide.
19. All course work scheduled in a graduate degree classification must be completed prior to graduation
20. A GPA of at least 3.00 is required for graduation
21. All degree requirements must be completed within ten (10) calendar years, beginning with the date the student commences courses carrying graduate credit applicable to the degree program, unless a more restrictive time limit has been established by the program or academic college/school.
Graduate students are one of NCSU Libraries’ most active user groups, and the library is committed to supporting their needs for information resources and services. The library system consists of the main D. H. Hill Library and four branches serving the specialized needs of programs in design, natural resources, textiles, and veterinary medicine; an affiliated library serves the College of Education and Psychology. Two medium-sized study rooms in the D. H. Hill Library are available only to graduate students for use of computers or as lounges. The D. H. Hill Library is open every day and most nights; the Libraries’ schedule is posted online (www.lib.ncsu.edu/hours/).

The Libraries’ collections and web site provide access to more than 3.4 million volumes of books and bound journals, over 54,000 serials, and thousands of electronic resources, including e-books, e-journals, and databases. The system is particularly strong in the biological and physical sciences, engineering, agriculture, forestry, textiles and architecture, with the arts, humanities and social sciences also well represented. The NCSU Libraries is a U.S. and North Carolina government documents depository and a U.S. patent depository. The Media Center at D. H. Hill Library offers audio, video and multimedia materials, with equipment for group and individual use. A Digital Media Laboratory provides help with converting materials to digital formats.

The NCSU Libraries extends access to a growing array of online resources, from indexes to full-text journals, which are accessible from both on and off-campus locations. From the Libraries’ web site, users can search NC State’s library holdings as well as those of Duke, UNC-Chapel Hill and NC Central. In the Libraries’ Learning and Research Center for the Digital Age, the Learning Technology Service offers help in applying new information technologies to instruction (e.g., in developing web-based courses), the Information Technologies Teaching Center offers instruction in their use and the Scholarly Communication Center gives guidance in matters such as copyright and fair use. Laptop computers are available for in-building loans in D. H. Hill and the branches.

The Libraries provides interlibrary loan services to obtain material from other research libraries. Direct borrowing privileges are available with Duke, UNC-Chapel Hill and other UNC system schools. The Tripsaver service delivers library materials from Duke, UNC-CH or NC Central University within 48 hours of request. Journal articles and short documents can be delivered over the web directly to your computer, when requested, for a cost recovery fee (www.lib.ncsu.edu/tripsaver/DocumentDelivery.html). Also available are orientation tours, web tutorials, instruction on library use and services, e-mail and chat reference services (Ask a Librarian) and in-depth reference service geared to the individual needs of graduate students. Distance Learning Services are available for students and faculty engaged in off-campus instructional programs.

NCSU Libraries is a member of the regional Triangle Research Libraries Network (TRLN) along with the libraries at Duke University, UNC-Chapel Hill, and NC Central University. Through TRLN cooperation, NCSU graduate students have direct access, by using their NCSU student identification cards, to the collections of each TRLN university—a total collection of nearly 14 million volumes and tens of thousands of unique print and electronic periodicals.
In addition to resources provided by ITD, graduate students have access to excellent IT resources provided by their colleges and departments. Overall, NC State has 110 computing laboratories and over 2800 workstations available for general student use. There are also many computing facilities dedicated to specialized research activities. Graduate students should check with their departments for information about specific computing requirements and resources.
INSTITUTES

RESEARCH TRIANGLE. The unique "Research Triangle" in North Carolina has captured national and international attention. It is comprised of the Research Triangle Park, a world-renowned research park, and three major research universities. Because of this wealth of educational and research opportunities, the Triangle area contains the highest total of Ph.D. scientists and engineers on a per capita basis in the nation. The Triangle universities -- NC State, the University of North Carolina at Chapel Hill and Duke University -- have a subsidiary campus in the Research Triangle Park -- the Research Triangle Institute. The Institute, which operates as a contract research organization, has an annual research revenue of more than $467 million.

The Research Triangle Park (RTP), founded in 1959, has been home to some of the brightest minds in the world and has been the source of many new inventions that improve our daily lives. With over 37,500 full-time employees working for over 136 companies, RTP is one of the largest research parks in the world. Encompassing 7,000 acres of North Carolina pine forest, the Park has been a true collaboration of business, government and education. Organizations in the Park include such government facilities as the National Humanities Center, the National Institute of Environmental Health Sciences, the Environmental Protection Agency, and the National Institute of Statistical Sciences. Private companies such as GlaxoSmithKline, Bayer CropScience, and Reichhold Chemicals have their North American headquarters in the Park. Two major, state-supported research initiatives in microelectronics and biotechnology are located in the Park, and North Carolina's Supercomputing Center is housed there as well. Faculty and graduate students from the universities work closely with many of the Park companies. Scientists and researchers from organizations like GlaxoSmithKline, IBM, and NIEHS frequently hold adjunct appointments in one or another of the Triangle universities.

INSTITUTE OF STATISTICS. The Institute of Statistics is comprised of two sections, one at NC State and the other at UNC-Chapel Hill. At NC State, the Institute of Statistics sponsors statistical collaborations within the University and with its partners in industry and government. It also sponsors methodological and theoretical research in the statistical sciences and cross-disciplinary research. The Institute coordinates the teaching of statistics at the undergraduate and graduate levels. Instructional functions and the granting of degrees are performed by the Department of Statistics, which forms a part of the Institute.

WATER RESOURCES RESEARCH INSTITUTE. The Water Resources Research Institute is a unit of the UNC System headquartered in 1131 Jordan Hall on the NC State campus. It is one of 54 state water institutes authorized by the Water Resources Research Act of 1964 to administer and promote federal/state partnerships in research and information transfer on water-related issues. WRRI receives federally appropriated funds through the U.S. Department of Interior, state funding through the UNC system, and local government consortia funding to enable it to identify and support research needed to help solve water quality and water resources problems in N.C. Research is conducted by faculty and graduate students of senior colleges and universities in N.C. The Institute also arranges research partnerships and competes for federal, state, and foundation grants and contracts. WRRI publishes peer-reviewed reports on completed research projects and arranges for technology transfer from researchers to state agency personnel, local governments, and others who can put the research results to work. The Institute also sponsors educational seminars and conferences and provides public information on water issues through publication of a newsletter, listservs, and on their website.
THE BIOLOGICAL RESOURCES FACILITY (BRF). The BRF was established in 1997 to serve the research and teaching needs of faculty of NC State’s College of Agriculture and Life Sciences (CALS), as well as researchers from private industry and government agencies. Departments with research interests in the BRF include Animal Science; Entomology; Food Science; Genetics; Marine, Earth and Atmospheric Sciences; Molecular and Structural Biochemistry; and Zoology. The BRF allows the research endeavors to be centralized, which consequently increases opportunities for collaboration. It also prevents redundancy of research efforts and equipment, hence allowing devotion of resources to research.

Located adjacent to Gardner Hall, the BRF contains approximately 20,000 square feet and houses a multitude of research animals including mice, rats, voles, rabbits, frogs, fish and other aquatics, quail and reptiles. It is a modern, climate controlled, restricted access facility including office and administrative support space, a clinical laboratory, necropsy and preparation rooms and a surgical suite. Animal welfare is regulated by NC State’s Institutional Animal Care and Use Committee (IACUC) and federal regulatory agencies. A university veterinarian monitors health issues, while day-to-day operations at the facility are run by a laboratory animal facility manager, and an Advisory Board offers faculty-generated advice on the operation of the BRF. The BRF also operates a satellite lab animal facility in the Environmental and Molecular Toxicology building on Centennial Campus.

CENTER FOR ADVANCED COMPUTING AND COMMUNICATION. CACC is an NSF-sponsored Industry/University Cooperative Research with research sites at NC State and Duke University. An advisory board comprised of representatives of member companies and government agencies meets twice a year to direct the Center’s research activities. Faculty and graduate students also work closely with each member’s technical staff on a variety of research projects.

The Center’s mission is to carry out basic and applied research on problems having both industrial and academic relevance, to transfer these results to the members and to provide students with a challenging educational opportunity. The research goal is to create concepts, methods and tools for use in the analysis, design and implementation of advanced computer and communication systems. CACC has the unique capability to develop technology from theory to prototype.

CENTER FOR ADVANCED PROCESSING AND PACKAGING STUDIES (CAPPS). The Center for Advanced Processing and Packaging Studies was established in October 1987 to promote cooperative research between university and industrial researchers and to further scientific knowledge in areas of food and pharmaceutical advanced processing and packaging. The National Science Foundation, NC State and industrial members from food, pharmaceutical and packaging industries fund the center. The objectives of the center are to support industrially relevant, fundamental research in advanced processing and packaging, to enhance product quality and improve efficiency, and to communicate information gained from basic research to industry for development and marketing.

Graduate students working on CAPPS projects will be exposed to industrial concerns and given the opportunity to work first-hand with industry in solving problems and making practical application of their research.

CENTER FOR COMPUTATIONAL BIOLOGY. The Center for Computational Biology was established on the North Carolina State University campus in January of 2001 to stimulate research in computational biology and to organize symposia and workshops dealing with cutting edge topics. The Center Director is William Neal Reynolds Professor William R. Atchley.

Computational biology involves the use of mathematical, statistical, and computational tools to explore complex biological problems. The Center focuses on problems in molecular evolution, mathematical and statistical aspects of phylogeny reconstruction, prediction of protein structure, and quantitative genetics.
CENTER FOR EMBEDDED SYSTEMS RESEARCH. The Center for Embedded Systems Research has as its goal the creation of advanced electronics and computing information technology infrastructure. Embedded Systems are in many everyday and not-so-everday items, including: your automobile, a set top box or cable modem, a cellular telephone, an electronic organizer, bioelectronic instrumentation. The mission of the center is to develop advanced embedded systems technology that benefits the state of North Carolina, the nation and the member companies who contribute to support center. Research areas include architectures and microarchitectures for fast, energy-efficient computation, compiler techniques for extracting more performance from modern processors, energy management to stretch battery and power supply limits, and static timing analysis to enable designers to guarantee that a program running on a given processor at a certain speed will always meet its deadlines.

CENTER FOR ENGINEERING APPLICATIONS OF RADIOISOTOPES, The Center for Engineering Applications of Radioisotopes was established in 1980 within the Department of Nuclear Engineering and associated with the Department of Chemical Engineering. It is composed primarily of faculty and their graduate students doing research related to the measurement applications of radiation and radioisotopes in industry. This includes the use of short-lived radioactive tracers, radiation gauges, radiation analyzers and industrial (and medical) imaging devices. Excellent experimental facilities are available including solid state detectors and the NC State PULSTAR Reactor. The Center’s programs are financed largely by an Associates Program of Industrial Members and contracts and grants from industry and federal agencies.

CENTER FOR ENVIRONMENTAL AND RESOURCE ECONOMIC POLICY. The Center for Environmental and Resource Economic Policy was established to provide research leadership in addressing these and other important environmental and resource problems. By combining economic research and outreach programs, and fostering cooperation among natural scientists and other social scientists in the UNC system, the Center seeks to provide an information source for state policy makers. An important dimension of the organizing mandate for the Center is a recognition that North Carolina’s interests are best served when research is designed to meet a nationals, if not an international, standard for quality and relevance. Affiliated researchers will include North Carolina State University resident faculty with appointments in either the Department of Agricultural and Resource Economics or the Department of Economics, Post-Doctoral researchers, NDSY graduate and undergraduate students, as well as visiting scholars.

CENTER FOR ENVIRONMENTAL FARMING SYSTEMS (CEFS). North Carolina State University and North Carolina A&T State University established the Center for Environmental Farming Systems (CEFS) with the North Carolina Department of Agriculture at the Cherry Farm facility near Goldsboro, NC in 1994. These partners work closely with state and federal agencies, non-governmental organizations (for example, Carolina Farm Stewardship Association, Rural Advancement Foundation International, Farm Bureau), farmers, and citizens to provide agricultural research, extension, and education for our state. The development of CEFS is a national model for partnership, innovation, and interdisciplinary cooperation.

CENTER FOR INTEGRATED PEST MANAGEMENT. The Center for Integrated Pest Management was established in 1991 to serve a lead role in technology development, program implementation, training and public awareness for IPM at the state, regional, and national level. The CIPM is an organizational unit within the College of Agriculture and Life Sciences at North Carolina State University. It is composed of faculty members from all academic departments in the College and involves all relevant disciplines impacting on IPM. The CIPM also involves scientists from other universities across the nation through grants, contracts, or other formal working relationships. The CIPM fosters the development and implementation of pest management programs based on a high level of knowledge of pest biology coupled with choices of monitoring tools and control technology, resulting in economically sound, environmentally compatible, and sociologically responsible integrated crop production.

CENTER FOR RESEARCH IN MATHEMATICS AND SCIENCE EDUCATION. CRMSE, one of ten centers in the North Carolina Mathematics and Science Education Network, is the only one devoted primarily to research. Established within the Department of Mathematics, Science, and Technology Education in 1984, the center
conducts research and development activities for precollege students, preservice teachers, in-service teachers and University faculty. The center identifies areas of need in mathematics and science education and forms partnerships with federal, state, local and private funding agencies to work collaboratively to increase student achievement. Grants have been obtained from the National Science Foundation, Office of Education, State Department of Public Instruction, local education agencies, and IBM to introduce changes that incorporate technology and active learning into the mathematics and science curriculum, K-16. In addition, the center supports graduate students and provides them with opportunities to write grants and to design, conduct and report on educational research.

**CENTER FOR RESEARCH IN SCIENTIFIC COMPUTATION (CRSC).** The Center for Research in Scientific Computation is a formally recognized, multidisciplinary center of the greater University of North Carolina System. The CRSC is administered by NC State and the College of Physical and Mathematical Sciences. The purpose of the Center is to promote research in scientific computing and to provide a focal point for research in computational science, engineering and applied mathematics. Data-massive and/or computationally intensive problems provide ideal projects for training graduate students in applied mathematics. With advanced computing methodologies, students and postdoctoral fellows address important issues in processes of modelling and design.

Research topics of interest to CRSC faculty include a variety of problems in scientific computation, numerical analysis, numerical optimization and statistics with applications to such areas as fluid mechanics and flow control, smart materials and structures, nondestructive testing, acoustics, material sciences and manufacturing processes, population dynamics, biological systems, environmental sciences, signal processing, computer performance evaluation and nuclear reactor physics.

**COLLEGE OF EDUCATION MEDIA CENTER.** Located in 400 Poe Hall, the Media Center provides collections and services to meet the needs of students, faculty, and staff in the College of Education and the Department of Psychology. The focus is print, media, and electronic materials that support the K-12 teacher certification programs. Print resources include a state-adopted textbook collection and a test library. In addition, services include other media and technology such as digital cameras and recorders, data projectors, laptops, handhelds, and televisions that are circulated on a reservation basis, as well as recommendations and training for instructional technology such as video editing, podcasting, converting analog to digital video, online instruction, and technology integration. As an affiliate of D.H. Hill Libraries, the CED Media Center works in collaboration to offer trip-saver and interlibrary loan services, reference and reserve services, computing and media support, circulation, and instruction in media, information literacy, technology integration, and library use. The Media Center includes an open-access Unity computer lab and Wolfcopy copy machines and printers, including a plotter printer.

**COUNSELING LABORATORY.** The Counseling Laboratory in Poe Hall is operated by the Counselor Education Program. As a venue for teaching, research, and development in counseling practice, this facility provides a range of training opportunities for counselor education graduate students.

**DIAGNOSTIC TEACHING CLINIC.** The Diagnostic Teaching Clinic was established in 1983 under the aegis of the College of Education to provide a site for the education and training of graduate students in Special Education and to provide a University-based site for the evaluation of students with a variety of learning-related disorders from early childhood through adulthood. The Clinic provides a wide array of services through a multidisciplinary staff of diagnosticians. These services include individual psychological, academic, and behavioral/emotional assessments, the formulation of individual educational plans, and individual consultation with clients and families. Direct observation of clinical activities is enabled through specially equipped facilities for the benefit of graduate students and other professionals. The Clinic accepts referrals on a fee-for-service basis from local school systems and agencies within the community, as well as directly from clients and/or their families.

**ELECTRIC POWER RESEARCH CENTER.** The Electric Power Research Center is a university/industry
cooperative research center established in 1985 within the College of Engineering. The Center is funded by the university and sponsoring organizations from the various sectors of the electric utility industry, including suppliers, with a focus on nuclear energy. The purpose of the Center is to foster the excellence of research and graduate-level degree programs in electric power systems engineering based upon nuclear power generation. Motivation for industrial firms to join with the Center derives from close university/industry interaction, the pooling of membership dues to sponsor research of mutual interest and the enhanced professional and research opportunities provided to faculty and students. The current research program mainly involves faculty from the Department of Nuclear Engineering.

ELECTRON MICROSCOPE FACILITIES. There are three electron microscope facilities at NC State available to graduate students and faculty for research purposes. The College of Agriculture and Life Sciences (CALS) Center for Electron Microscopy is located in Gardner Hall, the College of Engineering (COE) Analytical Instrumentation Facility (AIF) is the Engineering Graduate Research Center (EGRC) located on Centennial Campus and the College of Veterinary Medicine (CVM) Laboratory for Advanced Electron and Light Optical Methods (LAELOM) is located in the NC State College of Veterinary Medicine on Hillsborough Street.

THE CALS CENTER FOR ELECTRON MICROSCOPY offers complete service support in all areas of Biological Electron Microscopy. The Center has two scanning microscopes: a Philips 505T and a JEOL 5900LV and two transmission electron microscopes: a JEOL 100S and a Philips 400T equipped with a C400M computer control system. The Center is also equipped with all of the necessary biological preparatory equipment. Formal instruction is provided through the microbiology curriculum for scanning electron microscopy. Transmission electron microscopy and ultramicrotomy are taught individually as needed. The Center also provides support, service and training in a wide variety of digital imaging. Advanced techniques are also provided on an individual basis or through workshops.

THE COE ANALYTICAL INSTRUMENTATION FACILITY (AIF) serves as a resource for microscopy and materials characterization. AIF operates a number of major microscopy and microanalytical instruments providing quality analysis for all who require it. Instrumentation includes 5 scanning electron microscopes (SEM), Scanning Transmission Electron Microscopy (STEM), Energy dispersive x-ray microanalysis, Cathodoluminescence, Electron Beam Induced Current (EBIC), Focused ion beam (FIB) micromachining, Secondary Ion Mass Spectrometry (SIMS), X-ray Photoelectron Spectroscopy (XPS) Auger Electron Spectroscopy (AES), 7 Scanned Probe Microscopy systems (AFM and STM), stylus and optical profilometers, and a range of optical microscopy with digital imaging. Many of the instruments operate at the nanometer or sub-nanometer resolution scale. All microscopes are supported by complete materials specimen preparation, image and data processing facilities. These instruments are operated and maintained by a specialized staff who are experienced in the methods, design and implementation of materials characterization experiments. AIF analytical professionals teach regularly scheduled graduate level courses as well as intensive, hands-on short courses covering the analytical techniques available through AIF. In addition, AIF researchers are actively involved in the development and/or enhancement of micro and nanoanalytical techniques in a continuing effort to improve the level of capabilities as required by the ever evolving needs of the NCSU research community. See http://www.ncsu.edu/aif for more details.

THE CVM LABORATORY FOR ADVANCED ELECTRON AND LIGHT OPTICAL METHODS (LAELOM), established in 1984, is a research/service/teaching facility housing all the optical equipment to examine cytological, histological and gross specimens, and the equipment to perform morphometric analyses and to prepare material for presentations and publication. Individuals can prepare their own cryosections for light microscopy and immunological staining and can also prepare their own transmission and scanning electron microscopy samples. In addition, the LAELOM staff can prepare any and all of these materials for investigators. The LAELOM offers individual training in light microscopy, confocal laser scanning microscopy, morphometry and
darkroom work as well as a formal course in biological light microscopy, confocal microscopy, 
transmission electron microscopy, and scanning electron microscopy techniques (CBS 732). A 
computer-operated JEOL JSM-6360LV scanning electron microscope was installed in April 2003. In 
June 2004, the operating system of the Philips/FEICO EM208S transmission electron 
microscope (originally installed in May 1999) was updated to the most recent Morgagni EM209 
specifications. An automated Olympus VANOX photomicroscope and WILD photomacroscope are 
available to students and investigators to record images on film or digital media (with a Spot RT 
Slider cooled CCD digital camera or several video cameras). In May 2003, a Nikon Eclipse 2000E 
inverted photomicroscope with attached confocal laser scanning and digital imaging capabilities 
was installed. This unit is equipped with optics and light sources for confocal scanning laser 
microscopy, epifluorescence bright field, DIC, phase contrast, and Hoffman contrast interference 
microscopy. A fully equipped darkroom for processing black-and-white negatives and prints is also 
available. The LAELOM offers consultation and training services for all these techniques in terms 
of specimen preparation, instrument selection, and cost determination for purposes of grant 
preparation. The LAELOM is a fully GLP-compliant laboratory that supports pharmaceutical 
development work. See www.cvm.ncsu.edu/research/laelom for further details.

ENGINEERING RESEARCH CENTER FOR ADVANCED ELECTRONIC MATERIALS PROCESSING (AEMP). The 
Center for Advanced Electronic Materials Processing was established in 1988. The center’s program is 
interdisciplinary and involves collaboration among chemists, physicists, materials scientists and electrical, 
chemical, computer and mechanical engineers. The research focuses on the development of electronic materials 
processing technologies that will provide the capability of producing nanoscale electronic devices. The program 
emphasizes low thermal budget processes to produce ultra-thin gate dielectrics and ultra-shallow junctions 
using plasma, thermal and optically assisted techniques as well as the automation and control of those 
processes. It is a joint effort with researchers from other Universities within North Carolina and across the 
nation.

A.E. FINLEY CENTER FOR EDUCATION AND RESEARCH. The A. E. Finley Center for Education and Research 
(formerly the Biology Field Laboratory) is located five miles from the University campus. It is contiguous with 
Historic Yates Mill Park and comprises a 20-acre pond, 574 acres of extremely varied vegetation types, and a 
modern laboratory building. The latter contains two laboratories, one for class use and another principally for 
research.

The many unique ecological situations found in this area make it ideal for use by advanced classes of most 
biological science departments. Likewise, the area is well adapted to a variety of research projects by faculty, 
graduate students and undergraduates because of its habitat diversity. The close proximity of the laboratory 
facility to the campus makes possible many types of behavioral, physiological, ecological, taxonomic and 
limnological studies that could be accomplished only with great difficulty at other locations.

WILLIAM AND IDA FRIDAY INSTITUTE FOR EDUCATIONAL INNOVATION. Located on NC State’s Centennial 
Campus adjacent to the Centennial Campus Middle School, the Friday Institute is dedicated to transforming 
education to prepare students for success in 21st century work and civic life, meeting the challenges of lifelong 
learning for a global knowledge-based economy, and building coalitions for leadership and innovation among 
educators, the business sector, and policymakers. The 33,000 square foot, state-of-the-art facility is designed to 
capitalize on the University's long history of committed engagement in university/business partnerships and its 
leadership role in economic development. The first floor serves primarily to support the outreach and 
professional development activities of the Institute, the College, and partners. Facilities include a multimedia 
teaching space and Wachovia Innovation Hall, an interactive meeting room that accommodates up to 200 
people. The second floor, designed primarily to support Institute research activities, includes the Progress 
Energy Discovery Classroom, a highly instrumented simulated classroom space for gathering digital audio and 
visual data. The second floor also hosts collaboratory spaces, open-design project areas instrumented to 
promote creative collaboration among faculty researchers and students involved in innovative teaching and 
learning applications for K-20 education.
**FUNGAL GENOMICS LABORATORY.** The Fungal Genomics Laboratory was established in October 1999. The laboratory suite is located on Centennial Campus in a multi-million dollar facility near the Genome Research Laboratory and Bioinformatics Research Center. The mission of the laboratory is to discover and analyze the function of genes from economically important fungi. The information will provide new insights into cellular processes and development as well as lead to the development of novel plant protection and to other fungal based products.

**HIGHLANDS BIOLOGICAL STATION.** NC State is an institutional member of the Highlands Biological Foundation which provides support for the Highlands Biological Station of the University of North Carolina. This is an inland biological field station located at Highlands, North Carolina. The town of Highlands is in the heart of the Southern Appalachians at an elevation of 3,823 feet. The area has an extremely diverse biota and the highest rainfall in the eastern United States.

Facilities are available throughout the year for pre-and post-doctoral research in botany, zoology, soils and geology. The laboratory building with research rooms and cubicles and the library are well equipped for field-oriented research. Also, five cottages and a dining hall are located on the edge of a six-acre lake. In addition to 16 acres surrounding the lake, the station owns several tracts of undisturbed forested land available for research. Research grants available through the Station provide stipends for room, board and research expenses.

**INTEGRATED MANUFACTURING SYSTEMS ENGINEERING INSTITUTE.** The Integrated Manufacturing Systems Engineering Institute was established at NC State in 1984 to provide interdisciplinary educational, research and technology transfer program in manufacturing systems engineering. The objectives of this program are to educate engineers in the theory and practice of integrated manufacturing systems technology; to conduct basic and applied research on topics in cooperation with industry on problems of contemporary manufacturing system; and to engage in technology transfer with industry.

Central to all aspects of the Institute's operation and activity is in the integration of computer-aided processes in the design and control of manufacturing facilities. Through both internally and externally funded research projects the Institute contributes to the solution of generic design and manufacturing engineering problems and provides a vehicle for technology transfer.

**W.M. KECK CENTER FOR BEHAVIORAL BIOLOGY.** The W. M. Keck Center for Behavioral Biology at North Carolina State University promotes a multidisciplinary environment for the training and collaborative research in the fundamental principles that govern animal behavior. There is a strong emphasis on the use of model organisms and integrative studies that combine molecular, genetic, neurobiological, physiological, and organismal approaches. Major areas of research represented in the Keck Center include: understanding the genetic basis of complex behaviors and how the genome and environment interact to shape the behavior; understanding how the nervous system and endocrine system interact to drive behaviors; understanding how behaviors evolve and how in turn behaviors influence evolution; and, understanding how organisms interact with their environment and how habitat conditions affect populations.

**LAKE WHEELER ROAD FIELD LABORATORY.** The Lake Wheeler Road Field Laboratory offers nearly 1500 acres for teaching, research and extension requests made by NCSU faculty. A number of departments in the College of Agriculture and Life Sciences (CALS) make use of this field laboratory, including Botany, Crop Science, Entomology, Plant Pathology, Forestry, Soil Science, Animal Science and Poultry Science. Students from the College of Veterinary Medicine use animals at this site for clinical studies.

**LAKE WHEELER POULTRY FIELD LABORATORY.** LWPFL is composed of two units; Chicken Education Unit and the Turkey Education Unit. Research is conducted in the areas of reproductive physiology, nutrition, diseases, and husbandry practices. The LWPFL works with broilers, broiler breeders, and turkeys.

**LAKE WHEELER TURFGRASS FIELD LABORATORY.** LWTFL has 26 plots devoted to turfgrass
research. Four are devoted to putting green turfgrass research and have been constructed to PGA standards. The Turfgrass Users group is composed of faculty from the Departments of Crop Science, Entomology, and Plant Pathology. Research is conducted on variety testing, pesticide evaluation, disease control, insect control and production practices.

LEARNING TECHNOLOGIES RESOURCE CENTER (LTRC). The Learning Technologies Resource Center is a multimedia service facility located in the College of Education. The Center provides workshops, classes and individualized training for faculty, graduate students, and in-service teachers. The Studio in the Center focuses on the effective delivery of information and the design and production of instructional materials using a variety of computer technologies. The LTRC also includes the Media Center located in Poe Hall. This facility maintains a collection of print and audio-visual materials and equipment with emphasis on teaching methods, research, and administration. An extensive collection of state-adopted secondary level textbooks includes those in French, Spanish, language arts, mathematics, science, social studies and vocational education. Audio-visual equipment is available for instruction, research and previewing.

MATERIALS RESEARCH CENTER. The Materials Research Center was established in 1984 at NC State as an interdisciplinary program involving persons representing the Departments of Chemistry, Electrical and Computer Engineering, Materials Science and Engineering and Physics. The present thrust area of the Center concerning thin films and coatings serves as a focal point for this cooperative research. The experimental efforts are conducted within the four departments noted above.

METHOD ROAD GREENHOUSES FIELD LABORATORY. MRGFL is a research and teaching facility comprised of four headhouse/laboratory/office buildings and over 93,000 sq.ft. of greenhouse space. The Departments of Plant Pathology, Crop Science, Entomology, Soil Science, Genetics, and Botany from the College of Agriculture and Life Sciences and the Department of Forestry and Environmental Resources from the College of Natural Resources utilize the facility. There is a wide range of research being conducted at the facility, including plant breeding, biological control of pests, air quality, genetics, ornamental pathology and much more. More than fifty faculty members utilize the facility.

MODEL MANUFACTURING FACILITY. A state-of-the-art facility in the College of Textiles is housed in a $45 million, 300,000 square foot research and teaching facility on Centennial Campus. The building contains individual laboratories that are capable of all manufacturing operations from spinning fibers to producing the end product. The Model Manufacturing Facility is the heart of the Applied Research Program for the College of Textiles as well as being an integral part of the education and basic research programs.

NONWOVENS COOPERATIVE RESEARCH CENTER (NCRC). College of Textile's Nonwovens Cooperative Research Center serves the nonwovens industry through fundamental and applied research in the technologies of the industry and an active program of technology transfer. Established as a university-state-industry partnership, the Center has developed core research, non-core research, and technology transfer activities. NCRC houses unique and state-of-the-art facilities for product development, analytical services and materials testing, analysis and evaluation.

NORTH CAROLINA SEA GRANT. A state/federal partnership program, North Carolina Sea Grant has worked with all campuses of the University of North Carolina system since 1970. Sea Grant brings together university expertise in research, extension and education to focus on practical solutions to issues involving coastal and marine resource use and conservation. Topics include aquaculture, coastal processes, estuarine water quality, fisheries, seafood science, marine education, policy and coastal community development. Extension offices located in Manteo, Morehead City and Wilmington keep Sea Grant in touch with the coastal communities. Sea Grant awards major grants on a competitive basis every two years, and many researchers include graduate and undergraduate research opportunities within their proposals. In addition, graduate students may compete for state-funded annual graduate fellowships in science communications and fisheries. And Sea Grant handles applications for national fellowships, such as the Knauss Fellowship in Marine Policy. North Carolina Sea Grant also administers state-funded fishery research programs that encourage partnerships between academics --
including graduate students -- and members of the fishing community.

**NUCLEAR REACTOR PROGRAM.** The Nuclear Reactor Program (NRP) provides specialized nuclear facilities to the North Carolina academic and industrial communities. These facilities are used for teaching, research and service. The NRP supports graduate research and undergraduate programs in a wide variety of academic departments. Facilities include the PULSTAR Nuclear Reactor, the Nuclear Services Analytical Laboratories, Health Physics Laboratories and the Scaled Pressurized Water Reactor Facility (SPWRF). The PULSTAR Reactor is a 1-megawatt research and training reactor. Irradiation capabilities include wet and dry vertical ports, horizontal beam tubes, a pneumatic transfer system and a graphite thermal column. Neutron radiography, prompt gamma activation analysis and neutron depth profiling facilities are permanently installed. Plans are underway to install an ultracold neutron source, an intense positron source, a neutron diffractometer, and to introduce neutron tomography and phase imaging capabilities.

The Nuclear Services Laboratories are well-equipped to perform routine reactor irradiations, neutron activation analysis, isotope production and low-level counting. The laboratories maintain ten high-purity Ge and GeLi detectors, two multi-station Nuclear Data Acquisition and Analysis Systems, a Liquid Scintillation Counting System, an Alpha Spectroscopy System, sample preparation equipment and an extensive set of standards. The SPWRF is a non-nuclear working scale model of a two-loop pressurized water reactor that is used for teaching and research.

The Nuclear Reactor Program is part of the Department of Nuclear Engineering and is located in the Burlington Engineering Laboratories on the main NC State campus.

**NUCLEIC ACIDS FACILITY.** The Nucleic Acids Facility is located within the Biochemistry department in the College of Agriculture and Life Sciences. Our mission is to provide specialty oligonucleotide design consultation, synthesis, modification, purification and characterization for the scientific research community, and serve as an educational resource for these activities while fostering an environment conducive to the transfer of scientific knowledge between academia and commercial research facilities.

**ORGANIZATION FOR TROPICAL STUDIES.** NC State is an institutional member of the Organization for Tropical Studies (OTS), a consortium of North and Latin American universities which maintains field research and teaching facilities in Costa Rica. Each year OTS offers a series of courses that are open to NC State graduate students including tropical biology, agroecology, agroforestry and tropical agricultural biology. These 8-week courses, offered in winter and summer, are taught in Costa Rica and make use of a network of OTS field stations located throughout the country. The program in Costa Rica has been extended recently to teach undergraduate students and also a new program for undergraduates is being conducted in South Africa (Kreuger National Park).

The OTS facilities in Costa Rica also provide a unique opportunity for tropical research by NC State graduate students and faculty. The principal field station, located in the northeastern Atlantic lowlands, has excellent laboratory and housing facilities and provides access to a 3,500-acre tract owned by OTS. Another station is located at mid-elevation in southeastern Costa Rica near the Panamanian border. OTS also utilizes various other sites, including a seasonally dry area in the northwestern part of the country and a high-elevation area at 10,000 feet in the Talamanca range. More information about OTS may be obtained through the International Programs Office of the College of Agriculture and Life Sciences.

**PAMLICO AQUACULTURE FIELD LABORATORY.** The Pamlico Aquaculture Field Laboratory is located on South Creek, a tributary of the Pamlico River, two and one half hours east of Raleigh. The facility has ponds and outdoor and indoor tanks for both rearing and experimental studies of fish. The river and fresh and salt water wells provide water over a range of salinities from fresh to seawater. The results of research on basic reproductive biology of fish, coupled with extension efforts are responsible for the mushrooming hybrid striped bass industry in eastern North Carolina. Recently, studies of the reproductive biology and rearing requirements of southern flounder have demonstrated significant potential for rearing this species in aquaculture. Current
studies at the lab are largely centered around genetic improvement of brood stock of striped bass and flounder.

**PESTICIDE RESIDUE AND ANALYTICAL TOXICOLOGY LABORATORY.** The Pesticide Residue and Analytical Toxicology Laboratory is a facility of the Department of Toxicology in the College of Agriculture and Life Sciences. The primary responsibility of the laboratory is to initiate research and to provide analytical support for studies of pesticide residues and other organic pollutants in food, soil, water, and air with various University Departments and other institutions. The Laboratory does not analyze samples that are not a part of planned research program. However, the laboratory contributes significantly to many research projects that directly benefit the citizens of North Carolina devoted to determining the environmental fate of pesticide residues primarily in air, plants, soils and water. Although the laboratory is administered through the Department of Toxicology, it serves the total needs of the College in cooperative research projects requiring pesticide residue analysis.

**PHYTOTRON.** Formally the Southeastern Plant Environmental Laboratory, the NC State Phytotron, is a leading center for controlled environment research in the United States, and one of the largest facilities in the world. With 60 artificially lighted growth chambers of various sizes, 9 photoperiod rooms, and 5 temperature-controlled greenhouses, the Phytotron lends itself to an enormous number of experiments—usually between 50 and 70 different projects each year. The range of subjects is broad, including very basic studies of plant physiology as well as practical problems of crop species. The Phytotron facility is available to the resident research staff, participants in graduate research programs of NC State and to domestic and foreign visiting scientists.

**PRECISION ENGINEERING CENTER.** The Precision Engineering Center was established in 1982. The goal is to develop techniques for metrology and manufacturing at tolerances below those attainable with current technology. For example, fabrication of future electro-optical devices will require manufacturing tolerances better than 1 millionth of an inch. This goal requires new methods for measuring and controlling the parts being produced or the process being performed. Specific research objectives involve the study of metrology systems, control algorithms, machine structural dynamics, optics, materials, and micro-processors and the details of many different fabrication processes. An interdisciplinary team of faculty from Mechanical and Aerospace Engineering, Materials Science and Engineering, Computer Science and Physics along with research staff and graduate students are working together to address these research areas. The Center is housed in a state-of-the-art facility on the Centennial Campus.

**PSYCHOEDUCATIONAL CLINIC.** The Department of Psychology operates the Psychoeducational Clinic located in Poe Hall. The Clinic provides both a service to the public and training for School Psychology graduate students. The Clinic serves children from preschool through adolescence, and services include evaluation, intervention and consultation for school related problems such as learning disabilities and attention deficits.

**J.C. RAULSTON ARBORETUM.** The J.C. Raulston Arboretum is a nationally acclaimed garden with the most diverse collection of tender and cold hardy temperate zone plants in the southeastern United States. As a part of the Department of Horticultural Science at NC State University, the Arboretum is primarily a working research and teaching garden that focuses on the evaluation, selection and display of plant material gathered from around the world. Plants especially adapted to Piedmont North Carolina conditions are identified in an effort to find better plants for use in southern landscapes. The Arboretum is an eight-acre jewel that has been largely built and maintained by NCSU students, faculty, volunteers and staff.

**SEMICONDUCTOR POWER ELECTRONICS CENTER (SPEC).** SPEC is a newly established research center at NCSU with vertically integrated research programs supported by both industry and government agencies. The major research areas include: power management microsystems, focusing on technologies to extend battery life and power next generation microprocessors; utility power electronics, focusing on technologies to prevent next blackout; power semiconductor devices and power ICs, focusing on fundamental technologies that will enable fast and better power electronics systems based on new processes and materials such as SiC and GaN; electric power systems, exploring innovative method to distribute power and protect power systems from failure or
damage; and renewable and distributed energy, studying new and energy renewable, energy sources (such as wind, wave and solar) and its grid integration.

SOIL AND WATER ENVIRONMENTAL TECHNOLOGY CENTER. The Soil and Water Environmental Technology Center’s mission is to increase the technical competence and knowledge of environmental professionals, students, and decision-makers through education, outreach and research. The Center provides outreach, educational and applied research programs to address the information and training needs in eight different program areas.

SOUTHEAST DAIRY FOODS RESEARCH CENTER. The Southeast Dairy Foods Research Center is one of six centers funded and managed by Dairy Management Inc. (DMI). DMI is a nonprofit management organization formed in 1995 by the National Dairy Board (NDB) and the United Dairy Industry Association. One of DMI’s main investment areas is basic and applied research relating dairy products and nutrition. DMI, through its competitive and directed research programs, develops a National Research Plan and implements projects in cheese, butter, milkfat and fluid milk. Relevant research issues are identified by consulting industry, university dairy researchers, and the Dairy Foods Research Centers.

TRENTON ROAD FIELD LABORATORY. The Trenton Road Field Laboratory is located north of the NCSU campus. A number of departments take advantage of this 900 acre field laboratory including Animal Science, Biological and Agricultural Engineering, Crop Science, and the College of Engineering. Students from the College of Veterinary Medicine use animals at this site for clinical studies.

TRIANGLE UNIVERSITIES NUCLEAR LABORATORY (TUNL). Located on the campus of Duke University in Durham, TUNL is a Department of Energy-funded laboratory where physics faculty members and graduate students from Duke University, UNC-Chapel Hill and NC State explore the areas of electromagnetic nuclear physics, nuclear astrophysics, few-nucleon systems, neutrino physics, and fundamental symmetries. There is extensive collaboration between the three institutions along with the many visiting physicists from the United States and abroad. Research centers around the local FN tandem Van de Graaff charged-particle accelerator with its unique polarized and pulsed beam capabilities. In addition, monoenergetic gamma ray beams are available at the newly constructed High-Intensity Gamma-ray Source (HIGS) facility. TUNL physicists also perform experiments at major national and international nuclear physics facilities. These include, for example, our strong neutron physics programs at Los Alamos National Laboratory, the National Institute of Standards and Technology, and the Spallation Neutron Source at Oak Ridge National Laboratory.
SPECIAL PROGRAMS

RESEARCH PROGRAM AT THE OAK RIDGE ASSOCIATED UNIVERSITIES. NC State has been a sponsoring institution of Oak Ridge Associated Universities (ORAU) since 1949 and is one of six core universities along with ORAU and the University of Tennessee - Battelle Corporation that manage the Oak Ridge National Laboratory in Tennessee. ORAU is a private, not-for-profit consortium of 95 colleges and universities and a management and operating contractor for the U.S. Department of Energy (DOE) with principal offices located in Oak Ridge, Tennessee. Founded in 1946, ORAU provides and develops capabilities critical to the nation's technology infrastructure, particularly in energy, education, health, and the environment. ORAU works with and for its member institutions to help faculty and students gain access to federal research facilities; to keep members informed about opportunities for fellowship, scholarship and research appointments; and to organize research alliances among our members in areas where their collective strengths can be focused on issues of national importance.

ORAU manages the Oak Ridge Institute for Science and Education (ORISE) for DOE. ORISE is responsible for national and international programs in science and engineering education, training and management systems, energy and environment systems, and medical sciences. ORISE's competitive programs bring students at all levels, K-12 through postgraduate, and university faculty members into federal and private laboratories.

ORAU's Partnership Office seeks out opportunities for collaborative alliances among its member universities, private industry, and federal laboratories. Current alliances include the Southern Association for High Energy Physics (SAHEP) and the Center for Bio-Electromagnetic Interaction Research (CBEIR). Other UIGA activities include the sponsorship of conferences and workshops, the Visiting Scholars program and the Junior Faculty Enhancement Awards.
FIELDS OF INSTRUCTION

This section identifies and gives pertinent information about all the fields of study that participate in graduate education at NC State. There are over 100 different fields offering graduate degrees. In addition, there are fields that offer minors at the graduate level and areas that support graduate education through offering graduate level courses or in some other capacity. Fields of instruction that offer graduate degrees are listed first. Information given for each field includes the faculty, requirements for admission to and completion of the degree program(s), student financial support, courses offered, and other relevant information. Following the degree offering field is a listing other fields of instruction that offer graduate minors, graduate courses or support graduate education in some other way. To avoid duplication, basic Graduate School requirements for admission and completion of graduate degree programs are not repeated for each field of instruction. For Graduate School requirements see the Admissions section in the catalog. Only those requirements that are unique to the field are given in the sections on the individual fields.

COURSE NUMBERING

Graduate-level courses are numbered at the 500, 600, 700 and 800 levels. Courses at the 500- and 600-level are available to advanced undergraduate students in the Accelerated Bachelor's/Master's (ABM) Degree Program and to students holding bachelor’s degrees. Courses at the 700 and 800 level are doctoral courses and are open only to students holding bachelor’s degrees. Exceptions may be made for undergraduate students in honors program and seniors in the ABM Program. Consent of the department is required for enrollment in all 600- and 800-level courses. Refer to the NC State University Courses Catalog for course descriptions and prerequisites.

Note: Courses at the 500 and 700 level are letter graded. Students cannot enroll in these courses for "credit only".
Fields Offering Graduate Degrees

The Graduate School offers major programs of study in the following fields. Except where noted by an exception in parentheses, these programs required the Graduate Records Examination (GRE) scores and will not take action on applications unless accompanied by scores for at least the GRE General (Aptitude) Test (verbal, quantitative and analytical):

Accounting - MR (GMAT)
Adult and Community College Education - EdD, MS, MEd (GRE)
Aerospace Engineering - PhD, MS (GRE)
Agricultural and Extension Education - EdD (GRE or MAT)
Agricultural and Resource Economics - MS (GRE (required if requesting financial aid))
Agricultural Education - MS, MR (GRE or MAT)
Analytics - MS (GRE General Test)
Animal Science - MS, MR (GRE)
Animal Science & Poultry Science - PhD (GRE)
Anthropology - MA (GRE)
Applied Mathematics - PhD, MS (GRE and GRE Subject Test (not required but strongly encouraged))
Architecture - MR (GRE (exceptions apply; contact program))
Art and Design - MR

Biochemistry - PhD, MS, MR (GRE)
Bioinformatics - PhD, MR (GRE)
Biological and Agricultural Engineering - PhD, MS, MR (GRE (exceptions apply; contact program))
Biomathematics - PhD, MS, MR (GRE)
Biomedical Engineering - PhD, MS (GRE, TOEFL for internationals)
Botany - PhD, MS, MR (GRE)
Business Administration - MR (GMAT)

Chemical Engineering - PhD, MS, MR (GRE)
Chemistry - PhD, MS, MR (GRE (not required but strongly encouraged))
Civil Engineering - PhD, MS, MR (GRE)
Communication - MS (GRE)
Communication Rhetoric and Digital Media - PhD (GRE)
Comparative Biomedical Sciences - PhD, MS (GRE)
Computer Engineering - PhD, MS (GRE; TOEFL > 575 Internationals)
Computer Networking - MS (GRE, GRE Subject Test recommended for aid)
Computer Science - PhD, MS, MR (GRE, GRE Subject Test recommended for PhD and aid)
Counselor Education - PhD, MS, MEd (GRE or MAT)
Counselor Education, Agency Counseling - MS, MEd (GRE or MAT)
Counselor Education, Student Personnel in Higher Education - MS, MEd (GRE or MAT)
Creative Writing - MFA (GRE)
Crop Science - PhD, MS, MR (GRE)
Curriculum and Instruction - PhD, MS, MEd (GRE (PhD); GRE or MAT (MEd and MS))
Curriculum and Instruction, Elementary Education - MS, MEd (GRE or MAT)
Curriculum and Instruction, English Education - MS, MEd (GRE or MAT)
Curriculum and Instruction, Reading - MS, MEd (GRE or MAT)
Curriculum and Instruction, Social Studies Education - MS, MEd (GRE or MAT)

Design - PhD (GRE)

Economics - PhD, MA, MR (GRE)
Educational Administration and Supervision - EdD (GRE or MAT)
Fields of Graduate Instruction

Educational Research and Policy Analysis - PhD (GRE)
Electrical Engineering - PhD, MS (GRE; TOEFL > 575 Internationals)
Engineering (Off-campus, continental US residents and/or employees only) - MR (entrance exam not required)
English - MA (GRE general test; analytical writing)
Entomology - PhD, MS, MR (GRE)
Extension Education - MS, MR (GRE or MAT)

Fiber and Polymer Science - PhD (GRE)
Financial Mathematics - MR (GRE)
Fisheries and Wildlife Sciences - PhD, MS, MR (GRE)
Food Science - PhD, MS, MR (GRE)
Forestry - PhD, MS, MR (GRE)
French Language And Literature - MA (Candidates must prove fluency in French.)
Functional Genomics - PhD, MS, MR (GRE)

Genetics - PhD, MS, MR (GRE)
Graphic Design - MR (GRE (exceptions apply; contact program))

Higher Education Administration - MS, MEd, EdD (GRE)
History - MA (GRE)
Horticultural Science - PhD, MS, MR (GRE)
Human Development & Family Studies-Family Life & Parent Educ - MS (GRE)

Immunology - PhD, MS (GRE)
Industrial Design - MR (GRE (not required but strongly encouraged))
Industrial Engineering - PhD, MS, MR (GRE)
Instructional Technology - Computers - MS, MEd (GRE or MAT (MEd and MS))
Integrated Manufacturing Systems Engineering - MR (GRE (exceptions apply; contact program))
International Studies - MR (GRE)

Landscape Architecture - MR (GRE (not required but strongly encouraged))
Liberal Studies - MA (entrance exam not required)

Marine, Earth, and Atmospheric Sciences - PhD, MS (GRE; GRE and GRE Subject Test for disciplines in Biological Oceanography and Geology)
Materials Science and Engineering - PhD, MS, MR (GRE (exceptions apply; contact program))
Mathematics - PhD, MS (GRE and GRE Subject Test (not required but strongly encouraged))
Mathematics Education - PhD, MS, MEd (GRE)
Mechanical Engineering - PhD, MS, MR (GRE)
Microbial Biotechnology - MR (GRE)
Microbiology - PhD, MS, MR (GRE)
Middle Grades Education - MS, MEd (GRE or MAT)

Natural Resources - MS, MR (GRE)
Nuclear Engineering - PhD, MS, MR (GRE (exceptions apply; contact program))
Nutrition - PhD, MS, MR (GRE)

Operations Research - PhD, MS, MR (GRE)

Parks, Recreation, and Tourism Management - PhD, MS, MR (GRE)
Physics - PhD, MS (GRE and GRE Subject Test)
Physiology - PhD, MS, MR (GRE)
Plant Pathology - PhD, MS, MR (GRE)
Poultry Science - MS, MR (GRE)
Fields of Graduate Instruction

Psychology - PhD, MS (GRE, GRE Subject Test also required for Industrial/Organizational Psychology, strongly recommended for all other programs. MAT not required but strongly encouraged.)
Public Administration - PhD, MR (GRE)
Public History - MA (GRE)

School Administration - MR (GRE or MAT)
Science Education - PhD, MS, MEd (GRE or MAT (MS, MEd); GRE (PhD))
Social Work - MR (GRE or MAT (required under certain conditions; contact department))
Sociology - PhD, MS, MR (GRE)
Soil Science - PhD, MS, MR (GRE required for US students, recommended for internationals)
Spanish Language And Literature - MA (Candidates must prove fluency in Spanish.)
Special Education - MS, MEd (GRE and MAT)
Special Education, Behavior Disorders - MS, MEd (GRE or MAT)
Special Education, Learning Disabilities - MS, MEd (GRE or MAT)
Special Education, Mental Retardation - MS, MEd (GRE or MAT)
Specialized Veterinary Medicine - MR (GRE)
Statistics - PhD, MS, MR (GRE)

Technical Communication - MS (GRE)
Technology Education - MS, MEd, EdD (GRE or MAT)
Textile and Apparel, Technology and Management - MS, MR (GRE)
Textile Chemistry - MS (GRE)
Textile Engineering - MS (GRE)
Textile Technology Management - PhD (GRE or GMAT)
Toxicology - PhD, MS, MR (GRE)
Training and Development - MS, MEd (GRE)

Veterinary Public Health - MR

Wood and Paper Science - PhD, MS, MR (GRE (exceptions apply; contact program))

Zoology - PhD, MS, MR (GRE)

Departments not normally requiring GRE scores may in special instances require their submission as additional information to be used in making a judgment of the student's potential for success in a graduate program.

Fields Offering Minors

The following fields and units, while not offering graduate degrees, support graduate education by offering graduate minors:

Artificial Intelligence
Biotechnology
Cognitive Science
Computational Engineering and Science
Ecology
Environmental Remote Sensing and Image Analysis
Food Safety
Geographic Information Systems
Interdisciplinary
Departments not normally requiring GRE scores may in special instances require their submission as additional information to be used in making a judgment of the student's potential for success in a graduate program.

---

**Fields Offering Graduate Certificates**

The following fields and units, while not offering graduate degrees, support graduate education by offering graduate certificates:

- Agricultural Education
- Community College Teaching
- Design and Analysis of Environmental Systems: Watershed Assessment and Restoration
- Geographic Information Systems
- Horticultural Science
- Molecular Biotechnology
- Nonprofit Management
- Nonwovens Science and Technology
- Training and Development

Departments not normally requiring GRE scores may in special instances require their submission as additional information to be used in making a judgment of the student's potential for success in a graduate program.

---

**Fields Offering Courses or Other Support to Graduate Programs**

The following fields and units, while not offering graduate degrees, support graduate education by offering graduate courses or in some other capacity:

- Biological Sciences
- Education
- Foreign Languages and Literatures
- Multidisciplinary Studies
- Philosophy

GRADUATE FACULTY

F. A. O. Buckless, Department Head

Director of Graduate Programs:
K. A. Krawczyk, Box 8113, 515.4439, katherine_krawczyk@ncsu.edu, Accounting

The Master of Accounting (MAC) is a professional degree designed to prepare students for careers in public accounting, in the accounting and finance divisions of major corporations, and in education, government, and non-profit institutions. Job titles of recent graduates include Staff Accountant, Internal Auditor, Financial Analyst, Budget Analyst, Cost Accountant, Tax Specialist, Assistant Controller, SBI Agent, State Auditor, and Internal Revenue Agent. Graduates will also be prepared to complete the CPA Examination.

Admission Requirements: Admission to the MAC program is competitive. The best-qualified applicants will be accepted up to the number of spaces available for new students. The Admissions Committee evaluates candidates on criteria such as

- undergraduate academic record and grade point average;
- GMAT score*;
- relevant activities and/or work experience; and
- presence, leadership, integrity, and other personal characteristics.

[The Admissions Committee requires all applicants who score below 500 on their first attempt to retake the exam prior to the application deadline.]

Individuals with a Bachelor's degree in any major may apply to the program; however, any applicant without a Bachelor's degree in accounting must complete a series of undergraduate accounting prerequisites before qualifying as a MAC degree candidate. More complete information can be found on the MAC website.

Master's Degree Requirements: Students complete a 12-course sequence in one year that includes ten graduate-level accounting courses and two non-accounting MBA courses (31 total credit hours). The curriculum is designed to provide a broad-based professional education. Students can choose to obtain a concentration in Information Technology.

Other Relevant Information: Masters students must begin the degree program in the summer or in the fall semester. The program is primarily designed for full-time students, and most classes meet during the day. A limited part-time option, where students complete the program in two years, is also available.

All application materials are due by one of two application deadlines--February 1 for consideration in both the MAC Fellowship and Scholarship programs; March 1 for all other applicants.
GRADUATE COURSES

ACC 508 Advanced Commercial Law
ACC 510 Accounting for Mergers and Acquisitions
ACC 511 Accounting for Derivatives and Hedging
ACC 515 Accounting Theory and Current Issues
ACC 519 Integrated Accounting Practice
ACC 521 Production Cost Analysis and Control
ACC 525 Advanced Management Accounting
ACC 530 Advanced Income Tax
ACC 533 Accounting and Tax Research Methodology
ACC 534 Taxation of Corporations and Shareholders
ACC 535 Taxation of Partnerships and S Corporations
ACC 536 Taxation of Estates, Trusts and Gifts
ACC 537 Tax Planning and Business Strategy
ACC 540 IT Risks and Controls
ACC 551 Advanced Auditing
ACC 552 Advanced Accounting Cases
ACC 580 Survey of Accounting
ACC 588 Special Topics in Accounting
ACC 600 Managerial and Career Effectiveness
ACC 630 Independent Study
ACC 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
ACC 689 Non-Thesis Master's Continuous Registration - Full-Time Registration

GRADUATE FACULTY

C. E. Kasworm, Department Head

Director of Graduate Programs: 
L. G. Sullivan, Box 7801, 515.6241, lgsullivan@ncsu.edu, Adult & Community College Education

W. Dallas Herring Distinguished Professor of Community College Education: L. G. Sullivan

ASSOCIATE MEMBERS OF THE PROGRAM

Professors Emeriti: R. D. Mustian, R. W. Shearon; Associate Professors Emeriti: R. T. Liles

The department offers degrees in adult and community college education, higher education administration, and training and development to meet the professional needs of leaders, administrators, program specialists, instructors, and consultants in community colleges, four-year colleges and universities, business and industry, and other adult and higher education organizations. Program specializations include adult and continuing education, community college leadership and higher education, health professions education, training and development, community college teaching, and student affairs.

Admission Requirements: In addition to Graduate School admission requirements, the department requires the student to submit GRE results (no older than five years). Specific information regarding admission can be obtained at the department's website: ced.ncsu.edu/ahe/admissions.htm.

Master's Degree Requirements: The M.S. and M.Ed. programs require a minimum of 36 semester hours. The Master of Science degree requires a final oral examination and thesis approved by the student's graduate committee.

Doctoral Degree Requirements: Students must have completed a Master's degree before being admitted to the doctoral program. The Ed.D. degree requires a minimum of 72 semester hours of which a maximum of 12 are dissertation. Students are expected to be advanced to candidacy no later than their sixth year. For more specific information on departmental admissions: ced.ncsu.edu/ahe/admissions.htm.
**Student Financial Support:** Information on financial aid at NC State may be found at [www7.acs.ncsu.edu/financial_aid](http://www7.acs.ncsu.edu/financial_aid).

GRADUATE FACULTY

J. L. Flowers, *Interim Department Head*

Director of Graduate Programs:
G. E. Moore, Box 7607, 515.1756, gary_moore@ncsu.edu, Agricultural & Extension Education

The Agricultural and Extension Education Department provides advanced study for professionals in agricultural education, extension education or related careers. Programs of study are designed to meet the individual needs of the student. Courses may be selected that lead to advanced teacher licensure in agriculture or an emphasis in extension education leading to advancement in careers in the Cooperative Extension Service. Additional specialization in the student's teaching or extension field is provided through a minor or advised elective courses. The following graduate programs are available in the Department:

- Graduate Certificate in Agricultural Education (requires 15 hours)
- Master of Science in Agricultural Education (requires 36 hours including a thesis)
- Master of Science in Extension Education (requires 36 hours including a thesis)
- Master of Agricultural Education (requires 36 hours)
- Master of Extension Education (requires 36 hours)
- Master of Agricultural Education (a 100% internet-based degree program offered in cooperation with North Carolina A&T State University, requires 36 hours)
- Sixth-Year Certificate in Agricultural Education
- Doctor of Education in Agricultural and Extension Education

**Admission Requirements:** In addition to the Graduate School admission requirements, the department requires either GRE or the Miller's Analogies Test (MAT) scores (for M.S. and Ed.D. degrees only), three positive references, and a statement of career goals and/or research interests. An interview (personal or by telephone) may be required.

**Master's Degree Requirements:** The Department offers an M.S. degree, which requires a thesis for which the student receives six hours of credit, and a Master of Agricultural Education and a Master of Extension Education as a non-thesis track. All Master's degree programs require a total of 36 credit hours. The Master of Science in Extension Education and the Master of Extension Education require a core of 21 hours (AEE 501, 505, 521, 523, 526, 577, and 578). The Master of Science in Agricultural Education and the Master of Agricultural Education require a core of 18 hours (AEE 501, 505, 526, 528 or 529, 535 or 735, and 578). Minors are optional but, if selected, require a minimum of nine credit hours.

**Graduate Certificate Requirements:** The Department also offers a graduate certificate in agricultural
education. This certificate program involves completion of 15 credit hours. Students are to choose from AEE 500, 503, 521, 522, 528, 529, 535, 641, and 735.

**Sixth-Year Certificate:** The Department offers an array of courses that are recognized by the Department of Public Instruction as comprising a Sixth-Year Certificate. Students are required to complete 24 hours of advanced graduate work past the Master's degree. Contact the Director of Graduate Programs for details.

**Doctoral Degree Requirements:** A Doctor of Education degree in Agricultural and Extension Education is offered. A minimum of 72 hours past the Bachelor's degree is required. More hours may be required based upon the past degrees and experiences of the candidate. The student’s graduate committee will determine the specific courses needed. At least six hours of statistics is required. Twelve hours of credit is earned for writing the dissertation.

**Student Financial Support:** A limited number of research and/or teaching assistantships are available on a competitive basis. Other financial aid is available from the Office of Financial Aid and on a competitive basis from the Graduate School.

**Other:** The graduate courses listed below are available live, online, or both. Students should refer to the current Pack Tracks information or to the AEE graduate program website.

**GRADUATE COURSES**

AEE 500 Agricultural Education, Schools and Society  
AEE(ED) 501 Foundations of Agricultural and Extension Education  
AEE 503 Youth Program Management  
AEE 505 Trends and Issues in Agricultural and Extension Education

GRADUATE FACULTY

Director of Graduate Programs:
M. A. Rappa, Box 7268, 424.4550, mrappa@ncsu.edu, Initiative for Advanced Analytics

Alan T. Dickson Distinguished University Professor: M. A. Rappa

Professors: D. A. Dickey, C. P. Jones; Associate Professors: J. B. Earp, L. A. Williams

The Master of Science in Analytics (MSA) is an intensive 10-month professional degree designed to give students a thorough understanding of the tools, methods, and applications of advanced analytics. It is both focused and practical in orientation, and seeks to provide training directly relevant to industry. Its educational objectives include but are not limited to topics, such as data quality and integration, data and text mining, forecasting, optimization, and other areas of statistics; business intelligence methods involving reporting, query and analysis, online analytical processing, data storage, and visualization; and an understanding of data security and privacy, and ethical issues. Students are provided hands-on experience using the same complex analytics tools used in industry today. Student team projects aim to provide experience with solving complex analytical problems in industry and in other areas of science, medicine and engineering, such as financial intelligence, fraud detection, warranty analysis and risk management; marketing optimization and customer analytics; simulating and optimizing supply chain flows, dynamic pricing, production control and service quality improvement; web analytics; evidence-based medicine; biological data analysis; data mining for network intrusion detection or software engineering.

Admission Requirements: Admission to the MSA program is highly competitive. The best-qualified applicants will be accepted up to the limited number of spaces available for students each year. The Admissions Committee evaluates candidates on criteria such as:

- superior overall academic record and grade point average;
- strong academic performance in analytical/quantitative subjects;
- GRE General Test score;
- relevant employment experience and potential to succeed in the profession; and
- leadership, integrity, and other personal character traits.

Individuals with a Bachelor's degree in any major may apply to the program; however, an applicant without prior coursework in statistics, mathematics, computer programming, would need to complete a set of prerequisite courses before qualifying as a candidate for admission. More information can be found on the MSA website.

Master's Degree Requirements: Students complete 30 credit hours of defined coursework in a period of ten months beginning in Summer Session II and ending the following Spring semester. The integrated curriculum is designed to provide a focused professional education in the tools, methods and applications of data analytics.

Other Relevant Information: Students must begin the degree program in the first semester (Summer Session II) and complete all 30 credit hours of the curriculum. The program is designed for full-time students only. All application materials are due by May 1.

Animal science offers an opportunity for training in a diversity of basic sciences and the integration of such knowledge into the framework of a living system. Students may major or co-major in animal science or one of the following disciplines: biochemistry, genomics, genetics, microbiology, nutrition, physiology or statistics. Students may also concentrate in management and production areas.

Admission Requirements: Factors considered for admission include: grade point average, scores on the GRE (for M.S. and Ph.D. applicants), undergraduate courses, letters of recommendation and a member of the Animal Science Department faculty willing to serve as the applicant's advisor.

Master of Science: A minimum of 30 credit hours of graduate work in the degree program is required. The minor is optional and external faculty representation is not required on the advisory committee.

Master of Animal Science: The non-thesis Master of Animal Science degree requires a minimum of 36 credit hours, of which a minimum of 9 credits are in Animal Science courses at the 500 or above level and 3 to 6 credits are for a research project (ANS 610).

Doctoral Degree Requirements: The department offers a Ph.D. program in Animal Science and Poultry Science with a concentration in Animal Science.

Student Financial Support: A limited number of research and teaching assistantships are available through the
department and are awarded on a competitive basis. Students may also be supported by research grant funds awarded to faculty members. Students applying for assistantships are advised to apply by February 15 for fall admission.

**Other Relevant Information:** To provide an opportunity for students to develop their teaching skills, all graduate students are required to assist in the departmental teaching program, regardless of source of financial support.

GRADUATE FACULTY

Directors of Graduate Programs:
C. E. Farin, Box 7621, 515.4022, char_farin@ncsu.edu, Animal Science
J. T. Brake, Box 7608, 515.5060, jbrake@ncsu.edu, Poultry Science

William Neal Reynolds Distinguished Professor and Director of Graduate Programs ANP and PSC: J. T. Brake
William Neal Reynolds Professor: J. Odle
William Neal Reynolds Professor Emeritus: E. J. Eisen

Visiting Professors: D. E. Pritchard;
Adjunct Professors: W. L. Bryden, K. K. Krueger, S. M. Shane, Z. Uni;
Adjunct Associate Professors: C. E. Whitfill;
Associate Professors Emeriti: E. U. Dillard, J. J. McNeill;
Assistant Professors: C. M. Ashwell, M. S. Ashwell, J. P. Cassady, M. E. Hockett, M. Koci, H. Liu;
Adjunct Assistant Professors: C. L. Heggen-Peay, T. F. Middleton, C. J. Williams

ASSOCIATE MEMBERS OF THE PROGRAM

Associate Professors: G. A. Benson, M. D. Whitacre

Doctoral Degree Requirements: A doctoral degree in Animal Science and Poultry Science with a concentration in either Animal Science or Poultry Science is offered. Specific course requirements are flexible and each student's program of study is developed in consultation with their Ph.D. advisory committee. The minor is optional but external faculty representation is required on the advisory committee.

Note: The Master's program in Animal Science and Poultry Science are administered independently by each department.

Admission Requirements: Factors considered for admission include: grade point average, scores on the GRE, undergraduate courses, and letters of recommendation. A member of either the Animal Science Department or Poultry Science Department faculty can serve as the applicant's advisor.

Student Financial Support: The Departments of Animal Science and Poultry Science offer a limited number of research and teaching assistantships that are awarded on a competitive basis. Students may also be supported by research grant funds awarded to faculty members. Students applying for these assistantships are advised to
apply by February 15 for fall admission.

**Other Relevant Information:** There are two curriculum codes for the Animal Science and Poultry Science doctoral degree program. If a student is interested in a program concentration in Animal Science the appropriate curriculum code for the admissions application is ANA. If the student is interested in a program concentration in Poultry Science the appropriate curriculum code for the admissions application is ANP. If the appropriate curriculum code is not selected, it will likely delay the department's receipt of the applicant’s information from the Graduate School.

GRADUATE FACULTY

Director of Graduate Programs: A. L. Schiller, Box 8107, 515.9015, anne_schiller@ncsu.edu, Sociology & Anthropology

Professors: A. L. Schiller; Associate Professors: J. M. Wallace III; Assistant Professors: D. T. Case, R. S. Ellovich, S. M. Fitzpatrick, J. K. Jacka, A. H. Ross

The graduate degree in Anthropology is a 36-hour, two-year long Master of Arts thesis program which will enable students to gain a deeper understanding of the behavior, beliefs, and evolutionary legacy of the human species. In addition to common core courses, students will select one of three concentrations in which to continue their studies: Bioarchaeology, Cultural Anthropology, or Environmental Anthropology.

The program provides excellent preparation for students wishing to pursue a Ph.D. in Anthropology. Graduates of the program may also pursue employment in a variety of areas including development organizations and nonprofits, human resource management, cultural resource management, or in physical anthropology or archeology labs.

Admissions Requirements: In addition to general Graduate School requirements, applicants are required to provide a completed application, including transcripts, GRE scores, three letters of recommendation, and a personal statement. A writing sample and CV are optional but encouraged. The deadline for completed applications is January 15. The curriculum is set for fall admission only.

Master's Degree Requirements: The M.A. degree requires a total of 36 credit hours. All students take six hours of common core courses in theory and qualitative research and then select one of the three specializations: cultural anthropology, environmental anthropology, or bioarchaeology. Students in all three concentrations will take six hours of thesis research credit (ANT 695).

Student Financial Support: Teaching assistantships are available on a competitive basis. Students are appointed to assistantships with the expectation of reappointment, assuming normal progress, for a total period of two years.

GRADUATE FACULTY

T. M. Barrie, Director of the School of Architecture

Director of Graduate Programs:
W. H. Redfield, Box 7701, 515.8362, wendy_redfield@ncsu.edu, Architecture

Graduate Alumni Distinguished Professor of Architecture: R. H. Clark

The School of Architecture offers three tracks to the Master of Architecture degree: Track 1 is for applicants with a four-year undergraduate degree in architecture and may be completed in two years of full-time study. Track 2 is for applicants holding a five-year NAAB-accredited Bachelor of Architecture degree and normally requires three semesters in residence. Track 3 is for students with degrees in fields other than architecture. This track normally requires three semesters of preparatory work before entering the final two-year program of graduate study. Some applicants with design-related academic or professional experience may be able to complete the preparatory work in less time. Curriculum requirements for the M.Arch. degree are held to a minimum in order to permit students the necessary flexibility to achieve individual educational and professional goals.

A variety of courses are available within the School of Architecture in urban and community design, architectural history and theory, methods and programming, architectural conservation, professional practice, building technology and environmental systems.

Admission Requirements: In addition to documents required by the Graduate School, students apply to the Master of Architecture program by submitting the following documents by January 5: (1) Portfolio of work; (2) Completed School Personal Data Form; (3) GRE scores (Track 3 applicants only); (4) TOEFL scores (foreign language students only). Applicants will be considered on an individual basis. Exceptions to Graduate School policy may be made for students indicating other qualifications and professional experience.

Master's Degree Requirements: The school stipulates the minimum course credits based on educational and professional goals to individualize a plan of study.

Student Financial Support: The school awards a number of scholarships, awards, and teaching assistantships competitively. It also supports national and statewide scholarships, fellowships, and awards. All support is merit based, not need based. No special application for such support is necessary at the time of admissions.

National Architectural Accrediting Board (NAAB): "In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of
Architecture, and the Doctor of Architecture. A program may be granted a six-year, three-year, or two-year term of accreditation, depending on its degree of conformance with established educational standards.

"Master's degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, comprise an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

"Professional degree programs in the NC State University School of Architecture (i.e. Master of Architecture and Bachelor of Architecture) are fully accredited by the NAAB. The Bachelor of Environmental Design in Architecture (BEDA) degree, being a pre-professional program, does not fall under NAAB accreditation jurisdiction although it serves as the foundation for the two accredited professional degrees."

GRADUATE FACULTY

C. D. Cox, Department Chair

Director of Graduate Programs:
C. E. Joyner, Box 7701, 515.2078, cjoyner@ncsu.edu, Art and Design

Professors: S. D. Brandeis, C. E. Joyner, M. Pause; Associate Professors: C. D. Cox, L. M. Diaz, P. FitzGerald, D. G. Raymond, S. M. Toplikar; Assistant Professors: V. K. Plume

The Art and Design program offers an educational structure that creates a new art and design professional: one for whom artistic and practical talents are developed as different expressions of individual potential. Our objectives are to graduate highly educated art and design professionals with integrated competencies in art, design, aesthetics, hand and digital technologies, skills in the concentration and other disciplines of human knowledge.

Areas of concentration in the Master of Art and Design are (1) Fibers and Surface Design, and (2) Animation and New Media.

Admission Requirements: Students will be required to submit a portfolio of past work in slide or electronic format; three letters of recommendation; a statement of personal goals; and transcripts of undergraduate work (minimum undergraduate GPA of 3.0). An interview will be required, but in cases of international applicants or those quite distant from NC State University, may be conducted by means of a long distance phone conversation or may be waived at the faculty's discretion.

Master's Degree Requirements: The program of study requires a minimum of 48 credit hours of graduate work depending on background preparation of the applicant. Separate tracks of 60 and 72 credit hours accommodate students with insufficient background in the chosen concentration.

Other Information: We will only admit students to the program in the fall semester each year. Deadline for application is January 5.

GRADUATE FACULTY

D. T. Brown, *Department Head*

*Director of Graduate Programs:*
E. S. Maxwell, Box 7622, 515.5803, stu_maxwell@ncsu.edu, Biochemistry

*Professor of Biochemistry and Genetics and William Neal Reynolds Professor:*** L. K. Hanley-Bowdoin

*William Neal Reynolds Professor:*** W. L. Miller

ASSOCIATE MEMBERS OF THE PROGRAM

*Professors:* R. R. Sederoff, H. M. Hassan, J. W. Moyer; *Named Professors Emeriti:* H. E. Swaisgood; *Associate Professors:* J. W. Brown, J. M. Horowitz

The graduate program in biochemistry is designed to prepare individuals for careers in research and teaching. Emphasis is primarily focused on laboratory research, where graduate students work closely with faculty. The department is well equipped to conduct research in biochemistry, biophysics, molecular biology and molecular genetics.

*Admission Requirements:* Students entering the graduate program in biochemistry should have a bachelor's degree in biochemistry, chemistry or a related physical or biological science, including undergraduate courses in organic chemistry, calculus, physics and physical chemistry, as well as biochemistry/molecular biology.

*Master of Science Degree Requirements:* The Master of Science degree requires a minimum of 30 credit hours of courses and thesis research including nine credit hours in biochemistry graduate core courses. On average, completion of the M.S. degree requires two to three years.

*Doctoral Degree Requirements:* Requirements for the Ph.D. degree include a minimum of 30 credit hours in course work and thesis research, including the three graduate core courses and at least two advanced courses in biochemistry/ molecular biology; teaching experience. Formal course work may be completed within three semesters; on average, completion of the Ph.D. degree requires five years.

*Student Financial Support:* The department endeavors to meet the financial needs of students accepted into its doctoral program. Essentially all admitted students are offered the opportunity to apply for graduate teaching and research assistantships.

*Other Relevant Information:* The Department of Biochemistry is jointly administered by the Colleges of Agriculture and Life Sciences and Physical and Mathematical Sciences. The department, committed to a strong research environment, interacts with other life science departments on campus as well with the other research
universities and institutes of the Research Triangle area.

GRADUATE FACULTY

R. O. Evans Jr., Department Head

Director of Graduate Programs:
D. H. Willits, Box 7625, 515.6755, dan_willits@ncsu.edu, Biological & Agricultural Engineering

Distinguished University, Graduate Alumni Distinguished, and Wm. Neal Reynolds Professor: R. W. Skaggs

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: K. R. Swartzel, B. E. Farkas, A. E. Hassan; Associate Professors: C. R. Daubert, S. C. Roe, K. P. Sandeep; Adjunct Associate Professors: K. M. Keener

Course offerings or research facilities are available in the following areas: bioinstrumentation, biomechanics, bioprocessing, food and process engineering, biological systems modeling, aquaculture, hydrology, water table management, ground water management, animal waste management, non-point source pollution, power and machinery, soil and water, controlled environment agriculture, electrical and electronic systems, robotics and machine vision.

Admission Requirements: A baccalaureate in biological or agricultural engineering or the equivalent is the preferred prerequisite for admission. Those with strong academic background in the physical or biological sciences may also be admissible with a requirement for certain additional background undergraduate work. In the case of applicants with Master's degrees, a Master's GPA of at least 3.2 is required for admission. Exceptions to the overall undergraduate GPA requirements may be made for cases where performance in the major or during the last two years was at or above the 3.00 level.

GRE scores are recommended for those with academic performance records near the minimal level. Applicants without engineering degrees from domestic accredited institutions must submit GRE scores to be considered for admission. Admission decisions are made by a faculty review committee. The best-qualified applicants will be accepted up to the number of spaces available for new students.

Master's Degree Requirements

M.BAE: This Option B non-thesis degree requires 30 hours of approved graduate course work.
M.S.: This is a thesis degree requiring 30 hours of approved graduate coursework. A minor is required.
Doctoral Degree Requirements: Course hour requirements are flexible but typically include at least 36 hours beyond a Master's degree. Direct admission without a Master's is possible in exceptional cases. A minor is required.

Student Financial Support: Graduate assistantships are available to students in this program on a competitive basis.

GRADUATE FACULTY

Director of Graduate Programs:
J. E. Riviere, Box 8203, 513.6305, jim_riviere@ncsu.edu, Statistics

Burroughs Wellcome Distinguished Professor and Director of Graduate Programs, Biomathematics: J. E. Riviere
Camille Dreyfus Professor: C. K. Hall
University Professor and Drexel Professor: H. T. Banks
William Neal Reynolds Professor: W. R. Atchley, Z. Zeng

ASSOCIATE MEMBERS OF THE PROGRAM

Adjunct Professors: R. B. Conolly, L. B. Crowder, P. H. Morgan; Adjunct Assistant Professors: J. S. Kimbell, M. W. Lutz

Biomathematics is an interdisciplinary graduate program offering courses and research opportunities in basic and applied mathematical biology. Degree programs are flexible to accommodate students with backgrounds in the biological, mathematical or physical sciences. The program also offers Ph.D. and master's-level minors. A brochure with additional information on requirements, courses, faculty and current research can be obtained by writing the program director.

Admission Requirements: Applicants should have either a Bachelor's degree in biology with evidence of aptitude and interest in mathematics, or a bachelor's in a mathematical science with evidence of aptitude and interest in biology. Advanced (multivariate) calculus, linear algebra and general biology are prerequisites for all BMA courses, and deficiencies in these should be remedied during the first year of graduate study. The application must include a narrative statement (1-2 pages) of the applicant's goals and reasons for interest in the BMA program.

Master's Degree Requirements: The M.S. and M.BMA. degrees require BMA 567 or 774, 771-772; two upper-level biology courses; and three courses from the mathematical sciences or statistical sciences. The M.S. degree requires a thesis, and the M.BMA. requires two additional courses and a written project.

Doctoral Degree Requirements: Course requirements consist of a "core" and a "concentration" in some area of biology or mathematical sciences. Core requirements are: BMA 771-772, 773 and 774; three upper-level biology courses from at least two areas (e.g., physiology and evolution); and additional courses from the mathematical or statistical sciences. Concentration consists of either a Ph.D. co-major in a biological or mathematical science or a coherent series of five graduate courses approved by the student's committee, which must include a two-semester sequence and at least one 700-level course.
Financial Assistance: TAs (generally in the Departments of Statistics or Mathematics), RAs and internships are available. Awards are based on GRE scores, transcripts and letters of recommendation. RAs usually are held by continuing students. To receive full consideration for financial aid, the completed application must be received by March 1.

Other Relevant Information: All students are required to participate in the BMA Graduate Seminar. Course requirements can be met by examination or by demonstrating that an equivalent course was completed at another university.

GRADUATE COURSES

BMA 567 Modeling of Biological Systems
BMA 573 Mathematical and Experimental Modeling of Physical Processes I
BMA 574 Mathematical and Experimental Modeling of Physical Processes II
BMA 590 Special Topics
BMA 610 Special Topics
BMA 685 Master's Supervised Teaching
BMA 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
BMA 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
BMA 690 Master's Examination
BMA 693 Master's Supervised Research
BMA 695 Master's Thesis Research
BMA 696 Summer Thesis Research
BMA 699 Master's Thesis Preparation
BMA(OR,ST) 722 Decision Analytic Modeling
BMA(MA,ST) 771 Biomathematics I
BMA(MA,ST) 772 Biomathematics II
BMA(MA,OR,ST) 773 Stochastic Modeling
BMA(MA,OR) 774 Partial Differential Equation Modeling in Biology
BMA 790 Special Topics
BMA 801 Seminar
BMA 815 Advanced Special Topics
BMA 885 Doctoral Supervised Teaching
BMA 890 Doctoral Preliminary Examination
BMA 893 Doctoral Supervised Research
BMA 895 Doctoral Dissertation Research
BMA 896 Summer Dissertation Research
BMA 899 Doctoral Dissertation Preparation

GRADUATE FACULTY

H. T. Nagle Jr., *Interim Department Head*

*Director of Graduate Programs:*
S. B. Knisley, Box 7115, 966.6653, sknisley@email.unc.edu, Biomedical Engineering

ASSOCIATE MEMBERS OF THE PROGRAM

The Joint Biomedical Engineering Graduate Program is administered by the combined biomedical engineering graduate faculty from both NC State University and University of North Carolina at Chapel Hill. The joint program also has close working relations with the Research Triangle Institute and industry within the Research Triangle area. These associations enable students to obtain research training in a wide variety of fields and facilitate the selection and performance of dissertation research. The department, thus, provides students with excellent opportunities to realize the goal of enhancing medical care through the application of modern technology.

Biomedical engineering is a dynamic field stressing the application of engineering techniques and mathematical analysis to biomedical problems. Faculty research programs are key to the program, and they include digital systems and signal processing, instrumentation, telemedicine, microelectronics, medical imaging, biofluids and biomechanics, biomaterials and tissue engineering, biosystems analysis, biomedical informatics. Facilities include a biomedical sensors laboratory, a tissue engineering laboratory, tissue and cell mechanics laboratories, and an array of cell culturing and computing resources.

**Admission Requirements:** Students must satisfy all entrance requirements for the Graduate Schools of the University of North Carolina at Chapel Hill or North Carolina State University and must demonstrate interest and capability commensurate with the quality of the biomedical engineering program. Prospective students may apply to the graduate school at either UNC-CH or NC State. All applicants are considered together as a group and there is no advantage in applying at one institution or the other. Generally, applications should be submitted by January 1 for consideration for admission in the coming fall semester. Applicants are expected to present GRE scores; scores for verbal and quantitative should be at or above the 50th percentile to be competitive. The
program requires that a one-to-three page personal statement about research interest and background be submitted.

**Master’s Degree Requirements:** For students with a strong engineering background a minimum of 31 semester hours of graduate study is required for the M.S. Degree. Three hours must be in thesis and three hours must be in a course intended for graduate students only (the 700 level at NC State or the 700-800 level at UNC-CH). Further information on the BME Master's program can be found on the department website.

**Doctoral Degree Requirements:** A minimum of 52 semester hours of graduate work is required (beyond the Bachelor's degree). The student must meet the Graduate School’s residency requirement at UNC-CH or NC State as appropriate. All Ph.D. students are also required to have some teaching experience. Further information on the BME Ph.D. program can be found on the department website.

**Required and highly recommended courses:** Students are required to take Introduction to Biomedical Engineering Seminar (BMME 400) offered at both UNC-CH and NC State and at least one credit of research experience in the first year of study. Students must also complete nine credits of graduate engineering topics, eight credits of graduate life science topics, six credits of engineering mathematics, and three credits of statistics. Students may choose from a number of courses to meet these requirements. Such choices are made in consultation with the student's academic advisor and the Director of Graduate Programs/Studies.

**Comprehensive and Qualifying Examinations:** Master's students are required to take a Comprehensive examination, encompassing coursework and thesis research. The Master's Comprehensive exam may be either written or oral, and is administered by the students advisory committee. Doctoral students qualify for the PhD degree by meeting grade requirements in their core courses, and then advance on to written and oral preliminary exams before admission to candidacy. Details can be found on the department website.

Course offerings or research facilities are available in the following areas: cellular signaling, stress biology, plant gravitational genomics, phytochemistry, plant development, plant genetic engineering, transgene regulation and silencing, wound responses, metabolic engineering, cellulose biology, plant-fungal interactions, plant cell biology, cellular imaging, membrane biochemistry, seed biology, aquatic ecology, toxic dinoflagellates, wetlands ecology, endangered species, plant community ecology, physiological ecology, tropical ecology, paleobotany, plant systematics, evolution of flowering plants.

Admission Requirements: In special situations, students with an undergraduate GPA of less than 3.00 (on a 4.00 scale) may be admitted provisionally. If students lack certain prerequisites (e.g., in mathematical, chemical, biological or other areas), additional courses may be required that do not qualify for graduate credit. The best qualified students will be accepted when spaces are available for new students.

Master's and Doctoral Degree Requirements: The M.S. requires a total of 30 credit hours (20 of the 30 credit hours must be from 500-, 600-, 700/800-level courses); the Master of Botany requires a total of 36 credit hours. The Ph.D. requires a total of 72 credit hours. Two core courses (Plant Form and Function and Plant Functional Ecology) are required. Other requirements include: a Botany Colloquium, an additional botany course, a graduate statistics course, a graduate ethics course, a thesis (for the Ph.D. and M.S., but not the Master of Botany), a comprehensive examination (Ph.D.), oral thesis defense and a one-semester teaching responsibility per degree. Students must maintain a "B" average in all course work.

Other Relevant Information: Graduate research and teaching assistantships and tuition remission information are available from the department. Graduate students are expected to attend and participate in the seminar program every semester they are in residence. The department participates in training grants in biotechnology

Director of Graduate Programs:
S. G. Allen, Box 7229, 515.5584, steve_allen@ncsu.edu, Business Management

Alan T. Dickson Distinguished University Professor: M. A. Rappa

Bank of America University Distinguished Professor: R. B. Handfield

ASSOCIATE MEMBERS OF THE PROGRAM

Associate Professors: P. Arasu

The Master of Business Administration (MBA) program develops leaders for tomorrow's markets and technologies. NC State's MBA provides a solid foundation in the principles of finance, marketing, and other traditional business subjects.

The most distinctive feature of the program is its emphasis on management of technology. We offer concentrations in Biotech/Pharmaceuticals Management, Financial Management, Information Technology Management, Marketing Management, Product Innovation Management, Services Management, Supply Chain Management, and Technology Entrepreneurship. Most students have a technology background, either from their undergraduate degree or previous work experience.

Admission Requirements: In addition to basic Graduate School admission requirements, applicants must submit recent GMAT scores. Admission decisions are based on academic performance and potential, GMAT scores, essays, and relevant work experience. Students must have a previous coursework in calculus before entering the program. For further information, please visit the MBA website at www.mba.ncsu.edu.

Master's of Business Administration: The MBA curriculum requires that every student complete the core curriculum listed below, along with concentration and elective courses, for a total of 51 credit hours for full-time students and 45 credit hours for part-time students.

ACC 580 Survey of Accounting
BUS 500 Strategic Management
BUS 520 Managerial Finance
BUS 530 Managing People in the High Tech Environment
BUS 550 Data Analysis and Forecasting Methods for Management
BUS 560 Marketing Management and Strategy
BUS 570 Production and Operations Management
BUS 590T Managerial and Career Effectiveness
ECG 507 Economics for Managers

**Technical Concentration:** Minimum of 12 hours (full-time) or nine (9) hours (part-time) of courses in one of the following areas: Biotech/Pharmaceuticals Management, Financial Management, Information Technology Management, Marketing Management, Product Innovation Management, Services Management, Supply Chain Management, and Technology Entrepreneurship

**Electives:** Minimum of 12 hours for full-time students, three (3) hours of which must be in a course in information technology management and three (3) hours of which must be in a global elective course. Minimum of nine (9) hours for part-time students, three (3) hours of which must be in a global elective course.

**Minor in Management:** Students enrolled in Master's and doctoral programs can complete the minor by taking courses that meet requirements for the MBA degree. Master's students must take nine (9) hours; doctoral students must take 15 hours.

**GRADUATE COURSES**

BUS 500 Strategic Management
BUS 501 Legal and Regulatory Environment in Management
BUS 504 Technology, Law and the Internet
BUS 510 Managing the Digital Enterprise
BUS 511 Networking Infrastructure for E-commerce
BUS(CSC) 516 E-Commerce Practicum
BUS 520 Managerial Finance
BUS 522 Portfolio and Capital Market Theory
BUS 524 Financial Markets and Institutions
BUS 526 International Finance
BUS 527 Corporate Risk Management with Derivatives
BUS 528 Short-term Capital Management
BUS 529 New Firm Financing
BUS 530 Managing People in the High-Tech Environment

ASSOCIATE MEMBERS OF THE PROGRAM

*Professors:* H. Jameel, C. M. Balik; *Associate Professors:* C. R. Daubert, J. F. Kadla

Research activities in the department include: biomolecular engineering; catalysis, electrochemical and reaction engineering; electronic materials; green chemistry and engineering; polymers and colloids; nanotechnology and interfacial science; thermodynamics and molecular simulation; and supercritical fluids.

Admissions Requirements: Students admitted to the graduate program normally have a bachelor's degree in chemical engineering or its equivalent. Students with undergraduate degrees in chemistry, physics or other engineering disciplines may be admitted but will be required to make up undergraduate course work deficiencies in chemical engineering without graduate credit. The most promising candidates will be accepted up to the number of spaces available.

Master of Science Degree Requirements: The M.S. degree requires a minimum of 30 credit hours. A set of four core courses is required. Two options are provided. In the thesis option, the final thesis must be defended in a final public oral examination. In the non-thesis option, the student must satisfactorily complete a total of 10 graduate courses.

Master of Chemical Engineering Degree Requirements: The M.Ch.E. degree requires a minimum of 30 credit hours. A set of four core courses is required. A three-credit project is also required.

Doctor of Philosophy Degree Requirements: Students normally take a set of five core courses, two advanced courses and at least 6 credits of dissertation research. A thesis is required; this must be defended in a final
public oral examination. In addition, the candidate must: (1) submit and defend an original written proposition in any area of chemical engineering, and (2) submit and defend a proposal to perform his/her thesis research.

The Department of Chemistry offers programs of study leading to the Doctor of Philosophy, Master of Science and Master of Chemistry degrees. The Ph.D. and M.S. degrees are based on original research, while the Master of Chemistry degree is a non-research degree. Many research projects merge disciplines such as biochemistry, computational science, materials science, physics, statistics and toxicology with chemistry. General courses as well as advanced and special topics courses are offered.

Admission Requirements: Applicants should have an undergraduate degree in chemistry or in a closely related field with a strong chemistry background. A GPA of at least 3.0 in the sciences is needed for consideration. GRE General Test scores are strongly recommended, and the Subject Test is recommended. Admission decisions are made as completed applications are received. For most favorable consideration for the fall term, all application materials should be received by March 1; for spring admission, by August 15.

Master's Degree Requirements: The Master of Chemistry (M.C.) degree is a non-thesis degree requiring primarily coursework. Contact the Director of Graduate Programs for further details. The Master of Science (M.S.) degree in chemistry is a research degree that requires six graduate courses and research leading to a thesis. Both Master's degrees require a minimum of 30 credit hours of graduate work.

Doctoral Degree Requirements: In the doctoral program, emphasis is placed on original research and a comprehensive knowledge of one's chosen field.

Student Financial Support: Incoming graduate students are supported by departmental teaching assistantships. Outstanding applicants are eligible for supplemental fellowships during their first year of study. Research assistantships are normally available to second-, third-, and fourth-year students. The department also has
fellowships for students interested in the area of electronic materials, biotechnology and pharmaceutical and synthetic organic chemistry.

**Other Relevant Information:** The Department of Chemistry is one of five academic departments in the College of Physical and Mathematical Sciences. Fifteen new faculty members have been added in the last ten years, thereby greatly enhancing opportunities for graduate research especially in cutting edge interdisciplinary programs.

GRADUATE FACULTY

G. F. List, Department Head

Director of Graduate Programs:
D. W. Johnston, Box 7908, 515.7412, johnston@eos.ncsu.edu, Civil Engineering

Distinguished Professor: S. H. Rizkalla

Graduate programs are offered in coastal and water resources engineering, computer-aided engineering, construction engineering and management, environmental engineering, geotechnical engineering, public works engineering, structures and mechanics, transportation engineering and materials.

Admission Requirements: Normal minimum requirements include a 3.0 GPA in a related engineering major. Provisional admission may be granted to applicants who do not satisfy normal admission criteria but have other special qualifications. Applicants without academic experience in civil engineering, construction engineering, or environmental engineering may be required to take undergraduate courses to remove deficiencies, without graduate credit. The Graduate Record Examination normally is required of all applicants.

Master's Degree Requirements: Two Master's degrees, each requiring a minimum of 30 credit hours, are available. At least two-thirds of a Master's program should be in a well-defined major area of concentration. The M.CE. is a non-thesis (Option B) degree with other requirements, such as independent projects or core courses, specified in some areas of specialization. A formal minor is not permitted. The M.CE. is available both on-campus and through distance education. The M.S. degree requires a thesis and a formal minor is optional.

Doctoral Degree Requirements: The Ph.D. typically requires one year of full-time coursework beyond the master's degree and research culminating in a dissertation. The program must develop a well-defined major area of concentration and may include supporting courses outside the major or a formal minor in a related field.

Student Financial Support: Departmental teaching and research assistantships are available including coverage of tuition and health insurance. Fellowships supplementing the assistantships, which may include coverage of academic fees, are available for exceptional U. S. applicants. All financial aid recipients are selected on merit-based competition with other applicants. Applications requesting financial aid should be
submitted early: February 1 for Fall admission and by July 15 (international) or October 1 (U.S.) for Spring admission, although these are not deadlines.

GRADUATE FACULTY

C. A. Smith, Department Head

Director of Graduate Programs:
W. J. Jordan, Box 8104, 515.9757, jordan@social.chass.ncsu.edu, Communication

The Master of Science program in communication is designed to provide graduate-level expertise for solving problems in modern organizations and social systems from a communication perspective and addresses issues concerned with interpersonal, relational and technologically mediated communication systems essential to modern, networked organizations and societies. Its graduates will acquire advanced-level expertise in communication theory, research and applications that will improve processes and enhance outcomes within and across diverse social systems and will prepare them for higher-level managerial positions in their professions.

Admission Requirements: Applicants should have a minimum 3.0 GPA in the undergraduate major and a minimum of 3.0 over the last 60 hours of undergraduate work.

Master's Degree Requirements: The degree requires 36 credit hours with a minimum of 27 credit hours taken in communication; up to 9 hours may be taken outside of the department with the approval of the graduate advisor. Students will be required to complete 12 hours in communication theory, 6 hours in communication research methods and 9 hours in applied communication courses. They will also be required to complete 9 hours as electives to be chosen from among the first three groups of courses or up to 9 hours of electives may be taken outside the department with the approval of the graduate advisor.

GRADUATE COURSES

COM(ENG) 514 History of Rhetoric
COM(ENG) 516 Rhetorical Criticism: Theory and Practice
COM 520 Seminar in Crisis Communication
COM 521 Communication and Globalization
COM 522 Critical Approaches to Organizational Communication
COM 523 International and Intercultural Communication
COM 524 Political Communication in Organizations
COM 525 Communication and Decision Making
COM 526 Media Ownership
COM 527 Seminar in Organizational Conflict Management
COM 528 Communication Culture and Technology
COM 541 Quantitative Research Methods in Applied Communication
COM 542 Qualitative Research Methods in Applied Communication
COM 556 Seminar in Organizational Communication
COM 561 Human Communication Theory
COM 562 Communication and Social Change
COM 585 Teaching College Communication
COM 598 Special Topics in Communication
COM 630 Independent Study
COM 685 Master’s Supervised Teaching

GRADUATE FACULTY

Director of Graduate Programs:
C. R. Miller, Box 8101, 515.4126, crmiller@ncsu.edu, College of Humanities & Social Sciences

SAS Distinguished Prof in Technical Communication & DPG, Communication, Rhetoric & Digital Media: C. R. Miller

The interdisciplinary Ph.D. program in Communication, Rhetoric, and Digital Media (CRDM) is offered by the College of Humanities and Social Sciences with the cooperation of the Department of Communication and the Department of English. Built on the premise that new developments in communication media and information technologies require a dramatic shift in instruction and research, the program integrates the study of oral, written, and visual modes of communication to focus on the human dimensions of information and communication technologies.

Students can create programs of study in areas such as computer-mediated communication, visual rhetoric, digital culture, electronic communication across the curriculum, media and technology policy, textual mediation, digital literacy, and online information design. Graduates will help meet the increasing national demand for faculty with technology specializations to teach and lead programs in areas such as writing and speaking across the curriculum, organizational and interpersonal communication, composition studies, technical communication, rhetorical studies, and media studies. Industry and government also need professionals to conduct research, manage development, and analyze policy in the uses and applications of new communication technologies.

Admission Requirements: Master’s degree in Communication, English, Rhetoric, or other relevant field with GPA of 3.0 or better. Master’s level work should include one quantitative or qualitative methods course, as well as three courses in an approved disciplinary area and one in a second disciplinary area. Applicants who are otherwise well qualified may make up these courses after admission. GRE scores, a statement of goals and interests, a resume of work experience, and a writing sample are also required for application to the program. See our website for more detail.

The application deadline for Fall semester admission is February 1. The program will notify applicants of admission decisions by March 1 and expects acceptance of admission offers by April 15.

Ph.D. Degree Requirements: A minimum of 56 credit-hours beyond the Master's degree are required to complete the Ph.D. program: 15 credit hours of core courses, 3 hours of research methods, 6 hours of professional preparation, 12 hours in an elective focus area, and 20 hours of research and dissertation. Students entering directly from a Master's program at NC State may be able to count additional Master's work toward some of these requirements.
Student Financial Support: The CRDM program offers a limited number of Teaching Assistantships, with a stipend, health insurance, and tuition (excluding fees). Teaching Assistants will be assigned according to their interests and experience to either the Communication or the English Department; those who do not have sufficient qualifications to teach in the first semester will participate in a training program. Some Research Assistantships may also be available.

GRADUATE COURSES

CRD 701 History and Theory of Communication Technology
CRD 702 Rhetoric and Digital Media
CRD 703 Communication in Networked Society
CRD 704 Technologies and Pedagogies in the Communication Arts
CRD 790 Issues in Communication, Rhetoric, and Digital Media
CRD 791 Special Topics in Communication, Rhetoric, and Digital Media
CRD 809 Colloquium in Communication, Rhetoric, and Digital Media
CRD 885 Doctoral Supervised Teaching
CRD 890 Doctoral Preliminary Examination
CRD 893 Doctoral Supervised Research
CRD 895 Doctoral Dissertation Research
CRD 896 Summer Dissertation Research
CRD 899 Doctoral Dissertation Preparation

GRADUATE FACULTY

Director of Graduate Programs:
P. Arasu, Box 8401, 513.6530, prema_arasu@ncsu.edu, Comparative Biomedical Sciences

Burroughs Wellcome Distinguished Professor and Director of Graduate Programs, Biomathematics: J. E. Riviere

Research Professors: S. Kennedy-Stoskopf, M. C. McGahan; Adjunct Professors: M. W. Dewhirst, C. Lau;

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: S. M. Laster, W. E. M. Morrow; Associate Professors: J. M. Hinshaw

Course offerings and research topics currently include, but are not limited to: cell biology, genomics, infectious diseases, developmental biology, immunology, cardiology, pharmacokinetics, oncology, toxicology, gastroenterology, neuroscience, reproductive physiology, biotechnology, microbiology, aquatic/wildlife biology, biomedical engineering, endocrinology, molecular biology, pulmonary biology, epidemiology, population medicine, health systems monitoring, transplantation and radiology.

Admission Requirements: All applications are reviewed by the Graduate Studies Committee of the CBS Program, composed of faculty members representing each area of the graduate program and a graduate student representative. Scores from the GRE are required for admission by all applicants. Candidates who do not have a DVM degree must have a baccalaureate degree or advanced degree from a college or university recognized as standard by a regional or general accrediting agency. Students with a 3.0 (on a 4.0 scale) undergraduate or DVM curriculum with appropriate course background will be considered for admission.

Doctoral Degree Requirements: Credit hour requirements for the Ph.D. degree are determined by the graduate student's committee with approval of the Director of Graduate Programs and the Graduate School.

Student Financial Support: Research assistantships are awarded to qualified candidates on the competitive basis by the College. These are for 12-month periods, and stipends are competitive with those of other programs. These positions are funded by the grants of individual faculty members and the state appropriations to the College and departments.
Other Relevant Information: The program is organized as five areas of concentration which include: cell biology, epidemiology/population medicine, infectious diseases, pathology, and pharmacology. These provide extensive interdisciplinary training and maintain a highly effective liaison with graduate programs in other colleges of the university, as well as those of nearby Duke University and the University of North Carolina at Chapel Hill.

GRADUATE COURSES

CBS 565 Fundamentals of Biomedical Sciences
CBS 580 Clinical Veterinary Epidemiology
CBS 595 Special Topics
CBS(ANS,PHY,ZO) 602 Seminar in Biology of Reproduction
CBS 610 Special Topics
CBS 685 Master's Supervised Teaching
CBS 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
CBS 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
CBS 690 Master's Examination
CBS 693 Master's Supervised Research
CBS 695 Master's Thesis Research
CBS 696 Summer Thesis Research
CBS 699 Master's Thesis Preparation
CBS 730 Veterinary Histology
CBS 731 Applied Veterinary Anatomy I
CBS 732 Biological Light and Electron Microscopy: Principles and Practice
CBS 740 Research Animal Care and Use
CBS 742 Advanced Systemic Histopathology
CBS 743 Toxicologic Pathology I
CBS 751 Pathogenic Bacteriology and Mycology
CBS 752 Diagnostic Bacteriology and Mycology
CBS 753 Veterinary Immunology

### GRADUATE FACULTY

**Directors of Graduate Programs:**
D. J. Thuente, Box 8206, 515.7003, thuente@csc.ncsu.edu, Computer Science
H. J. Trussell, Box 7911, 515.5091, hjt@eos.ncsu.edu, Electrical & Computer Engineering

**Alan T. Dickson Distinguished University Professor:** M. A. Rappa

**Alcoa Professor of Electrical and Computer Engineering:** A. Huang

**Alton and Mildred Lancaster Distinguished Professor and Department Head:** R. J. Trew

**Distinguished Professor of Electrical and Computer Engineering:** J. R. Hauser, N. A. Masnari

**Distinguished University Professor:** B. J. Baliga

**Lampe Professor of Electrical and Computer Engineering:** M. B. Steer

**Adjunct Assistant Professors:** L. J. Bottomley, A. J. Rindos III

### ASSOCIATE MEMBERS OF THE PROGRAM

**Professors:** W. J. Stewart

The Master of Science in computer networking may be earned through the M.S. with thesis option or through the non-thesis option. Either option may be used as preparation for further graduate study or employment in industrial research, development or design environment, although students planning to continue on for a Ph.D. should discuss the option selected with their advisors.

**Admission Requirements:** Admissions criteria will adhere to those currently listed on the program website: [http://networking.ncsu.edu](http://networking.ncsu.edu)

**Master's Degree Requirements:** Computer networking core courses constitute 9 of the 30 minimum credit hours. Students take 12 additional credit hours of computer networking courses from one of three currently defined technical concentration areas: network design, network hardware, or network software. The remaining 9 credit hours may be taken from an approved management concentration sequence, as additional courses in the computer networking technical concentration areas, or as 6 hours of thesis and 3 credit hours from the list of approved computer networking courses. At least 6 of the 30 credits must come from the 700 level, and non-letter graded courses such as individual studies courses may account for a maximum of 3 credit hours.

### CORE COURSES
CSC(ECE) 570 Computer Networks
CSC(ECE) 579 Introduction to Computer Performance Modeling
BUS 510 Managing the Digital Enterprise (or any courses below marked *)

**TECHNICAL CONCENTRATIONS**

CSC 501 Operating System Principles
CSC/ECE 506 Architecture of Parallel Computers
CSC/ECE 510 Software Engineering
CSC 557 Multimedia Technology
CSC/ECE 573 Internet Protocols
CSC 574 Information Systems Security
CSC/ECE 575 Introduction to Wireless Networking
CSC/ECE 576 High Speed Networks
CSC 715 Concurrent Software System
CSC/ECE 773 Advanced Topics in Internet Protocols
CSC/ECE 774 Network Security
CSC/ECE 776 Performance Evaluation of Computer Networks
CSC/ECE 777 Telecommunications Network Design
CSC/ECE 779 Advanced Computer Performance Modeling
CSC/ECE 791 Advanced Topics: Optical Networks
ECE 520 Digital ASIC Design
ECE 521 Computer Design and Technology
ECE 714 Random Processes
ECE 746 VLSI System Design
ECE/CSC 791 Special Topics: Wireless Networks
ECE 792 Special Topics: Advanced Network Protocol Design
ECE 792 Special Topics: Photonics and Optical Communications

**MANAGEMENT CONCENTRATION**

*BUS 504 Technology, Law and the Internet
*BUS 510 Managing the Digital Enterprise
*BUS 564 Project Management
BUS 565 Product Design & Development
BUS 573 Supply Chain Management
*BUS 576 Technology Evaluation and Commercialization Concepts
BUS 577 High Technology Entrepreneurship
BUS 578 Implementing Technology Commercialization Strategies
BUS 579 Entrepreneurship
BUS 590 Special Topics: Business Process Analysis
BUS 590 Special Topics: Innovation Management
*BUS 590 Special Topics: Management of Technology
CSC 513 E-Commerce Technology
CSC 516 E-Commerce Practicum
CSC 522 Automated Learning and Data Analysis
Computer Science

GRADUATE FACULTY

M. A. V. Vouk, *Interim Department Head*

**Director of Graduate Programs:** D. J. Thuente, Box 8206, 515.7003, thuente@csc.ncsu.edu, Computer Science

**Distinguished University Research Professor:** D. L. Bitzer

**SAS Institute Distinguished Professor:** J. Doyle

ASSOCIATE MEMBERS OF THE PROGRAM

**Professors:** M. A. Rappa, J. W. Baugh, Jr., T. M. Conte, M. Devetsikiotis, E. L. Kaltofen, C. D. Meyer, Jr., T. K. Miller, III, W. E. Snyder, I. Viniotis; **Associate Professors:** G. T. Byrd, A. G. Dean, G. Lazzi, E. Rotenberg, J. S. Scroggs; **Assistant Professors:** M. L. Sichitiu, Y. Solihin, W. Wang

The Department of Computer Science has become a leader in the networked world. Recent developments include adding 20 tenure-track faculty, 14 of whom received NSF CAREER development awards. Total research expenditures have quadrupled over the last few years and graduate enrollments have climbed to over 380 students. The faculty has broad-ranging research strengths including networking, intelligent and collaborative systems, secure and reliable systems, parallel and embedded systems, software and systems engineering, and algorithms and theory. Areas of strength in applied research include bioinformatics, scientific computation, e-commerce and data mining.

**Admission Requirements:** Minimum application requirements include an accredited Bachelor's degree with at least a B average and computer science course work at least equivalent to a strong minor. Applicants must submit scores for the GRE General Tests. It is recommended that financial aid and Ph.D. applicants also take the GRE Computer Science Subject Test.

**Master's Degree Requirements:** The M.S. requires 30 graduate credits including at least one course from each of the core areas of Theory (CSC 505, 512, 565, 579, 580, and 707) and Systems (CSC 501, 506, 510, 520, 540, 562, and 570) and thesis research (typically six credits). The advisory committee may waive the thesis requirement for students planning to pursue the Ph.D. who pass the Ph.D. written preliminary examination and complete specified additional course work in lieu of thesis research. The Master of Computer Science (M.C.S.) is a professional degree granted upon successful completion of 30 hours of course work, including a total of three courses from the two core areas and CSC 600. The M.C.S. degree is offered as an on-campus program or as a distance education program. The Master of Science in Computer Networking (M.S.C.N.) is a 30 credit-hour
degree offered as either a thesis or non-thesis program.

**Doctoral Degree Requirements:** Ph.D. students normally complete 72 semester hours of post-baccalaureate course work. They must also complete at least two courses from each of the two core areas with at least a 3.5 GPA, individualized in-depth written and oral preliminary examinations, and a public defense of their dissertation describing substantial, original, and independent scholarly work.

**Student Financial Support:** During 2005-2006, approximately 170 students held teaching and research assistantships. The Department also has Nortel, IBM, GEM, and Dean’s Fellowships, which are awarded to outstanding candidates. In addition, the Department's Industrial Assistantship and Fellowship Programs and Co-ops provide graduate student RA positions and part-time work at local firms.

**Other Relevant Information:** Graduates at all levels are highly respected and well paid locally and elsewhere. Many Master's degree graduates begin or continue careers performing and supervising advanced software development in and around the Research Triangle Park. Many recent Ph.D.s have positions of technical leadership in well-known large companies and prominent research laboratories including Google, Microsoft Research, and IBM Research Labs or have obtained tenure-track faculty positions at Research I institutions.

**GRADUATE COURSES**

- CSC 501 Operating Systems Principles
- CSC 503 Computational Applied Logic
- CSC 505 Design and Analysis of Algorithms
- CSC(ECE) 506 Architecture of Parallel Computers
- CSC 510 Software Engineering
- CSC 512 Compiler Construction
- CSC 513 Electronic Commerce Technology
- CSC(BUS) 516 E-Commerce Practicum
- CSC(ECE) 517 Object-oriented Languages and Systems
- CSC 520 Artificial Intelligence I
- CSC 522 Automated Learning and Data Analysis
- CSC 523 Computational Linguistics
- CSC 530 Computational Methods for Molecular Biology
- CSC 540 Database Management Concepts and Systems
- CSC 541 Advanced Data Structures
- CSC(ECE) 546 Management Decision and Control Systems
- CSC 548 Parallel Systems
- CSC 554 Human-Computer Interaction
- CSC(ECE) 556 Voice Input/Output Communication Systems
- CSC 557 Multimedia Computing and Networking
- CSC 562 Computer Graphics
- CSC(MA,OR) 565 Graph Theory
- CSC(ECE) 570 Computer Networks
- CSC(ECE) 573 Internetwork Protocols and Architectures
- CSC 574 Information Systems Security
- CSC(ECE) 575 Introduction to Wireless Networking
- CSC(ECE) 576 Connection-Oriented Networks
- CSC(ECE,OR) 579 Introduction to Computer Performance Modeling
- CSC(MA) 580 Numerical Analysis I
- CSC 582 Computer Models of Interactive Narrative
- CSC(MA) 583 Introduction to Parallel Computing
- CSC 591 Special Topics in Computer Science
- CSC 600 Computer Science Graduate Orientation
- CSC 630 Individual Study in Computer Science
- CSC 685 Master's Supervised Teaching
- CSC 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
- CSC 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
- CSC 690 Master's Examination

GRADUATE FACULTY

W. D. Smith, *Interim Department Head*

**Director of Graduate Programs:**
R. Wells, Box 7620, 515.4062, randy_wells@ncsu.edu, Crop Science

**Distinguished University Professor and William Neal Reynolds Professor:** M. M. Goodman

**Philip Morris Professor of Crop Science:** W. D. Smith

**William Neal Reynolds Professor of Crop Science:** A. C. York

ASSOCIATE MEMBERS OF THE PROGRAM

**Professors:** W. F. Thompson

The Department of Crop Science offers programs of study leading to the Master of Crop Science (M.C.S.), Master of Science (M.S.) and Doctorate of Philosophy (Ph.D.) degrees. The M.S. and Ph.D. programs are based upon original research while the M.C.S degree is a non-thesis degree program. Areas of study in the department include plant breeding, genetics and molecular biology; crop production, management, chemistry and physiology; sustainable agriculture and agro-ecology; turf grass management and science; integrated pest management, weed science and crop modeling.

Excellent facilities for graduate education are available, including wet and dry labs for preparation and analysis of plant and soil samples, cold storage facilities, greenhouses, controlled environmental chambers, computing facilities and the Southeastern Plant Environment Laboratories (Phytotron) for highly controlled plant environmental research. Agriculturally, North Carolina has a wide array of environments and soils for field research. This includes the sandy coastal plains and black lands of eastern NC, the central Piedmont with its clay soils, and the mountains of NC with their unique environments and soils. University and State research stations are located strategically throughout each of these regions and are widely used for field research.

Crop Science programs also benefit from strong cooperative ties with other departments and institutions.
Graduate students in Crop Science work cooperatively with and/or obtain instruction in the Departments of Animal Science, Biochemistry, Botany, Chemistry, Computer Science, Entomology, Horticultural Science, Genetics, Mathematics, Microbiology, Plant Pathology, Soil Science and Statistics. Cooperative efforts link our programs with faculty at a number of land grant and international universities as well as with leaders in agribusiness and environmental protection.

**Admissions Requirements:** Prospective students should be graduates of an accredited university with a major in agronomy, animal science, biology, crop science, genetics, horticulture, plant science or related field of study. Graduates from other degree programs will be considered but may be asked to make up certain undergraduate deficiencies. Acceptance of applicants is competitive and limited by program space and funding. Applicants should have a minimum of a 3.0 (out of 4.0) GPA and a minimum combined GRE score of 1000 on the verbal and quantitative portions of the exam. Exceptions to these guidelines may be made for students with special backgrounds, abilities or interests.

**Master's Degree Requirements:** *Master of Science Degree:* Requirements include a minimum of 30 semester hours of course work, including one hour of Seminar (CS 601) and six hours of Statistics (ST 511 and ST 512 or equivalent), completion of a thesis, a comprehensive oral examination and presentation of an exit seminar. *Master of Crop Science Degree:* M.C.S. requirements include a minimum of 36 semester hours of graduate work with a minimum of four, but no more than six, credit hours of Special Problems (CS 620). One hour of Crop Science Seminar (CS 601), three hours of Statistics (ST 511 or equivalent) and presentation of an exit seminar are also required.

**Doctoral Degree Requirements:** Ph.D. Candidates must demonstrate an ability to conduct original research and scholarly work at the highest level and produce an acceptable dissertation. Doctoral students must take a minimum of 72 graduate credit hours beyond the Bachelor's degree. They must also pass a preliminary examination (written and oral components) and a final oral examination. Presentation of an exit seminar is required.

**Student Financial Support:** Graduate assistantships and fellowships will be awarded to qualified applicants depending on funding availability and program space. Tuition is typically waived for students granted assistantships. Student health insurance is also provided to all students on assistantship.

**Other Relevant Information:** A thesis (M.S. and Ph.D.) or special problem (Master of Crop Science) outline and Plan of Graduate Work should be submitted to the Director of Graduate Programs by the end of the first regular (spring or fall) semester.

**GRADUATE COURSES**

CS(HS,PP) 502 Plant Disease: Methods and Diagnosis
CS(HS) 541 Plant Breeding Methods
CS 565 Turf Management Systems and Environmental Quality
CS 590 Special Topics
CS 601 Seminar
CS 620 Special Problems
CS 685 Master's Supervised Teaching
CS 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
CS 690 Master's Examination
CS 693 Master's Supervised Research
CS 695 Master's Thesis Research
CS 696 Summer Thesis Research
CS 699 Master's Thesis Preparation
CS 711 Tobacco Technology
CS 713 Physiological Aspects of Crop Production
CS 714 Crop Physiology: Plant Response to Environment
CS(HS) 715 Weed Science Research Techniques

GRADUATE FACULTY

E. S. Vasu, *Interim Department Head*, Curriculum and Instruction

Directors of Graduate Programs:
E. R. Gerler Jr., Box 7801, 515.5975, edwin_gerler@ncsu.edu, Curriculum and Instruction
R. J. Pritchard, Box 7801, 515.1784, ruie_pritchard@ncsu.edu, Curriculum and Instruction

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: C. K. Coe, D. M. Daley; *Associate Professors*: E. O'Sullivan, J. E. Swiss

Curriculum and Instruction: The Department offers Master's degrees in curriculum and instruction, curriculum and instruction with a concentration in business and marketing education, elementary education, English education, instructional technology, middle grades education, reading education, social studies education, and special education with areas of concentration in curriculum /supervision. Master's degrees in
special education are offered in the areas of behavior disorders, learning disabilities and mental retardation. The Master's degree in middle grades education includes either a concentration in language arts or social studies. The Ph.D. program in curriculum and instruction is primarily designed to prepare students for roles as researchers and educators in higher education, industry, or for instructional leadership at school district and state levels. The program is built on foundations of research and application and is composed of three strands: (1) content area specialization, (2) research, and (3) preparation for professional roles. Students can focus on the following areas of specialization: business and marketing education, curriculum development and supervision, educational psychology, elementary education, English and language arts education, instructional technology, middle grades education, reading education, social studies education, and special education.

Counselor Education: The Department also offers Master’s degrees in counselor education: school counseling, student personnel in higher education (college counseling), and agency counseling. The Ph.D. degree program is offered in Counselor Education. The Council for Accreditation of Counseling and Related Educational Programs (CACREP), a specialized accrediting body recognized by the Council on Post-Secondary Accreditation (COPA), has conferred accreditation to all graduate programs in Counselor Education.

Admission Requirements: Curriculum and Instruction: A 500-800 word statement describing professional goals is required. Some areas of study require that applicants be qualified to hold a baccalaureate-level teaching license or that they have teaching experience. GRE scores not more than five years old are required for the doctoral program. GRE or MAT scores not more than five years old are required for the Master's program. Counselor Educación: Requirements include a 3.00 average (4.00 scale) of the undergraduate program, and one year of work experience in a human service capacity. The best qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum grade-point average and work experience requirements may be made for students with special backgrounds, abilities and interests.

Master's Degree Requirements: Curriculum and Instruction: A minimum of 36 course credit hours and a written examination or culminating project are required. For the M. S. degree, a minimum of 39 hours is required. The M. S. degree requires a final oral examination and thesis approved by the graduate committee. Counselor Educación: A minimum of 48 credits hours is required. The M. S. degree requires completion of a thesis.

Doctoral Degree Requirements: Curriculum and Instruction: A minimum of 72 course credit hours is required, which includes 15-18 hours of research, a curriculum specialty, and 12 hours of dissertation credit. Counselor Educación: A minimum of 66 credits hours beyond the Master's degree is required, including the courses in research, behavioral sciences foundation, counselor education theory, and professional application.

Student Financial Support: No financial aid is available on a regular basis. The Counselor Education program works with the Division of Student Affairs to offer graduate assistantships.

GRADUATE COURSES

CURRICULUM AND INSTRUCTION
ECI 500 Theory and Practice in Teaching Diverse Populations
ECI 501 Foundations of Curriculum
ECI 502 Teaching through the Arts
ECI 503 Effective Teaching
ECI 504 Principles and Practices of Supervision
ECI(FL) 505 Issues and Trends in Foreign Language Education--Theory and Practice
ECI(FL) 506 Instructional Technology in Foreign Language Education
ECI 508 Teachers as Leaders
ECI 509 Special Problems in Curriculum and Instruction
ECI 510 Research Applications in Curriculum and Instruction
ECI 511 Computer Applications and Curriculum Integration
ECI 513 Videography in Education
ECI 514 Multimedia Design and Applications in Instruction
ECI 515 Internet Applications and Web Page Design in Instruction
ECI 516 Design and Evaluation of Instructional Materials
ECI 517 Advanced Multimedia Design and Applications in Instruction
ECI 518 Program and Staff Development in Instructional Technology
ECI 519 Special Problems in Instructional Technology
ECI 520 The Teaching of Composition

GRADUATE FACULTY

Director of Graduate Programs:
M. J. Davis, Box 7701, 515.8335, meredith_davis@ncsu.edu, Graphic Design

Professors: M. J. Davis, H. Khachatourian, R. C. Moore, J. W. Place, A. R. Rice, M. Scotford, P. Tesar;
Associate Professors: C. Raub, K. Schaffer, J. O. Tector; Research Associate Professors: P. K. Baran, N. G. Cosco; Visiting Assistant Professors: C. V. Brown, R. W. DeWitt, T. A. Krumm; Adjunct Assistant Professors: C. Pasalar

The mission of the Doctor of Philosophy in Design Program in the College of Design at NC State University is to improve human condition through design research and scholarship. This mission is built in equal parts on the recognition of a fertile common ground among the design disciplines and on the need for specificity and depth within them. The Ph.D. Program therefore values a broad range of research interests that aim to improve the human condition through design.

The aim of the Ph.D. in design is to prepare students holding previous degrees in a design discipline to conduct research in the areas of: design for health and well-being; design for learning; design for sustainability; design and technology; design and the urban context; design methods; and design history and criticism.

Admission Requirements: Two official academic transcripts; three letters of reference; GRE scores; TOEFL scores (for international students); residency statement (U.S. residents only); College of Design personal data form; statement of research intent; and portfolio.

Doctoral Degree Requirements: The program of study requires a minimum of 54 credit hours of graduate work beyond the Master's degree, and of these credit hours, 18 will be independent research and dissertation credit with the remaining 36 hours of course work being completed in the Ph.D. program. In addition, there are (3) 1-credit colloquia.

Student Financial Support: Teaching and research assistantships are available to several doctoral students, and in addition, those students receiving some form of research assistantship will also receive tuition remission. Assistantships are awarded on the recommendation of the admissions committee.

Professors: R. H. Bernhard, D. A. Dickey; Associate Professors: J. C. Dutton, Jr.; Associate Professors Emeriti: E. A. McDermed

The economics graduate program is a joint program of the Department of Agricultural and Resource Economics and the Department of Economics. Emphasis is placed on economic theory and quantitative economic analysis and their application to economic problems. The major fields of specialization are: agricultural economics, econometrics, environmental/resource economics, industrial organization, international economics, labor economics and macro-monetary economics.

Admission Requirements: Minimum background for admission includes intermediate microeconomics and macroeconomics, at least one semester of calculus (two for Ph.D.) and undergraduate statistics. Some students are admitted conditional on their taking certain prerequisites. The submission of GRE scores is only required for students applying for financial aid.

Master's Degree Requirements: The Master of Science in agricultural and resource economics and the Master of Arts in economics require core courses in micro-economics (ECG 505 or ECG 700), macroeconomics (ECG 506 or ECG 703), statistics (ST 504) and applied econometrics (ECG 561). Both degrees have thesis and elective requirements. The Master of Economics is a non-thesis degree with two options: (1) Ph.D. Preparatory and (2) Applied Economics and Policy Analysis. Both options require a core of ECG 700 (or ECG 505), ECG 703 (or ECG 506), ST 514 and ECG 561. In addition ECG 765 is highly recommended for Option 1 while Option 2 also requires ECG 562. Both options have elective requirements. All three Master's degrees require a total of 30 credit hours. Accelerated Bachelor's/Master's degree programs are available for all three Master's
degrees.

**Doctoral Degree Requirements:** The Ph.D. program requires a minimum of 72 hours and at least six semesters of work beyond the Bachelor's degree. Students must pass written comprehensive examinations in micro-economics and macro-economics. Course requirements include two semesters of econometrics and six field courses.

**Student Financial Support:** Research and teaching assistantships are available and are awarded on a competitive basis. These assistantships go to Ph.D. students only; there is no financial support for Master's students. Prospective doctoral students who wish to be considered for assistantships are advised to apply for fall admission by the third week in January.

**Other Relevant Information:** Graduate students on financial support are provided office space or study carrels. Other students may be assigned study carrels if available. All students have access to the economics graduate student computer lab.

**GRADUATE COURSES**

- ECG(PRT) 503 Economics of Recreation
- ECG 504 Monetary and Financial Macroeconomics
- ECG 505 Applied Microeconomic Analysis
- ECG 506 Applied Macroeconomic Analysis
- ECG 507 Economics for Managers
- ECG 508 Macroeconomics and the Business Environment
- ECG 512 Law and Economics
- ECG 514 Economics of Information Goods
- ECG 515 Environmental and Resource Policy
- ECG 521 Markets and Trade
- ECG 523 Planning Farm and Area Adjustments
- ECG 532 Economics of Trade Unions
- ECG 533 Economics of World Food and Agricultural Policy
- ECG 537 Health Economics
- ECG 540 Economic Development
- ECG 551 Agricultural Production Economics
- ECG 555 Managerial Economics
- ECG(ST) 561 Intermediate Econometrics
- ECG 562 Topics in Applied Econometrics
- ECG 570 Analysis of American Economic History
- ECG 580 Writing in Economics
- ECG 590 Special Topics
- ECG 630 Independent Study
- ECG 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
- ECG 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
- ECG 690 Master's Examination
- ECG 695 Master's Thesis Research
- ECG 696 Summer Thesis Research
- ECG 699 Master's Thesis Preparation
- ECG 700 Fundamentals of Microeconomics
- ECG 701 Microeconomics I
- ECG 702 Microeconomics II
- ECG 703 Fundamentals of Macroeconomics
- ECG 704 Macroeconomics I
- ECG 705 Macroeconomics II
- ECG 706 Industrial Organization and Control
- ECG 707 Topics in Industrial Organization
- ECG 708 History of Economic Thought
- ECG 710 Theory of Public Finance
- ECG 715 Environmental and Resource Economics
- ECG 716 Topics in Environmental and Resource Economics
- ECG 730 Labor Economics
- ECG 731 Policy and Research Issues in Labor Economics
ECG 739 Economic Growth and Development I
ECG 740 Economic Growth and Development II
ECG 741 Agricultural Production and Supply
ECG 742 Consumption, Demand and Market Interdependency
ECG 748 Theory of International Trade
ECG 749 Monetary Aspects of International Trade
ECG 750 Economic Decision Theory
ECG(ST) 751 Econometric Methods
ECG(ST) 752 Time Series Econometrics
ECG(ST) 753 Microeconometrics
ECG 765 Mathematical Methods for Economics
ECG 784 Advanced Macroeconomics
ECG 785 Monetary Economics
ECG 790 Advanced Special Topics
ECG 830 Independent Study
ECG 895 Doctoral Dissertation Research
ECG 896 Summer Dissertation Research
ECG 899 Doctoral Dissertation Preparation

GRADUATE FACULTY

Director of Graduate Programs:
L. D. Fusarelli, Box 7801, 513.0507, lance_fusarelli@ncsu.edu, Educational Research and Leadership

Admissions Requirements: Application materials will include the following.

- Application for admission
- Nonrefundable application fee
- Residency statement
- Two official transcripts from each school attended
- Official statement of GRE or MAT scores, taken within the last five (5) years
- Three (3) letters of reference
- Letter of Application including statement of purpose and career goals
- Resume
- Autobiographical Statement
- Test of English as a Second Language (if required)

Apply online and check the status of your application at: www2.acs.ncsu.edu/grad/prospect.htm.

Master’s Program Requirements: A minimum of 42 credit hours is required for the Master’s of School Administration. Applicants must have a minimum of three (3) years of successful teaching experience and are currently working in a K-12 environment; meet graduate school and program requirements; and rolling admissions for on-campus program.

Ed.D. Program Requirements: A minimum of 54 credit hours is required for the Ed.D. in Educational Administration and Supervision. Applicants are required to have a North Carolina’s Principal’s license or be eligible to receive one and to meet graduate school and program requirements. Admissions deadlines for the Ed.D. program are March 31 (Fall) and October 1 (Spring).

Ph.D Program Requirements:

- Bachelor’s degree received from an accredited institution; however, a Master’s degree is preferred.
- A 3.0 overall GPA in the most recent degree program completed.
- Graduate Record Examination scores that are no more than five (5) years old.
• Evidence of strong analytical, conceptual, and communication skills as assessed in a prescribed written narrative and test scores.
• Completion of an application for admission to the Graduate School.
• Three (3) letters of reference from persons who can attest to the applicant’s scholarly aptitude and motivation.

Deadlines for the receipt of all Ph.D. application materials are November 1 (for Spring admission) and April 1 (for Fall admission).

**GRADUATE COURSES**

ELP 514 Formative Ideas in American Education
ELP 515 Education and Social Diversity
ELP 518 Introduction to School Law
ELP 520 School Based Budgeting
ELP 532 Introduction to Educational Inquiry
ELP 534 Ethics for School Decision Making
ELP 550 Principles of Educational Administration
ELP 551 Context and Challenges of School Improvement
ELP 580 Program Planning, Management and Evaluation
ELP 589 Personnel Appraisal in Education
ELP 595 Advanced Quantitative Applications in School Leadership and Policy
ELP 620 Special Problems in Education
ELP 651 Internship in Educational Leadership
ELP 720 Cases in Educational Administration
ELP 724 Contemporary Educational Thought
ELP 728 School Law for the Administrator
ELP 729 Educational Finance
ELP 735 Policy Research in Education
ELP 736 Qualitative Research in Education
ELP 737 Advanced Qualitative Applications in School Leadership and Policy
ELP 742 Applied Research Methods in Education
ELP 750 Curriculum History: Challenging Orthodoxies
ELP 752 Theories Framing Curriculum Inquiry
ELP 754 Qualitative Education Research Data Analysis Using Personal Computers
ELP 780 Evaluation Theory and Practice in Education
ELP 789 School Personnel Recruitment, Selection, and Appraisal
ELP 795 Special Topics in Educational Research and Leadership
ELP 820 Special Problems in Education
ELP 851 Internship in Educational Leadership and Program Evaluation
ELP 890 Doctoral Preliminary Examination
ELP 891 Problems of Research Design in Education
ELP 892 Research Projects in Educational Leadership and Program Evaluation
ELP 893 Doctoral Supervised Research
ELP 895 Doctoral Dissertation Research
ELP 896 Summer Dissertation Research
ELP 899 Doctoral Dissertation Preparation

GRADUATE FACULTY

Director of Graduate Programs:
H. J. Trussell, Box 7911, 515.5091, hjt@eos.ncsu.edu, Electrical & Computer Engineering

Alcoa Professor of Electrical and Computer Engineering: A. Huang, W. Liu
Alton and Mildred Lancaster Distinguished Professor and Department Head: R. J. Trew
Distinguished Professor of Electrical and Computer Engineering: J. R. Hauser, N. A. Masnari
Distinguished University Professor: B. J. Baliga
Distinguished University Research Professor: D. L. Bitzer
Lampe Professor of Electrical and Computer Engineering: M. B. Steer
University Professor Emeritus: D. R. Rhodes

ASSOCIATE MEMBERS OF THE PROGRAM

Admissions Requirements: Admission to the M.S. program requires a B.S. in electrical engineering, computer engineering or computer science, and an overall undergraduate GPA of at least 3.25. The minimum acceptable TOEFL score for admission to the M.S. program is 230 (575). Admission is further limited by available room in the elected program of study. Meeting the minimum above requirements alone does not guarantee admission.

Admission to the Ph.D. program requires a B.S. or M.S. in electrical engineering, computer engineering or computer science with an overall GPA of at least 3.60. The minimum acceptable TOEFL score for admission to the Ph.D. program is 230 (575). Admission is further limited by available room in the elected program of study, and meeting the minimum requirements as given above does not guarantee admission.

Master's Degree Requirements: Thirty (30) credit hours; a thesis is optional. Students must have at least 21 hours of ECE courses that cover at least three specialty areas and have at least six credit hours of advanced-level ECE courses. Students electing the Option B non-thesis option must meet core course requirements and
have at least six credit hours of 600-level ECE courses.

**Doctoral Degree Requirements:** Approximately 42 credit hours are required beyond the M.S. degree or 72 credit hours beyond the B.S. degree. A minimum of 18 of the 42 credit hours or a minimum of 42 of the 72 credit hours must be in scheduled courses. Nine hours of graduate-level courses outside the major area are required.

The department wishes to evaluate a Ph.D. student's research potential as quickly as possible. Consequently, all Ph.D. students are required to pass a qualifying review before the end of their third semester of study. This review is based on the student's academic performance to date and the results of a project with one of their committee members. Results are presented to the committee in both written and oral form. Based on this review, the committee will decide if the student may continue in the Ph.D. program.

**Student Financial Support:** The department offers financial support to qualified students in the form of teaching assistantships, research assistantships, fellowships and tuition remission.

### GRADUATE COURSES

ECE(CSC) 506 Architecture of Parallel Computers  
ECE 511 Analog Electronics  
ECE 513 Digital Signal Processing  
ECE 514 Random Processes  
ECE 515 Digital Communications  
ECE 516 System Control Engineering

GRADUATE FACULTY

Director of Graduate Programs:
E. T. Sanii, Box 7901, 515.1818, megr@ncsu.edu, Engineering Dean's Office

James T. Ryan Prof of Industrial Engineering: T. J. Hodgson

The College of Engineering offers a program leading to the Master of Engineering. This degree is primarily for individuals whose schedule or location does not allow on-campus study. Convenience and flexibility are the key advantages of this program. The students can take a variety of courses in different engineering fields and in computer science. This Option B program requires 30 credit hours and does not require GRE, thesis, final oral exam, or on-campus attendance. The Master of Engineering degree can be earned totally through the Engineering Online program. The Engineering Online program delivers credit courses in Engineering and in Computer Science directly to home or workplace via streaming media on the Internet. The on-line courses are the same as the on-campus courses in terms of content, requirements and academic rigor.

Each student in the Master of Engineering program must complete a minimum of three (3) courses from a single concentration area. The concentration area will appear on the student's transcript if a minimum of five (5) courses is taken in the designated concentration field. At least 18 hours of the minimum 30 hours required to satisfy the Master of Engineering degree requirements must be taken from a department in the College of Engineering. The concentration fields in the Master of Engineering are Chemical Engineering, Civil Engineering, Computer Science, Electrical and Computer Engineering, Industrial Engineering, Materials Science and Engineering, and Mechanical and Aerospace Engineering.

Admission Requirements: Prerequisites for admission to the Master of Engineering include an accredited undergraduate degree in engineering or physical sciences with a minimum overall GPA of 3.0. The Master of Engineering program is designed primarily for U.S. citizens or international students who work or reside in the United States but are not U.S. citizens. The program does not accept international students who reside outside the United States or Canada.

GRADUATE FACULTY

A. H. Harrison, *Department Head*

**Directors of Graduate Programs:**
C. A. Prioli, Box 8105, 515.4107, prioli@ncsu.edu, English, Creative Writing
R. S. Dicks, Box 8105, 513.7354, sdicks@unity.ncsu.edu, Technical Communication

**SAS Distinguished Prof in Technical Communication & DPG, Communication, Rhetoric & Digital Media:**
C. R. Miller

**William C. Friday Distinguished Professor and Interim Department Head of English:** W. A. Wolfram

The Master of Arts program offers instruction in English and American literature, world literature, film studies, rhetoric and composition, linguistics and creative writing. It can serve either as a complete course of study or as the first phase of study toward a doctoral degree at another institution.

**Admission Requirements:** Overall GPA of 3.0 or higher. Applicants should submit GRE scores (general aptitude and analytical writing); one official transcript of all undergraduate and graduate work; three letters of recommendation; a personal statement; and a writing sample. Creative writing applicants should submit both a creative and a critical writing sample.

**Requirements for MA in English:** The program requires 32 credit hours. All students, except those in the linguistics and film studies concentrations, take a distribution of four courses, one each in English literature before 1660, English literature after 1660, American literature and a fourth category including composition theory, rhetoric, linguistics, or literary theory. Linguistics students take two literature classes of their choice to fulfill the distribution requirement. In addition, all students must take an introduction to research and bibliography, pass a foreign language requirement, write a thesis and pass an oral exam on the thesis research.

Beyond these basic requirements, the program comprises six concentrations in English and American literature,
creative writing, film studies, composition and rhetoric, world literature, and linguistics. Each concentration requires five additional courses, of which three must pertain to the area of concentration. The thesis likewise will be written in the area of the concentration and directed by a specialist in the field. In creative writing this usually means a novel or a collection of short stories or poems.

**Student Financial Support:** Teaching assistantships are available for a limited number of promising students. Applications for assistantships are due February 1 for those entering in the fall, and November 1 for those entering in the spring. (New assistantships are rarely available for the spring semester.) During their first year those selected to teach composition must take ENG 511 (Theory and Research in Composition), be mentored by a composition instructor, and attend a second workshop before their second year. These duties receive credit as ENG 685 (Master's Supervised Teaching), but do not fulfill requirements for the degree.

**Other Relevant Information:** For students who hold initial licensure from the NC Department of Public Instruction, the department offers the MA with advanced licensure requiring 24 semester hours of graduate credit in English and 15 semester hours of graduate credit in Education. Students and faculty in the Department of English are eligible for fellowships to participate in programs sponsored by the Folger Institute of Renaissance and Eighteenth-Century Studies, which is located in Washington, DC, at the Folger Shakespeare Library.

**TECHNICAL COMMUNICATION**

The Master of Science in technical communication is designed to prepare professional communicators for advanced positions in industry and research organizations; with appropriate electives, students can prepare for careers in web design and development, software documentation, environmental communication, medical writing, industrial training in writing and editing, publications management and related areas.

**Admission Requirements:** Applicants should submit a resume and a writing sample. Prerequisites for the program are basic editing and technical writing (ENG 214, ENG 314 or 331, 332, or 333) or equivalent courses and/or work experience. The application deadline is June 15 for the fall semester and November 1 for the spring semester. Those who wish to be considered for teaching assistantships should complete the application by February 1 for fall.

**Requirements for MS in Technical Communication:** The program requires 33 semester hours: 15 hours in the fields of technical writing, publication management, rhetoric and a projects course; the remaining hours are taken in applications, theory and methods and cross-disciplinary courses. Students must also satisfy a requirement for one semester of professional work experience.

**Student Financial Support:** Teaching assistantships are available for a limited number of promising students. These students work with an experienced teacher in their first year to assist in 300-level writing courses. They devote half time in subsequent semesters to teaching technical communication.

**CREATIVE WRITING**

The Department of English offers a two-year studio/academic program in fiction or poetry leading to the Master of Fine Arts degree. The program provides an opportunity for students of superior and demonstrated ability in imaginative writing to develop their skills and critical judgment through the practice of writing and the study of literature. The aim of the program is to prepare talented students for careers in writing. Degree candidates are expected to produce a book-length work of literary value and publishable quality.

**Admission Requirements:** Overall GPA of 3.0 or higher; applicants should submit GRE scores (general aptitude and analytical writing); one official transcript of all undergraduate and graduate work; three letters of recommendation; and two writing samples, one creative, one critical. Creative sample: for fiction, two short stories, or for a novel, three chapters (or one chapter and a short story) totaling 25-40 pages; for poetry, 12
complete poems. Critical sample: no more than 15 pages of writing demonstrating your ability to succeed in graduate-level literature classes, a required part of the MFA curriculum

**Requirements for the MFA in Creative Writing:** Candidates for the MFA degree must complete a total of 36 credits. Eighteen of these are taken in the area of writing specialization. These include workshop courses (12 credits) and thesis (6 credits). The remaining credits are taken in literature and directed readings (12 credits), elective (3 or 6 credits), and, for those on a composition teaching assistantship, ENG 511, Theory and Research in Composition (3 credits).

In their final semester, students must pass a comprehensive written examination on writing craft, based on a book list selected jointly by the student and the faculty. The final thesis must be a book-length manuscript in the student's field of interest. In fiction, an approximate 200 pages are expected; in poetry, 60 pages.

**Student Financial Support:** Teaching assistantships are available for a limited number of promising students. Selected new Teaching Assistants are also eligible for fellowship money awarded as an increase in assistantship stipend. TAs in the MFA train to teach undergraduate creative writing classes or composition classes.

**Other Relevant Information:** Application deadline is April 1 for both U.S. and international students; February 1 for those seeking assistantships. Students are admitted for the fall semester only.

The English department has a long tradition of academic and literary excellence, including its heritage of writers from Guy Owen to Lee Smith, its publishing of the *Southern Poetry Review, The John Donne Journal, Free Verse,* and *Obsidian.* The strength of NCSU in the sciences offers students the opportunity to do creative work that engages with issues of technology and its effect on individuals and institutions that are not typically addressed in fine arts programs.

Through its Owen/Walters Readings Series, the department sponsors readings and residencies by distinguished poets, fiction and non-fiction writers, and has initiated a semester-long Visiting Distinguished North Carolina Writers program.

**GRADUATE COURSES**

ENG 507 Writing for Health and Environmental Sciences  
ENG 508 Usability Studies for Technical Communication  
ENG 509 Old English Literature  
ENG 510 Middle English Literature

**GRADUATE FACULTY**

J. D. Harper, *Department Head*

**Director of Graduate Programs:**

F. P. Hain, Box 7613, 515.3804, fred_hain@ncsu.edu, Entomology

**Blanton J. Whitmire Distinguished Professor:** C. Schal

**Charles G. Wright Professor:** J. Silverman

**Philip Morris Professor:** J. W. Van Duyn

**William Neal Reynolds Professor:** C. S. Apperson, F. L. Gould, G. G. Kennedy

**William Neal Reynolds Professor of Entomology and Toxicology:** R. M. Roe

**Assistant Professors:** C. Casey, C. M. Grozinger, D. R. Tarpy, M. G. Waldvogel; *Adjunct Assistant Professors:* C. Devorshak

**ASSOCIATE MEMBERS OF THE PROGRAM**

**Professors:** H. M. Linker; *Associate Professors:* W. G. Buhler, D. J. Robison

Course offerings or research facilities are available in the following areas: agricultural entomology, apiculture, behavior, biological control, ecology, forest entomology, functional genomics, host-plant resistance, insect pathology, medical and veterinary entomology, pest management, physiology, molecular biology, population dynamics, urban entomology, systems analysis, systematics and toxicology.

**Admission Requirements:** A minimum score of 1000 (verbal plus quantitative) is necessary for admission to the M.E. or M.S. program while a score of 1100 is required for the Ph.D. program. Students are expected to have a background in biology in addition to appropriate courses in chemistry, biochemistry, mathematics and physics. A "B" average (3.0 GPA) is required in biology courses and an overall 3.0 GPA during the last two years of the undergraduate program.

**Master's Degree Requirements:** A minimum of 30 credits are required for graduation. Two core courses are required (Insect Systematics, and Insect Morphology and Physiology), however students may fulfill the requirement for either of these courses by passing a proficiency exam. In addition, six credits of letter grade entomology courses and two credits of entomology student seminars are also required.

**Doctoral Degree Requirements:** A minimum of 72 credits (18 may be transferred from a Masters degree) are required for graduation. Two core courses are required (insect Systematics, and Insect Morphology and
Entomology

Physiology), however students may fulfill the requirement for either of these courses by passing a proficiency exam. In addition, nine credits of letter grade entomology courses and three credits of entomology student seminars are also required.

**Student Financial Support:** Graduate assistantships and other forms of aid are available to students as described in the Fellowships and Graduate Assistantships section of the Graduate Catalog.

**Other Relevant Information:** Admission is permitted only after acceptable applicants have secured an advisor and appropriate financial support. All students are expected to begin their research as soon as possible.

GRADUATE FACULTY

Director of Graduate Programs:
W. Oxenham, Box 8301, 515.6573, william_oxenham@ncsu.edu, College of Textiles

Burlington Industries Professor of Textile Technology:  R. L. Barker
Camille Dreyfus Professor:  H. B. Hopfenberg
Charles A. Cannon Professor of Textiles:  S. K. Batra
Ciba-Geigy Distinguished Professor and Associate Dean for Research:  H. S. Freeman
Cone Mills Professor of Textile Engineering, Chemistry and Science:  C. B. Smith
Director of Graduate Programs and Abel C. Linberger Prof. of Yarn Manufacturing:  W. Oxenham
Howard J. Schaeffer Distinguished University Professor:  B. M. Novak
Klopman Distinguished Professor Emeritus:  S. C. Winchester, Jr.
Kosa Professor of Fiber and Polymer Chemistry:  A. E. Tonelli
Professor (Dean) and Joseph D. Moore Professorship of Textile and Apparel Management:  A. B. Godfrey
William A. Klopman Distinguished Professor:  B. Pourdeyhimi

Fiber and Polymer Science is a multidisciplinary program bringing together the disciplines of mathematics, chemistry and physics and the application of engineering principles for the development of independent scholars versed in all aspects of fiber materials science. Thus, fiber and polymer science is concerned with the formation of and the mechanical, physical and chemical properties of polymeric materials, fibers produced from them, fiber assemblies in one-, two- and three-dimensional forms, and fiber reinforced composites, as well as the utilization thereof.

Admission Requirements:  Students majoring in the physical sciences, engineering, mathematics, textiles and having a Master's degree will normally qualify for admission. For exceptionally qualified students, the Master's degree requirement may be waived, and the student can be admitted directly into the Ph.D. program.

Doctoral Degree Requirements:  Credit-hour requirements for the Doctor of Philosophy degree are 72. (Up to 18 hours from an M.S. may be applied against the 72.) Students are admitted to candidacy for the Ph.D. degree after passing a series of written cumulative examinations, completing a scholarly critique of existing knowledge in the field of specialization, and orally defending a research proposal. A written examination in a minor field may be accepted in place of the scholarly critique. They must also have passed an English technical writing course during their college career.
Student Financial Support: Financial aid in the form of assistantships and fellowships is normally available for all U.S. full-time students. Financial aid in the form of Graduate Research/Teaching Assistantships may be available to a limited number of international students.

COURSE OFFERINGS (Extensive use may be made of graduate course offerings in other colleges on campus when developing the minor field.)

GENERAL COURSES

FPS(TT) 720  Yarn Production/Properties: Advanced Topics
FPS(TTM) 730 Measurement and Evaluation of Textile Properties
FPS(TT) 750  Advances in Woven Fabric Formation and Structure
FPS(TT) 781  Mechanics of Twisted Structures
FPS(TT) 782  Mechanics of Fabric Structures
FPS(TC) 792 Special Topics in Fiber Science
FPS 801 Seminar
FPS 830 Independent Study
FPS 876 Special Projects in Fiber and Polymer Science
FPS 885 Doctoral Supervised Teaching
FPS 890 Doctoral Preliminary Examination
FPS 893 Doctoral Supervised Research
FPS 895 Doctoral Dissertation Research
FPS 896 Summer Dissertation Research
FPS 899 Doctoral Dissertation Preparation
TC 704 Fiber Formation--Theory and Practice
TC(CH,MSE) 762 Physical Chemistry of High Polymers--Bulk Properties
TC 791 Special Topics in Textile Science
TMS 500 Fiber and Polymer Microscopy
TMS 761 Mechanical and Rheological Properties of Fibrous Material
TMS 762 Physical Properties of Fiber Forming Polymers, Fibers and Fibrous Structures
TMS(MSE) 763 Characterization of Structure of Fiber Forming Polymers

COURSES IN AREAS OF SPECIALIZATION

Polymer Chemistry and Synthesis
TC 530 The Chemistry of Textile Auxiliaries
TC(MSE) 561 Organic Chemistry of Polymers
TC 720 Chemistry of Dyes and Color
TC 721 Dye Synthesis Laboratory

Polymer Physics and Physical Chemistry
TC 704 Fiber Formation--Theory and Practice
TC 705 Theory of Dyeing
TC(CH,MSE) 762 Physical Chemistry of High Polymers--Bulk Properties
TC(CHE) 769 Polymers, Surfactants and Colloidal Materials
TC(CH,MSE) 772 Physical Chemistry of High Polymers--Solution Properties
TC(CHE) 779 Diffusion in Polymers
TC 792 Special Topics in Fiber Science
TMS 500 Fiber and Polymer Microscopy

Mechanics of Textile Materials and Processes
FPS(TT) 781 Mechanics of Twisted Structures
FPS(TT) 782 Mechanics of Fabric Structures
TE  565 Textile Composites
TT 500 Understanding the Textile Complex
TT 503 Materials, Polymers, and Fibers used in Nonwovens
TT 504 Introduction to Nonwovens Processes and Products
TT 505 Advanced Nonwovens Processing
TT 506 Bonding Principles in Nonwovens
TT 507 Nonwoven Characterization Methods
TT 508 Nonwoven Product Development
TT 520 Yarn Processing Dynamics
TT(TE,TMS) 521 Filament Yarn Production Processing and Properties
TT 549 Warp Knit Engineering and Structural Design
TT 550 Production Mechanics and Properties of Woven Fabrics
TT 551 Advance Woven Fabric Design & Structure
TT 552 Formation, Structure and Assembly of Medical Textile Products
TT 570 Textile Digital Design and Technology
TT 571 Professional Practices in Textile Design and Technology
TT 581 Technical Textiles
TT 591 Special Studies in Textile Technology
TT(FPS) 720 Yarn Production Properties: Advanced Topics
Financial Mathematics

GRADUATE FACULTY

Director of Graduate Programs:
J. S. Scroggs, Box 8205, 515.7817, scroggs@ncsu.edu, Mathematics

University Professor:  S. E. Elmaghraby

The Departments of Agricultural and Resource Economics, Economics, Industrial Engineering, Mathematics, and Statistics offer a program leading to the degree of Master of Financial Mathematics. After completing the core requirements, students choose electives to suit their individual needs and interests.

Admissions Requirements: Applicants for admission should have an undergraduate degree that would preferably include courses in advanced calculus, modern algebra, and linear algebra. It is recommended that applicants take the GRE Advanced Test in Mathematics.

Master of Financial Mathematics Requirements: In addition to course requirements (six core courses and four electives), the Master of Financial Mathematics degree requires completion of a three-credit internship or research project.

Student Financial Support: No financial aid is available on a regular basis. Some funding is available through a limited number of scholarships. Consideration for the scholarships is automatic.

REQUIRED CORE COURSES

ECG(MA) 790 Advanced Special Topics
ECG 590 Special Economics Topics (Asset Pricing)
IE 711 Capital Investment Economic Analysis
MA(ST) 546 Probability and Stochastic Processes I
MA 547 Financial Mathematics
ST 522 Statistical Theory II

GRADUATE COURSES

BUS 522 Portfolio and Capital Market Theory
BUS 526 International Finance
BUS 529 New Firm Financing
BUS 590 Special Topics in Business Management (Advanced Corporate Finance)
ECG 504 Monetary and Financial Macroeconomics
ECG 716 Topics in Environmental and Resource Economics
ECG 749 Monetary Aspects Of International Trade
ECG(ST) 751 Econometrics
ECG(ST) 752 Topics in Econometrics
ECG 784 Advanced Macroeconomics
IE 709 Dynamic Programming
IE 712 Bayesian Decision Analysis for Engineers and Managers
MA(ST) 747  Probability and Stochastic Processes II
MA(ST) 748  Stochastic Differential Equations
MA 584 Numerical Solution of Partial Differential Equations-Finite Difference Methods
ST 730 Applied Time Series Analysis
ST 782 Time Series Analysis: Time Domain
ST 783 Time Series Analysis: Frequency Domain
ST 810 Advanced Topics in Statistics

Financial Mathematics
Fisheries and Wildlife Sciences

GRADUATE FACULTY

Director of Graduate Programs:
R. A. Lancia, Box 7646, 515.7586, richard_lancia@ncsu.edu, Fisheries and Wildlife

The fisheries and wildlife sciences degrees are offered through the Fisheries and Wildlife Sciences program, an intercollegiate program administered by the Department of Forestry and Environmental Resources. Students are affiliated with the department of their major professor. The degrees emphasize assessment, biology, ecology and management of fish and wildlife species and their habitats.

Admissions Requirements: Application for admission is made through the Departments of Forestry and Environmental Resources or Zoology or the College of Veterinary Medicine. Minimum requirements include an undergraduate grade point average of 3.0 in an appropriate biological discipline and a graduate record examination score of 1000, calculated as the sum of verbal and quantitative scores. Admission is competitive and depends on the willingness of a member of the faculty to serve as major professor. Exceptions to minimum requirements may be made for students with special backgrounds.

Master's Degree Requirements: The M.S. degree program requires a minimum of 30 credit hours, including 1-2 hours of seminar and no more than six hours of research. A research-based thesis is required, as is a minor (usually 9-10 hours). The Master of Fisheries and Wildlife Sciences degree requires a minimum of 36 credits, including 4-6 hours of special problems and 1-2 hours of seminars. A professional paper is required. For either degree, further requirements may be imposed by the advisory committee and/or department.

Student Financial Support: Graduate research and teaching assistantships are offered for qualified students through participating departments. Commitments for assistantships are normally made at the time of admission to graduate study.

Other Relevant Information: Research near campus is facilitated by excellent field, laboratory and computer resources. Off-campus research is conducted at the Pamlico Aquaculture Field Laboratory, research and extension centers in eastern and western NC, The Center for Marine Sciences and Technology in Morehead City, Bull Neck Swamp, Hill and Hofmann Forests, and at facilities of state and federal agencies and private organizations. For additional information, see the Fisheries and Wildlife Sciences web page: http://www2.ncsu.edu/unity/lockers/project/fishwildlife/.

GRADUATE COURSES

FW(ZO) 515 Fish Physiology
FW(ZO) 553 Principles of Wildlife Science
FW(ZO) 554 Wildlife Field Studies
FW 560 International Wildlife Management and Conservation
FW(FOR) 585 Advanced Wildlife Habitat Management
FW(ZO) 586 Aquaculture I
FW(ZO) 587 Aquaculture I Laboratory
FW 595 Special Topics in Fisheries and Wildlife Sciences
FW(FOR) 602 Seminar in Wildlife Management.
FW 610 Special Topics in Fisheries and Wildlife Sciences
FW 685 Master's Supervised Teaching
FW 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
FW 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
FW 690 Master's Examination
FW 693 Master's Supervised Research
FW 695 Master's Thesis Research
FW 696 Summer Thesis Research
FW 699 Master's Thesis Preparation

*Director of Graduate Programs:*
J. C. Allen, Box 7624, 513.2257, jon_allen@ncsu.edu, Food Science

*William Neal Reynolds Professor:* K. R. Swartzel  
*William Neal Reynolds Professor and University Distinguished Professor:* T. R. Klaenhammer  
*William Neal Reynolds Professor Emeritus:* H. E. Swaisgood  
*William Neal Reynolds Professor of Food Science:* E. A. Foegeding

*Professors (USDA):* R. F. McFeeters, T. H. Sanders;  
*Adjunct Professors:* P. A. Curtis, A. Kilara, Y. Pan, R. C. Theuer;  
*Associate Professors:* S. L. Ash, C. R. Daubert, M. Drake, S. Kathariou, K. P. Sandeep;  
*Adjunct Associate Professors:* K. M. Keener, M. Mohamadzadeh;  
*Assistant Professors:* A. Amezquita, D. J. Hanson, T. G. Phister;  
*Research Assistant Professors:* P. D. McClellan-Green;  
*Assistant Professors (USDA):* F. Breidt, J. P. Davis, L. L. Dean, I. Diaz-Muniz

**ASSOCIATE MEMBERS OF THE PROGRAM**

*Associate Professors:* A. M. Fraser;  
*Assistant Professors:* R. Sharma

The department's professional activities include teaching, research, and extension functions. The program provides an educational, research, and informational center in food science for North Carolina and the nation. The department also houses two research centers, the Southeast Dairy Foods Research Center and the Center for Advanced Processing and Packaging Studies. Course offerings and research facilities are available in the following areas: chemistry-biochemistry, engineering, microbiology, nutrition and processing technology.

**Admissions Requirements:** To be admitted, a student should be a graduate of an accredited program in food science or the equivalent. Graduates of other majors can be admitted but will be required to make up certain undergraduate deficiencies without graduate credit. The best qualified applicants will be accepted up to the number of spaces that are available for new students.

**Master's Degree Requirements:** A Master's program must include courses from at least two of the following categories: chemistry-biochemistry, engineering, microbiology, nutrition and processing technology. The M. S. in Food Science requires 30 credit hours and the Master of Food Science requires 36 credit hours of course work.

**Doctoral Degree Requirements:** A doctoral program must include courses from at least three of the categories listed above (or equivalent courses at another university). Total course credits will vary depending on the needs
of the student and the requirements of the Graduate School. All doctoral students are required to pass a departmentally administered written preliminary exam, designed to evaluate a Ph.D. student's general knowledge and comprehension of food science.

**Student Financial Support:** Graduate assistantships and other forms of student aid available to students in this program are described elsewhere in the Graduate Catalog.

**Other Relevant Information:** Students are encouraged to make personal contact with individual faculty whose research program is of interest to them. The department provides a Graduate Studies in Food Science brochure describing each faculty member's program for this purpose.

GRADUATE FACULTY

Admission Requirements:

- A baccalaureate degree from an accredited college or university
- Undergraduate GPA of 3.0 or above
- Narrative statement of professional and personal objectives (in English, 300 words).
- Language proficiency as determined by writing sample and a speaking sample in the target language (French or Spanish).
- Some applicants may be given provisional admittance on condition of taking specific undergraduate courses conducted in the target language and passing with a B or better.
- Students admitted provisionally must complete at least 9 hours of graduate courses making grades of A or B to be considered for full graduate standing.

Degree Requirements: Both programs require at least 30 hours of course work and a culminating project. Each student’s program is tailored to enhance his or her career objectives. Students who plan to pursue a Ph.D. receive the requisite training and assistance. Students who plan to teach in community colleges or universities may complete the degree without a concentration or with a concentration in another language, English, History, or another discipline. K-12 teachers who already have "A" licensure may earn "M" licensure by taking 36 hours in specified disciplines.

Student Financial Support: Graduate assistantships and fellowships are available to students in both programs and are awarded by open competition.

Other Relevant Information: Students may be admitted for the fall or spring semesters but not summer sessions. Deadlines for applications for fall semester are February 15 for international students and May 1 for U.S. students. Deadlines for spring semester are May 1 for international students and November 1 for U.S. students.

ASSOCIATE MEMBERS OF THE PROGRAM

The department offers training in all of the major sub-disciplines of forest, natural resources, and environmental-related science and management. Considerable flexibility is allowed in developing graduate programs tailored to the student's objectives.

Admission Requirements: All parts of the application, including the GRE general test, are considered in making decisions. Admission is competitive and depends on the willingness of at least one member of the faculty to serve as major professor. An undergraduate degree in forestry is not required.

Master's Degree Requirements: Course work requirements range from 30 to 36 credits depending on the
specific master's option. Students without an appropriate background will require additional preparatory work.

**Doctoral Degree Requirements:**
As a rule, students must complete a master's degree before entering the Ph.D. program. However, exceptionally well-prepared students may petition to have their degree objective changed to Ph.D. before completing the master's degree. In addition to the dissertation, Ph.D. programs require 36 to 54 credits of course work beyond the master's degree.

**Student Financial Support:** Merit-based research assistantships are available every year in most fields of specialization. Stipend levels allow students to graduate without incurring significant debt. Those who begin without an assistantship are considered for funding as projects become available. Additional funding is available through a limited number of teaching assistantships.

**Other Relevant Information:** Every graduate student must meet two requirements: (1) register for a one-credit research methodology course, FOR 603 or 803, early in his/her program and (2) begin the final oral exam with a seminar to the department based on work accomplished during the graduate program. Ph.D. students must meet a one-time teaching requirement by assisting a faculty member teach an undergraduate forestry or natural resources course.

**GRADUATE COURSES**

FOR 501 Dendrology  
FOR 502 Forest Measurements  
FOR 503 Tree Physiology

GRADUATE FACULTY

S. E. Curtis, Department Head
S. E. Curtis, Box 7614, 515.2292, securtis@ncsu.edu, Genetics

Distinguished University Professor Emeritus: J. G. Scandalios
William Neal Reynolds Professor: W. R. Atchley, G. C. Gibson, T. F. Mackay, Z. Zeng

Professors: S. E. Curtis, W. H. McKenzie, S. L. Spiker, J. L. Thorne; Adjunct Professors: M. Chilton;
Professors Emeriti: W. D. Hanson, W. E. Kloos, C. S. Levings III, D. F. Matzinger, R. H. Moll, H. E. Schaffer,
C. W. Stuber, A. C. Triantaphyllou; Associate Professors: T. H. Emigh, J. W. Mahaffey, W. O. McMillan;
Assistant Professors: J. M. Alonso, P. Awadalla, R. G. Franks, L. D. Mathies; Research Assistant Professors:
P. A. Estes, D. M. Nielsen; Adjunct Assistant Professors: R. E. Cannon, M. A. Conkling, P. Hurban, S. Uknes

ASSOCIATE MEMBERS OF THE PROGRAM

Emeriti: E. J. Eisen; Assistant Professors: C. M. Grozinger

The department provides a well-balanced program of graduate course work and research training. The faculty
conducts basic research in the genetics of a variety of model animal, plant, and microbial systems. The student
has a choice of research projects in the broad areas of molecular, biochemical, developmental, quantitative and
population genetics.

Admission Requirements: Applicants may come from a number of undergraduate programs that include
biological, agricultural, physical and mathematical science training. All applications are screened by a
departmental committee, and the best qualified applicants will be accepted up to the number of spaces that are
available for new students.

Master's Degree Requirements: The M.S. degree requires a minimum of 30 credit hours; the Master's of
Genetics requires a minimum of 36 credit hours. A 12-hour sequence of five core courses is required of all
majors; nine of these hours are required for minors. A minimum of two additional graduate genetics courses is
required.

Doctoral Degree Requirements: A 14-hour sequence of six core courses is required of all majors; nine of
these hours are required for minors. A minimum of four additional graduate genetics courses is required.

Student Financial Support: Graduate assistantships and fellowships are available to the students from a
number of sources. Information will be provided at the time of application.

Other Relevant Information: New students supported by fellowships or research assistantships will rotate
through three laboratories during their first semester. At the end of the semester, they will choose a laboratory
for their research activities consistent with their interests and available research projects. Provisions are
available for a co-major and cooperative research in more than one laboratory.

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: D. M. Bird, C. H. Opperman; Associate Professors: A. C. Clark; Assistant Professors: M. Rodriguez-Puebla

Genomic sciences has two components. Functional genomics, the generation of large bodies of data relating to organism function, encompasses gene discovery, gene expression, protein and nucleic acid structure and function, gene and gene product interactions, and genomic approaches to breeding and comparative studies.
relevant to ecology and evolutionary biology. Bioinformatics is the analysis of these vast and complex data sets including methods to analyze extremely large sets of genomic information such as DNA sequences and expression from DNA microarrays. Students register in either of these two fields but also receive a solid grounding in the other through core courses common to both programs. Unique and exceptional resources include the Bioinformatics Research Center and the Genome Research Laboratory.

**Admission Requirements:** Students should have an undergraduate major in the biological or physical sciences, mathematics, statistics or computer science and have completed calculus and other comparable courses. In addition to the other application requirements, a student should submit a statement of interests and career goals.

**Master's Degree Requirements:** Students take a 15-credit core curriculum of courses common to both programs followed by courses specific to the degree and discipline. The Master's of Bioinformatics requires a minimum of 33-36 credit hours. The Master's of Functional Genomics requires a minimum of 30 credit hours, and the Master's of Science in Functional Genomics requires a minimum of 36 credit hours.

**Doctoral Degree Requirements:** The Ph.D. program requires a total of 72 credits, and all students participate in a journal club, monthly seminar series and research ethics training. A co-mentoring system exists between bioinformatics and functional genomics through which each student has advisors from both disciplines. Throughout the program they will have the opportunity to gain practical experience in the Genome Research Laboratory, Bioinformations Research Center and DNA Sequencing Facility.

**Student Financial Support:** A significant number of fellowships are available through the genomics program, and students may also be supported by research grant funds awarded to genomics faculty members.

**GRADUATE COURSES**
Many courses are available and cross-listed through 25 participating departments in the Colleges of Agriculture & Life Sciences, Engineering, Natural Resources, Physical & Mathematical Sciences, and Veterinary Medicine.

GRADUATE FACULTY

S. Piedrafita, Department Head

Director of Graduate Programs:
M. J. Davis, Box 7701, 515.8335, meredith_davis@ncsu.edu, Graphic Design

Professors: M. J. Davis, M. Scotford; Professors Emeriti: A. S. Lowrey; Associate Professors: K. L. Bailey, D. G. Crisp, S. Piedrafita, S. Townsend; Assistant Professors: P. A. Brock, W. Temple

Recognizing that graphic design is both a social activity and a form of cultural production, faculty and students in the Department of Graphic Design define the study of the discipline as necessarily contextual; graduate research examines the creation, reproduction, distribution, and reception of design from a multidisciplinary perspective. The Master of Graphic Design Program also emphasizes the importance of understanding design as the creation of cognitive and cultural artifacts; study focuses on the construction of messages, the reproduction of such artifacts, the systems for their distribution, and their reception within various cultures of society.

Graduate students in graphic design learn through their own search for problems within critical content frameworks presented by the faculty. The program places primary importance on the ability of students to be critical agents; to seek problems and to pose questions. Faculty evaluate graduate students on their capacity to define individual investigations and to support their decision-making with an independent program of reading and research; on their ability to critically evaluate and articulate discoveries; and on their skills in synthesizing ideas through the creation of design artifacts.

The Master of Graphic Design Program provides focused study and research in the discipline that reflects concern for how designers will shape and respond to the changing technological and social communications environments of the future. The Program has the broad objective to educate socially responsible, intellectually curious, historically aware, and technologically adept communication design professionals.

In the Track III Program, students whose undergraduate preparation is in fields other than graphic design examine relationships between their previous study and graphic design. While acquiring design skills and knowledge in graphic design, they apply concepts and methods from their previous study to design research and innovation.

Admissions Requirements: Students must make application to the Department of Graphic Design by January 15. In addition to Graduate School requirements, the department requires department personal data forms, a slide portfolio of design and two-dimensional visual work, and a statement of intent. The GRE is required for students whose first degree is not in Graphic Design.

Master's Degree Requirements: The Master's of Graphic Design degree requires a minimum of 48 credit hours. Studio credits presented for transfer must be accompanied by a portfolio of work from the courses under consideration.

Student Financial Support: The department has limited provisions for tuition remission and assistantships. Assistantships are awarded on the basis of student and departmental needs. Assistantship applications are
available from the Department of Graphic Design and should be submitted with the application for admission (for incoming students) or by the advertised deadline (for continuing students).

**GRADUATE FACULTY**

J. K. Ocko, *Department Head*

**Director of Graduate Programs:**
K. S. Vincent, Box 8108, 513.2233, steven_vincent@ncsu.edu, History

**Admission Requirements:** In the required career goals statement, the major country, topic and historical period of interest should be included. Students admitted provisionally must complete at least 9 hours of graduate courses making grades of A or B to be considered for full graduate standing.

**Master's Degree Requirements:** *Master of Arts Degree in History:* This program requires a total of 30 semester hours, including six hours for the thesis. Each student's program is tailored to enhance his or her career objectives. Social studies teachers, for example, may earn advanced competency on completion of the M.A. in history with additional course work in education. Similarly, students who plan to pursue a Ph.D. degree receive the requisite training and assistance. *Master of Arts Degree in Public History:* This non-thesis program requires 36 credit hours of course work. Half the hours fall in historical studies, the rest in applied history classes, including innovative courses in archival and special collections management, paper conservation, documentary editing, museum studies, and historic preservation. Students may select practicums in their own special areas of interest -- including archival management, historic site administration, museology, historic preservation, and historical publications.

**Student Financial Support:** Graduate assistantships and fellowships are available to students in both programs and are awarded by open competition.

**Other Relevant Information:** Application deadline is January 1; students are admitted for the fall semester only. The general portion of the GRE is required for those seeking admission to both the history and public history programs. No subject test is required for either program.

GRADUATE FACULTY

J. L. Kornegay, Department Head

Director of Graduate Programs:
J. M. Dole, Box 7609, 515.3537, john_dole@ncsu.edu, Horticultural Science

Graduate Alumni Distinguished Professor Emeritus: D. M. Pharr

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: M. D. Boyette, G. D. Hoyt, F. H. Yelverton

Course offerings or research opportunities are available in the following areas: plant physiology, breeding and genetics, herbicide physiology, nutrition, propagation, plant molecular biology and biotechnology, genomics, growth regulators, postharvest physiology, sustainable and organic agriculture, Christmas trees, fruits, vegetables, floriculture, woody ornamentals, and landscape horticulture.

Admission Requirements: To be admitted, a student should have completed course work in physics, mathematics, chemistry, biochemistry, soils, plant pathology, genetics, plant physiology, entomology and several courses in horticulture. An applicant deficient in course work may be admitted on a provisional basis until the deficiency is made up. Applicants must provide the basic graduate record examination (GRE) scores, three letters of reference, two official transcripts for each prior degree, and a statement of career goals.

Master's Degree Requirements: The Master's degree is a research-oriented degree requiring 30 credit hours and a written thesis. For students wishing a more general educational background in horticultural science without the thesis requirement, the Master of Horticultural Science (M.H.S.) degree is offered. The M.H.S. requires 36 credit hours.

Doctoral Degree Requirements: The Ph.D. program is designed for individuals desiring to pursue careers in research and teaching. A minimum of 54 credit hours beyond the Master of Science program is required.

Student Financial Support: The department has a number of graduate teaching and research assistantships available for promising students. Those interested should apply at least nine months prior to their anticipated enrollment date.

GRADUATE FACULTY

R. M. Stewart, Department Head

Director of Graduate Programs:
K. B. DeBord, Box 7605, 515.9147, karen_debord@ncsu.edu, Family and Consumer Sciences

Professors: K. B. DeBord, P. C. Dunn, J. W. McClelland; Associate Professors: L. B. Bearon, A. M. Fraser, S. D. Kirby, D. W. Matthews, S. A. Zaslow; Assistant Professors: A. Behnke, S. S. Jakes

Parent Education and Family Life Education are rapidly growing fields of research and practice. Demand for professionals to teach and create support systems for families is arising through government initiatives, community agencies, court systems, prisons, social service organizations, schools, and communities. The Department of Family and Consumer Sciences at North Carolina State University and the Department of Human Development and Family Studies at the University of North Carolina at Greensboro offer a jointly administered Masters of Science degree in Human Development & Family Studies with a concentration in Family Life & Parent Education.

Admission Requirements: Students may apply to the joint program through either institution via the normal admissions procedures. A joint admissions committee will evaluate all applicants and be responsible for assigning the home institution.

Master’s Degree Requirements: The M.S. in Human Development and Family Studies is a non-thesis degree that requires a total of 34 credit hours that includes six hours of core content, nine hours in the area of specialization, six hours of applied research, and four to seven hours of applied research internship and professional development. In addition, the student and program advisor will jointly select six to nine hours of elective courses.

Other Relevant Information: This program is designed to make most of the coursework accessible to students enrolled at either the University of North Carolina at Greensboro or North Carolina State University. Course delivery methods include: Web-based classes, seminar classes with a live internet feed connecting classrooms at both institutions, and on-campus seminars at both institutions. This is not a 100% online degree, however. A blending of teaching methods are used.

GRADUATE COURSES

FCS 510  Program Development and Evaluation in Family Life Education
FCS 512 Family and Community Partnerships
FCS 522 Family Life Education
FCS 523 Family Relationships Over the Life Course
FCS 524 Applications of Gerontology in Family Life Education
FCS 531 Effective Management of Family Resources
FCS 540 Environmental Influences on the Family
FCS 590 Special Topics in Family Life & Parenting Education
FCS 595 Contemporary Issues in Family Life Education

GRADUATE FACULTY

**Director of Graduate Programs:**
S. L. Tonkonogy, Box 8401, 513.6252, sue_tonkonogy@ncsu.edu, Immunology

**Professors:** G. W. Almond, E. B. Breitschwerdt, G. A. Dean, F. J. Fuller, B. Hammerberg, S. M. Laster, T. Olivry, B. Sherry, M. B. Tompkins, W. A. F. Tompkins; **Research Professors:** E. A. Havell, S. Kennedy-Stoskopf; **Adjunct Professors:** M. J. Selgrade; **Associate Professors:** P. Arasu, L. C. Hudson, S. L. Jones, M. B. McCaw, S. L. Tonkonogy; **Assistant Professors:** A. Birkenheuer, M. Koci, L. D. Martin, M. L. Sikes, S. E. Suter, J. Yoder; **Research Assistant Professors:** K. E. Howard; **Adjunct Assistant Professors:** M. I. Gilmour

Course offerings or research facilities are available in the following areas: infectious disease immunology, mucosal immunology, immunotoxicology, immunoparasitology, environmental immunology, and immunology of non-vertebrate species.

Students will be accepted into the immunology program based on their academic records (GPA) as undergraduates and/or as veterinary or medical students, results of the GRE, letters of recommendation and expression of interest in immunology. For the Ph.D. program, special consideration will be given to students who have had research experience (either an M.S. degree or other laboratory experience), especially in immunology, microbiology, biochemistry or genetics, or students who are completing strong clinical residency programs. Completed applications should be received by December 1 for fall admission.

To be admitted, a student should be a graduate of a major accredited biological science or medical science program. Students lacking appropriate courses may be considered for admission but will be required to make up certain undergraduate deficiencies without graduate credit.

Ph.D. and Master's students must take IMM 751 and at least one other 700-level immunology course, and a graduate-level biochemistry course (e.g. BCH 553 Biochemistry of Gene Expression). Also required are CBS 662 (Professional Conduct in Biomedical Research) and ST 511 (Experimental Statistics for Biological Sciences I). IMM 816 (Advanced Topics in Immunology) is required each semester. The remaining credit hours should include seminar (IMM 807) and research and teaching credits.

Students wishing to pursue a minor in Biotechnology should complete the core course in biotechnology (BIT 510) and two additional credit hours in the biotechnology series.

Graduate assistantships are available to students in the immunology program through the affiliated departments and graduate training grants. In addition, there are graduate research assistantships provided by individual faculty of the program.

The immunology program is an interdepartmental graduate program with faculty drawn from the College of Veterinary Medicine and the College of Agriculture and Life Sciences. For administrative purposes, all students accepted into the program will also have to be student members of one of the participating departments.

GRADUATE COURSES
Immunology

IMM 685 Master's Supervised Teaching
IMM 690 Master's Examination
IMM 693 Master's Supervised Research

GRADUATE FACULTY

B. W. Laffitte, Department Head

Director of Graduate Programs:
P. R. Hooper, Box 7701, 515.8324, percy_hooper@ncsu.edu, Industrial Design

Industrial Design is the professional service of creating and developing concepts and specifications that optimize the value, function and appearance of products and product systems to the mutual benefit of both user and manufacturer. This service is often provided in the context of a cooperative working relationship with other members of a development group.

Typical groups include management, marketing, engineering and manufacturing specialists. Industrial designers place special emphasis on human characteristics, needs and interests. These require particular understanding of visual, tactile, safety and convenience criteria. Industrial designers combine these considerations with practical concern for technical processes and requirements for manufacture; marketing opportunities and economic constraints; and distribution, sales and servicing arrangements. Industrial designers are guided by the awareness of their obligations to protect and promote public safety and well being; to respect the environment; and to observe ethical business practices.

Graduates with a Master of Industrial Design have career opportunities in four general areas; corporate design offices in manufacturing companies, independent design consulting firms, governmental agencies and educational institutions.

Admissions Requirements: Applicants will be considered for admission on an individual basis and plans of study will be developed to take into account previous academic and professional experiences. In addition to other forms, applications must include departmental personal data forms and a portfolio.

Master's Requirements: The Master of Industrial Design degree requires a minimum of

- 30 credit hours for applicants with extensive experience in industry;
- 48 credit hours for applications with a Bachelor's degree in Industrial Design, or
- 78 credit hours for applications with Bachelor's degrees in an area other than Industrial Design.

GRADUATE COURSES

ID 500 Advanced Industrial Design (Series)
ID 511 Industrial Design Materials and Processes I
ID 512 Industrial Design Materials and Processes II
ID 532 Advanced Concepts in Product Engineering

GRADUATE FACULTY

J. R. Wilson, Department Head

Director of Graduate Programs: G. A. Mirka, Box 7906, 515.6399, mirka@eos.ncsu.edu, Industrial Engineering

Henry A. Foscue Professor of Industrial Engineering and Furniture Manufacturing: C. T. Culbreth, Jr.

James T. Ryan Prof of Industrial Engineering: T. J. Hodgson

University Professor: S. E. Elmaghraby

Walter Clark Chair Professor of IE and Director of Graduate Programs IE: S. Fang

ASSOCIATE MEMBERS OF THE PROGRAM

Professors Emeriti: T. Johnson; Associate Professors: T. L. Honeycutt

The graduate faculty in industrial engineering supports academic and research interests in four areas: manufacturing systems (manufacturing processes, CAM, CIM, robotics, automation, rapid prototyping and concurrent engineering); production systems (logistics, supply chain management, scheduling, inventory control, materials handling, facility design, furniture manufacturing and management, quality control, and engineering economics); systems analysis and optimization (stochastic processes, simulation, mathematical programming, and soft computing); and ergonomics (human performance, occupational safety, and biomechanics). The department faculty actively supports independent graduate degree programs in operations research, integrated manufacturing systems engineering, and financial mathematics.

Admission Requirements: Applications are accepted from undergraduate majors in engineering and in the behavioral, physical and mathematical sciences who meet prerequisites in calculus and linear algebra, computer science, and statistics.

Master's Degree Requirements: The M.S. degree requires 30 credit hours and involves depth of study in a specified area of concentration, nine hours in a minor, and six hours of research credit. The Master of Industrial Engineering (M.IE.) degree may be obtained by course work only; project work is optional. A minimum of 33 credit hours is required for the M.IE.

Doctoral Degree Requirements: This degree requires 72 credit hours of course and research work beyond the Bachelor's degree. Undergraduate students with superior credentials may apply directly to the doctoral program and bypass the master's degree. For students who have completed the Master's degree, typically 30 to 36 hours of additional course work are required. A departmental written qualifying examination in two areas is required.
**Student Financial Support:** Research and teaching assistantships are available on a competitive basis to early applicants. Fellowships that supplement assistantship stipends are available to U.S. applicants with superior credentials. Award priority is given to Ph.D. and then to M.S. applicants.

GRADUATE FACULTY

Director of Graduate Programs: S. D. Jackson, Box 7915, 515.3808, steve_jackson@imsei.ncsu.edu, Integ. Mfg. Sys. Engineering

Alan T. Dickson Distinguished University Professor: M. A. Rappa
Bank of America University Distinguished Professor: R. B. Handfield
Burlington Industries Professor of Textile Technology: R. L. Barker
Henry A. Foscue Professor of Industrial Engineering and Furniture Manufacturing: C. T. Culbreth, Jr.
James T. Ryan Prof of Industrial Engineering: T. J. Hodgson

The Integrated Manufacturing Systems Engineering (IMSE) Institute was established in 1984. IMSE provides multidisciplinary graduate-level education and practical training opportunities in the theory and practice of integrated manufacturing systems engineering at the masters level. IMSE focuses on providing a manufacturing presence and a program environment in the College of Engineering where faculty, graduate students and industry can engage cooperatively in multidisciplinary graduate education, basic and applied research, and technology transfer in areas of common interest related to modern manufacturing systems technology. The objective of the IMSE program is to offer students with traditional discipline backgrounds in engineering and the physical sciences an opportunity to broaden their understanding of the multidisciplinary area of manufacturing systems. Core areas of concentration are offered in manufacturing systems, logistics, mechatronics, and biomanufacturing.

Admission Requirements: Admission to the IMSE master's program requires a B.S. degree from an accredited institution in engineering, physics, mathematics, or computer science. Check with the Institute if your degree is in a field other than these listed.

Master's Degree Requirements: The IMSE program requires a minimum of 27 hours of graduate course work and six hours of research project. The graduate course work includes five required core courses that provide a multidisciplinary overview of subject materials basic to manufacturing systems, logistics, mechatronics, and biomanufacturing. Specialization is provided in the student's elective courses. The six hours of research project is performed either individually or in teams in areas that compliment and reinforce the graduate course work.

Student Financial Support: Assistantships, fellowships and internships are available to qualified students. The full financial support package covers tuition and health insurance.

Fellowship/Internship: The IMSE internship program was established to provide a cooperative industrial and
academic experience for some IMSE students and our industrial sponsors. Several Fellowship/Internships awards are made available every year for special training in IMSE member companies. Students who are selected to participate in the internship program receive financial support for four semesters and one summer. Typically, the student attends classes for two semesters (fall and spring), works at the sponsor company for the following summer and fall semester, and completes the IMSE course requirements the following spring semester. The student uses the experience at the sponsor company as the basis for their IMSE research project.

Other Relevant Information: The Institute is supported by an industrial affiliates group of member companies. They have included ABB, Applied Materials, AT&T, AIMS, Bayer, B/S/H, Bosch Tools, CP&L, Caterpillar, Corning Cable Systems, CSX, Inc., Dupont, Elkay, Ford Motor, GE, IBM, Intel, John Deere Turf Care, Longistics, Magneti Marelli, Morganite, Nekton Technologies, and Nortel. The Institute interacts with member companies through an Industry Advisory Board and internships.

Core areas of concentration are offered in manufacturing systems, logistics, mechatronics, and biomanufacturing.

GRADUATE FACULTY

Director of Graduate Programs:
H. H. Hobbs, Box 8102, 513.4389, heidi_hobbs@ncsu.edu, Political Sci. & Public Admin.

Graduate Alumni Distinguished Professor - Sociology: M. D. Schulman
William Neal Reynolds Professor Emeritus: S. W. Buol

The Master of International Studies (MIS) is a 36-hour, non-thesis professional program that prepares students for careers in government service, international institutions, international businesses and nongovernmental organizations. While the degree is administered by the School of Public and International Affairs, the MIS is a multidisciplinary degree program with a faculty and curriculum that spans numerous colleges and several departments. Approximately half of the course work for the degree is devoted to developing international knowledge and competencies. The remaining coursework is comprised of regional, topical, professional or technical specializations designed by students in consultation with their faculty advisors.

Admission Requirements: Applicants must provide GRE scores in addition to other application materials required by the Graduate School.

Degree Requirements: The requirements for the MIS degree are as follows:

1. 36 credit hours of course work;
2. One course from each of the following groupings:

**Group A - International Relations**
- PS 530 Seminar in International Relations
- PS 533 Global Problems and Policy
- HI 554 History of U.S. Foreign Relations, 1900-Present

**Group B - Comparative Politics/Societies**
- PS 540 Seminar in Comparative Politics
- PS 542 Western European Politics
- PS 543 Latin America and Caribbean Politics
- PS 545 Comparative Systems of Law and Justice
- SOC 514 Developing Societies
- SOC 727 Comparative Societies

**Group C - International Law and Organization**
- PS 431 The United Nations and Global Order
- PS 531 International Law
- PS 536 Global Environmental Law and Policy
Group D - International Economy/Development
BUS 426 International Financial Management
EC 448 International Trade
ECG 540 Economic Development
PS 539 International Political Economy

Group E - Cross-cultural Communication
COM 523 International and Intercultural Communication
PSY 755 Cross-Cultural Research and Development

3. An individualized specialization of 12-15 hours is also required. The specialization may be in a geographical region (e.g., Latin America, South Asia), an international topic (e.g., security, environment, sustainable development), a professional field (e.g., business, public administration, non-profit management), or a technical specialty (e.g., agriculture, information technology). The specialization may include an appropriate research methodology course, if recommended by the student's faculty advisory;

4. Capstone seminar (three hours) and oral presentation of work to faculty and peers;

5. A significant foreign work or study experience of at least 12 weeks;

6. Reading/listening/speaking competency in a foreign language;

Course offerings or research facilities are available in the following areas: site planning and design, landscape history, urban public spaces, community design, regional design, resource management, outdoor learning environments, international urban and rural landscapes, and specialized landscapes.

Admission Requirements: The best-qualified applicants are accepted up to the maximum number of spaces that are available for new students. Exceptions to the minimum 3.00 GPA may be made for students with special backgrounds, abilities and interests.

Master's Degree Requirements.

I. *Accredited First Professional Degree in Landscape Architecture:* Candidates follow an 82-hour sequence of courses over a six-semester period. Three semesters of the program of study are determined by the required curriculum. The last three semesters of study are outlined by the student’s Chair of the Department, Director of Graduate Programs, and/or advisor. Research and case studies lead to the final project and design application. The investigative direction is set in collaboration with the chair of the faculty committee. A formal presentation of findings to the faculty, student body and local professionals is required. The summary research and project report must be submitted to the College of Design faculty to meet the graduation requirements. II. *Advanced Studies in Landscape Architecture:* Candidates with an accredited undergraduate Landscape Architecture degree follow a 48-hour sequence of courses. Twenty-seven hours of electives are chosen through advising with the Director of Graduate Programs, advisors and faculty committee. Comprehensive research work is required for a final project with a final report is required. A formal presentation of findings to the faculty, student body and local professionals is also required.

Other Relevant Information: Students have the option of including a graduate minor in their course of studies. Minors can be in any other graduate program offered at NC State, UNC-CH and Duke University. Some examples of graduate minors are: natural resources, parks, recreation and tourism management, architecture, education, planning, civil engineering, and art and design. The College of Design includes the Center for Universal Design, the Office of Research, Extension & Engagement, and the Natural Learning Initiative.

Professors: L. H. MacKethan, R. P. Patterson; Associate Professors: W. A. Jackson, III

The Master of Arts in Liberal Studies (MALS) program is an interdisciplinary graduate program administered by the College of Humanities and Social Sciences. This is a broad, interdisciplinary program of part-time or full-time graduate study that integrates and expands the student's knowledge and awareness and that is geared to the student's personal interests. Each student, in consultation with an academic advisor, designs an individual program of study around an interdisciplinary theme or topic that is of intrinsic interest to the student or that relates to the student's professional or vocational interests. Students take graduate courses across a range of NC State departments as well as MALS seminars designed specifically for the program.

Admissions Requirements: Students entering the master's program in liberal studies must have an undergraduate degree. In addition to the material required by the Graduate School, students applying are asked to submit a statement describing their objectives in doing a degree in liberal studies and a writing sample. GRE scores are not required. All applicants are interviewed.

Master's Degree Requirements: Thirty hours of course work made up of (1) a minimum of three MALS seminars, (2) eighteen hours representing the student's interdisciplinary theme or concentration, and (3) a three-hour culminating project. Examples of concentrations that are well supported by graduate courses in the NC State curriculum are: science, technology and society, the American experience and leadership

GRADUATE COURSES

MLS 501 Seminar in Liberal Studies.
MLS 630 Independent Study.
MLS 676 Independent Project.
MLS 685 Master's Supervised Teaching.
MLS 688 Non-Thesis Master's Continuous Registration - Half-Time Registration.
MLS 689 Non-Thesis Master's Continuous Registration - Full-Time Registration.
MLS 690 Master's Examination.

GRADUATE FACULTY

J. C. Fountain, Department Head

Director of Graduate Programs:
G. S. Janowitz, Box 8208, 515.7837, janowitz@ncsu.edu, Marine, Earth & Atmos. Science

Scholar in Residence: R. R. Braham

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: J. M. Burkholder, J. M. Miller; Professors Emeriti: B. J. Copeland

Graduate disciplines in atmospheric science, geology and marine sciences are offered. Within marine sciences the subdisciplines of biological, chemical, geological and physical oceanography are recognized by the profession.

Admission Requirements: A bachelor's degree with research experience or a master's degree is required for entry into the Ph.D. program. The GRE Subject Test scores are required only for applicants in biological oceanography. A bachelor's degree in a science, mathematics or engineering is required for entry into the M.S. program in atmospheric science, geology, and biological, chemical, geological or physical oceanography. Undergraduate field camp is required of all students in the M.S. program in geology; this requirement may be fulfilled before or after admission. An M.S. degree with a non-thesis option for students on leave for a fixed period from government positions is available and admission to this option must be requested at the time of application.

Master's Degree Requirements: The M.S. degree requires a minimum of 30 credit hours. Specific course requirements are determined by the advisory committee of each student. However, MEA 601 Seminar is required of all M.S. students no later than the third semester in residence. Marine science students are required to take core courses in two of the three subdisciplines other than their own.
**Doctoral Degree Requirements:** Specific courses are determined by the student's advisory committee. Registration in seminar, MEA 801, is required of all Ph.D. students no later than the fourth semester in residence. Marine science students are required to take core courses in all three subdisciplines other than their own; this requirement may be fulfilled at the M.S. level.

**Student Financial Support:** Research and teaching assistantships are available.

**Other Relevant Information:** Students are assigned initial advisors upon admission. It is the student's responsibility to secure the consent of a faculty member to serve as the permanent advisor who will chair or co-chair the advisory committee.

**GRADUATE COURSES IN COMMON TO ALL MEA STUDENTS**

- MEA 601 Seminar
- MEA 685 Master's Supervised Teaching
- MEA 690 Master's Examination
- MEA 693 Master's Supervised Research
- MEA 695 Master's Thesis Research
- MEA 696 Summer Thesis Research
- MEA 699 Master's Thesis Preparation
- MEA 801 Seminar
- MEA 885 Doctoral Supervised Teaching
- MEA 890 Doctoral Preliminary Examination
- MEA 893 Doctoral Supervised Research
- MEA 895 Doctoral Dissertation Research
- MEA 896 Summer Dissertation Research
- MEA 899 Doctoral Dissertation Preparation

**GRADUATE COURSES**

**Atmospheric Science**
- MEA 510 Air Pollution Meteorology
- MEA 512 Satellite Meteorology
- MEA 513 Radar Meteorology
- MEA 514 Advanced Physical Meteorology
- MEA(CE) 579 Principles of Air Quality Engineering
- MEA 593 Special Topics in Atmospheric Science
- MEA 613 Special Topics in Atmospheric Science
- MEA 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
- MEA 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
- MEA 700 Environmental Fluid Mechanics
- MEA 702 Advanced Cloud and Precipitation Physics
- MEA 703 Atmospheric Aerosols
- MEA 705 Dynamic Meteorology
- MEA 706 Meteorology of the Biosphere
- MEA 707 Planetary Boundary Layer
- MEA 708 Atmospheric Turbulence
- MEA 710 Atmospheric Dispersion
- MEA 712 Mesoscale Modeling
- MEA 713 Mesoscale Dynamics
- MEA 714 Atmospheric Convection
- MEA 715 Dynamics of Mesoscale Precipitation System
- MEA 716 Numerical Weather Prediction
- MEA 717 Advanced Weather Analysis
- MEA 719 Climate Modeling
- MEA 720 Coastal Meteorology
- MEA 721 Air-Sea Interaction
- MEA(MAE) 725 Geophysical Fluid Mechanics
- MEA(MAE) 726 Advanced Geophysical Fluid Mechanics
- MEA(CE) 779 Advanced Air Quality
Marine, Earth and Atmospheric Sciences

MEA 793 Advanced Special Topics in Atmospheric Science
MEA 813 Special Topics in Atmospheric Science

Earth Science
MEA 570 Geological Oceanography
MEA 574 Advanced Igneous Petrology
MEA 575 Advanced Metamorphic Petrology
MEA 576 Applied Sedimentary Analysis
MEA 577 Electron Microprobe Analysis of Geologic Material
MEA 578 Depositional Environments and Lithostratigraphy
MEA 585 Physical Hydrogeology
MEA 592 Special Topics in Earth Science
MEA 599 Regional Geology of North America
MEA 612 Special Topics in Earth Science
MEA 758 Laboratory and Field Methods for Investigation of the Seabed
MEA 759 Organic Geochemistry
MEA 760 Biogeochemistry
MEA 763 Geochemistry
MEA 764 Sedimentary Geochemistry
MEA 785 Chemical Hydrogeology
MEA 788 Advanced Structural Geology
MEA 789 Topics in Appalachian Geology
MEA 790 Geotectonics
MEA 792 Advanced Special Topics in Earth Science
MEA 794 Regional Tectonics
MEA 795 Photogeology and Remote Sensing
MEA 796 Exploration and Engineering Geophysics
MEA 812 Special Topics in Earth Science

Marine Science
MEA 540 Principles of Physical Oceanography
MEA(ZO) 549 Principles of Biological Oceanography
MEA 554 Marine Physical-Biological Interactions
MEA 560 Chemical Oceanography
MEA 562 Marine Sediment Transport
MEA 570 Geological Oceanography
MEA 573 Principles of Chemical Oceanography
MEA 591 Special Topics in Marine Science
MEA 611 Special Topics in Marine Science
MEA 615 Graduate At-Sea Laboratory
MEA 700 Environmental Fluid Mechanics
MEA 713 Mesoscale Wave Dynamics
MEA 721 Air-Sea Interaction
MEA(MAE) 725 Geophysical Fluid Mechanics
MEA(MAE) 726 Advanced Geophysical Fluid Mechanics
MEA 735 Fourier Analysis of Geophysical Data
MEA 741 Synoptic Physical Oceanography
MEA(CE) 742 Gravity Wave Theory I
MEA 743 Ocean Circulation
MEA 744 Dynamics of Shelf Circulation
MEA 745 the Physical Dynamics of Estuaries
MEA (ZO) 750 Marine Benthic Ecology
MEA 752 Marine Plankton Ecology
MEA(ZO) 754 Advances in Marine Community Ecology
MEA(ZO) 756 Ecology of Fishes
MEA 758 Laboratory and Field Methods for Investigation of the Seabed
MEA 759 Organic Geochemistry
MEA 760 Biogeochemistry
MEA 762 Marine Geochemistry
MEA 767 Continental Margin Sedimentation
MEA 791 Advanced Special Topics in Marine Science
MEA 811 Special Topics in Marine Science

GRADUATE FACULTY

J. M. Rigsbee, *Department Head*

Director of Graduate Programs:
R. O. Scattergood, Box 7907, 515.7843, ron_scattergood@ncsu.edu, Materials Science & Engineering

Distinguished Research Professor:  J. J. Cuomo
John C. Fan Family Distinguished Chair in Materials Science and Engineering:  J. Narayan
Kobe Steel Distinguished University Professor Emeritus:  R. F. Davis

ASSOCIATE MEMBERS OF THE PROGRAM

Materials and materials limitations pervade all of the engineering and high technology fields that are an integral part of our society. Graduate programs in this department focus on understanding the structure, structure modification and properties of materials and the development of new or improved materials and advanced processing methods which are critical links between the design and the realization of new systems.

Admission Requirements: In addition to the general admission requirements as set by the Graduate School, the department requires submission of GRE scores. Non-native English speakers also require a minimum TOEFL score as established by the Graduate School.

Master's Degrees Requirements: The minimum requirements for the Master of Materials Science and Engineering degree are 33 credit hours and 30 credit hours for the Option B. The M.S. degree has the minimum requirement of 30 credit hours including six credit hours for research.

Doctoral Degree Requirements: The minimum requirements for the doctoral degree are 72 credit hours including 20 to 30 credit hours for research and 12 credit hours in one or more supporting fields of which no more than three credit hours may be at the 400 level.

Student Financial Support: In recent years most students in the graduate program have received financial support in the form of research or teaching assistantships or fellowships.
Other Relevant Information: The department reflects the interdisciplinary nature of the field of Materials Science and Engineering. A substantial number of current graduate students majored in fields other than but related to materials, and the department has a significant number of associated graduate faculty from other departments supervising thesis and dissertation research.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

MSE 500 Modern Concepts in Materials Science
MSE(NE) 509 Nuclear Materials
MSE 531 Physical Metallurgy I
MSE(MAE) 539 Advanced Materials
MSE 540 Processing of Metallic Materials
MSE 545 Ceramic Processing
MSE 556 Composite Materials
MSE 560 Microelectronic Materials Science and Technology
MSE(TC) 561 Organic Chemistry of Polymers
MSE 575 Polymer Technology and Engineering
MSE(BUS) 576 Technology Evaluation and Commercialization Concepts
MSE(BUS) 577 High Technology Entrepreneurship
MSE(BUS) 578 Implementing Technology Commercialization Strategies
MSE 601 Seminar
MSE 685 Master's Supervised Teaching
MSE 690 Master's Examination
MSE 693 Master's Supervised Research
MSE 695 Master's Thesis Research
MSE 696 Summer Thesis Research
MSE 699 Master's Thesis Preparation
MSE 701 Diffusion and Mass Transport Processes in Solids
MSE 702 Defects in Solids
MSE 704 Electrical, Optical and Magnetic Properties of Materials
MSE 705 Mechanical Behavior of Engineering Materials
MSE 706 Phase Transformations and Kinetics
MSE(CH) 707 Chemical Concepts in Materials Science and Engineering
MSE 708 Thermodynamics of Materials
MSE 710 Elements of Crystallography and Diffraction
MSE 711 Stereology and Image Analysis
MSE 712 Scanning Electron Microscopy
MSE 715 Transmission Electron Microscopy
MSE 720 Advanced Crystallography and Diffraction
MSE 721 Theory and Structure of Amorphous Materials
MSE 722 Advanced Scanning Electron Microscopy and Surface Analysis
MSE 723 Theory and Structure of Metallic Materials
MSE(MAE) 731 Materials Processing by Deformation
MSE(MAE) 732 Fundamentals of Metal Machining Theory
MSE 733 Advanced Ceramic Engineering Design
MSE 741 Principles of Corrosion
MSE 751 Thin Film and Coating Science and Technology I
MSE 752 Thin Film and Coating Science and Technology II
MSE 753 Advanced Mechanical Properties of Materials
MSE 760 Materials Science Processing for Semiconductor Devices
MSE(CHE) 761 Polymer Blends and Alloys
MSE(TC) 762 Physical Chemistry of High Polymers - Bulk Properties
MSE 770 Defects, Diffusion and Ion Implantation in Semi-conductors
MSE(CH,TC) 772 Physical Chemistry of High Polymers - Solution Properties
MSE(NE) 773 Computer Experiments in Materials and Nuclear Engineering
MSE 775 Structure of Semicrystalline Polymers
MSE 791 Advanced Topics in Materials Science and Engineering
MSE 792 Advanced Topics in Materials Science and Engineering
MSE 795 Advanced Materials Experiments
MSE 801 Seminar
MSE 885 Doctoral Supervised Teaching
MSE 890 Doctoral Preliminary Examination
MSE 893 Doctoral Supervised Research

GRADUATE FACULTY

A. G. Helminck, *Interim Department Head*

*Director of Graduate Programs:*
S. L. Campbell, Box 8205, 515.3300, s_campbell@ncsu.edu, Mathematics

*University Professor and Drexel Professor: H. T. Banks*

ASSOCIATE MEMBERS OF THE PROGRAM

*Professors:* F. H. M. Semazzi; *Associate Professors:* J. D. Brown

The Department of Mathematics offers programs leading to the degrees of Master of Science and Doctor of Philosophy in mathematics and in applied mathematics. Students may opt for the concentration in computational mathematics, which is attached to the program in applied mathematics. The Concentration in Interdisciplinary Mathematics (MAI) is available to Ph.D. students in either Mathematics or Applied Mathematics. It is not available to Masters Students. Through the Center for Research in Scientific Computation, which is housed in the Department of Mathematics, students may participate in the industrial applied mathematics program, a program of joint research endeavors with industrial and governmental partners.

Admissions Requirements: Applicants for admission should have an undergraduate or Master's degree in mathematics or the equivalent. This should include courses in advanced calculus, modern algebra and linear algebra. Applicants with degrees in other subjects may be admitted but may be required to take certain undergraduate courses in mathematics without receiving graduate credit. The GRE Advanced Test in Mathematics is not required but a good score can be a positive factor in admission.

Master of Science Requirements: The M.S. degree requires a minimum of 30 credit hours. In addition to course requirements (27 credit hours), the M.S. degree requires a written Master's project for 3 hours credit.

Ph.D. Requirements: The Ph.D. requires a minimum of 72 credit hours. A student will typically take 50-60
semester hours of course credits for the Ph.D. These courses include one semester of modern algebra and one semester of mathematical analysis. The written preliminary examination consists of examinations in three areas of mathematics. These are chosen by the student from 14 possibilities. The research dissertation should represent a substantial contribution to an area of mathematics or its applications.

**Student Financial Support:** Teaching assistantships and some research assistantships are available. Teaching assistants benefit from a structured program of training in university-level teaching.

**Other Information:** The Department of Mathematics has a large number of workstations devoted exclusively to its graduate students.

**GRADUATE COURSES**

- MA 501 Advanced Mathematics for Engineers and Scientists I
- MA 502 Advanced Mathematics for Engineers and Scientists II
- MA(OR) 504 Introduction to Mathematical Programming
- MA(IE,OR) 505 Linear Programming
- MA 507 Analysis for Secondary Teachers
- MA 508 Geometry for Secondary Teachers
- MA 509 Abstract Algebra for Secondary Teachers
- MA 510 Selected Topics in Mathematics for Secondary Teachers
- MA 511 Advanced Calculus I
- MA 512 Advanced Calculus II
- MA 513 Introduction to Complex Variables
- MA 515 Analysis I
- MA 518 A First Course in Differential Geometry
- MA 520 Linear Algebra
- MA 521 Abstract Algebra I
- MA 522 Computer Algebra
- MA 523 Linear Transformations and Matrix Theory
- MA(E,OR) 531 Dynamic Systems and Multivariable Control I
- MA 532 Ordinary Differential Equations I
- MA 534 Introduction to Partial Differential Equations
- MA 535 Stability and Time Optimal Control of Hereditary Systems I
- MA 537 Nonlinear Dynamics and Chaos
- MA 544 Computer Experiments in Mathematical Probability
- MA(ST) 546 Probability and Stochastic Processes I
- MA 547 Financial Mathematics
- MA 551 Introduction to Topology
- MA 555 Introduction to Manifold Theory
- MA 561 Set Theory and Foundations of Mathematics
- MA(CSC,OR) 565 Graph Theory
- MA(BMA) 573 Mathematical and Experimental Modeling of Physical Processes I
- MA 574 Mathematical and Experimental Modeling of Physical Processes II
- MA(PY) 575 Mathematical Introduction to Celestial Mechanics
- MA(PY) 576 Orbital Mechanics
- MA(CSC) 580 Numerical Analysis I
- MA(CSC) 583 Introduction to Parallel Computing
- MA 584 Numerical Solution of Partial Differential Equations - Finite Difference Methods
- MA 587 Numerical Solution of Partial Differential Equations - Finite Element Method
- MA 591 Special Topics
- MA 676 Master's Project
- MA 685 Master's Supervised Teaching
- MA 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
- MA 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
- MA 690 Master's Examination
- MA 693 Master's Supervised Research
- MA 695 Master's Thesis Research
- MA 696 Summer Thesis Research
- MA 699 Master's Thesis Preparation
- MA(ST,OR) 706 Nonlinear Programming
- MA(IE,OR) 708 Integer Programming
MA 711 Analytic Function Theory I
MA 712 Analytic Function Theory II
MA 713 Techniques of Complex Analysis
MA 715 Analysis II
MA 716 Advanced Functional Analysis
MA(OR) 719 Vector Space Methods in System Optimization
MA 720 Lie Algebras
MA 721 Abstract Algebra II
MA 723 Theory of Matrices and Applications
MA(E,OR) 731 Dynamic Systems and Multivariable Control II
MA 732 Ordinary Differential Equations II
MA 734 Partial Differential Equations
MA 735 Stability and Time Optimal Control of Hereditary Systems II
MA(ST) 746 Introduction to Stochastic Processes
MA(ST) 747 Probability and Stochastic Processes II
MA(ST) 748 Stochastic Differential Equations
MA 751 Topology
MA 753 Algebraic Topology
MA 755 Introduction to Riemannian Geometry
MA 756 Geometrical Structures on Fiber Bundles
MA(E,OR) 766 Network Flows
MA(BMA,ST) 771 Biomathematics I
MA(BMA,ST) 772 Biomathematics II
MA(BMA,OR,ST) 773 Stochastic Modeling
MA 775 Mathematical Methods in the Physical Sciences I
MA 776 Mathematical Methods in the Physical Sciences II
MA(NE) 777 Exact and Approximate Solutions in Particle Transport Theory
MA(ST) 778, 779 Measure Theory and Advanced Probability
MA(CSC) 780 Numerical Analysis II
MA 782 Advanced Numerical Linear Algebra
MA(CSC) 783 Parallel Algorithms and Scientific Computation
MA 784 Nonlinear Equations and Unconstrained Optimization
MA 785 Numerical Solution of Ordinary Differential Equations
MA 788 Numerical Nonlinear Partial Differential Equations
MA(E,OR) 790 Advanced Special Topics in System Optimization
(The subject matter in the following special topics courses varies from year to year. The topics and instructors are announced well in advance by the department.)
MA 791 Special Topics in Real Analysis
MA 792 Special Topics in Algebra
MA 793 Special Topics in Differential Equations
MA 795 Special Topics in Topology
MA 796 Special Topics in Combinatorial Analysis
MA 797 Special Topics in Applied Mathematics
MA 798 Special Topics in Numerical Analysis
MA(NE) 812 Special Topics in System Optimization
MA(IE,OR) 816 Advanced Special Topics in Systems Analysis and Optimization
MA 885 Doctoral Supervised Teaching
MA 890 Doctoral Preliminary Examination
MA 893 Doctoral Supervised Research
MA 895 Doctoral Dissertation Research
MA 896 Summer Dissertation Research
MA 899 Doctoral Dissertation Preparation

## GRADUATE FACULTY

J. E. Penick, *Department Head*

### Directors of Graduate Programs:

- J. H. Wheatley, Box 7801, 513.7168, jack_wheatley@ncsu.edu, Science Education
- S. B. Berenson, Box 7801, 515.6919, sarah_berenson@ncsu.edu, Mathematics Education
- V. W. DeLuca, Box 7801, 515.1750, william_deluca@ncsu.edu, Technology Education

### Professors:
- S. B. Berenson, W. J. Haynie III, M. G. Jones, J. E. Penick, L. V. Stiff
- Professors Emeriti: D. A. Adams, N. D. Anderson, L. M. Clark, J. K. Coster, D. M. Hanson, J. R. Kolb
- Associate Professors: T. J. Brannon, G. S. Carter, A. C. Clark, V. W. DeLuca, K. S. Norwood, J. C. Park, R. E. Peterson, J. H. Wheatley, E. N. Wiebe
- Research Associate Professors: H. S. Stubbs
- Visiting Associate Professors: T. Oppewal
- Associate Professors Emeriti: W. M. Waters Jr., L. W. Watson, R. E. Wenig
- Assistant Professors: L. Annetta, M. Blanchard, J. R. Busby, J. V. Ernst, K. Hollebrands, H. S. Lee, B. Matthews, E. Parsons, T. E. Varnado
- Visiting Assistant Professors: A. Y. Scales
- Assistant Professors Emeriti: J. L. Crow, W. J. Vander Wall

The Department of Mathematics, Science and Technology Education offers graduate programs that lead to the degrees of Master of Science, Master of Education, Doctor of Education, and Doctor of Philosophy. Students take courses in their educational specialty, in general professional education, and in mathematics, science, or technology cognate areas including: biological sciences, chemistry, computer science, earth science, interdisciplinary science, mathematics, physics, or statistics.

Master's programs are offered leading to M-licensure as a teacher of mathematics, science, or technology at grades 6-9 and/or 9-12 for those who have an initial license. Programs are also available for those seeking advanced graduate-level certification as a teacher. Students may choose a program to prepare for teaching careers in post-secondary education.

### Admission Requirements:

Applicants for all of the M.S., M.Ed., Ed.D., and Ph.D. degrees in mathematics, science or technology education must submit a completed application specific to the program. Please see the Mathematics, Science, and Technology website. The academic and professional background necessary for admission differs by specific program.

### Master's Degree Requirements:

The Master's Degree programs require a minimum of 36 semester hours of graduate work. Students who elect the M.S. substitute up to six semester hours of thesis research for part of the course load.

### Doctoral Degree Requirements:

The Ed.D. program requires a minimum of 90 semester hours of graduate work beyond the Baccalaureate Degree including a minimum of 12 semester hours of dissertation research. The Ph.D. program requires a minimum of 45 semester hours of course work and 9-12 semester hours of dissertation research beyond the Master's Degree requirements. For both degrees, students may be required to supplement their course work with internships and/or other experiential activities to meet competencies.
**Student Financial Support:** A small number of teaching and research assistantships are available, and out-of-state tuition remission may be available for one year to students on assistantships.

**GRADUATE COURSES**

EMS 501 Readings in Science Education I  
EMS 502 Readings in Science Education II

GRADUATE FACULTY

R. D. Gould, *Interim Department Head*

**Director of Graduate Programs:**
R. T. Nagel, Box 7910, 515.5283, nagel@eos.ncsu.edu, Mechanical & Aerospace Engineering

**Graduate Alumni Distinguished Professor:** H. A. Hassan

Course offerings and research programs are available in the following four thrust areas: (1) aerodynamics, fluid mechanics and propulsion; (2) dynamics, vibration and controls; (3) structural mechanics and materials; and (4) thermal sciences and energy systems. Sub-areas include: fluid mechanics, stability, transition and turbulence, gas dynamics and aerodynamics, reactive and multiphase flows, aeroelasticity, CFD, acoustics, vibrations, machine design and dynamics, adaptive structures, control and system identification, mechatronics and smart systems, active materials and auto-adaptive structures, manufacturing and automation, precision engineering, composite materials, elasticity, plasticity, and fracture mechanics, materials processing and tribology, thermodynamics, energy conversion and renewable energy, heat and mass transfer, combustion, atomization and sprays.

**Admission Requirements:** An applicant to the master's program must be a graduate of an accredited undergraduate program with a B.S. degree in either mechanical or aerospace engineering. Graduates of other accredited programs in engineering, physical sciences and mathematics may be considered but will be required to make up undergraduate deficiencies without graduate credit. Provisional admissions, as well as exceptions, are sometimes granted under special circumstances. The most qualified applicants are accepted first. Applicants to the Ph.D. program must have met the M.S. admission requirements, completed the M.S. degree in mechanical engineering or aerospace engineering and additionally must satisfy the Ph.D. admissions requirements.

**Master's Degree Requirements:** The thesis-option M.S. degree programs in mechanical engineering and aerospace engineering require 24 hours of course credit and six hours of thesis research. The non-thesis M.S. degree programs in mechanical engineering and aerospace engineering require 27 hours of course credit and a three credit-hour project. The non-thesis M.S. degree programs in mechanical engineering and aerospace
engineering are offered on campus and off campus through distance education.

**Ph.D. Degree Requirements:** A minimum of 54 hours of credit beyond the master's program is required.

**Student Financial Support:** Various types of assistantships and fellowships are available. Awards are made to the most qualified applicants first and generally are not available for all students.

**Other Relevant Information:** Each new student chooses an area of specialty, selects an advisor and committee, customizes a program of study and begins research in the first semester of residence. The Director of Graduate Programs acts as a temporary advisor initially and should be contacted with questions.

**GRADUATE COURSES**

MAE 501 Advanced Engineering Thermodynamics  
MAE 503 Advanced Power Plants  
MAE 504 Fluid Dynamics of Combustion I  
MAE 505 Heat Transfer Theory and Applications  
MAE 513 Principles of Structural Vibration  
MAE 514 Noise and Vibration Control  
MAE 517 Instrumentation in Sound and Vibration Engineering  
MAE 518 Acoustic Radiation I  
MAE 521 Linear Control and Design for MIMO Systems  
MAE 524 Principles of Mechatronic Control  
MAE 525 Advanced Flight Vehicle Stability and Control  
MAE 526 Inertial Navigation Analysis and Design  
MAE 527 Mechanics of Machinery  
MAE 528 Experimental Flight Testing  
MAE 533 Finite Element Analysis I  
MAE(WPS) 534 Mechatronics Design  
MAE(ECE) 535 Design of Electromechanical Systems  
MAE 537 Mechanics of Composite Structures  
MAE(MSE) 539 Advanced Materials  
MAE 540 Advanced Air Conditioning Design  
MAE 541 Advanced Machine Design I  
MAE 543 Fracture Mechanics  
MAE 544 Real Time Robotics  
MAE 545 Metrology for Precision Manufacturing  
MAE 550 Foundations of Fluid Dynamics  
MAE 551 Airfoil Theory  
MAE 553 Compressible Fluid Flow  
MAE 554 Hypersonic Aerodynamics  
MAE 555 Aerodynamic Heating

GRADUATE FACULTY

G. H. Luginbuhl, Interim Department Head

Director of Graduate Programs:
M. Hyman, Box 7615, 515.7814, michael_hyman@ncsu.edu, Microbiology

ASSOCIATE MEMBERS OF THE PROGRAM

The Department of Microbiology is in the College of Agriculture and Life Sciences and has a unique blend of applied and basic research programs. The department offers courses of study and research leading to the Ph.D., M.S., Master of Microbiology (M.M.) and Master of Microbial Biotechnology (M.M.B.) degrees. The graduate program is designed to prepare individuals for careers in academic, industrial or research institute settings. Research in the department emphasizes study of fundamental biological processes, with several programs having important biotechnological, environmental and medical applications.

Admission Requirements: Applications are invited from individuals holding B.S. or M.S. degrees in the physical and life sciences. Applications should ideally be received in the department before January 15 to be considered for Fall semester admission. The Graduate Record Exam (GRE) should be taken sufficiently early so that scores can be submitted and evaluated along with the application. A written statement should describe the applicant's academic and career goals as well as their area of interest.

Master's Degree Requirements: The Master of Science (M.S.) is a research-oriented degree requiring 30 credit hours, a written thesis and at least one semester of laboratory instruction. For students wishing a more general educational background in microbiology without the thesis requirement, the Master of Microbiology (M.M.) degree is offered.

The Department also offers a non-thesis Master of Microbial Biotechnology (M.M.B.) degree. This degree program is a Professional Science Masters that combines concentrations in Microbiology, Business and Biotechnology. This program also can be combined with a Master of Business Administration (M.B.A.) offered through the College of Management.

Doctoral Degree Requirements: The Ph.D. program is designed for individuals desiring to pursue careers in research and/or teaching. Students enroll in a core curriculum consisting of courses in metabolic
regulation/physiology, virology, immunology, pathogenesis, and molecular genetics. In addition, the student, in consultation with and approval by his/her advisory committee, may select elective courses offered by the Department of Microbiology and by other departments on campus. In conjunction with the advisor, the student establishes a four-member faculty advisory committee to guide the research and academic program. At least one semester of laboratory instructorship is required. The final examination also includes a seminar presented by the candidate that is open to the university community.

**Student Financial Support:** Financial support for study towards Ph.D. and M.S. degrees is available in the form of teaching/research assistantships and competitive fellowships. All applications to the department are automatically considered for available assistantships. For highly qualified students, supplemental funds are frequently available.

**Other Relevant Information:** During the first semester, participation in the laboratory rotation program is required of all Ph.D. and M.S. students so that they become acquainted with departmental research programs, faculty and other graduate students. A faculty thesis advisor and laboratory research program are usually selected by the end of the first semester.

**GRADUATE COURSES**

MB(BO,PP) 501 Fungi and Their Interaction with Plants
MB(SSC) 532 Soil Microbiology
MB(BO,PP) 575 Introduction to Mycology
MB 590 Topical Problems
MB 601 Seminar

GRADUATE FACULTY

Directors of Graduate Programs:
B. E. Wilson, Box 8004, 515.3665, beth_wilson@ncsu.edu, Parks, Recreation & Tourism Mgmt.
F. H. Magallanes, Box 7701, 515.8348, f_magallanes@ncsu.edu, Landscape Architecture
R. C. Abt, Box 8002, 515.7791, bob_abt@ncsu.edu, Forestry
T. J. Smyth, Box 7619, 515.2838, jot_smyth@ncsu.edu, Soil Science

Research Associate Professors: P. K. Baran; Assistant Professors: B. P. Bullock, S. A. C. Nelson

The natural resources program is an interdepartmental program designed to prepare students for positions in both private and public natural resource organizations. A selection of technical options couple core courses in natural resources issues and management with a series of related courses in a variety of related technical disciplines. The purpose of the natural resources core curriculum is to educate professionals at a Master's level who are well-versed in policy and regulation and who have skills in quantitative assessments. Currently approved technical options include: assessment and analysis, economics and management, policy and administration, international resources, hydrology, and spatial information systems in the Department of Forestry; outdoor recreation management and spatial information systems in the Department of Parks, Recreation and Tourism Management; and soil science in the Department of Soil Science. With one exception, each option is available as either the M.S. in NR or as the non-thesis Master of NR. The soil science option is available only as the non-thesis degree.

Admissions Requirements: Students should have an undergraduate degree in natural resources or a related field. Experience in natural resources management and administration will be considered in lieu of an appropriate undergraduate degree. Admission is contingent upon meeting departmental requirements and acceptance by an advisor.

Master's Requirements: The M.S. degree requires a research thesis based on completion of a research project. The Master of NR degree requires a practical project which develops and demonstrates problem-solving skills. Students enrolled in the Forestry Department must take FOR 603 in the first or second semester. The minimum number of credit hours varies by technical option, but is generally 36 credit hours including research or project credits and core courses.

Core Courses (16 credit hours)
NR 500 Natural Resource Management
NR 571 Current Issues in Natural Resource Policy
ST 5** Graduate-level statistics course
Six credits from technical option(s) other than the student's chosen option
Departmental seminar

GRADUATE COURSES
NR 500 Natural Resource Management
NR(FOR) 520 Watershed and Wetlands Hydrology
NR 521 Wetland Assessment, Delineation and Regulation
NR(PRT) 531 Introduction to Geographic Information Science
NR(PRT) 532 Principles of Geographic Information Science
NR(PRT) 533 Application Issues in GIS
NR(PRT) 535 Computer Cartography
NR(FOR) 536 Introduction to Visual Basic for GIS
NR 554 Data Management in Natural Resources
NR 571 Current Issues in Natural Resource Policy
NR 595 Special Topics in Natural Resources
NR 601 Graduate Seminar
NR 610 Special Topics in Natural Resources
NR 685 Master's Supervised Teaching
NR 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
NR 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
NR 690 Master's Examination
NR 693 Master's Supervised Research
NR 695 Master's Thesis Research
NR 696 Summer Thesis Research
NR 699 Master's Thesis Preparation

GRADUATE FACULTY

M. A. Bourham, *Interim Department Head*

*Director of Graduate Programs:*
M. Yim, Box 7909, 515.1466, yim@eos.ncsu.edu, Nuclear Engineering

*Professors:* M. A. Bourham, R. P. Gardner, J. G. Gilligan, K. L. Murty, P. J. Turinsky; *Research Professors:* B. W. Wehring; *Adjunct Professors:* R. M. Lindstrom, M. S. Wechsler; *Professors Emeriti:* D. J. Dudziak, T. Elleman, R. L. Murray, K. Verghese; *Associate Professors:* J. M. Doster, A. I. Hawari, M. Yim; *Adjunct Associate Professors:* B. W. Wieland; *Assistant Professors:* D. Y. Anistratov, O. E. Hankins; *Visiting Assistant Professors:* H. S. Abdel-Khalik; *Adjunct Assistant Professors:* A. Sood; *Interinstitutional Faculty:* D. N. McNeilis

The discipline of nuclear engineering is concerned with the development of nuclear processes for energy production and with the applications of radiation for the benefit of society. Representative topics of investigation include analytic, computational and experimental research in the neutronics, materials, thermal-hydraulics and control aspects of fission reactors; radiation detection and measurement of basic physics parameters; waste management and radiological assessment; applications of radioisotopes and radiation in industry, medicine and science; and plasma, plasma engineering and design aspects of fusion reactors.

*Admission Requirements:* Bachelor's degree graduates in any of the fields of engineering or physical sciences may be qualified for successful advanced study in nuclear engineering. Prior experience or course work in nuclear physics, partial differential equations and basic reactor analysis is helpful but may be gained during the first semester of graduate study. GRE scores (general test) are usually needed for financial aid.

*Master's Degree Requirements:* A total of 30 credit hours which includes a minor (at least nine semester hours) is required for both the M.S. and MNE degrees. An engineering project is required for the MNE degree and research project for the M.S. degree.

*Doctoral Degree Requirements:* A total of 72 credit hours which includes a minor (typically 12 hours) is required. Students must pass a departmental qualifying exam that covers basic nuclear engineering material.

*Student Financial Support:* Teaching assistantships, research assistantships and fellowships are available for qualified applicants. Opportunities are also available for graduate traineeships with utility companies, reactor manufacturers and national laboratories providing a valuable combination of financial support and learning in the classroom, the research laboratory and on the job.

*Other Relevant Information:* The department has many excellent facilities including the one-megawatt PULSTAR fission reactor, ultra cold neutron source, neutron scattering facility, neutron radiography unit, neutron activation analysis laboratory, nuclear materials laboratory, plasma and plasma laboratories, instrumentation and controls equipment, radiation analyzers and tomography systems, and access to extensive computer facilities ranging from workstations to a supercomputer.

GRADUATE COURSES
NE 500 Nuclear Reactor Energy Conversion
NE 502 Reactor Engineering
NE 504 Radiation, Safety and Shielding
NE 505 Reactor Systems
NE(MSE) 509 Nuclear Materials
NE 511 Nuclear Physics for Engineers

GRADUATE FACULTY

Director of Graduate Programs:
J. C. Allen, Box 7624, 513.2257, jon_allen@ncsu.edu, Nutrition

William Neal Reynolds Distinguished Professor and Director of Graduate Programs ANP and PSC: J. T. Brake
William Neal Reynolds Professor: J. Odle
William Neal Reynolds Professor Emeritus: H. E. Swaisgood

The interdepartmental nutrition program consists of faculty from five departments (animal science, family and consumer sciences, food science, poultry science and toxicology). Students reside and conduct research in one of these departments under the direction of an appropriate advisor. Research in the nutrition program may be conducted with a variety of species and at levels ranging from the molecular to the whole animal. Research programs are primarily in the area of nutritional biochemistry or experimental animal nutrition (e.g. ruminants, swine, poultry, rodents, and other species).

Admission Requirement: To be considered for admission, a student should have a B.S. or M.S degree in a science-related area.

Master's Degree Requirements: A minimum of 24 course credit hours is required for M.S., 36 for Master of Nutrition.

Student Financial Support: Assistantships and fellowships are available on a competitive basis from the departments in which the advisor resides.

GRADUATE COURSES

GRADUATE FACULTY

Director of Graduate Programs:
Y. Fathi, Box 7913, 515.6417, fathi@eos.ncsu.edu, Operations Research

Bank of America University Distinguished Professor: R. B. Handfield

James T. Ryan Prof of Industrial Engineering: T. J. Hodgson

University Professor: S. E. Elmaghraby

Walter Clark Chair Professor of IE and Director of Graduate Programs IE: S. Fang

William Neal Reynolds Professor: Z. Zeng

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: M. P. Singh

Operations research is a graduate program of an interdisciplinary nature, governed by an administrative board and the program committee, and administered through the office of the program co-directors.

Admission Requirements: Applications are accepted from undergraduate majors in engineering and in physical and mathematical sciences who meet prerequisites in calculus and matrix-linear algebra, computer science, and statistics. A score on the GRE that is less than two years old is required if financial assistance is sought or if the student is transferring from another doctoral program.

Master's Degree Requirements: The Master of Operations Research degree is a terminal graduate degree for students who seek careers as OR practitioners in either the private or public sector. The M.S. degree is designed to prepare students for careers in research and development.

Doctoral Degree Requirements: The Ph.D. degree is intended for students to be research scientists in industry or teachers and researchers in academia. This degree requires 72 credit hours of course and research work beyond the Bachelor's degree. Undergraduate students with superior credentials may apply directly to the doctoral program and bypass the Master's degree. For students who have completed the Master's degree, typically 30 to 36 hours of additional course work are required. A departmental written qualifying examination is required. Please consult the OR website for more details of degree requirements.

Student Financial Support: Both teaching and research assistantships are available to qualified applicants.
Award priority is given to Ph.D. then M.S. applicants. Outstanding students who are U.S. citizens and who shall be enrolled in the NC State Graduate School for the first time are eligible for the Engineering Dean's Graduate Fellowship Program.

CENTRAL GRADUATE COURSES

OR 501 Introduction to Operations Research
OR 502 Introduction to Systems Theory
OR(MA) 504 Introduction to Mathematical Programming
OR(E,MA) 505 Linear Programming

OR 890 Doctoral Preliminary Examination
OR 893 Doctoral Supervised Research
OR 895 Doctoral Dissertation Research
OR 896 Summer Dissertation Research
OR 899 Doctoral Dissertation Preparation

SUGGESTED COGNATE COURSES

Cognate courses are courses that are often included in OR programs of study, but which carry other
departmental designations. They cover subject matter closely related to OR and provide additional insight into
the theory or application of OR methodology. Students may include cognate courses in their programs of study
with the consent of their faculty advisor.

BMA(MA,ST) 771, 772 Biomathematics I, II
CSC 505 Design and Analysis of Algorithms
CSC(MA) 580 Numerical Analysis I
CSC(ECE) 779 Advanced Computer Performance Modeling
CSC(MA) 780 Numerical Analysis II
ECE 521 Digital Computer Technology and Design
ECG 750 Economic Decision Theory
ECG(ST) 751 Econometrics
ECG(ST) 752 Topics in Econometrics
IE 723 Production Planning, Scheduling and Inventory Control
IE 747 Reliability Engineering
IE 748 Quality Engineering
MA 523 Linear Transformations and Matrix Theory
MA(ST) 546 Theory of Probability
MA 715 Functional Analysis I
MA 723 Theory of Matrices and Applications
MA(ST) 746 Introduction to Stochastic Processes
MA(ST) 778, 779 Measure Theory and Advanced Probability
MA 798 Special Topics in Numerical Analysis
ST 730 Applied Time Series Analysis
ST 782, 783 Time Series Analysis I, II
ST 785 Introduction to Statistical Decision Theory

GRADUATE FACULTY

J. D. Wellman, Department Head

Director of Graduate Programs:
B. E. Wilson, Box 8004, 515.3665, beth_wilson@ncsu.edu, Parks, Recreation & Tourism Mgmt.

The Master's degree provides students the opportunity to develop and enhance their critical understanding of both the conceptual foundations of parks, recreation and tourism management and the procedures of systematic inquiry and critical problem solving as applied to planning and management issues. The department offers educational opportunities and resources for the preparation of professionals concerned with planning, organizing, managing and directing parks, recreation and tourism programs, areas and facilities. The general emphasis areas at the Master's level include: parks and recreation management, tourism development and management, geographic information systems, recreational sport management, and natural resource recreation management.

The doctoral students' programs of study are tailored to match their particular experiences and aspirations, and all doctoral programs will concentrate on one of three areas. All three concentrations operate within the framework of natural resource management and include park and recreation management, tourism policy and development, and spatial information systems and models.

Master's Degree Requirements: The M.S. degree requires 30 credit hours, of which six hours is Master's thesis research. The M.P.R.T.M. requires a minimum of 36 hours of course work, of which four hours is a Master's research project. A minor is optional with the M.S. degree. The department offers a multiple Master's option with Public Administration which includes 48 hours of course work. A Master of Natural Resources degree is also available. Master's application deadline is April 15 for U.S. students; March 1 for international students. This program has fall admission only. There are no spring admissions.

Doctoral Degree Requirements: Although each doctoral course of study will be unique to the individual student, the normal course of study will include a minimum of 54 hours beyond the Master's. These credit hours are distributed among the core courses, statistics and research methods, a minor or substantive area, and the dissertation. Students will be expected to have completed a Master's degree, preferably one with a thesis. Students not possessing a Master's will have to demonstrate their ability to do graduate work prior to admission into the Ph.D. program as will those without research experience who will have to demonstrate an ability to produce scholarly work in PRTM. Doctoral application deadline is March 15 for U.S. students; March 1 for international students. This program has fall admission only. There are no spring admissions.

Student Financial Support: Graduate assistantships and internships are available to students in this program on a competitive basis.

GRADUATE FACULTY

M. A. Paesler, Department Head

Director of Graduate Programs:
H. Ade, Box 8202, 515.8706, hwa@unity.ncsu.edu, Physics

Distinguished Educator in Residence: B. Sherwood
Graduate Alumni Distinguished Professor: G. E. Mitchell
University Professor: G. Lucovsky

ASSOCIATE MEMBERS OF THE PROGRAM

Theoretical/computational research opportunities are available in the following areas: astrophysics and relativity, nanoscience/materials and biomolecular simulations, and nuclear/particle physics. Experimental research opportunities are available in the following areas: astronomy, atomic physics, biophysics and soft-condensed matter, nuclear physics, optics, physics education, materials physics and nanoscale science and technology, and synchrotron radiation.

Admission Requirements: Bachelor's degree in physics (or the equivalent) and the GRE Advanced test in physics.

Master's Degree Requirements: A minimum of 30 credit hours beyond the Bachelor's degree; demonstrated mastery of aspects of the physics curriculum: PY 781, 782. Thesis and non-thesis options.

Doctoral Degree Requirements: Seventy-two (72) credit hours beyond the Bachelor's degree; demonstrated mastery of core physics curriculum: PY 721, 781, 782, 783, 785, 786.

Student Financial Support: Graduate teaching assistantships are available for new and continuing students; research assistantships are normally available only to continuing students.
GRADUATE COURSES

PY 501  Quantum Physics I
PY 502  Quantum Physics II

GRADUATE FACULTY

Director of Graduate Programs:
M. C. Roberts, Box 8401, 513.6248, malcolm_roberts@ncsu.edu, Physiology

William Neal Reynolds Distinguished Professor and Director of Graduate Programs ANP and PSC: J. T. Brake

William Neal Reynolds Professor of Entomology and Toxicology: R. M. Roe

ASSOCIATE MEMBERS OF THE PROGRAM

Assistant Professors: M. Koci

The physiology faculty is an interdepartmental and intercollege group drawn from the departments of animal science, biochemistry, clinical sciences, entomology, molecular and biomedical sciences, population health and pathobiology, poultry science, psychology, and zoology. The program emphasizes a broad and interdisciplinary approach and is designed to prepare individuals for careers in research and teaching. Experimental animals range, from insects and other invertebrates, through avian and aquatic species to large mammals.

Admission Requirements: Students entering the graduate program in physiology should have a bachelor's degree in a related biological or physical science. Undergraduate courses should include physiology, biochemistry, organic chemistry, calculus, and physics. Each application package will be screened by the Admissions Committee. Factors considered for admission include: grade point average (3.0 is required for regular admission), GRE scores, undergraduate courses, letters of recommendation, and the willingness of a member of the Graduate Physiology faculty to serve as the applicant's advisor. Some prior research experience is highly recommended.

Master's Degree Requirements. All Master's students are required to complete PHY 503, PHY 504, and BCH 553. Master of Science Degree: For a Master of Science degree a minimum of 30 semester hours of graduate work in the degree program is required, including a minimum of 20 hours of course work at the 500-800 level. On average, the M.S. degree requires two to three years. Master of Physiology Degree: The non-thesis Master's degree (Master of Physiology) requires a total of 36 credits. On average, the M.O.P. degree requires two years.

Doctoral Degree Requirements: A doctoral degree requires a minimum of 72 graduate credit hours beyond the Bachelor's degree in accordance with the requirements of the Graduate School. All Ph.D. students are required to complete PHY 503, PHY 504, BCH 553, PHY 801, and one additional course in biochemistry. On average, completion of the Ph.D. degree requires five years.
**Student Financial Support:** Financial assistance for qualified students in the form of research assistantships, fellowships and traineeships is available through participating departments only and not through the physiology program. There is no financial support for students in the Master of Physiology program.

**Other Relevant Information:** The physiology program is jointly administered by the College of Agriculture and Life Sciences and the College of Veterinary Medicine. Graduate students enrolled as physiology majors are housed in the department of their major professor and may participate in departmental activities.

**GRADUATE COURSES**

PHY(ZO) 503 General Physiology I  
PHY(ZO) 504 General Physiology II  
PHY(ZO) 513 Comparative Physiology  
PHY(PO,ZO) 524 Comparative Endocrinology

PHY 895 Doctoral Dissertation Research  
PHY 896 Summer Dissertation Research  
PHY 899 Doctoral Dissertation Preparation

**OTHER SUPPORTING COURSES AVAILABLE**

Other supporting course are available in biochemistry, biomathematics, biotechnology, cell biology, comparative biomedical sciences, entomology, genetics, immunology, microbiology, nutrition, pharmacology, poultry science, psychology, statistics, toxicology and zoology. Certain courses on the interface between physiology and engineering may be taken after consultation with advisor and the instructors concerned.

GRADUATE FACULTY

J. W. Moyer, Department Head

Director of Graduate Programs:
D. F. Ritchie, Box 7616, 515.6809, david_ritchie@ncsu.edu, Plant Pathology

Philip Morris Professor: T. A. Melton, III
Philip Morris Professor Emeritus: P. B. Shoemaker
William Neal Reynolds Professor: R. A. Dean, G. A. Payne

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: E. B. Cowling, W. M. Hagler, Jr., C. L. Hemenway

Plant pathology is committed to solving plant disease problems with research that focuses on plant-pathogen interactions at the genomic, cellular, organismal, and ecological levels. Approaches include disease management, epidemiology, molecular biology and host-parasite interactions. Focus areas are bacteriology, bioinformatics, functional genomics, mycology, nematology, virology, soil-borne pathogens and mechanisms of pathogenesis, and host resistance.

Admission Requirements: The general application procedures of the Graduate School noted at the beginning of this section are followed. Applicants are required to submit GRE results. A detailed statement of applicant interests and goals in plant pathology is most useful to the admissions committee.

Master's Degree Requirements: There is a core curriculum of a minimum of 12 credit hours that includes PP 501, PP 502, PP 506, PP 507, and PP 601. The core should be supplemented with a minimum of 18 credit hours in courses at the 500 or higher level, which support the focus of the study. Students serve as teaching assistants for one course.

Doctoral Degree Requirements: Students entering the Ph.D. degree program are expected to take the core curriculum outlined for the Master's degree or have had the equivalent at another institution. Additionally, Ph.D. students must include a departmental-approved ethics course, two credits PP 801, and at least two other 700-level Plant Pathology courses. Ph.D. students serve as teaching assistants for two courses.
**Student Financial Support:** A limited number of half-time assistantships are available on a competitive basis. Benefits include in-state tuition, out-of-state tuition and health insurance as covered under the Graduate School's Graduate Student Support Plan. Applicants are considered for assistantship support at time of application. Special supplements to assistantships are available on a competitive basis for outstanding students. Also, many faculty programs have research grant-funded or training grant-funded assistantships.

**Other Relevant Information:** Fully equipped and staffed laboratories for research are available in addition to greenhouse facilities and environmental growth chambers in the phytotron. Special facilities for experimental work on diseases under field conditions are available at 16 University-related locations throughout the state. Genomics facilities, microcomputers, library, mycological herbarium, digital imaging/graphics equipment programs, and an interdepartmental electron microscopy center are additional features available for the department.

**GRADUATE COURSES**

GRADUATE FACULTY

S. L. Pardue, Department Head

Director of Graduate Programs:
J. T. Brake, Box 7608, 515.5060, jbrake@ncsu.edu, Poultry Science

William Neil Reynolds Distinguished Professor and Director of Graduate Programs ANP and PSC: J. T. Brake

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: D. P. Wages

Course offerings and research programs are comprehensive in the areas of physiology, nutrition, microbiology, molecular biology, biotechnology, food science, immunology, genetics, pathology, and toxicology. The demand for men and women with advanced training in poultry science is far greater than the supply. Opportunities exist for graduates in research and teaching in universities, government, and private industry.

Admission Requirements: Factors considered for admission include grade point average, strength of prior academic program, experience, letters of recommendation, and special skills or interests. GRE scores are required.

Master's Degree Requirements: While there are no specific course requirements for the master's degree in poultry science, most programs exceed the minimum 30 credit hours.

Doctoral Degree Requirements: See Animal Science and Poultry Science.

Student Financial Support: Both research and teaching assistantships are available on a competitive basis within the department. General requirements for these assistantships are as described in the Graduate Catalog. Other financial support may be available in the form of graduate stipend supplementation, research grant support, or out-of-state tuition waivers in accordance with the University's Graduate Student Support Plan.

Other Relevant Information: The Department of Poultry Science occupies modern facilities in Scott Hall, a three-story building on the main campus adjacent to the D.H. Hill Library. The department consists of about 22 faculty, approximately 50 support staff, 25-35 graduate students and postdoctoral associates, and 60-80
undergraduate students.

For more information, visit the Department of Poultry Science website.

GRADUATE FACULTY

D. Gillan, Department Head

Director of Graduate Programs:
D. H. Mershon, Box 7650, 515.1724, psych@ncsu.edu, Psychology

ASSOCIATE MEMBERS OF THE PROGRAM

Associate Professors: B. S. Mehlenbacher, E. N. Wiebe

The Department of Psychology offers five courses of study leading to the Ph.D.: developmental psychology, ergonomics and experimental psychology, psychology in the public interest, industrial/organizational psychology, and school psychology.

Admission Requirements: Applicants should have satisfactory grades in all undergraduate work and at least a "B" average in undergraduate psychology courses, satisfactory scores on the GRE and three satisfactory letters of recommendation. The Advanced GRE Test in Psychology is required by the Industrial/Organizational program, but recommended for all. Match of applicants' research interests with current faculty research is usually an important consideration.

Master's Degree Requirements: Specific course requirements vary by area. Typical programs will include from 36 to 55 hours. The M.S. degree is available as part of work toward the doctorate, but students wishing to obtain a terminal M.S. are advised to consider other programs.

Doctoral Degree Requirements: The graduate program for each doctoral student is determined in conjunction with the student's graduate advisory committee and tailored to the needs, interests, and accomplishments of the individual. Students can expect to take from 36 to 54 hours of credit beyond the master's degree.

Student Financial Support: Many graduate students receive financial support in the form of teaching or research assistantships. Applicants should request such support when they apply to the program.

GRADUATE FACULTY

Director of Graduate Programs:
E. O'Sullivan, Box 8102, 515.5070, elizabethann_osullivan@ncsu.edu, Political Sci. & Public Admin.

Administrative specialties include: association/ non-profit management, information technology, and urban/local government management. Specialized courses are offered in environmental policy, financial management, and human resource management. The only doctoral program in public administration in N.C., the Ph.D. prepares students for teaching and research positions in public management and related fields. The program offers a graduate certificate in non-profit management, which may be included as part of the M.P.A., another graduate degree program, or taken independently.

Admission Requirements: Applicants to the M.P.A. should submit all materials by May 15 (for fall admission) and by November 1 (for spring admission). Applications received by February 1 will receive consideration for all available university and department scholarships and assistantships. Admission to the doctoral program normally requires the completion of the M.P.A. or other relevant graduate degree. Ph.D. students are only admitted for the Fall semester. The Ph.D. application deadline is March 15. Applicants are encouraged to submit all materials as soon as possible to assure consideration for fellowships and assistantships.

Master's Degree Requirements: The M.P.A. degree is a 40-semester-hour program consisting of: (1) a core curriculum of 18 credit hours; (2) a choice of administrative specialties, or an individualized program, drawing on courses in public administration and other departments; and (3) an internship or field experience requirement for pre-service students. It is an option B with a one-person committee and no final oral examination. Students who do not have at least two American government courses, a micro-economics course, and a statistics course must successfully complete equivalent coursework prior to graduation.

Doctoral Degree Requirements: The Ph.D. prerequisites are a graduate course in statistics, a course in methodology (covering research design, internal and external validity, sampling, and measurement), and at least two courses in American government or public policy. Students are required to complete M.P.A. core courses in (a) budgeting or management systems, and (b) policy analysis or micro-economics unless they have equivalent courses from other institutions. Fifty-four hours beyond the Master's degree including research seminars (including PA 761, PA 762, PA 763, PA 803), four courses in methodology/statistics (including PA 715, PA 765), and dissertation research are required.

Student Financial Support: A limited number of fellowships and graduate assistantships are offered by the department. Contact the department for more information. Other forms of student aid are described in the financial aid section of the Graduate Catalog.

GRADUATE COURSES

PA 501 Effective Writing for Public Managers
PA 508 Government and Public Administration
PA 509 Applied Political Economy
PA 510 Ethics and Professional Practice
PA 511 Public Policy Analysis
PA 512 The Budgetary Process
PA 513 Seminar in Organization Theory
PA 514 Management Systems
PA 515 Research Methods and Analysis
PA 520 Seminar in Urban Management
PA 521 Government and Planning
PA 522 Intergovernmental Relations in the United States

Graduate Faculty

Director of Graduate Programs:
C. Waites, Box 7639, 513.7503, ccwaites@unity.ncsu.edu, Social Work

Professors: J. T. Pennell; Associate Professors: T. U. Hancock, C. Waites, J. G. Wells, L. R. Williams; Assistant Professors: N. Ames, W. Casstevens, M. T. Leach, J. D. Taliaferro

The mission of the MSW program is to promote a socially responsible society through education, research, and extension/community service. Within a framework emphasizing professional values and ethics, cultural competence, strengths, and partnerships, the MSW program prepares graduate students for advanced practice and leadership roles.

Admission Requirements:

1. Bachelor's degree from an accredited liberal arts college or university
2. Cumulative undergraduate GPA of 3.0 or higher for the last 60 hours of academic work or a GPA of 3.0 or above in previous graduate work; students with a GPA less than 3.0 but greater than 2.5 for the last 60 hours of academic course work must also submit a Graduate Record Exam (GRE) score or a Miller Analogies Test (MAT) score
3. Liberal arts course work in the social sciences, humanities, human biology and statistics
4. Experience in human services (post baccalaureate, paid or volunteer)

Master's Degree Requirements: MSW Students select from two different courses of study: (1) two-year, full-time course of study with courses during the fall and spring semesters and (2) a three-year, part-time course of study with courses during the fall and spring semesters and two summer sessions. There are two method options: (1) Direct Practice with a focus on work with individuals, families, and groups and (2) Community Partnerships with a focus on administration and community development. Students are required to complete a total of 60 hours/17 courses: 9 courses in the foundational curriculum, 7 courses in the advanced curriculum, and 1 elective.

Other Relevant Information: The Council on Social Work Education, Commission of Accreditation has granted candidacy status to our MSW program. Candidacy is the first step toward initial accreditation. Students admitted during the academic year in which the program is granted candidacy will be seen as having graduated from an accredited program when the program is granted initial accreditation. Please check the department website for updates.

Graduate Courses

SW 501 Social Welfare History
SW 502 Social Welfare Planning and Analysis
SW 505 Human Behavior and the Social Environment: Social Justice
SW 506 Human Behavior and the Social Environment: Individuals, Families, and Groups
SW 507 Human Behavior and the Social Environment: Organizations and Communities
SW 510 Research Methods for Social Work

GRADUATE FACULTY

Director of Graduate Programs:
T. N. Greenstein, Box 8107, 515.9006, ted_greenstein@ncsu.edu, Sociology & Anthropology

Glaxo Wellcome Endowed Chair: C. S. Tittle
Graduate Alumni Distinguished Professor - Sociology: M. D. Schulman
William Neal Reynolds Professor: R. C. Wimberley
William Neal Reynolds Professor Emeritus: L. B. Otto

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: W. A. Wolfram; Professors Emeriti: R. D. Mustian

The department offers Master's and doctoral programs in sociology designed to prepare students for academic, research, and applied careers. The programs are structured to provide an intellectually stimulating and academically rigorous, yet supportive, environment that emphasizes developing research skills through coursework and close collaboration with faculty.

Admissions Requirements: In addition to general Graduate School requirements, applicants are required to provide a writing sample and should be intending to complete the Ph.D. degree in sociology. We routinely accept applications only for the fall semester. The completed application should be received no later than January 15 to ensure full consideration for assistantship support. Applications for spring admission are considered only under special circumstances.

Master's Degree Requirements: Applicants should have received/be receiving a Bachelor's degree from an accredited institution with a major in sociology. Other majors are considered, but students may have to make up deficiencies without credit. The M.S. requires a thesis, whereas a Master of Sociology (M.SOC.) requires six semester credit hours of practicum (supervised field placement in an organization or agency) and a research paper. A minor for both degrees is optional. Thirty (30) hours of credit is required to obtain a Master's degree.

Doctoral Degree Requirements: The Ph.D. requires a total of 72 credit hours. The degree normally requires a Master's in sociology. Doctoral students take core courses in theory and methods/analysis and select courses in two areas of specialization. Some course work from the Master's may be applied. A minor is optional.

Student Financial Support: Teaching and research assistantships are available on a competitive basis.
GRADUATE COURSES

SOC 505 Medical Sociology
SOC 508 Social Organization

GRADUATE FACULTY

M. G. Wagger, Department Head

Director of Graduate Programs:
T. J. Smyth, Box 7619, 515.2838, jot_smyth@ncsu.edu, Soil Science

William Neal Reynolds Professor Emeritus: S. W. Buol, J. W. Gilliam

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: H. L. Allen, Jr., R. W. Skaggs; Professors Emeriti: C. B. Davey

Graduate students in soil science may specialize in the following subdisciplines: soil physics, soil chemistry; soil microbiology and biochemistry; soil fertility and plant nutrition; soil genesis, morphology and classification; soil and water management and conservation; forest soils, soil mineralogy; tropical soil management.

Admissions Requirements: Graduate students accepted in soil science must have a Bachelor's or Master's degree with a major in soil science or a closely related field and with a strong background in the biological and physical sciences.

Master of Science Degree Requirements: Requirements include a minimum of 30 semester hours of course work, including at least one credit, but not more than two credit hours, of seminar (SSC 601) and a minimum of two, but not more than six, credit hours of research (SSC 693 or SSC 695), successful completion of a research problem, submittal of a written thesis that documents the research, a comprehensive oral examination and presentation of a non-credit exit seminar.

Master of Soil Science Degree Requirements (non-thesis distance education program): Requirements include a minimum of 36 semester credit hours of graduate work with a minimum of six credit hours of a Master's project. One credit hour of seminar (SSC 601) is required.

Master of Soil Science Degree Requirements (non-thesis program): Requirements include a minimum of 36 semester credit hours of graduate work with a minimum of four, but not more than six, credit hours of Special Problems (SSC 620). One credit hour of seminar (SSC 601) is required and a maximum of two credit hours is acceptable.
**Master of Natural Resources Requirements (non-thesis program):** Requirements include a minimum of 32 semester credit hours consisting of 15 hours in core courses, 17 hours in Soil Science courses, and the completion of a Master’s project. One credit hour of seminar (SSC 601) is also required. A minor is optional, although one-third of the credits should usually be in courses outside of the department.

**Doctoral Degree Requirements:** Ph.D. candidates must demonstrate the ability to undertake original research with minimal supervision and write a dissertation reporting the results of this research. There are no definite course requirements for the Ph.D. degree; however, a minimum of 72 graduate credit hours is required beyond the Bachelor’s degree. The Plan of Graduate Work must contain at least one credit hour of seminar (SSC 801) and at least two credit hours of research (SSC 893 or SSC 895). The candidate must also pass a preliminary examination (written and oral components) and a final oral examination. A non-credit exit seminar is required. A minor is optional, although one-third of the credits should usually be in courses outside of the department.

**Student Financial Support:** The department has a number of assistantships available to students who have demonstrated a high level of academic aptitude or potential. All of the graduate assistantships are half time.

**GRADUATE COURSES**

- SSC 511 Soil Physics
- SSC 521 Soil Chemistry
- SSC(MB) 532 Soil Microbiology
- SSC 541 Soil Fertility
- SSC 545 Remote Sensing Applications in Soil Science and Agriculture
- SSC 551 Soil Morphology, Genesis and Classification
- SSC 562 Environmental Applications of Soil Science
- SSC 570 Wetlands Soils
- SSC(BAE) 573 Hydrologic and Water Quality Modeling
- SSC(FOR) 581 Agroforestry
- SSC 590 Special Problems
- SSC 601 Seminar
- SSC 609 Colloquium
- SSC 620 Special Problems
- SSC 685 Master's Supervised Teaching
- SSC 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
- SSC 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
- SSC 690 Master's Examination
- SSC 693 Master's Supervised Research

**GRADUATE FACULTY**

*Director of Graduate Programs:*
N. C. Olson, Box 8401, 513.6213, neil_olson@ncsu.edu, Specialized Veterinary Medicine

*Burroughs Wellcome Distinguished Professor and Director of Graduate Programs, Biomathematics: *J. E. Riviere

**ASSOCIATE MEMBERS OF THE PROGRAM**

*Professors:* S. M. Laster; *Associate Professors:* J. M. Hinshaw

The creation of the non-thesis Master's degree track (MSpVM) for the Veterinary Medicine Graduate Program was proposed to enhance scholarship and competitiveness of veterinarians completing advanced specialty training at the College. These programs are designed to provide experiences appropriate for certification in the specialty College related to their area of study. Clinical and diagnostic material handled through the Veterinary Teaching Hospital and affiliated units will provide the basis for this training. Courses will incorporate seminars, rounds and journal club activities; individual supervised training; independent study programs; and basic statistics and ethics. Many of the programs will require a project, publication, and oral exam to be completed as part of the requirements.

This optional track features an interdepartmental, multidisciplinary approach to graduate training with participating graduate faculty from all four departments of the College of Veterinary Medicine. These faculty represent 17 discipline areas and will offer advanced training leading to the Master of Specialized Veterinary Medicine.
Each MSpVM student will have a unique graduate training program focused in his/her clinical specialty area and directed by a graduate committee comprising faculty experts from this clinical specialty and other specialty areas. Creation of the track will permit the College to document more clearly the effort that faculty commit to advanced training in 17 different veterinary specialties. The graduate track will help sustain the outstanding success the College has achieved in attracting the top national and international veterinary graduates for postgraduate clinical training.

**Admission Requirements:** Applicants must have a DVM/VMD degree from an accredited program and have a documented history of academic excellence. All applicants must meet minimum criteria for both the program and the NC State University Graduate School and be selected for participation in the track by the faculty of the specialty area identified by the applicant. Graduate Record Examination (GRE) scores may be required by specific specialty areas. Committee decisions will be based on academic performance while enrolled in a DVM/VMD program, letters of recommendation, professional experience, and perceived ability of the individual to complement the needs of our training program.

**Specialty Areas:** Each enrolled student will concentrate his/her studies in one of the existing clinical specialty training areas at the College of Veterinary Medicine. Additional training specialties may be created as warranted by demographic, economic and social changes that impact the profession.

**Course Requirements:** Students will complete 2 or 3 years of training depending on the requirements in the specific specialty area. The first year will predominately be spent participating in specialty training in the Veterinary Teaching Hospital, where students will receive supervised specialty training in the various clinical services offered by the VTH. During the first year, out of state students may enroll for fewer than 9 credits for the fall and spring semesters. Subsequently, students will complete the required 36 credit hours during the second and third year of their studies.

All students are required to complete 25 credit hours of general course requirements as well as additional elective course requirements in his/her specialty area. The general course requirements consist of:

- Seminar/clinical rounds - 4 credit hours
- Research - 4 credit hours
- Supervised teaching (including rounds) - 1 credit hours
- Supervised specialty training - 12 credit hours
- Biostatistics - 3 credit hours
- Professional ethics - 1 credit hour

The courses selected to complete the balance of the required 36 credit hours will be determined by the student and his/her advisory committee. The following courses represent those that could be used by MSpVM students to complete the credit hour requirements for their degree.

**Courses**

- CBS 662 Bioethics
- SVM 595 Special Topics (letter graded)
- SVM 601 Seminar - SVM
- SVM 610 Special Topics (s/u)
- SVM 615 Adv SPTP - SVM
- SVM 635 Adv Rdg - SVM (Journal Club)
- SVM 650 Internship - SVM (Specialized Training)
- SVM 685 Master Supervised Teaching (Clinics) - to meet the teaching credit requirement
- SVM 686 Other Teaching - SVM (Rounds)
- SVM 693 Master Supervised Research - to meet the research credit requirements
- SVM 610D Biostatistics
Statistics

GRADUATE FACULTY

S. G. Pantula, Department Head

Director of Graduate Programs:
P. J. Arroway, Box 8203, 515.1955, pam_arroway@ncsu.edu, Statistics

William Neal Reynolds Professor: M. Davidian, Z. Zeng

ASSOCIATE MEMBERS OF THE PROGRAM

Admission Requirements: The written statement should not exceed 500 words and should describe the applicant's academic and career goals as well as special interests in the area of statistics. GRE General Test scores are required. The well-prepared applicant to the department's Master's programs has good grades in a three-semester calculus sequence, a two-semester advanced calculus sequence, a semester of linear algebra and a two-semester sequence in probability and statistics. Some of these courses may be taken as part of the program, but this may result in lengthening the stay. Admission to the Ph.D. program is granted to those who have been admitted to the Master's program and have passed the qualifying exam. Individuals applying for fall enrollment and who wish to be considered for financial aid should have their completed applications in by no later than March 1 for fall enrollment or October 15 for spring. Applications arriving after that will be considered but may be assigned lower priority.

Master's Degree Requirements: All Master's programs in statistics require a minimum of 34 credit hours, of which 12 are first-year core (ST 512R, ST 521, ST 522, ST 552 and their labs), one is supervised consulting (ST 641), and at least nine are statistics and/or supporting electives. The remaining 12 hours are program dependent.

Doctoral Degree Requirements: The Ph.D. program in statistics requires 22 course credit hours beyond the master's, of which 12 are Ph.D. core (ST/MA 778, 779, ST 793 and ST 794), one is supervised consulting (ST 841), six are Ph.D.-level statistics electives, and three are supporting electives. Requirements for co-majors are
individually tailored.

**Student Financial Support:** Departmental assistantships and fellowships are awarded each year on a competitive basis. Fellowships and supplements are provided through the department's Gertrude M. Cox Fellowship Fund. Approximately 40 teaching assistantships and 30 research assistantships and traineeships are available along with several graduate industrial traineeships supported by local industries. In addition, the department offers NSF-VIGRE traineeships to qualified U.S. students.

**Other Relevant Information:** With a large graduate faculty representing virtually all major statistical specializations, the department is recognized as a world leader in graduate education and research in statistics. Its applied orientation sets it apart from most other departments in the country, offering education to those wishing to pursue careers as consulting statisticians in industry and government, as well as to those seeking careers in research and teaching.

Areas of research specialization of the faculty and advanced graduate students include spatial statistics, time series, econometrics, statistical genetics and ecology, experiment design and analysis, sampling, environmental applications, statistical process and quality control, biostatistics, biomathematics, bioinformatics, statistical computing, nonparametric regression, robust and nonparametric inference, mathematical programming, Bayesian inference, multivariate analysis, decision theory and stochastic processes.

The department has excellent computation facilities consisting of two computing laboratories: the Statistics Instructional Computing Laboratory (SICL), used for instruction and course labs, and the Statistics Research Computing and Information System (SRCIS), a research facility maintained for the use of statistics graduate students.

**GRADUATE COURSES**

- **ST 505** Applied Nonparametric Statistics
- **ST(ZO) 506** Sampling Animal Populations

GRADUATE FACULTY

T. J. Little, *Department Head*

*Director of Graduate Programs:*
G. L. Hodge, Box 8301, 515.6579, *george_hodge@ncsu.edu*, Textile & Apparel Management

*Charles A. Cannon Professor of Textiles:* S. K. Batra
*Director of Graduate Programs and Abel C. Linberger Prof. of Yarn Manufacturing:* W. Oxenham
*Klopman Distinguished Professor Emeritus:* S. C. Winchester, Jr.
*Professor (Dean) and Joseph D. Moore Professorship of Textile and Apparel Management:* A. B. Godfrey
*William A. Klopman Distinguished Professor:* B. Pourdeyhimi

The Department of Textile and Apparel, Technology and Management offers the Master of Science in Textiles and the Master of Textiles degrees. Textiles includes the design, management, and technology of fiber-based products and processes. Textile design students explore issues in new product development, body scanning, direct digital printing, computer animation, and computer aided design (CAD). Textile management includes such topics as business intelligence, business finance, information systems, international marketing, supply chain management, and total quality management. Medical textiles, industrial fabrics, three-dimensional textile structures, aerospace applications, and smart textiles and nonwovens are examples of new areas for textile technology.

The objective of the Master of Science in Textiles is to develop the student's potential for research and the technical and analytical skills needed for the design of new products and processes and for careers in the textile supply chain, in research laboratories, in government agencies, and in higher education. The MS degree is a thesis-based 36-credit-hour program where students conduct independent investigation. Students may specialize in the following areas: *advanced fibrous structures, medical textiles, nonwovens, textile product design, textile technology, and textile technology management.* Students interested in continuing with a Ph.D. are encouraged to pursue the MS degree.

The objective of the Master of Textiles is to provide on- and off-campus students with an opportunity to strengthen their educational background and prepare them for productive careers in the textile supply chain, in research laboratories, in government agencies, and in higher education. The Master of Textiles is a non-thesis degree. The program is flexible to accommodate a breadth of student needs. The program can be completed in only two semesters of full-time on-campus study. The program is also available entirely via distance education (Textile Off-Campus Programs: TOP) and may be completed on a part-time basis. The university residency requirement is waived for this distance education program. The degree requires 30 credit hours of study with a
Students should have 20 credit hours from mathematics and natural sciences in their undergraduate degree. Students with a Bachelor of Science or a Bachelor of Arts degree may apply to either of the degree programs. Students apply with undergraduate degrees in textiles, engineering, management, or design. Graduate courses in advanced fibrous structures, nonwovens, medical textiles, and some advanced textile technology courses may require advanced mathematics or science courses.

Master's Degree Requirements: The MS degree is a thesis-based 36-credit-hour program where students conduct independent investigation. Students may specialize in the following areas: **advanced fibrous structures, medical textiles, textile product design, textile technology, and textile technology management.** Students interested in continuing with a Ph.D. are encouraged to pursue the MS degree. The non-thesis Master of Textiles requires a minimum of 30 credit hours. No supporting (minor) courses are required. The student must pass a final oral examination.

Student Financial Support: Financial aid in the form of assistantships may be available for full-time Master of Science students.

Other Relevant Information: The Department of Textile and Apparel Technology and Management currently houses the Nonwoven Cooperative Research Center (NCRC). This Center allows students to conduct research in new technologies for nonwoven fabric manufacture. The National Textile Research Center, a collaboration among eight universities, allows students to conduct research in a variety of management, manufacturing, technology and engineering applications. The TATM department includes a Digital Design lab which specializes in 3D Body Scanning, Direct Digital Printing, Whole Body Knitted Garments, and Computer Aided Apparel and Fabric Design. In addition to the design lab the Sara Lee Knit Products Apparel Lab, a Braiding Lab and a Weaving Lab allows students to experience hands on management of advanced textile technology.

**GRADUATE COURSES**

TT 500 Understanding the Textile Complex  
TT 503 Materials, Polymers, and Fibers Used in Nonwovens  
TT 504 Introduction to Nonwovens Processes and Products  
TT 505 Advanced Nonwovens Processing  
TT 506 Bonding Principles in Nonwovens  
TT 507 Nonwoven Characterization Methods  
TT 508 Nonwoven Product Development  
TT 520 Yarn Processing Dynamics  
TT(TE,TMS) 521 Filament Yarn Production Processing and Properties  
TT(TTM) 530 Textile Quality and Process Control  
TT 532 Evaluation of Biotextiles  
TT(TTM) 535 Research Methods and Management  
TT(TE) 541 Theory and Practice of Knitted Fabric Production and Control  
TT(TE) 549 Warp Knit Engineering and Structural Design  
TT 550 Production Mechanics and Properties of Woven Fabrics  
TT 551 Advanced Woven Fabric Design and Structures  
TT 552 Formation, Structure and Assembly of Medical Textile Products  
TT 570 Textile Digital Design and Technology  
TT 571 Professional Practices in Textile Design and Technology  
TT 581 Technical Textiles  
TT 591 Special Studies in Textile Technology  
TT 601 Seminar  
TT 630 Independent Study in Textile Technology  
TT 676 Special Projects in Textile Technology  
TT 685 Master's Supervised Teaching  
TT 688 Non-Thesis Master's Continuous Registration - Half-Time Registration  
TT 689 Non-Thesis Master's Continuous Registration - Full-Time Registration  
TT 690 Master's Examination  
TT 693 Master's Supervised Research
Textile and Apparel Management

TT 695 Master's Thesis Research
TT 696 Summer Thesis Research
TT 699 Master's Thesis Preparation
TT(FPS) 720 Yarn Production/Properties: Advanced Topics
TT(FPS) 721 Total Quality Management in Textiles
TT(FPS) 750 Advances in Woven Fabric Formation and Structure
TT(FPS) 781 Mechanics of Twisted Structures
TT(FPS) 782 Mechanics of Fabric Structures

TTM 501 Textile Enterprise Integration
TTM 502 Supervisory Control and Data Acquisition Systems for Textile Manufacturing
TTM 531 Total Quality Management in Textiles
TTM(TT) 535 Research Methods and Management
TTM 561 Strategic Technology Management in the Textile Complex
TTM 573 Management of Textile Product Development
TTM 581 Global Textile and Apparel Business Dynamics
TTM(BUS) 585 Market Research in Textiles
TTM 586 Advanced Textile Labor Management Seminar
TTM 591 Special Studies in Textile Technology Management
TTM 601 Seminar
TTM 630 Independent Study in Textile Technology Management
TTM 676 Special Projects in Textile Technology Management

GRADUATE FACULTY

K. R. Beck, **Department Head**

**Director of Graduate Programs:** P. J. Hauser, Box 8301, 513.1899, peter_hauser@ncsu.edu, Textile Engr., Chem, & Science

**Burlington Industries Professor of Textile Technology:** R. L. Barker

**Ciba-Geigy Distinguished Professor and Associate Dean for Research:** H. S. Freeman

**Cone Mills Professor of Textile Engineering, Chemistry and Science:** C. B. Smith

**Kosa Professor of Fiber and Polymer Chemistry:** A. E. Tonelli

**Professors:** K. R. Beck, T. G. Clapp, B. S. Gupta, H. Hamouda, P. J. Hauser, S. M. Hudson, J. P. Rust; **Visiting Professors:** L. D. Claxton; **Adjunct Professors:** A. Bogdanovich, W. G. O’Neal; **Professors Emeriti:** D. R. Buchanan, J. A. Cuvelo, A. H. M. El-Shiekh, P. L. Grady, S. P. Hersh, C. D. Livengood, R. McGregor, G. N. Mock, M. H. M. Mohamed, M. H. Theil, C. Tomasino, P. A. Tucker Jr.; **Associate Professors:** D. Hinks, W. J. Jasper, R. E. Kotek, M. G. McCord; **Adjunct Associate Professors:** T. G. Montgomery; **Assistant Professors:** R. E. Gorga, J. A. Joines, W. E. Krause, M. Pasquinelli, R. Shamey, X. Zhang; **Adjunct Assistant Professors:** H. Boyter Jr., R. A. Moore, L. Qian

ASSOCIATE MEMBERS OF THE PROGRAM

**Professors:** S. K. Batra, W. Oxenham, B. Pourdeyhimi, R. A. Donaldson, R. E. Fornes, T. K. Ghosh, R. J. Spontak, M. W. Suh; **Professors Emeriti:** R. A. Barnhardt, H. G. Olf; **Associate Professors:** P. Banks-Lee

**Master of Science in Textile Chemistry (MS/TC):** The M.S. in textile chemistry program offers unique educational and research opportunities in textile and polymer chemistry. Fundamentals of chemistry, physics, and mathematical sciences are applied to solve polymer science and textile wet processing problems.

**Master of Science in Textile Engineering (MS/TE):** The M.S. in textile engineering offers unique educational and research opportunities in machine, process and product design. Fundamentals of physics, engineering, and mathematical sciences are applied to textile-related problems.

**Admission Requirements.** (MS/TC): Applicants must have a physical science or engineering background, including physical chemistry and differential equations. Formal education in textile or polymer chemistry is desired but not required. (MS/TE): Applicants must have a physical science or engineering background including differential equations. A background in engineering mechanics, fluids, dynamics and control theory is highly recommended. Formal education in textile engineering or materials science is desired but not required.

**Degree Requirements.** (MS/TC): Normally, this degree requires 15 credit hours in textile chemistry, 9 credit hours in a supporting area (minor), 6 credit hours of thesis research, and two semester credits from the College Seminar (TC 601). Additional course work may be substituted for part of the research credits. For off-campus (TOP) students and students earning the M.S. on the way to the Ph.D. degree in Fiber and Polymer Science (FPS); a thesis is optional and a minimum of 33 credit hours is required. (MS/TE): Normally, this degree
requires 15 credit hours in textile engineering/textile materials science, 9 credit hours in a supporting area (minor), 6 credit hours of thesis research, and two semester credits from the College Seminar (TE 601). Additional course work may be substituted for part of the research credits. For off-campus (TOP) students and students earning the M.S. on the way to the Ph.D. degree in Fiber and Polymer Science (FPS); a thesis is optional and a minimum of 30 credit hours is required.

**Student Financial Support:** Financial aid in the form of assistantships and fellowships is normally available for all full-time students.

**Other Relevant Information:** The department either houses or has access to all major analytical tools necessary to conduct a quality research program covering a wide range of topics. It also houses state-of-the-art facilities for conducting research in fiber science and textile engineering. Close cooperation between College faculty and the fiber/textile and allied industries provides students with opportunities for learning and employment.

**GRADUATE COURSES**

TC 530 The Chemistry of Textile Auxiliaries

Director of Graduate Programs and Abel C. Linberger Prof. of Yarn Manufacturing: W. Oxenham
James T. Ryan Prof of Industrial Engineering: T. J. Hodgson
Klopman Distinguished Professor Emeritus: S. C. Winchester, Jr.
Kosa Professor of Fiber and Polymer Chemistry: A. E. Tonelli
Professor (Dean) and Joseph D. Moore Professorship of Textile and Apparel Management: A. B. Godfrey
University Professor: S. E. Elmaghraby
Walter Clark Chair Professor of IE and Director of Graduate Programs IE: S. Fang
William A. Klopman Distinguished Professor: B. Pourdeyhimi

Textile Technology Management is a multidisciplinary program designed to educate students for research and management careers in technology management in the fiber, textile, apparel and related industries complex. The program is designed to give the students a breadth of knowledge of the materials and technologies employed in the industries as well as the quantitative and analytical tools of management.

Admission Requirements: Students majoring in textiles; industrial, systems and manufacturing engineering; statistics; operations research; computer science; economics; consumer economics; marketing; and business administration, and having an average in their undergraduate studies of 3.5/4.0 and a Master's degree will normally qualify for admission. Exceptionally qualified students (3.75/4.0 undergraduate GPA) may be admitted directly without a Master's degree.

Doctoral Degree Requirements: Fixed credit-hour requirements for the Doctor of Philosophy degree are 72. (Up to 18 hours from an M.S. may be applied against the 72.) Students are admitted to candidacy for the Ph.D. degree after passing two preliminary written and oral examinations (the first covering manufacturing technology and the second the management of technology) and orally defending a research proposal. They must also have passed an English technical writing course during their college career and, depending on the nature of
their research interests, may also be required to demonstrate a reading knowledge of one foreign language.

**Student Financial Support:** Financial aid in the form of assistantships and fellowships is normally available for all U.S. full-time students. Financial aid in the form of Graduate Research/Teaching Assistantships may be available to a limited number of international students.

**Course Offerings:** Extensive use may be made of graduate course offerings in other colleges on campus when developing the minor field. See departmental listing for descriptions.

GRADUATE FACULTY

Director of Graduate Programs:
R. C. Smart, Box 7633, 515.7245, robert_smart@ncsu.edu, Toxicology

Distinguished Professor Emeritus: E. Hodgson

ASSOCIATE MEMBERS OF THE PROGRAM

The Department of Environmental and Molecular Toxicology provides a comprehensive program in course work and research training to prepare prospective toxicologists for careers in academia, government, and industry. Research in the department spans an array of topics ranging from the molecular to population level consequences of toxicant exposure. A common research theme in the department involves the elucidation of toxicant induced alterations in cell signaling and resultant changes in gene expression as it relates to toxicity at the cellular, organ and organism level. Linkage of adverse biological endpoints to toxicant exposure is a mechanistic goal. Specific research areas include: endocrine disruption, oxidative stress, cellular signaling pathways, transcriptional regulation, toxicogenomics, regulation and expression of xenobiotic metabolizing enzymes, molecular carcinogenesis, cell cycle regulation, apoptosis, chemical exposure assessment, analytical toxicology, ecotoxicology and risk assessment.

Admission Requirements: Prospective students should have a strong background in the biological and physical sciences with a minimum undergraduate grade point average of 3.0 (on a 4.0 scale) and a minimum GRE score of 1100 (combined Verbal and Quantitative scores). GRE subject tests are not required. International students whose primary language is not English must submit TOEFL scores. A written statement should describe the applicant’s academic and career goals as well as their area of interest. All applications are reviewed by a departmental committee and the best applicants will be accepted until all available spaces are filled. Students are encouraged to submit applications in early January for Fall admission.

Master of Science Degree Requirements: The M.S. is a research-oriented degree requiring a minimum of 30 credit hours and a written thesis. At least 20 credit hours must be graduate-level courses and a core curriculum is required.

Master of Toxicology Degree Requirements: The MTOX degree is a non-research degree designed for those not intending to pursue a career in research, part-time students, and/or working professionals seeking to further
their education and advance their careers. A minimum of 30 credit hours is required, with at least 14 credit hours in toxicology courses. While a thesis is not required, at the discretion of the student's advisor, a review paper focusing on the student's interest in some aspect of toxicology might be required. Unlike the M.S. degree, the MTOX degree is an Option B degree program and does not require a thesis, an advisory committee or a final oral comprehensive exam.

**Doctoral Degree Requirements:** The Ph.D. program is designed to train students to become independent scholars capable of conducting unsupervised and original research. Students enroll in a core curriculum similar to that of the M.S. degree and additional courses as determined by his/her advisory committee. Normally a total of 72 credit hours is required, with the majority of these credits being dissertation research. Students must pass both a written and oral preliminary exam prior to advancing to Ph.D. candidacy. A doctoral dissertation presenting the student’s original research is written and defended in a final oral examination.

**Student Financial Support:** Financial assistance is available for qualified applicants through traineeships, fellowships, teaching assistantships and research assistantships.

**Other Relevant Information:** Students pursuing either the M.S. or Ph.D. degree may elect to specialize in environmental toxicology or molecular and cellular toxicology. More details can be obtained on the [Department of Environmental and Molecular Toxicology website](#).

**GRADUATE COURSES**

- TOX 501 Principles of Toxicology
- TOX 601 Seminar
- TOX 620 Special Problems in Toxicology
- TOX(ST) 621 Statistical Problems in Toxicology
- TOX 628 Principles of Reproductive and Developmental Toxicology Research

GRADUATE FACULTY

DIRECTOR OF GRADUATE PROGRAMS:
J. F. Levine, Box 8401, 513.6397, jay_levine@ncsu.edu, Veterinary Public Health

BURROUGHS WELLCOME DISTINGUISHED PROFESSOR AND DIRECTOR OF GRADUATE PROGRAMS, BIOMATHMATICS: J. E. Riviere

ASSOCIATE MEMBERS OF THE PROGRAM

The Master of Veterinary Public Health (MVPH) program is designed to provide graduate training for veterinarians interested in pursuing animal and public health service-oriented careers. The two-year non-thesis MVPH program provides advanced graduate training in: veterinary epidemiology and biostatistics; infection control and biosecurity; outbreak investigation, disease eradication; emergency program management, veterinary public health and the identification and control of zoonotic pathogens; food safety and security; geographic information systems, spatial analysis; and livestock health management and trade policy.

ADMISSION REQUIREMENTS: An applicant to the Master's program must have a degree in veterinary medicine or an equivalent degree from a college or school of veterinary medicine. The MVPH program admissions committee sometimes grants provisional admissions, as well as exceptions, under special circumstance. Applicants are accepted based on the recommendation of the MVPH program admissions committee and program director after a review of their prior academic performance, work experience, and letters of recommendation. No GRE exam is required for graduates of U.S. accredited colleges of veterinary medicine; however, we encourage the submission of GRE scores if available. International applicants from non-accredited colleges of veterinary medicine must meet the minimum TOEFL examination requirements of the NCSU graduate program and submit GRE examination scores.

DEGREE REQUIREMENTS: Candidates for the Master of Public Health degree must complete 37 credit hours of core and elective courses, and conduct a project (five credits) related to some aspect of epidemiology, public health, biosecurity, food safety, or other relevant topic identified by the student and their faculty mentor.

OTHER RELEVANT INFORMATION: Students can enroll full time or part time. To take full advantage of course offerings and training opportunities, students are encouraged to enroll full time for two years.

GRADUATE COURSES
MVPH program students have the opportunity to take a wealth of classes offered by program faculty as well as faculty from numerous other NCSU departments, the UNC Chapel Hill School of Public Health, and other North Carolina University Systems campuses. Each student is assigned a faculty mentor that assists with course selection and career planning. A partial list of classes available at NC State follows:

BMA 722 Decision Analytic Modeling
BMA 773 Stochastic Modeling
BMA 774 Partial Differential Equation Modeling in Biology
BMA 567 Modeling of Biological Systems
BUS 541 Strategic Information Technology
BUS 543 Database Management
BUS 545 Management Support Systems
BUS 549 Managerial Issues In Information Systems
BUS 550 Data Analysis & Forecasting Methods for Management
CBS 580 Veterinary Epidemiology
CBS 581 Veterinary Epidemiology Laboratory
CBS 610 Special Topics in Veterinary Medicine (PopMED Forum)
CBS 754 Principles of analytical epidemiology
CBS 810 Special Topics
FOR 554 Principles of Spatial Analysis
FS 520 Pre-Harvest Food Safety
FS 530 Post-Harvest Food Safety
FS 540 Food Safety and Public Health
FS 553 Food Laws and Regulations
FS 722 Microbial Food Safety
MEA 703 Atmospheric Aerosols
MEA 712 Mesoscale Modeling
MIS 601 Colloquium in International Development
PRT 555 Environmental Impacts of Recreation and Tourism
PRT 562 Principles of Geographic Information Systems
PRT 764 Advanced Study In Geographic Information Systems
SOC 758 Rural Sociology
SOC 762 Urban Ecology
ST 505 Applied Biostatistics
ST 506 Sampling Animal Populations
ST 511 Experimental Statistics for Biological Sciences
ST 512 Experimental Statistics for Biological Sciences II
ST 535 Statistical Process Control
ST 536 Off-line Quality Control
ST 546 Probability and Stochastic Processes I
ST 552 Linear Models and Variance Components
ST 706 Nonlinear Programming
ST 708 Applied Least Squares
ST 711 Design of Experiments
ST 714 Life-Testing and Reliability
ST 715 Theory of Sampling Applied to Survey Design
ST 721 Genetic Data Analysis
ST 722 Decision Analytic Modeling
ST 730 Applied Time Series Analysis
ST 731 Applied Multivariate Statistical Analysis
ST 732 Applied Longitudinal Data Analysis

GRADUATE FACULTY

Director of Graduate Programs:
R. A. Venditti, Box 8005, 515.6185, richard_venditti@ncsu.edu, Wood & Paper Science

Elis and Signe Olsson Professor of Wood and Paper Science: H. Jameel
Reuben B. Robertson Professor: H. Chang

ASSOCIATE MEMBERS OF THE PROGRAM

Professors: E. B. Cowling, S. A. Khan

Course offerings and research facilities are available in the following areas: wood chemistry, biopolymer chemistry, pulping chemistry, process analysis, polymer chemistry, paper physics, secondary fiber studies, wood physics (especially wood liquid relations), wood anatomy, wood biology, wood mechanics and engineering, wood machining, manufacturing processes, wood-based industry economics and marketing.

Admission Requirements: Requirements listed here are in addition to graduate school requirements stated elsewhere. To be admitted, a student should have earned a B.S. degree with a major in wood and paper science or the equivalent. Graduates with other physical science or engineering baccalaureate degrees can be admitted but may be required to make up certain undergraduate deficiencies. Students with a 3.0 GPA and with appropriate course backgrounds will be considered for admission. The GRE test scores are required except for the Master's of Wood and Paper Science offered through Distance Education.

Master of Science Degree Requirements: The M.S. degree requires a minimum of 30 credit hours. In addition, there are WPS core course requirements, which vary depending on the field of study. Six hours of research (WPS 695) must be taken. Two hours of Seminar (WPS 591) must be passed. Qualifying exams, which vary depending on the field of study must be passed.

Master of Wood and Paper Science Degree Requirements: The Master of Wood and Paper Science is a non-thesis, professional degree for students not interested in research. The Master of Wood and Paper Science Degree is offered both on campus and through Distance Education. For the on-campus program a minimum of 36 course credits is required. The regulations regarding credits are the same as for the M.S. degree except that no credit for WPS 695 is required or given and up to six credits of 400-level courses in the major field may be included. A technical report, which demonstrates the student's ability to gather, analyze and report information is required.
In addition to Graduate School requirements, the Distance Education program requires that the student be employed professionally in a wood or paper science field, have one year of professional experience, and take required WPS core courses, which vary depending on the field of study. A minimum of 30 course credits is required including one hour of Seminar (WPS 591) and an independent project (WPS 625).

**Doctoral Degree Requirements:** In addition to Graduate School requirements, Ph.D. candidates must present two seminars (WPS 591 or WPS 791) before their final oral examination will be arranged. Candidates must also pass qualifying exams, which vary depending on the field of study.

**Student Financial Support:** A limited number of research assistantships are available. Five Hoffman Fellowships are also available.

**Other Relevant Information:** Graduate students should select a chairman and other advisory committee members and submit a plan of graduate work by the end of their first semester of residence. They are also urged to take the qualifying examinations within one year of residence. These examinations are to ensure broad competence in the relevant areas of wood and paper science. The department believes M.S. and Ph.D. students should select a research topic and begin their thesis research as early as possible.

As the field of wood and paper science is a derived science, students are urged to develop a strong secondary area of excellence in one or more of the supporting disciplines such as organic chemistry, polymer chemistry, chemical engineering, mathematics, statistics, biology, engineering mechanics, mechanical engineering, physics, and economics or business administration.

**GRADUATE COURSES**

- WPS 510 Strategic Business Processes for the Forest Products Industry
- WPS 527 Wet-end and Colloidal Chemistry
- WPS(CE) 528 Structural Design in Wood
- WPS(MAE) 534 Mechatronics Design
- WPS 565 Paper Physics
- WPS 577 Paper Coating and Printing
- WPS 591 Master's Seminar
- WPS 601 Seminar
- WPS 620 Special Problems
- WPS 625 Advanced Wood and Paper Science Problems
- WPS 685 Master's Supervised Teaching
- WPS 688 Non-Thesis Master's Continuous Registration - Half-Time Registration
- WPS 689 Non-Thesis Master's Continuous Registration - Full-Time Registration
- WPS 690 Master's Examination
- WPS 691 Methods of Research in Wood and Paper Science
- WPS 693 Master's Supervised Research
- WPS 695 Master's Thesis Research
- WPS 696 Summer Thesis Research
- WPS 699 Master's Thesis Preparation
- WPS 704 Timber Physics
- WPS 713 Tropical Woods
- WPS 715 Surface and Colloid Chemistry of Papermaking
- WPS 721 Chemistry of Wood Polysaccharides
- WPS 722 Chemistry of Lignin and Extractives
- WPS 725 Pollution Abatement in Forest Products Industries
- WPS 733 Advanced Wood Anatomy
- WPS 740 Wood Composites
- WPS 750 Wastewater Treatment in the Paper Industry
- WPS 760 Advanced Pulp and Paper Process Analysis
- WPS 791 Doctoral Seminar
- WPS 801 Seminar
- WPS 820 Special Problems
- WPS 825 Advanced Wood and Paper Science Problems
- WPS 885 Doctoral Supervised Teaching
Wood and Paper Science

WPS 890 Doctoral Preliminary Examination
WPS 691 Methods of Research in Wood and Paper Science
WPS 893 Doctoral Supervised Research

GRADUATE FACULTY

D. Shea, *Interim Department Head*

*Director of Graduate Programs:*
T. L. Grove, Box 7617, 513.7564, thurman_grove@ncsu.edu, Zoology

ASSOCIATE MEMBERS OF THE PROGRAM

*Professors:* P. D. Doerr, D. B. Eggleston, E. J. Jones, R. A. Lancia, T. M. Losordo, T. G. Wolcott; *Associate Professors:* W. G. Cope; *Assistant Professors:* K. Gross

Areas of study include: cell biology and physiology, ecology and behavior, and fisheries and wildlife biology. Specializations within these areas include developmental biology, neurobiology, genomics, invertebrate biology, animal reproduction, biorhythms, behavioral ecology, community ecology, population ecology, conservation biology, fisheries ecology, wildlife field studies, aquaculture and others.

Application Deadlines: To guarantee consideration for funding, applications should be complete by the following dates: for Fall Semester admission both U.S. and international applicants should have their application materials completed by February 15; for Spring Semester the deadline is September 15 for U.S. applicants and July 15 for international applicants. Please note that it typically requires four to six weeks from the date of your request until transcripts, letters of recommendation, and GRE scores reach us. Applications received after the dates listed above will still be considered until the Graduate School deadlines (June 25 and November 25 for U.S. applicants, March 1 and July 15 for international applicants), however, opportunities for funding may be limited (note that the Zoology Department does not accept M.S. and Ph.D. students without support).

Admission Requirements: GRE scores (general) are required for admission. M.S. students are expected to have a GRE score of at least 1000, calculated as the Verbal score plus the Quantitative score. Ph.D. students are expected to have a GRE score of at least 1200. Regular admission for a Master's degree requires an undergraduate grade point average of 3.0 in an appropriate biological discipline; an undergraduate GPA of at least 3.2 is expected for Ph.D. students. Some research experience is highly recommended.
**Master's Degree Requirements:** M.S.: No more than six hours of temporary courses (ZO 624, ZO 824) or two hours of departmental seminar can be included in the 30-hour requirement for the M.S. Six hours of research credits (ZO 695) resulting in a thesis are required. A minor (usually 9-10 hours) is optional. **Master of Zoology:** Of the 36 credit hours required, 20 must be regular courses at the 500-800 level, and four to six must be special problems (ZO 631). Other requirements may be imposed by the advisor.

**Doctoral Degree Requirements:** A student's advisory committee recommends appropriate courses which will provide a strong foundation in the student's area of interest. A minimum of 10 hours of research (ZO 895) leading to a dissertation is required. A minor (usually 9-10 hours) is optional.

**Student Financial Support:** Graduate teaching and research assistantships are available to well-qualified M.S. and Ph.D. students.

**Other Relevant Information:** Students may also pursue degrees in interdepartmental programs in Biomathematics, Physiology, and Fisheries and Wildlife Sciences. Excellent research facilities, equipment and computers are available. Off-campus research is conducted at the Pamlico Aquaculture Field Laboratory, research and extension centers in Eastern and Western North Carolina, the Center for Marine Science and Technology in Morehead City, and at facilities of state and federal agencies and private organizations. Field work can be conducted at nearby natural areas and laboratory work at various state and federal laboratories associated with the department. For additional information see the Zoology Department web page: [www.cals.ncsu.edu/zoology/](http://www.cals.ncsu.edu/zoology/).

Artificial Intelligence (Minor Program)

GRADUATE FACULTY

Artificial intelligence is the branch of computer science concerned with designing computer systems that exhibit characteristics normally associated with intelligence in human behavior, such as understanding language, learning, reasoning, and solving problems. At NC State, artificial intelligence is an interdisciplinary field, with faculty from several departments engaged in fundamental research and applications.

The university offers courses of study leading to a minor in artificial intelligence as part of the M.S. and Ph.D. degrees. This option is available to all graduate students except those in computer science, who can choose artificial intelligence as an interest area.

To fulfill the academic requirements for a minor in artificial intelligence, each master's student must successfully complete at least three, and each doctoral student at least six, of the courses in the artificial intelligence curriculum. Two of the courses must be CSC 520, Artificial Intelligence I and CSC 720, Artificial Intelligence II. Other courses offered as part of the artificial intelligence curriculum include: CSC 523 Computational Linguistics; CSC 723 Computational Semantics; ECE 763 Computer Vision; CSC(IE) 556 Voice Input/Output Communication Systems; CSC(IE) 756 Advances in Voice Input/Output Communication Systems. Also, from time to time special topics courses are offered covering subjects such as knowledge engineering, fuzzy reasoning, knowledge representation, neural networks, machine learning, artificial intelligence applications to CAD, and artificial intelligence in manufacturing.

Graduate students in computer science who select artificial intelligence as an interest area are subject to the same academic requirements that define other interest areas within computer science.
Biotechnology (Minor Program)

Professor R. M. Kelly, Director
Box 7512, (919) 515-4230, Fax (919) 151-4231, biotech@ncsu.edu
Home page: http://www.ncsu.edu/biotechnology/

The Biotechnology Program includes faculty from at least twenty departments in the Colleges of Agriculture and Life Sciences, Engineering, Natural Resources, Physical and Mathematical Sciences, and Veterinary Medicine. Graduate study leading to either an M.S. minor or a Ph.D. minor in biotechnology may be taken by students who reside and conduct their research in one of the participating departments. To obtain a minor in biotechnology, the student must successfully complete at least six credit hours in the laboratory core courses selected from the list below and must conduct graduate thesis research in an area of biotechnology.

Research in biotechnology is focused in three main areas: recombinant DNA technology, bioprocessing/bioanalytical techniques, and in vitro culture techniques. The multidisciplinary nature of biotechnology means that a wide range of research topics and techniques are applicable, such as molecular genetics and associated research in molecular biology, enzyme technology and protein engineering, bioprocessing using cells or enzymes, development of biosensors, hybridoma technology, cell culture techniques and embryo manipulation.

See the biotechnology home page for a current listing of faculty.

GRADUATE COURSES

BIT 510 Core Technologies in Molecular and Cellular Biology
BIT 562 Gene Expression: Microarrays
BIT(CHE) 563 Fermentation of Recombinant Microorganisms
BIT 564 Protein Purification
BIT 565 Real-time PCR Techniques
BIT(PO) 566 Animal Cell Culture Techniques
BIT 567 PCR and DNA Fingerprinting
BIT 569 RNA Purification and Analysis
BIT(BO) 581 Plant Tissue Culture and Transformation
BIT 595 Special Topics
BIT 815 Advanced Special Topics
Cognitive Science (Minor Program)

Dr. Ronald P. Endicott, Program Director
Department of Philosophy and Religion
NCSU Box 8103
Phone: (919) 515-6195
Email: ron_endicott@ncsu.edu

Cognitive Science is an area of interdisciplinary research that seeks to understand the nature, processes, and evolution of mind. The Cognitive Science Program is administered by the Department of Philosophy and Religion and supported by a strong faculty drawn from the fields of Psychology, Neurobiology, Computer Science, Linguistics, and Philosophy. The program thus fosters development of ideas and theories within the disciplines of Cognitive Science, for example, theories of rational agency, logical reasoning, cognitive processing, computational psychology, artificial intelligence, neurobiology, and the evolution of cognitive systems.

Requirements: Graduate students who minor in Cognitive Science must complete a minimum of nine hours of courses (or more as determined by the student’s committee), with a grade of B or better, distributed as follows.

One core courses (3 hrs):

PHI/PSY 525 Introduction to Cognitive Science

Two additional courses (6 hrs) outside the degree-granting program from the following:

PSY 500 Visual Perception
PSY 502 Physiological Psychology
PSY 508 Cognitive Processes
PHI 540 The Scientific Method
CSC 520 Artificial Intelligence I
CSC 522 Automated Learning and Data Analysis
CSC 523 Computational Linguistics
CSC 707 Automata, Languages and Computability Theory
CSC 720 Artificial Intelligence II
ENG 524 Introduction to Linguistics
ENG 584 Studies in Linguistics
ZO 588 Neurobiology

Any student who has previously completed the equivalent of the above core course for credit toward another degree (e.g., PHI/PSY 425 as an undergraduate) is required to complete an additional course (3 hours) from the above list.

Up to three credits of equivalent graduate course work may be accepted in the place of one course on the list above, subject to the approval of the Director for the Cognitive Science Program.
Computational Engineering and Sciences (Minor Program)

GRADUATE FACULTY

Professor P. J. Turinsky, Program Coordinator

Camille Dreyfus Professor: C. K. Hall
Graduate Alumni Distinguished Professor: G. E. Mitchell
University Professor and Drexel Professor: H. T. Banks

The Computational Engineering and Sciences Program includes faculty from twelve departments in the College of Engineering and College of Physical and Mathematical Sciences. Graduate students pursuing graduate study toward a master's or Ph.D. degree in one of the participating science or engineering departments may elect this program in place of the traditional minor. [Note that students wishing to earn a graduate degree in mathematics or computer science should reference these departments' sections of the Graduate Catalog for details on options available in computational mathematics and scientific computing.] To complete the program requirements, a student must successfully complete a sequence of graduate-level applied mathematics and computer science courses and, if a research dissertation is required, utilize advanced computational techniques in the course of conducting the research.

The Computational Engineering and Sciences Program is designed to efficiently prepare graduate students to undertake research utilizing scientific computing by combining course work in applied mathematics and computer science in addition to course work in the traditional major. The program recognizes that a new area of scientific pursuit, numerical simulation, has emerged as a new paradigm for scientific inquiry complementing theory and laboratory experiment. Typical areas of research include, but are not limited to, computational fluid dynamics, quantum chemistry and atmospheric modeling. Admission to the program is gained after enrollment in the Graduate School and the graduate program is underway. Program course requirements are selected from applied mathematics and computer science courses listed elsewhere in this Graduate Catalog. Typical courses that may be selected to satisfy this program's requirements include advanced calculus, numerical analysis, numerical linear algebra for parallel architectures, stochastic simulation, computer operating systems, digital systems architecture, computer graphics, compiler construction, software engineering, and design and analysis of algorithms.
Ecology (Minor Program)

GRADUATE FACULTY

Stephen W. Broome, Coordinator
Box 7619, (919) 513-2555, Fax (919) 515-2167, E-mail: Stephen_Broome@ncsu.edu

Ecology is the science concerned with the interactions of organisms with each other and with their environment. It is an integrative science through which one gains an understanding of biological and physical interrelationships and predicts the consequences of altering one or several components. Students in a number of basic and applied curricula may elect to minor in ecology at the M. S. and Ph.D. levels. The minor provides an opportunity for a broad overview of the science of ecology.

The ecology minor is an interdepartmental program drawing faculty from the Departments of Botany, Crop Science, Entomology, Forestry, Marine, Earth and Atmospheric Sciences, Parks, Recreation and Tourism Management, Plant Pathology, Soil Science, Statistics, and Zoology. The Ecology Advisory Committee administers the program.

Requirements for a Minor in Ecology

A graduate student's advisory committee must include one member of the Ecology Advisory Committee from a department other than that of the chairman of the student's committee.

**M.S. minor:** at least one course must be selected from the list of Ecology Core Courses, at least two additional courses selected from the list of Approved Ecology Courses or the Core Courses, and Ecology seminar (ECO 601), totaling a minimum of 9 semester hours. Courses selected form the list of Approved Ecology Courses must be from outside the student's major discipline.

**Ph.D. minor:** at least one course must be selected from the list of Ecology Core Courses, at least three additional courses selected from the list of Approved Ecology Courses or the Core Courses, and Ecology seminar (ECO 601), totaling a minimum of 12 semester hours. Courses selected form the list of Approved Ecology Courses must be from outside the student's major discipline. No courses used to meet the Ecology minor requirements for the M.S. degree may be used to meet the Ph.D. minor requirements.

**GRADUATE COURSES**

ECO 601 Seminar
ECO 620 Special Problems
Environmental Remote Sensing and Image Analysis (Minor Program)

Dr. Siamak Khorram  
Box 7106, (919) 515-2868  
khorram@ncsu.edu

This graduate minor provides graduate students the opportunity to develop a recognized academic credential in remote sensing and image analysis in conjunction with their major program of graduate study. A minimum of 12 credit hours, 6 credit hours of required courses and 6 credit hours of elective courses, is required to complete the minor. Students can select coursework from the following list.

GRADUATE COURSES

REQUIRED COURSES (6 credit hours)

FOR 753 Environmental Remote Sensing  
ECE 759 Pattern Recognition, OR  
ST 733 Applied Spatial Statistics

ELECTIVES (6 credit hours)

ECE 751 Detection and Estimation Theory  
ECE 758 Digital Image Processing  
FOR 510 Introduction to GPS  
FOR 554 Principles of Spatial Analysis  
NR 531 Introduction to Geographic Information Science  
NR 532 Principles of Geographic Information Science  
NR 533 Application Issues in Geographic Information Systems  
ST 733 Applied Spatial Statistics
Food Safety (Minor Program)

GRADUATE FACULTY

Professor Lee-Ann Jaykus, Director

Associate Professors: R. E. Baynes, M. Correa, P. Cowen, M. A. Drake, S. Kathariou, C. E. Sorenson; Assistant Professors: J. W. Olson

The primary objective of the Food Safety Minor is to prepare science professionals with the depth and breadth of training necessary to understand and to control food safety challenges. The interdisciplinary minor includes departments in the Colleges of Agriculture and Life Sciences and Veterinary Medicine with the occasional participation of other NCSU colleges. Participating graduate students are required to have, or to develop during the early part of their training, appropriate knowledge in the basic scientific disciplines of chemistry, biochemistry and microbiology. Further, it is highly desirable that formal course training in genetics and statistics be part of each student’s academic program. Students in a master's program are required to have 10 credits from the core courses to earn the food safety minor. Students in a doctoral program are required to have, as a minimum, 10 credits from the core courses.

CORE COURSES

FSA(FS) 520 Pre-harvest Food Safety
FSA(FS) 530 Post-harvest Food Safety
FSA(FS) 540 Food Safety and Public Health
FSA(FS) 580 Professional Development and Ethics in Food Safety
Geographic Information Systems (GIS) is the study of spatial distributions and relationships through the analysis and display of spatial data. The objectives of the GIS minor and certificate programs include an internationally recognized graduate GIS instruction program, addressing the high demand for professional GIS analysts and providing a focus for expanding the university’s GIS research program. Currently, approximately 30 NC State graduate departments are active in varying applications of spatial analysis within their respective fields. The certificate program consists of a minimum of 15 credit hours, and the minor is 10 credit hours. The certificate program is open to both degree seeking and non-degree seeking students at the graduate level.

GRADUATE COURSES

The Graduate Minor in GIS consists of a minimum of 10 credits hours as follows:

REQUIRED COURSES

One of the following introductory GIS courses:

ECI 496 Special Topics (GIS in Education) OR
ECI 630 Independent Study (GIS in Education)

PA 541 GIS for Public Administration
SSC 440 GIS in Production Agriculture
NR 531 Introduction to Geographic Information Science

FOR 510 Introduction to GPS
NR 532 Principles of Geographic Information Science
NR 533 Application Issues in GIS OR 3 credits from the following*:

BAE(SSC) 535 Precision Agriculture Technology
CE 538 Information Technology and Modeling
FOR 554 Principles of Spatial Analysis
FOR 753 Environmental Remote Sensing
LAR 500 Landscape Design Studio (GIS section)
NR 535 Computer Cartography
ST 733 Applied Spatial Statistics

*Student must take NR 533 or demonstrate a suitable project experience approved by the GIS Faculty Coordinator or his or her minor representative.
The Graduate Certificate in GIS consists of a minimum of 15 credits hours, 10 credit hours of required courses and 5 credit hours of elective courses, as follows:

REQUIRED COURSES (10 credit hours)

One of the following introductory GIS courses:

- ECI 496 Special Topics (GIS in Education) OR
- ECI 630 Independent Study (GIS in Education)

PA 541 GIS for Public Administration
SSC 440 GIS in Production Agriculture
NR 531 Introduction to Geographic Information Science

FOR 510 Introduction to GPS
NR 532 Principles of Geographic Information Science
NR 533 Application Issues in GIS

ELECTIVES (5 credit hours)

BAE(SSC) 535 Precision Agriculture Technology
CE 538 Information Technology and Modeling
FOR 554 Principles of Spatial Analysis
FOR 753 Environmental Remote Sensing
LAR 500 Landscape Design Studio (GIS section)
NR 535 Computer Cartography
SSC 590 Special Problems (Remote Sensing Applications in Soil Science & Agriculture)
ST 733 Applied Spatial Statistics
**Interdisciplinary Minor**

The interdisciplinary minor requires two or more areas of coursework to be represented with a faculty member representing one of the areas of coursework.
Life Science Ethics (Minor Program)

Dr. Gary Comstock, Director
Ethics Program Office: (919) 513-5100
 Philosophy Department: (919) 515-3214
Email: ncsu_ethics@ncsu.edu
Website: www.ncsu.edu/ethics

Primary Objectives:

- to guide graduate students in careful discussion of ethical issues in the life sciences, especially those faced by life scientists in research;
- to provide graduate students with the conceptual tools and principles needed to recognize and respond to ethical challenges in the life sciences;
- to provide graduate students in the life sciences and related areas with an opportunity to enrich scientific training with an understanding of the history and theory of ethics.

Academic Requirements: Graduate students participating in the life science ethics minor must earn at least one credit in a Responsible Conduct of Research (RCR) training course. At the present time, several RCR courses are offered on campus by departments with graduate degree programs. These include: Ethics & Professional Practice in Public Administration (PA 510); Professionalism & Ethics (GN 820E); Professional Ethics and Conduct of Science (CBS 662); Special Topics: Graduate Research Ethics (CHE 596D); Ethics and Jurisprudence (VMC 915).

Students in these degree programs may take an RCR course offered by faculty in the department that grants their degree. Students from any graduate degree program may choose instead to fulfill the RCR requirement for the minor with Introduction to Research Ethics (PHI 816).

In addition to the RCR requirement, students must also complete the following nine graduate credits in philosophy with a grade of B- or better: Life-Science Ethics (PHI 515); Philosophical Issues in Environmental Ethics (PHI 522); The Scientific Method (PHI 540).

Application to Minor Program: Prospective students must apply to and meet all admission requirements of a graduate degree program (and be members in good standing of that program), and must declare their intention to minor by completing a form available in the Department of Philosophy and Religion.
Plant Physiology

GRADUATE FACULTY

Professor T. W. Rufty Jr., Coordinator
NCSU Box 7619
919. 515.3660

The plant physiology program is an interdepartmental offering. Although not a formal degree program, students may elect to major or minor in the plant physiology program at both the M.S. and Ph.D. levels. Students entering the program should have appropriate knowledge in plant biology, biochemistry, mathematics and physics. Some formal training in genetics and statistics is normally expected.

When majoring in plant physiology, students will be closely affiliated with the same department as their major professor. As such, they will be required to meet respective departmental requirements for teaching, written and oral examinations, and seminar attendance. Departments currently participating in this program are: Biochemistry, Botany, Crop Science, Forestry, Genetics, Horticultural Science, Plant Pathology, and Soil Science. The chair or co-chair of the student's advisory committee must be a member of the Plant Physiology Faculty.

The purpose of the plant physiology curriculum is to ensure that students obtain substantive understanding of the physiological processes controlling plant behavior. The course requirements for graduate students are set by each graduate committee. Advanced knowledge is expected in biochemistry, plant physiology, plant structure and function, and molecular biology.

The program is administered by the Plant Physiology Executive Committee. Additional information about the program may be obtained by writing to one of the listed faculty members or to the coordinator.
Solid State Sciences (Minor Program)

GRADUATE FACULTY

University Professor G. Lucovsky, Chair

The university offers courses of study leading to a minor in solid state sciences as part of the M.S. and the Ph.D. degrees. This option is available to all graduate students pursuing research in the broad area of solid state science and requires that a member of the solid state sciences faculty serve on the student's research committee.

Solid state sciences is an interdisciplinary area of research that applies and extends concepts from the traditional academic disciplines of chemistry, electrical and computer engineering, materials science and engineering, and physics to basic and applied problems with a primary focus on solid state materials. At NC State, there are a significant number of such research programs that involve faculty and students in more than one of the academic departments listed above. This minor program can be customized to provide a course complement for these ongoing programs, as well as for any additional solid state materials research programs as they are initiated, developed and implemented.

To fulfill the academic requirements for a minor in solid state sciences, each master's student must successfully complete at least three, and each doctoral student, four of the courses in the solid states sciences curriculum. A partial listing of courses in this program includes: CH 701, 703 Advanced Inorganic Chemistry I, II; CH 731 Chemical Thermodynamics; CH 733 Chemical Kinetics; CH 737 Quantum Chemistry; ECE 730 Physical Electronics; ECE 739 Integrated Circuit Technology and Fabrication; ECE 723 Optical Properties of Semiconductors; ECE 724 Electronic Properties of Solid State Devices; ECE (PY) 727 Semiconductor Thin Films Technology; MAT 712 Scanning Electron Microscopy; MAT 715 Fundamentals of Transmission Electron Microscopy; MAT 560 Materials Science and Processing of Semiconductor Devices; MAT 795 Advanced Materials Experiments; MAT 722 Advanced Scanning Electron Microscopy and Surface Analysis; MAT 770 Defects, Diffusion and Ion Implantation in Semiconductors; MAT 792 Advanced Topics in Materials Science and Engineering; PY (ECE) 552 Introduction to the Structure of Solids. In addition, other courses (for example, special topics courses in any one of the participating departments) may also be substituted into an individual student's designated solid state sciences minor program at the discretion of his/her committee.
Water Resources (Minor Program)

J. D. Gregory, Chair
NCSU Box 8008
919.515.7567
E-mail: jim_gregory@ncsu.edu

WATER RESOURCES COMMITTEE

D. J. Phaneuf (Agricultural and Resource Economics), J. M. Burkholder (Botany), M. R. Overcash (Chemical Engineering), R. C. Borden (Civil Engineering), J. B. Weber (Crop Science), R. B. Palmquist (Economics), F. P. Hain (Entomology), W. G. Cope (Environmental and Molecular Toxicology), K. M. Keener (Food Science), A. B. Stein (Landscape Architecture), D. Genereux (Marine, Earth and Atmospheric Sciences), J. W. Gilliam (Soil Science), C. B. Smith (Textile Engineering, Chemistry and Science), J. F. Gilliam (Zoology)

The interdisciplinary, interdepartmental graduate minor in water resources is designed for students majoring in the many disciplines of natural resources, science, engineering, technology, and social sciences that are relevant to water resources. The minor exposes students to water resources courses and faculty members outside their major fields of study.

A graduate student may enroll in the water resources minor by including it on the plan of graduate work and sending that plan of work to J. D. Gregory for review. A graduate faculty member from outside the student's major department or program must be appointed to serve as the minor representative on his/her advisory committee. The minor representative may be a member of the Water Resources Committee or another faculty member from a department represented on the Water Resources Committee who is active in teaching/research related to water resources.

Master's Degree: Minimum course requirements for the minor are three courses (minimum of eight credit hours) from water resources areas outside the student's major field of study approved by the student's minor representative.

Doctor of Philosophy Degree: Minimum course requirements for the minor are three courses (minimum of eight credit hours) from water resources areas outside the student's major field of study approved by the student's minor representative. These courses shall be in addition to those previously taken at the Master's level when that degree included a Water Resources Minor.

A course in the legal, institutional, or economic aspects of water resources is recommended for each minor program. Suggested courses are listed below; other appropriate courses may be included in the minor. Contact J. D. Gregory for additional information.

WATER RESOURCES COURSES

Legal, Institutional and Economic Aspects of Water Resources
EC(ARE) 436  Environmental Economics
ECG 515  Environmental and Resource Policy
ET 450  Environmental Regulation
FOR 460  Renewable Resource Policy and Management
NR 571  Current Issues in Natural Resource Policy
PA 550  Environmental Policy

Planning of Water Resources and Related Systems
ET 460 Practice of Environmental Technology
NR 484 Environmental Impact Assessment.
LAR 430  Site Planning
LAR 512  Landscape Resource Management
Municipal and Industrial Water Management
CE 484 Water Supply and Waste Water Systems
CE 571 Physical Principles of Environmental Engineering
CE 574 Chemical Principles of Environmental Engineering
CHE 575 Advances in Pollution Prevention: Environmental Management
TAM(PCC) 401 Environmental Aspects of the Textile Industry
WPS 725 Pollution Abatement in Forest Products Industries
WPS 750 Wastewater Treatment in the Paper Industry

Agricultural and Forest Water Management
BAE 471 Land Resources Environmental Engineering
BAE 472/572 Irrigation and Drainage
BAE(CE) 578 Agricultural Waste Management
CS(HS,SSC,TOX) 725 Pesticide Chemistry
CS(HS,SSC,TOX) 727 Pesticide Behavior and Fate in the Environment
SSC 461 Soil Physical Properties and Plant Growth
SSC 511 Soil Physics
SSC 562 Environmental Applications of Soil Science

Biological and Ecological Aspects of Water Resources
BO(ZO) 760 Principles of Ecology
BO(MB) 774 Phycology
FW(ZO) 420 Fishery Science
FW(ZO) 586 Aquaculture I
FW(ZO) 587 Aquaculture I Laboratory
MEA(ZO) 549 Principles of Biological Oceanography
ZO 441 Biology of Fishes
ZO 519 Limnology
ZO 789 Advanced Limnology

Hydrologic, Meteorologic, Oceanographic, and Water Quality Aspects of Water Resources
BAE 473 Introduction to Surface/Water Quality Modeling
BAE 502 Instrumentation for Hydrologic Applications
BAE 570 Soil Water Movement
BAE(SSC) 573 Hydrologic and Water Quality Modeling.
BAE 576 Watershed Monitoring and Assessment.
BAE 577 Introduction to the Total Maximum Daily Load Program.
BAE 579 Stream Channel Assessment and Restoration
BAE(SSC) 771 Theory of Drainage-Saturated Flow
BAE(SSC) 774 Theory of Drainage-Unsaturated Flow
CE 583 Engineering Aspects of Coastal Processes
CE 584 Hydraulics of Ground Water
CE 586 Engineering Hydrology
CE 607 Water Resource and Environmental Engineering Seminar
FOR(NR) 420/520 Watershed and Wetlands Hydrology
MEA 455 Micrometeorology
MEA 481 Principles of Geomorphology
MEA 540 Principles of Physical Oceanography
MEA 560 Chemical Oceanography
MEA 585 Hydrogeology
MEA 706 Meteorology of the Biosphere
MEA 760 Biogeochemistry
MEA 785 Chemical Hydrogeology
SSC(BAE) 780 Transport and Fate of Chemicals in Soils and Natural Waters

Wetlands
NR 521 Wetland Assessment, Delineation, and Regulation
SSC 570 Wetland Soils
Women's and Gender Studies (Minor Program)

GRADUATE FACULTY

Dr. C. A. Warren, Director

The minor provides graduate students in the humanities, social sciences and sciences with the theories and the methodologies to study women and gender relations. The minor is intended to support and further students' research in their own field. Nine hours of graduate credit are required. No more than three hours of course work may overlap between the major department coursework requirement and the WGS minor. Students may choose from the courses listed below and/or a list of approved special topics courses.

GRADUATE COURSES

ANT 544 Cross-cultural Perspectives on Women
VPH 555 Public Health, Sustainable Development and Gender in Global Context
WGS(PSY) 506 Psychology of Gender
WGS(ECD) 540 Gender Issues in Counseling
WGS(HI) 547 American Women to 1900
WGS(HI) 548 American Women in the 20th Century
WGS 593 Special Topics
WGS(SOC) 704 Feminist Thought in the Social Sciences
WGS(SOC) 737 Sociology of Gender
WGS(SOC) 739 Social Psychology of Inequality
ZO 508 Brain, Sex, and Gender
Agricultural Education (Certificate)

Dr. Gary E. Moore  
Director of Graduate Programs  
Agricultural and Extension Education  
NCSU Box 7607  
Phone: 919.515.1756  
Email: gary_moore@ncsu.edu

The Department of Agricultural and Extension Education offers a Certificate in Agricultural Education.

Requirements: The certificate program involves completion of 15 credit hours. Students are to choose from AEE 500, 503, 521, 522, 528, 529, 535, 641, and 735.
Community College Teaching (Certificate)

Dr. Duane Akroyd
Associate Professor and Director of Graduate Programs
Department of Adult and Community College Education
Phone: 919.515.1745
FAX: 919.515.6305
Email: duane_akroyd@ncsu.edu

The departments of Adult and Community College Education (ACCE) and Mathematics, Science and Technology Education (MSTE) within the College of Education at North Carolina State University are working together to develop a prototype graduate certificate program in Community College Teaching. The program will focus on developing the knowledge and skills necessary to design and deliver course-related content through technology-enhanced learning environments for faculty who teach in STEM (Science, Technology, Engineering, & Mathematics) related areas. The courses developed for the graduate certificate will enhance faculty abilities in both online and classroom environments. The key goal for the online Graduate Certificate Program in Community College Teaching is to provide high quality content and instruction for the systematic development of instructional expertise for regional community college instructors.

**Curriculum.** The Graduate Certificate Program in Community College Teaching consists of 15 semester hours of coursework. The sequence of the program is displayed in the Curriculum Flowchart. The courses are listed below.

**Core Courses** (9 credit hours):
- EAC759 The Adult Learner
- EAC538 Instructional Strategies in Adult and Community College Education
- TED534 Instructional Design in Technical and Technology Education

Select 6 hours from below (any combination):

**Community College Teaching Emphasis** (6 credit hours):
- EAC595 Classroom Assessment and Evaluation
- EAC595 Integrating Technology into Training Programs

**OR**

**Technology Education Community College Teaching Emphasis** (6 credit hours):
- TED530 Foundations of Teaching Technology Education
- TED556 Laboratory Management and Safety for TED

For more information about the program and for application procedures, please see the CCTeach Online website.
Design and Analysis of Environmental Systems: Watershed Assessment and Restoration (Certificate)

Dr. John Classen, Coordinator
Department of Biological and Agricultural Engineering
NCSU Box 7625
Phone: 919.515.6800
Fax: 919.515.7760
Email: gradcert-bae@ncsu.edu

The Department of Biological and Agricultural Engineering offers a Graduate Certificate Program in Design and Analysis of Environmental Systems: Watershed Assessment and Restoration.

Objectives

1. Provide a focus and formal program for students from many disciplines to pursue training in the technical and engineering aspects of designing and analyzing environmental systems with an emphasis on the watershed-scale.
2. Provide students the opportunity to develop a solid foundation in engineering systems targeted at environmental issues, particularly related to non-point sources and their impact on water quality at the watershed-scale.
3. Provide practicing engineers and other professionals a source of graduate level engineering education in the environmental field.

Admission Requirements: Applicants must have successfully completed an accredited undergraduate engineering program with a GPA of 3.0 (based on a 4.0 scale), or with an overall undergraduate GPA of at least 2.8 coupled with a 3.0 or higher in the undergraduate major, or be currently enrolled in a graduate engineering program. Applicants with a four-year undergraduate science degree who have successfully completed (with a C or better) calculus, differential equations, physics and chemistry will also be considered. A program that includes fluid mechanics or hydraulics is highly recommended. Environmental professionals who do not meet the above criteria may also qualify if appropriate experience can be demonstrated.

Program Requirements: A minimum of 12 hours of coursework selected from the list below. One course can be selected from outside of BAE (up to 2 credit hours), but at least 9 credit hours must be BAE courses.

At least 9 hours from the following:
BAE 502 Instrumentation for Hydrologic Applications
BAE 535 Precision Agriculture Technology
BAE 570 Soil Water Movement
BAE 573 Hydrologic and Water Quality Modeling
BAE 575 Design of Structural Stormwater Best Management Practices
BAE 576 Watershed Monitoring and Assessment
BAE 577 Introduction to the Total Maximum Daily Load Program
BAE 578 Agricultural Waste Management
BAE 579 Stream Channel Assessment and Restoration
BAE 590Y Ecohydraulics and River Corridor Function
BAE 771 Theory of Drainage – Saturated Flow
BAE 774 Theory of Drainage – Unsaturated Flow

Up to 3 credit hours can be selected from the following:
CE 580 Flow in Open Channels
CE 584 Hydraulics of Groundwater
CE 586 Engineering Hydrology
CE 775 Modeling and Analysis of Environmental Systems
CE 776 Advanced Water Management Systems
CE 784 Ground Water Contaminant Transport
CE 785 Urban Stormwater Management
SSC 511 Soil Physics
SSC 562 Environmental Applications of Soils
SSC 570 Wetland Soils

**Other Information:** BAE 570 is required; students who have not had BAE 570 or SSC 511 can elect to take SSC 511 instead. Students who have previously completed SSC 511, Soil Physics, at NC State with a C or better, will be given 1 hour credit and will not have to take BAE 570 or repeat SSC 511. Credit will not be given for both.
Geographic Information Systems (GIS) is the study of spatial distributions and relationships through the
analysis and display of spatial data. The objectives of the GIS minor and certificate programs include an
internationally recognized graduate GIS instruction program, addressing the high demand for professional GIS
analysts and providing a focus for expanding the university’s GIS research program. Currently, approximately
30 NC State graduate departments are active in varying applications of spatial analysis within their respective
fields. The certificate program consists of a minimum of 15 credit hours, and the minor is 10 credit hours. The
certificate program is open to both degree seeking and non-degree seeking students at the graduate level.

GRADUATE COURSES

The Graduate Minor in GIS consists of a minimum of 10 credits hours as follows:

REQUIRED COURSES

One of the following introductory GIS courses:

ECI 496 Special Topics (GIS in Education) OR
ECI 630 Independent Study (GIS in Education)

PA 541 GIS for Public Administration
SSC 440 GIS in Production Agriculture
NR 531 Introduction to Geographic Information Science

FOR 510 Introduction to GPS
NR 532 Principles of Geographic Information Science
NR 533 Application Issues in GIS OR 3 credits from the following*:

BAE(SSC) 535 Precision Agriculture Technology
CE 538 Information Technology and Modeling
FOR 554 Principles of Spatial Analysis
FOR 753 Environmental Remote Sensing
LAR 500 Landscape Design Studio (GIS section)
NR 535 Computer Cartography
ST 733 Applied Spatial Statistics

*Student must take NR 533 or demonstrate a suitable project experience approved by the GIS Faculty
Coordinator or his or her minor representative.
The Graduate Certificate in GIS consists of a minimum of 15 credit hours, 10 credit hours of required courses and 5 credit hours of elective courses, as follows:

REQUIRED COURSES (10 credit hours)

One of the following introductory GIS courses:

- ECI 496 Special Topics (GIS in Education) OR
- ECI 630 Independent Study (GIS in Education)
- PA 541 GIS for Public Administration
- SSC 440 GIS in Production Agriculture
- NR 531 Introduction to Geographic Information Science

FOR 510 Introduction to GPS
NR 532 Principles of Geographic Information Science
NR 533 Application Issues in GIS

ELECTIVES (5 credit hours)

- BAE(SSC) 535 Precision Agriculture Technology
- CE 538 Information Technology and Modeling
- FOR 554 Principles of Spatial Analysis
- FOR 753 Environmental Remote Sensing
- LAR 500 Landscape Design Studio (GIS section)
- NR 535 Computer Cartography
- SSC 590 Special Problems (Remote Sensing Applications in Soil Science & Agriculture)
- ST 733 Applied Spatial Statistics
Horticultural Science (Certificate Program)

Dr. John M. Dole, Director of Graduate Programs
Department of Horticultural Science
Phone: 919.515.3537
FAX: 919.515.7747
Email: john_dole@ncsu.edu

The Certificate in Horticultural Science is a non-degree program offered through the Department of Horticultural Science at North Carolina State University. The Certificate program is designed to increase personal knowledge and skills for current or future employment in the Horticultural Industry. Students may concentrate in one of three areas: General Horticulture, Food Horticulture and Ornamental Horticulture.

Requirements: The Certificate program requires a minimum of five courses resulting in at least 15 credits to be completed within 4 years. The courses will constitute a cohesive continuing education in Horticultural Science and will be selected by the candidate and the advisor.

Applicant must have a B.S. or higher degree from an accredited four-year college or university and have a GPA of at least 3.0 on a 4.0-point scale.

It is highly recommended that candidates have a major in horticulture, crop science, plant science, plant biology or agricultural education with a plant science emphasis. Applicants who do not meet the GPA requirement may be admitted provisionally based on past work experience as a professional in horticulture or a related field. Supporting documentation of professional experience in horticulture or a related field must be submitted for provisional admission. Students who are admitted provisionally must earn at least a 3.0 GPA average in the first two courses of the certificate program in order to obtain full admission into the program. Certificate students must maintain an average GPA of 3.0 and a minimum grade of C (2.00) in any of the Horticulture Graduate Certificate courses.

Curriculum: The following courses can be used for credit in the Horticultural Science Certificate Program.

**Horticultural Science**
- HS 542 Advanced Vegetable Crop Management
- HS 551 Hort. Crops Nutrition
- HS 562 Post Harvest Physiology
- HS 590 Special Problems in Horticultural Science (Greenhouse Food Prod)
- HS 590 Special Problems in Horticultural Science (Small Fruit Management)
- HS 590 Special Problems in Horticultural Science (Nursery Crop Management)
- HS(CS) 717 Weed Management Systems

Any other graduate-level Horticultural Science courses.

**Plant Pathology**
- HS 502 Plant Disease: Methods/Diagnosis

**Entomology**
- ENT 591 Insect Pest Management
- ENT 690 Horticultural Entomology

**Soil Science**
- SSC 440 Geographic Information
- SSC 470/570 Wetland Soils
- SSC 532 Soil Microbiology
- SSC 551 Soil Morphology, Genesis and Classification
- SSC 562 Environmental Applications of Soil Science
Fields of Graduate Instruction - Horticultural Science (Certificate)

**Food Science**
- FS 495 Special Topics in Food Science (Good Manufacturing Practices)
- FS 495 Special Topics in Food Science (Sanitation Standard Opt. Proc.)
- FS 495 Special Topics in Food Science (Sanitation)
- FS 495 Special Topics in Food Science (Hazard Analysis/ Risk Assess.)
- FS 495 Special Topics in Food Science (Microbiology / Microbial Hazards)

**Agriculture & Extension Education**
- AEE 501 Foundations of Agriculture & Extension Education
- AEE 521 Program Planning in Agriculture & Extension Education
- AEE 523 Adult Education in Agriculture

For more information about the Certificate Program and applications materials, please see the [Department of Horticultural Science](#) website.
**Molecular Biotechnology (Certificate Program)**

Dr. Susan Carson, Coordinator  
NCSU Box 7512  
Phone:  919.513.0330  
Email:  sue_carson@ncsu.edu  
Website:  [http://www.ncsu.edu/biotechnology/](http://www.ncsu.edu/biotechnology/)

Training in molecular biotechnology is essential for an expanding list of disciplines that have found modern biology-based skills of critical importance in pursuing research goals in areas ranging from microbiology to plant and animal sciences to chemical engineering. The Graduate Certificate Program in Molecular Biotechnology offers an opportunity for individuals educated in the life sciences and related disciplines to gain laboratory-based, hands-on training in many aspects of molecular biotechnology. While this Certificate Program is geared primarily toward non-traditional students who have already entered the workforce, NCSU graduate students with career interests that involve molecular biotechnology are also eligible to apply. Admissions requirements can be viewed at the program website.

The Graduate Certificate Program in Molecular Biotechnology will require a minimum of 12 hours of required and elective courses as listed below:

**REQUIRED (5 credits)**

- BIT 510 and BIT 510L Core Technologies in Molecular and Cellular Biotechnology (4 credits)  
- BIT 595C  Issues in Biotechnology (1 credit) or an approved research ethics or bioethics course

**BIOTECHNOLOGY LABORATORY ELECTIVES (4 credits)**

Two of the following courses and their laboratories (2 credits each):

- BIT 462/562 Microarrays  
- BIT 563 Fermentation  
- BIT 564 Protein Purification  
- BIT 581 Plant Transformation and Tissue Culture  
- BIT 566 Animal Cell Culture  
- BIT 467/567 PCR and DNA Fingerprinting  
- BIT 468/568 Genome Mapping  
- Other BIT laboratory courses (2 credits) by permission

**OTHER ELECTIVES -- CHOOSE ONE (3 credits)**

- GN 411 Principles of Genetics  
- GN 513 Advanced Genetics  
- MB 714 Microbial Metabolic Regulation  
- MB (GN) 758 Prokaryotic Molecular Genetics  
- BO 780 Plant Molecular Biology  
- BCH 553 Biochemistry of Gene Expression  
- FS (MB) 725 Fermentation Microbiology  
- ST (GN) 721 Genetic Data Analysis  
- GN 701 Molecular Genetics  
- GN 735 Functional Genomics  
- CHE 551 Biochemical Engineering  

Other courses (400-level or higher) may be considered by special request.
Nonprofit Management (Certificate Program)

Dr. Elizabethann O'Sullivan
Director, Public Administration Programs
Department of Political Science and Public Administration
NCSU Box 8102
Raleigh, NC 27695-8102
Phone: 919.515.5070
Email: elizabethann_osullivan@ncsu.edu

A Graduate Certificate in Nonprofit Management is available to students, including NC State degree students, who have a Bachelor’s degree from an accredited university. The Certificate requires 15 credit hours of course work. The courses are designed to provide the basic management knowledge and skills needed in nonprofit organizations. For applications and a description of program requirements go to http://www.chass.ncsu.edu/pa/certificateNonProfit.htm
Nonwovens Science and Technology

Dr. George L. Hodge
Director of Graduate Programs
Department of Textile and Apparel, Technology, and Management
Phone: (919) 515-6579
Email: george_hodge@ncsu.edu

The certificate program in Nonwovens Science and Technology provides NC State graduate students the opportunity to develop recognized academic credentials in Nonwovens Science and Technology in addition to their major area of graduate study. Provide non-degree graduate level students the opportunity to develop recognized advanced expertise in Nonwovens Science and Technology.

**Required Coursework:** The Graduate Certificate Program in Nonwovens Science and Technology requires a minimum of 15 hours and includes the following courses:

- **Core Courses** (6 hours):
  - TT 503 Materials, Polymers and Fibers Used in Nonwovens (3 hours)
  - TT 504 Introduction to Nonwovens Products and Processes (3 hours)

- **Advanced Courses** (minimum 9 hours)*:
  - TT 505 Advanced Nonwovens Processing (3 hours)
  - TT 506 Bonding Principles in Nonwovens (3 hours)
  - TT 507 Nonwoven Characterization Methods (3 hours)
  - TT 508 Nonwoven Product Development (3 hours)

*One NC State course (400-level or higher) may be substituted for one of the advanced courses into the program upon agreement between the Certificate Coordinator and the student. The Certificate Coordinator will maintain a list of appropriate level graduate courses.
The Certificate in Training and Development is a non-degree program for lifelong learning students offered through the Department of Adult and Higher Education at North Carolina State University. Lifelong learning students are those students who are classified by the University as PBS (Post-baccalaureate Studies) for purposes of registration.

The Certificate program consists of a selected set of for-credit courses that are offered in an online format. The courses are selected to offer a cohesive continuing education opportunity for people in training roles in business and industry. This program is designed for the person who has recently advanced into a training position and is without the academic preparation needed or for those choosing to increase their knowledge and skills in training for current or future jobs. The program is not intended for career exploration nor is it a prerequisite for or part of a graduate degree program. The program is made up of a minimum of five 3-credit courses. The student will complete the identified Certificate courses through continuous enrollment (excluding summer sessions) until contract requirements are met. Participants must hold a baccalaureate degree to enroll in the Certificate Program.

**Curriculum:** The program requires completion on the following five courses.

- EAC 580 Designing Instructional Systems in Training and Development
- EAC 583 Needs Assessment and Task Analysis in Training and Development
- EAC 584 Evaluating Training Transfer and Effectiveness
- EAC 586 Methods and Techniques of Training and Development
- EAC 759 The Adult Learner

Additional NC State courses can be incorporated into the program upon agreement between the program coordinator and the student. For course descriptions, please refer to the NCSU listing of courses.

**Other Information:** All graduate students are expected to either pass the AHE technology competencies through a testing out procedure or to attend a workshop at the beginning of their studies.

For further information, see the Certificate in Training and Development website or the Adult and Higher Education website.
Biological Sciences

There is no separate graduate major in the biological sciences, but both M.S. and Ph.D. degrees are offered in several life science departments and programs of the College of Agriculture and Life Sciences. Interdisciplinary courses applicable to several graduate programs are offered by the Biological Sciences Interdepartmental Program.

GRADUATE COURSE

BIO 510 Advanced Biology for Secondary Teachers
Education [General Courses]

GRADUATE COURSES

ED(AEE) 501 Foundations of Agricultural and Extension Education
ED(AEE) 530 Priority Management in Agricultural and Extension Education
ED(AEE) 641 Practicum in Agricultural and Extension Education
ED(AEE) 735 Effective Teaching in Agriculture and Life Sciences
ED(AEE) 841 Practicum in Agricultural and Extension Education
Foreign Languages and Literatures

Dr. Ruth Gross, Department Head
NCSU Box 8106
919. 515.2475 (phone)
919. 515.6981 (fax)

The Department of Foreign Languages and Literatures offers courses to assist graduate students in preparing to use modern foreign languages in research and advanced study. These courses are not open to undergraduates. With special permission of the Graduate School, certification may be obtained in languages not normally taught by the department.

The following courses are designed to be audited, and credits do not apply toward advanced degrees.

- FLF 401 French for Graduate Students
- FLG 401 German for Graduate Students
- FLS 401 Spanish for Graduate Students
Multidisciplinary Studies

GRADUATE COURSES

MDS 515 Peruvian Amazon Ecology and Ethnology
MDS 595 Special Topics in Multidisciplinary Studies
MDS 610 Special Topics
MDS 685 Master's Supervised Teaching
Philosophy

GRADUATE COURSES

LOG 535 Advanced Logic and Metamathematics
PHI 515 Life Science Ethics
PHI 520 Global Justice
PHI 522 Philosophical Issues in Environmental Ethics
PHI(PSY) 525 Introduction to Cognitive Science
PHI 540 The Scientific Method
PHI 550 Software and the Ethics of Ownership
PHI 575 Ethical Theory
PHI 635 Advanced Independent Study in Philosophy
PHI 798 Advanced Topics in Philosophy
PHI 816 Introduction to Research Ethics

Anton, Ana I., Ph.D., Associate Professor, Computer Science
Apperson, Charles Smith, Ph.D., William Neal Reynolds Professor, Entomology
Apple, Jay Lawrence, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Arasu, Prema, Ph.D., Associate Professor, Molecular Biomedical Sciences
Archie, Joseph Patrick, Jr., Ph.D., Adjunct Professor, Mechanical and Aerospace Engineering
Arends, James J., PhD, Adjunct Professor, Entomology
Argyropoulos, Dimitris, PhD, Professor, Wood and Paper Science
Armstrong, Frank Bradley, Ph.D., Professor Emeritus, Biochemistry
Arnold, John F., Ph.D., Associate Professor Emeritus of Curriculum and Instruction, Curriculum and Instruction
Arroway, Pamela J., PhD, Assistant Professor, Statistics
Arumugam, Sankar, PhD, Assistant Professor, Civil Engineering
Arya, Satya Pal Singh, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
Ash, Sarah Liberman, Ph.D., Associate Professor, Food Science
Ashcraft, David L., MS, Visiting Assistant Professor, Wood and Paper Science
Ashwell, Christopher Morgan, PhD, Assistant Professor, Poultry Science
Ashwell, Melissa S., PhD, Assistant Professor, Animal Science
Aspnes, David E., Ph.D., Professor, Physics
Atchley, William R., Ph.D., William Neal Reynolds Professor, Genetics
Atkins, Clarke E., D.V.M., Professor, Department of Clinical Sciences
Atkinson, Maxine P., Ph.D., Associate Professor, Sociology and Anthropology
Attarian, Aram, Ph.D., Associate Professor, Parks, Recreation and Tourism Management
Auerbach, David D., Ph.D., Assistant Professor, Philosophy and Religion
Aurand, Leonard William, Ph.D., Professor Emeritus of Food Science, Food Science
Austin, David F., Ph.D., Associate Professor, Philosophy and Religion
Averre, Charles Wilson III, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Awadalla, Phillip, PhD, Assistant Professor, Genetics
Axtell, Richard Charles, Ph.D., Professor Emeritus of Entomology, Entomology
Aycock, Robert, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Ayoub, Mahmoud Amin, Ph.D., Professor, Industrial Engineering
Bacheler, Jack S., Ph.D., Professor, Entomology
Bachmann, Klaus Jurgen, Ph.D., Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
Bahler, Dennis R., Ph.D., Associate Professor, Computer Science
Baker, Donna W., PhD, Adjunct Assistant Professor, Adult and Higher Education
Baker, John Albert, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
Bailey, Kermit Lavon, M.P.D., Associate Professor, Graphic Design
Baines, Barbara Joan, Ph.D., Professor Emeriti, English
Bakalov, Bojko, PhD, Assistant Professor, Mathematics
Baker, Anne, PhD, Assistant Professor, English
Baker, George A. III, Ed.D., Professor Emeritus, Adult and Higher Education
Baker, James Robert, Ph.D., Professor Emeritus of Entomology, Entomology
Baker, MeeCee, PhD, Adjunct Professor, Agricultural and Extension Education
Baker, Rodney, DVM, Associate Professor, Population Health & Pathobiology
Baker, Stanley B., Ph.D., Professor, Curriculum and Instruction
Baker-Ward, Lynne Elizabeth, Ph.D., Professor, Psychology
Balaban, John, A.M., Professor, English
Baliga, B. Jayant, Ph.D., Distinguished University Professor, Electrical and Computer Engineering
Balik, Charles Maurice, Ph.D., Professor, Materials Science and Engineering
Balint-Kurti, Peter J., PhD, Assistant Professor (USDA), Plant Pathology
Ball, David Stafford, Ph.D., Associate Professor, Economics
Ball, Hershell Ray Jr., Ph.D., Professor Emeritus of Food Science, Food Science
Ballinger, Walter Elmer, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
Ballington, James Ralph Jr., Ph.D., Professor, Horticultural Science
Balmer-Millar, M. Lou, PhD, Adjunct Associate Professor, Chemical Engineering
Banes, Albert J., PhD, Adjunct Professor, Biomedical Engineering
Banker, James Roderick, Ph.D., Professor, History
Banks, Alton J., Ph.D., Professor, Chemistry
Banks, Harvey Thomas, Ph.D., University Professor and Drexel Professor, Mathematics
Banks-Lee, Pamela, Ph.D., Associate Professor, Textile and Apparel Management
Baran, Mesut Ethem, Ph.D., Associate Professor, Electrical and Computer Engineering
Baran, Perver Korca, Ph.D., Research Associate Professor, Parks, Recreation and Tourism Management
Bardon, Robert E., Ph.D., Associate Professor, Forestry
Barker, James Cathey, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
Barker, Roger Lee, Ph.D., Burlington Industries Professor of Textile Technology, Textile Engineering, Chemistry, and Science
Barlage, Doug, PhD, Assistant Professor, Electrical and Computer Engineering
Barlaz, Morton A., Ph.D., Professor, Civil Engineering
Barnes, Donald Warren Jr., Ph.D., Associate Professor Emeritus of Architecture, Architecture
Barnes, Harold John, Ph.D., Professor, Population Health & Pathobiology
Barnes, Jill, PhD, Assistant Professor, Molecular Biomedical Sciences
Barnett, Ortuß Webb Jr., Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Barnhardt, Robert Alexander, Ed.D., Professor Emeritus, Textile and Apparel Management
Barnhardt, William Wilton, MS, Associate Professor, English
Barnhart, Huiman X, PhD, Adjunct Associate Professor, Statistics
Barr, Steve H., Ph.D., Professor, Business Management
Barrax, Gerald W., M.A., Professor Emeritus of English, English
Barrick, Reese E., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Barrie, Thomas M., MPH, Professor, Architecture
Barthalmus, George Timothy, Ph.D., Professor Emeritus of Zoology and Interim Head of the Department, Zoology
Bartley, Jon W., Ph.D., Professor, Accounting
Bassett, Ross K., Ph.D., Associate Professor, History
Batchelor, Peter, M.C.P., Professor, Architecture
Bateman, Durward F., Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Batra, Subhash K., Ph.D., Charles A. Cannon Professor of Textiles, Textile and Apparel Management
Baugh, John Wesley Jr., Ph.D., Professor, Civil Engineering
Baughman, Gerald Robert, Ph.D., Associate Professor, Biological and Agricultural Engineering
Baumer, David L., Ph.D., Associate Professor, Business Management
Baynes, Ronald E., Ph.D., Associate Professor, Population Health & Pathobiology
Beal, Candy M., Ed.D., Associate Professor, Curriculum and Instruction
Bearon, Lucille B, PhD, Associate Professor, Human Development & Family Studies
Beasley, David Beach, Ph.D., Professor, Biological and Agricultural Engineering
Beasley, Mark S., Ph.D., Professor, Accounting
Beck, Keith R., Ph.D., Professor, Textile Engineering, Chemistry, and Science
Beckmann, Robert L., Ph.D., Associate Professor, Plant Biology
Bedair, Salah Mohamed, Ph.D., Professor, Electrical and Computer Engineering
Beers, Burton Floyd, Ph.D., Professor Emeritus of History, History
• Begeny, John C., PhD, Assistant Professor, Psychology
• Behnke, Andrew, Ph.D, Assistant Professor, Human Development & Family Studies
• Beichner, Robert J., Ph.D., Professor, Physics
• Beith, Barry H., Ph.D., Adjunct Associate Professor, Psychology
• Bell, Thomas Alexander, M.S., Professor Emeritus of Food Science, Food Science
• Bennett, Barbara, PhD, Assistant Professor, English
• Bennett, Elizabeth M., D.Ed., Adjunct Assistant Professor, Zoology
• Bennett, Jennifer, PhD, Research Assistant Professor, Forestry
• Benson, David Michael, Ph.D., Professor, Plant Pathology
• Benson, Geoffrey Alan, Ph.D., Associate Professor, Economics
• Beratan, Kathi, PhD, Research Assistant Professor, Forestry
• Bereman, Robert Deane, Ph.D., Professor Emeritus of Chemistry and Associate Dean for Academic Affairs, Chemistry
• Berenson, Sarah Burke, Ph.D., Professor, Mathematics, Science, & Technology Education
• Bergey, Paul K, PhD, Assistant Professor, Business Management
• Bergmann, Ben A., Ph.D., Adjunct Associate Professor, Forestry
• Bernhard, Richard Harold, Ph.D., Professor, Industrial Engineering
• Bernholc, Jerzy, Ph.D., Professor, Physics
• Beute, Marvin Kenneth, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
• Bhattacharya, Subhashish, PhD, Assistant Professor, Electrical and Computer Engineering
• Bhattacharyya, Bibhuti Bhushan, Ph.D., Professor, Statistics
• Bigelow, Anna B, PhD, Assistant Professor, Philosophy and Religion
• Bilbro, Griff Luhrs, Ph.D., Professor, Electrical and Computer Engineering
• Bilderback, Theodore Eugene, Ph.D., Professor, Horticultural Science
• Bilkenin, Vladimir, Ph.D., Associate Professor, Foreign Languages and Literature
• Bingham, Charles S., EdD, Adjunct Assistant Professor, Educational Leadership and Policy Studies
• Bingham, William Louis, Ph.D., Associate Professor Emeritus of Civil Engineering, Civil Engineering
• Bird, Carolyn, PhD, Assistant Professor, 4H Youth Development
• Bird, David M., Ph.D., Professor, Plant Pathology
• Birkenheuer, Adam, PhD, Assistant Professor, Department of Clinical Sciences
• Bishir, Catherine W., MA, Visiting Professor, Architecture
• Bishir, John William, Ph.D., Professor Emeritus of Mathematics, Mathematics
• Bishop, Paul Edward, Ph.D., Professor (USDA), Microbiology
• Bitting, Paul F., Ph.D., Associate Professor, Educational Leadership and Policy Studies
• Bitzer, Donald Lester, Ph.D., Distinguished University Research Professor, Computer Science
• Bivins, Jason C., PhD, Assistant Professor, Philosophy and Religion
• Bizios, Georgia, M.Arch., Professor, Architecture
• Black, Betty Lynne, Ph.D., Professor, Zoology
• Blackley, Brian Mark, PhD, Assistant Professor, English
• Blackwell, Bernie Francis, PhD, Adjunct Professor, Mechanical and Aerospace Engineering
• Blair, Neal Edward, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Blanchard, Margaret, PhD, Assistant Professor, Mathematics, Science, & Technology Education
• Bland, George F., M.S., Associate Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
• Blank, Gary B., Ph.D., Associate Professor, Forestry
• Blank, Philip Everett Jr., Ph.D., Professor Emeritus of English, English
• Blankenship, Sylvia M., Ph.D., Professor, Horticultural Science
• Blanton, Richard Lawrence, PhD, Professor, Plant Biology
• Blazich, Frank Arthur, Ph.D., Professor, Horticultural Science
• Blikslager, Anthony T., Ph.D., Associate Professor, Department of Clinical Sciences
• Block, William Joseph, Ph.D., Professor Emeritus of Political Science and Public Administration, Political Science and Public Administration
• Bloem, Stephanie, PhD, Adjunct Associate Professor, Entomology
• Blondin, John M., Ph.D., Professor, Physics
Graduate Faculty Listing

- Bloomfield, Peter, Ph.D., Professor, Statistics
- Blum, Udo, Ph.D., Professor Emeritus of Botany, Plant Biology
- Bocarro, Jason, Ph.D., Assistant Professor, Parks, Recreation and Tourism Management
- Boettcher, William Alfred III, Ph.D., Associate Professor, Political Science and Public Administration
- Bogan, Arthur E., Ph.D., Adjunct Assistant Professor, Zoology
- Bogdanovich, Alexander, PhD, Adjunct Professor, Textile Engineering, Chemistry, and Science
- Bohnenstiehl, DelWayne R., PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Boles, Michael A., Ph.D., Associate Professor, Mechanical and Aerospace Engineering
- Bolonyai, Agnes, PhD, Assistant Professor, English
- Bond, James Anthony, Ph.D., Adjunct Professor, Toxicology
- Bondell, Howard D., PhD, Assistant Professor, Statistics
- Bonham, Julia C., Ph.D., Visiting Assistant Professor, History
- Bonner, James C., Ph.D., Adjunct Associate Professor, Molecular Biomedical Sciences
- Booker, Fitzgerald L., PhD, Associate Professor (USD/USFS), Crop Science
- Booker, Matthew Morse, PhD, Assistant Professor, History
- Boone, Deborah A., PhD, Adjunct Assistant Professor, Agricultural and Extension Education
- Boone, Edgar John, Ph.D., Professor Emeritus of Adult and Community College Education, Adult and Higher Education
- Boone, Kofi, MR, Assistant Professor, Landscape Architecture
- Boos, Dennis Dale, Ph.D., Professor, Statistics
- Borden, Robert C., Ph.D., Professor, Civil Engineering
- Borden, Roy H., Ph.D., Professor, Civil Engineering
- Borkowski, Kazimierz Jan, Ph.D., Research Associate Professor, Physics
- Borski, Russell J., Ph.D., Associate Professor, Zoology
- Boss, Charles Ben, Ph.D., Associate Professor, Chemistry
- Boss, Wendy Farmer, Ph.D., William Neal Reynolds Distinguished Professor, Plant Biology
- Bostick, George W. Jr., Ed.D., Professor, Agricultural and Extension Education
- Boston, Rebecca S., Ph.D., Professor of Botany, Director of Graduate Programs and William Neal Reyhold Professor, Plant Biology
- Bosworth, Ryan, PhD, Assistant Professor, Political Science and Public Administration
- Bottomley, Laura J., Ph.D., Adjunct Assistant Professor, Electrical and Computer Engineering
- Bourham, Mohamed A., Ph.D., Professor, Nuclear Engineering
- Bowden, Edmond Francis, Ph.D., Professor, Chemistry
- Bowen, James D., Ph.D., Adjunct Assistant Professor, Civil Engineering
- Bowers, Crowell Gattis Jr., Ph.D., Professor, Biological and Agricultural Engineering
- Bowles, Tuere A., PhD, Assistant Professor, Adult and Higher Education
- Bowman, Daniel Clark, Ph.D., Associate Professor, Crop Science
- Bowman, Daryl Thomas, Ph.D., Professor, Crop Science
- Boyd, Leon C., Ph.D., Professor, Food Science
- Boyette, Michael Doyle, Ph.D., Professor, Biological and Agricultural Engineering
- Boyter, Henry Jr., PhD, Adjunct Assistant Professor, Textile Engineering, Chemistry, and Science
- Bozarth, Cecil C., Ph.D., Associate Professor, Business Management
- Bracken, Susan, EDD, Assistant Professor, Adult and Higher Education
- Braden, Jeffery P., PhD, Professor, Psychology
- Bradford, Marianne, Ph.D, Associate Professor, Accounting
- Bradley, Julius Roscoe Jr., Ph.D., Professor, Entomology
- Bradley, Lucy K., PhD, Assistant Professor, Horticultural Science
- Brady, Kevin P., PhD, Assistant Professor, Educational Leadership and Policy Studies
- Braham, Richard R., Ph.D., Professor, Forestry
- Braham, Roscoe R., Ph.D., Scholar in Residence, Marine, Earth, and Atmospheric Sciences
- Brake, John Thomas, Ph.D., William Neal Reynolds Distinguished Professor and Director of Graduate Programs ANP and PSC, Poultry Science
- Brandeis, Susan Dowman, M.F.A., Professor, Art and Design
- Brandenburg, Rick Lynn, Ph.D., Professor, Entomology
• Brandt, Jon A., Ph.D., Professor, Economics
• Branoff, Theodore J., Ph.D., Associate Professor, Mathematics, Science, & Technology Education
• Branson, Bruce C., Ph.D., Professor, Accounting
• Braunbeck, Helga Gerlinde, Ph.D., Associate Professor, Foreign Languages and Literatures
• Brazel, Joseph F., PHD, Assistant Professor, Accounting
• Breen, Matthew, PhD, Associate Professor, Molecular Biomedical Sciences
• Breidt, Frederick, Ph.D., Assistant Professor (USDA), Food Science
• Breitschwerdt, Edward Bealmear, D.V.M., Professor, Department of Clinical Sciences
• Brenner, Donald W., Ph.D., Professor, Materials Science and Engineering
• Bressler, Gene, MLA, Professor, Landscape Architecture
• Breuhaus, Babetta Ann, Ph.D., Associate Professor, Department of Clinical Sciences
• Brewer, Holly, Ph.D., Associate Professor, History
• Brickley, James John, Ph.D., Associate Professor, Electrical and Computer Engineering
• Bridgwater, Floyd Emmitt Jr., Ph.D., Professor (USDA), Forestry
• Brill, Earl Downey Jr., Ph.D., Professor, Civil Engineering
• Brim, Charles Aloysius, Ph.D., Professor Emeritus of Crop Science, Crop Science
• Brinson, Kenneth H. Jr., Ph.D., Assistant Professor, Educational Leadership and Policy Studies
• Brisson, Robert Curtis, Ph.D., Associate Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
• Bristol, David G., D.V.M., Associate Professor, Department of Clinical Sciences
• Brizuela, Brenda Judge, Ph.D., Assistant Professor, Zoology
• Brock, Paul Anthony, M.G.D., Assistant Professor, Graphic Design
• Brocklebank, John Clare, Ph.D., Adjunct Professor, Statistics
• Brody, Arnold R., Phd, Research Assistant Professor, Veterinary Medicine
• Bromley, Peter T., Ph.D., Professor Emeritus of Zoology, Zoology
• Brookins, Craig C., Ph.D., Associate Professor, Psychology
• Brooks, Wayne Maurice, Ph.D., Professor Emeritus of Entomology, Entomology
• Broome, Stephen White, Ph.D., Professor, Soil Science
• Brothers, Gene LeRoy, Ph.D., Associate Professor, Parks, Recreation and Tourism Management
• Brown, Alvin Blake, Ph.D., Hugh C. Kiger Professor, Economics
• Brown, Charlotte V., Ph.D., Visiting Assistant Professor, Design
• Brown, Christopher S., Ph.D., Research Professor, Plant Biology
• Brown, Dennis T., Ph.D., Professor, Biochemistry
• Brown, Henry Seawell, Ph.D., Professor Emeritus of Marine, Earth and Atmospheric Sciences, Marine, Earth, and Atmospheric Sciences
• Brown, J. David, Ph.D., Associate Professor, Physics
• Brown, James W., Ph.D., Associate Professor, Microbiology
• Brown, Marvin Luther Jr., Ph.D., Professor Emeritus of History, History
• Brown, Talmage T. Jr., Ph.D., Professor, Population Health & Pathobiology
• Brown-Guedira, Gina, PhD, Associate Professor (USDA), Crop Science
• Brownie, Cavell, Ph.D., Professor, Statistics
• Bruck, Robert Ian, Ph.D., Professor, Plant Pathology
• Bruneau, Arthur Henry, Ph.D., Professor, Crop Science
• Brunet, James R., PhD, Assistant Professor, Political Science and Public Administration
• Bruno-Barcena, Jose M., PhD, Research Assistant Professor, Microbiology
• Bryan, Robert Sedgwick, Ph.D., Professor Emeritus of Philosophy and Religion, Philosophy and Religion
• Bryant, Alyssa N., PhD, Visiting Assistant Professor, Adult and Higher Education
• Bryant, Charles Douglas, Ed.D., Associate Professor Emeritus, Agricultural and Extension Education
• Bryden, Wayne L., Ph.D., Adjunct Professor, Poultry Science
• Buchanan, David R., Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
• Buche, Robert T., PhD, Assistant Professor, Mathematics
• Buchwalter, David, Ph.D, Assistant Professor, Toxicology
• Buckel, Jeffrey A., Ph.D., Associate Professor, Zoology
• Buckless, Frank Alan Orth, Ph.D., Professor, Accounting
• Buckley, Earle N., PhD, Research Associate Professor, Marine, Earth, and Atmospheric Sciences
• Buckner, Gregory D., Ph.D., Associate Professor, Mechanical and Aerospace Engineering
• Buhler, Wayne G., Ph.D., Associate Professor, Horticultural Science
• Buie, Timothy, Master, Assistant Professor, Industrial Design
• Bull, Leonard Seth, Ph.D., Professor, Animal Science
• Bullock, Bronson P., PhD, Assistant Professor, Forestry
• Bumgardner, Carl Lee, Ph.D., Professor, Chemistry
• Buol, Stanley Walter, Ph.D., William Neal Reynolds Professor Emeritus, Soil Science
• Buongiorno-Nardelli, Marco, Ph.D., Associate Professor, Physics
• Burchell, Michael III, PhD, Assistant Professor, Biological and Agricultural Engineering
• Burkey, Kent Oliver, Ph.D., Associate Professor (USDA), Crop Science
• Burkholder, JoAnn M., Ph.D., Professor, Plant Biology
• Burleson, Gary R., Ph.D., Adjunct Professor, Population Health & Pathobiology
• Burniston, Ernest Edmund, Ph.D., Professor Emeritus of Mathematics, Mathematics
• Burns, Joseph Charles, Ph.D., Professor (USDA), Crop Science
• Burrow, James L., Ph.D, Research Associate Professor, Adult and Higher Education
• Burt, Millard Paylor, Ph.D., Professor Emeritus of Adult and Community College Education, Adult and Higher Education
• Burton, James D., Ph.D., Associate Professor, Horticultural Science
• Burton, Joseph William, Ph.D., Professor (USDA), Crop Science
• Burton, Michael G, PhD, Assistant Professor, Crop Science
• Busby, Joe R., PhD, Assistant Professor, Mathematics, Science, & Technology Education
• Butcher, Kenneth Roy, Ph.D., Professor Emeritus of Animal Science, Animal Science
• Bykova, Marina F., Ph.D., Assistant Professor, Philosophy and Religion
• Byrd, Gregory T., Ph.D., Associate Professor, Electrical and Computer Engineering
• Byrd, Medwick V, PhD, Visiting Assistant Professor, Wood and Paper Science
• Caddell, Joseph William, Ph.D., Adjunct Assistant Professor, History
• Caison, Amy L., EdD, Adjunct Assistant Professor, Adult and Higher Education
• Cakir, Halil I., PhD, Research Assistant Professor, Forestry
• Caldwell, Billy E., Ph.D., Professor Emeritus of Crop Science, Crop Science
• Callanan, Roger E., EdD, Adjunct Assistant Professor, Curriculum and Instruction
• Campbell, Robert George, Ph.D., Adjunct Associate Professor, Forestry
• Campbell, Stephen Lavern, Ph.D., Professor, Mathematics
• Campbell, William Vernon, Ph.D., Professor Emeritus of Entomology, Entomology
• Canada, John Robert, Ph.D., Professor Emeritus of Industrial Engineering, Industrial Engineering
• Cannedy, Allen L., D.V.M., Assistant Professor, Population Health & Pathobiology
• Cannon, Ronald Eugene, PhD, Adjunct Assistant Professor, Genetics
• Cannon, Susan Cole, MR, Visiting Associate Professor, Architecture
• Carawan, Roy Eugene, Ph.D., Professor Emeritus of Food Science, Food Science
• Carbonell, Ignazio, PhD, Assistant Professor, Plant Pathology
• Carbonell, Ruben G., Ph.D., Frank Hawkins Kenan Distinguished Professor of Chemical Engineering, Chemical Engineering
• Cardinal, Andrea J., PhD, Assistant Professor, Crop Science
• Carey, Larry D., PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Carlson, Gerald A., Ph.D., Professor Emeriti, Economics
• Carlton, Charles Hope, Ph.D., Professor, History
• Carmichael, Halbert Hart, Ph.D., Professor Emeritus of Chemistry, Chemistry
• Carroll, Daniel Edward Jr., Ph.D., Professor, Food Science
• Carroll, John W., Ph.D., Associate Professor, Philosophy and Religion
• Carson, Susan Biegel, Assistant Professor, Plant Biology
• Cartee, Leanne, PhD, Associate Professor, Biomedical Engineering
• Carter, George L. Jr., Ph.D., Professor Emeritus of Adult and Community College Education, Adult and
Higher Education

- Carter, Glenda Stephens, Ph.D., Associate Professor, Mathematics, Science, & Technology Education
- Carter, Michael P., Ph.D., Professor, English
- Carter, Thomas Ames, Ph.D., Professor Emeritus of Poultry Science, Poultry Science
- Carter, Thomas E. Jr., Ph.D., Professor (USDA), Crop Science
- Caruolo, Edward Vitangelo, Ph.D., Professor Emeritus of Animal Science, Animal Science
- Carver, Donna K., D.V.M., Associate Professor, Poultry Science
- Casas, Ivan A., Ph.D., Adjunct Professor, Microbiology
- Case, D. Troy, PhD, Assistant Professor, Sociology and Anthropology
- Casey, Christine, PhD, Assistant Professor, Entomology
- Casey, David S., PhD, Adjunct Assistant Professor, Animal Science
- Casey, Warren Michael, Ph.D., Adjunct Associate Professor, Microbiology
- Casper, Jonathan, PhD, Assistant Professor, Parks, Recreation and Tourism Management
- Cassady, Joseph P., Ph.D., Assistant Professor, Animal Science
- Cassel, Donald Keith, Ph.D., Professor, Soil Science
- Cassill, Nancy L., Ph.D., Professor, Textile and Apparel Management
- Casstevens, Willa Jeanne, PhD, Assistant Professor, Social Work
- Catignani, George L., Ph.D., Professor, Food Science
- Cavanagh, John, Ph.D., Professor, Biochemistry
- Cavaroc, Victor Viosca Jr., Ph.D., Professor Emeritus of Marine, Earth and Atmospheric Sciences, Marine, Earth, and Atmospheric Sciences
- Caves, Thomas Courtney, Ph.D., Associate Professor Emeritus of Chemistry, Chemistry
- Cavin, Ralph K., III, Ph.D., Adjunct Professor, Electrical and Computer Engineering
- Chabay, Ruth W, PhD, Professor, Physics
- Chalmers, Alison E., Ph.D., Adjunct Associate Professor, Toxicology
- Chamblee, Douglas Scales, Ph.D., Professor Emeritus of Crop Science, Crop Science
- Champion, Larry Stephen, Ph.D., Professor Emeritus of English, English
- Chandler, Richard Edward, Ph.D., Professor Emeritus of Mathematics, Mathematics
- Chang, Hou-min, Ph.D., Reuben B. Robertson Professor, Wood and Paper Science
- Chang, Simon W., Ph.D., Adjunct Professor, Marine, Earth, and Atmospheric Sciences
- Chao, Allen C., Ph.D., Associate Professor, Civil Engineering
- Chao, Xiuli, Ph.D., Professor, Operations Research
- Chapman, Diane D., EdD, Visiting Assistant Professor, Adult and Higher Education
- Chapman, Stephen N., Ph.D., Associate Professor, Business Management
- Charles, John, PhD, Assistant Professor, English
- Charlton, Harvey Johnson, Ph.D., Assistant Professor, Mathematics
- Checkley, David Milton Jr., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Chen, Feinian, PHD, Assistant Professor, Sociology and Anthropology
- Chen, Yuang-Sung Al, Ph.D., Professor, Accounting
- Cheng, Jiayang, Ph.D., Associate Professor, Biological and Agricultural Engineering
- Chernoff, Neil, Ph.D., Adjunct Associate Professor, Toxicology
- Chertock, Alina, PhD, Assistant Professor, Mathematics
- Cheshire, Heather, PhD, Associate Professor, Forestry
- Chiang, Vincent L, PhD, Professor, Forestry
- Childress, Michael, PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Chilton, M.-D., Ph.D., Adjunct Professor, Genetics
- Chin, Mari Sum, PhD, Assistant Professor, Biological and Agricultural Engineering
- Chirkova, Rada Y., PhD, Assistant Professor, Computer Science
- Choc, Mingan, PhD, Adjunct Professor, Poultry Science
- Chou, Wushow, Ph.D., Professor Emeritus, Computer Science
- Chow, Mo-Yuen, Ph.D., Professor, Electrical and Computer Engineering
- Christensen, Vern L., Ph.D., Professor, Poultry Science
Chromy, James Raymond, Ph.D., Adjunct Professor, Statistics
Chu, Moody Ten-Chao, Ph.D., Professor, Mathematics
Chukwu, Ethelbert Nwakuche, Ph.D., Professor, Mathematics
Chung, Kwong Tuzz, Ph.D., Professor Emeritus of Physics, Physics
Chung, Lung Ock, Ph.D., Professor, Mathematics
Clapp, Timothy G., Ph.D., Professor, Textile Engineering, Chemistry, and Science
Clark, Aaron C., Ed.D., Associate Professor, Mathematics, Science, & Technology Education
Clark, Allan Clay, Ph.D., Associate Professor, Biochemistry
Clark, James William Jr., Ph.D., Professor Emeritus of English, English
Clark, Robert Louis, Ph.D., Professor, Business Management
Clark, Roger H., M.Arch., Graduate Alumni Distinguished Professor of Architecture, Architecture
Clark, Tony F., Ph.D., Visiting Professor, Marine, Earth, and Atmospheric Sciences
Clarke, Julia A., PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
Clarke, Laura I., PhD, Assistant Professor, Physics
Classen, John Jacob, Ph.D., Associate Professor, Biological and Agricultural Engineering
Claxton, Larry D., Ph.D., Visiting Professor, Textile Engineering, Chemistry, and Science
Clerkin, Richard M, PhD, Assistant Professor, Political Science and Public Administration
Clifford, William Bramwell II, Ph.D., Professor, Sociology and Anthropology
Clouse, Steve Dotson, Ph.D., Professor, Horticultural Science
Cobb, David T., Ph.D., Adjunct Assistant Professor, Zoology
Cobb, Michael D., PhD, Assistant Professor, Political Science and Public Administration
Coble, Harold Dean, Ph.D., Professor Emeritus of Crop Science, Crop Science
Coe, Charles K., D.P.A., Professor, Political Science and Public Administration
Cohen, Allen C., PhD, Adjunct Professor, Entomology
Cohen, Joann Deborah, Ph.D., Professor, Mathematics
Cole, James Lawrence, Ph.D., Associate Professor Emeritus of Psychology, Psychology
Collazo, Jaime A., Ph.D., Professor (USDI/USFS), Zoology
Collazo, Ramon R., PhD, Research Assistant Professor, Materials Science and Engineering
Collins, Patricia W., Ph.D., Assistant Professor, Psychology
Collins, William Kerr, Ph.D., Professor Emeritus of Crop Science, Crop Science
Comins, Daniel L., Ph.D., Professor, Chemistry
Comstock, Gary L., PhD, Professor, Philosophy and Religion
Conkling, Mark A., Ph.D., Adjunct Assistant Professor, Genetics
Conner, Mark C., Ph.D., Adjunct Assistant Professor, Forestry
Conolly, Rory B., D.Sc., Adjunct Professor, Statistics
Conrad, Hans, D.Eng., Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
Conrad, James M., Ph.D., Interinstitutional Faculty, Electrical and Computer Engineering
Conte, Thomas Martin, Ph.D., Professor, Electrical and Computer Engineering
Conway, Thomas E. H., PhD, Adjunct Assistant Professor, Adult and Higher Education
Cook, Maurice Gayle, Ph.D., Professor Emeritus of Soil Science, Soil Science
Cooke, James A., Ph.D., Adjunct Assistant Professor, Mechanical and Aerospace Engineering
Cooper, Arthur Wells, Ph.D., Professor Emeritus of Forestry, Forestry
Cooper, Ralph L., Ph.D., Adjunct Professor, Molecular Biomedical Sciences
Cooper, Richard J., Ph.D., Professor, Crop Science
Cooper, Stuart L., PhD, Adjunct Professor, Biomedical Engineering
Cooper, William J., PhD, Adjunct Professor, Marine, Earth, and Atmospheric Sciences
Cope, W. Gregory, Ph.D., Associate Professor, Toxicology
Cope, Will Allen, Ph.D., Professor Emeritus of Crop Science, Crop Science
Copeland, Billy Joe, Ph.D., Professor Emeritus of Zoology and Marine, Earth & Atmospheric Science, Zoology
Corbett, David Reide, PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Corbin, Frederick Thomas, Ph.D., Professor Emeriti of Crop Science, Crop Science
- Cormier, Denis R., Ph.D., Associate Professor, Industrial Engineering
- Cornwell, John C., Ph.D., Professor, Animal Science
- Corrado, Gail Ann, PhD, Adjunct Assistant Professor, Educational Leadership and Policy Studies
- Correa, Maria T., Ph.D., Associate Professor, Population Health & Pathobiology
- Corson, Peter Burton, PhD, Associate Professor, Mechanical and Aerospace Engineering
- Cosco, Nilda Graciela, PhD, Research Associate Professor, Design
- Coster, John K., Ph.D., Professor Emeritus, Mathematics, Science, & Technology Education
- Cotanch, Stephen Robert, Ph.D., Professor, Physics
- Couch, Nelson, PhD, Adjunct Assistant Professor, Industrial Engineering
- Coulston, John, PhD, Adjunct Assistant Professor, Forestry
- Covington, David H., Ph.D., Associate Professor, English
- Cowen, Peter, Ph.D., Associate Professor, Population Health & Pathobiology
- Cowger, Christina, PhD, Assistant Professor (USDA), Plant Pathology
- Cowling, Ellis Brevier, Ph.D., Distinguished University Professor, Forestry
- Cox, Chandra Denise, M.F.A., Associate Professor, Art and Design
- Cox, Frederick Russell, Ph.D., Professor Emeritus of Soil Science, Soil Science
- Craig, Lee A., Ph.D., Professor, Economics
- Craig, Stephen Bartholomew, PhD, Assistant Professor, Psychology
- Crawford, Elizabeth Manny, Ph.D., Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
- Creamer, Nancy G., Ph.D., Associate Professor, Horticultural Science
- Cribbins, Paul Day, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
- Crickenberger, Roger Gilbert, Ph.D., Professor, Animal Science
- Crisp, Denise Gonzales, MFA, Associate Professor, Graphic Design
- Crisp, James Ernest, Ph.D., Associate Professor, History
- Crissman, Dorothy, PhD, Adjunct Assistant Professor, Curriculum and Instruction
- Crofton, Kevin M., Ph.D., Adjunct Associate Professor, Toxicology
- Croom, Dan Barry, Ed.D., Associate Professor, Agricultural and Extension Education
- Croom, Warren James Jr., Ph.D., Professor, Poultry Science
- Crossland, Cathy L., Ed.D., Professor, Curriculum and Instruction
- Crouse, David Alan, Ph.D., Associate Professor, Soil Science
- Crow, Johnny Lee, Ed.D., Assistant Professor Emeritus, Mathematics, Science, & Technology Education
- Crowder, Larry B., Ph.D., Adjunct Professor, Zoology
- Crowley, Martha, PhD, Assistant Professor, Sociology and Anthropology
- Crozier, Carl R., Ph.D., Associate Professor, Soil Science
- Crumbley, Deidre H., Ph.D., Assistant Professor, Multidisciplinary Studies
- Cubbage, Frederick W., Ph.D., Professor, Forestry
- Cubeta, Marc, Ph.D., Associate Professor, Plant Pathology
- Cuculo, John Anthony, Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
- Cudaback, Cynthia N., PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Culbreth, Charles Thomas Jr., Ph.D., Henry A. Foscue Professor of Industrial Engineering and Furniture Manufacturing, Industrial Engineering
- Cullen, John Michael, Ph.D., Professor, Population Health & Pathobiology
- Cullinan, Douglas A., Ed.D., Professor, Curriculum and Instruction
- Cummings, George August, Ph.D., Professor Emeritus of Soil Science, Soil Science
- Cunningham, Joseph William, Ph.D., Professor Emeritus of Psychology, Psychology
- Cunningham, Mary Kathleen, Ph.D., Associate Professor, Philosophy and Religion
- Cunny, Helen, PhD, Adjunct Professor, Toxicology
- Cuomo, Jerome J., Ph.D., Distinguished Research Professor, Materials Science and Engineering
- Currie, Nancy Jane, PhD, Adjunct Associate Professor, Industrial Engineering
- Curtis, Patricia A., Ph.D., Adjunct Professor, Food Science
- Curtis, Stephanie Elise, Ph.D., Professor, Genetics
- Czaja, Ronald F., Ph.D., Associate Professor, Sociology and Anthropology
- Dai, Huaiyu, PhD, Assistant Professor, Electrical and Computer Engineering
- Daley, Dennis M., Ph.D., Professor, Political Science and Public Administration
- Danby, John Michael, Ph.D., Professor Emeritus, Mathematics
- Dandridge, Edmund Pendleton Jr., Ph.D., Associate Professor Emeritus of English, English
- Danehower, David Allen, Ph.D., Associate Professor, Crop Science
- Daniel, Louis B III, PhD, Adjunct Assistant Professor, Zoology
- Daniels, Harry V., Ph.D., Associate Professor, Zoology
- Danielson, Leon E., Ph.D., Professor Emeritus of Agricultural and Resource Economics, Economics
- Dannels, Deanna P., Ph.D., Associate Professor, Communication
- Darhower, Mark Anthony, PhD, Assistant Professor, Foreign Languages and Literatures
- Daub, Margaret E., Ph.D., Professor, Plant Biology
- Daubert, Christopher R., Ph.D., Associate Professor, Food Science
- Davey, Charles Bingham, Ph.D., Professor Emeritus of Forestry, Forestry
- Davidian, Marie, Ph.D., William Neal Reynolds Professor, Statistics
- Davidson, Christopher B., Ph.D., Adjunct Assistant Professor, Forestry
- Davidson, Michael Glenn, D.V.M., Professor, Department of Clinical Sciences
- Davies, Eric, Ph.D., Professor, Plant Biology
- Davis, Adam Clarke, Ph.D., Associate Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
- Davis, Edward W. Jr., Ph.D., Professor, Computer Science
- Davis, Eric L., Ph.D., Professor, Plant Pathology
- Davis, Hawthorne A., Ph.D., Associate Professor Emeritus of Textile and Apparel Management, Textile and Apparel Management
- Davis, Jack P., PhD, Assistant Professor (USDA), Food Science
- Davis, Jean K., D.P.A., Visiting Assistant Professor, Political Science and Public Administration
- Davis, Jeanne Marie, Ph.D., Associate Professor, Horticultural Science
- Davis, Jennifer L., PhD, Assistant Professor, Veterinary Medicine
- Davis, Jerry Mallory, Ph.D., Professor Emeritus, Marine, Earth, and Atmospheric Sciences
- Davis, K. Shannon, Ph.D., Associate Professor, Business Management
- Davis, Meredith J., M.F.A., Professor, Graphic Design
- Davis, Robert Foster, Ph.D., Kobe Steel Distinguished University Professor Emeritus, Materials Science and Engineering
- Davis, William Rhett, PhD, Assistant Professor, Electrical and Computer Engineering
- Davis, William Robert, Doktor der, Professor Emeritus of Physics, Physics
- Davis-Gardner, Angela, MFA, Professor Emeritus, English
- Dawes, Gregory Alan, Ph.D., Professor, Foreign Languages and Literatures
- Dawes, Keith, PhD, Professor, Materials Science and Engineering
- Dawson, Cleburn Gilchrist, Ph.D., Assistant Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
- De Coster, Stacy M., Ph.D., Associate Professor, Sociology and Anthropology
- De Grand, Alexander Joseph, Ph.D., Professor, History
- De Hertogh, August A., Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
- de los Reyes, Francis L. III, Ph.D., Assistant Professor, Civil Engineering
- de Souza e Silva, Adriana, PhD, Assistant Professor, Communication
- Deal, Earl L. Jr., Ph.D., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
- Dean, Alexander G., Ph.D., Associate Professor, Electrical and Computer Engineering
- Dean, Gregg A., Ph.D., Professor, Molecular Biomedical Sciences
- Dean, Lisa Louise, PhD, Assistant Professor (USDA), Food Science
- Dean, Ralph A., Ph.D., William Neal Reynolds Professor, Plant Pathology
- DeBord, Karen B., Ph.D., Professor, Human Development & Family Studies
- DeCuirt, Jessica, PhD, Assistant Professor, Curriculum and Instruction
- DeFrancesco, Teresa C., DVM, Assistant Professor, Veterinary Medicine
Degernes, Laurel A., D.V.M., Associate Professor, Department of Clinical Sciences
Deighton, Nigel, PhD, Research Associate Professor, Toxicology
Deiters, Alexander, PhD, Assistant Professor, Chemistry
Deitz, Lewis Levering, Ph.D., Professor Emeritus, Entomology
DeJarnette, Fred Roark, Ph.D., Professor, Mechanical and Aerospace Engineering
DeJoy, Daniel Allen, Ph.D., Associate Professor, Communication
Delcambre, Carla, MR, Visiting Assistant Professor, Landscape Architecture
Della Fave, L. Richard, Ph.D., Professor, Sociology and Anthropology
DeLuca, V. William, Ed.D., Associate Professor, Mathematics, Science, & Technology Education
DeMaster, David John, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
Denig, Joseph, Ph.D., Professor, Wood and Paper Science
Dennis, Robert G., Adjunct Associate Professor, Biomedical Engineering
DePerno, Christopher S., PHD, Assistant Professor, Forestry
DeSimone, Joseph M., Ph.D., William R. Kenan Jr. Distinguished Professor and Mary Ann Smith Professor, Chemical Engineering
DeSpain, J. Scott, PhD, Associate Professor, Foreign Languages and Literatures
DeTreville, Debra, PhD, Assistant Professor, History
Devetsikiotis, Mihail, Ph.D., Professor, Electrical and Computer Engineering
Devine, Hugh A., Ph.D., Professor, Parks, Recreation and Tourism Management
Devorshak, Christina, PhD, Adjunct Assistant Professor, Entomology
Dewey, Ralph Earl, Ph.D., Professor, Crop Science
Dewhirst, Mark W., Ph.D., Adjunct Professor, Veterinary Medicine
DeWitt, Ryan W., MS, Visiting Assistant Professor, Design
Diaz, Lope Max, M.F.A., Associate Professor, Art and Design
Diaz-Muniz, Ilenys, PhD, Assistant Professor (USDA), Food Science
Dickens, James William, M.S., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
Dickey, David Alan, Ph.D., Professor, Statistics
Dicks, Robert Stanley, Ph.D., Associate Professor, English
Dickson, Gary W., Ph.D., Professor Emeritus, Business Management
Dillard, Emmett Urcey, Ph.D., Associate Professor Emeritus of Animal Science, Animal Science
Dimitriades, Basil, PhD, Adjunct Professor, Forestry
Dix, David J., PhD, Adjunct Assistant Professor, Toxicology
Dixon, Darlene, Ph.D., Adjunct Associate Professor, Molecular Biomedical Sciences
Dobrogosz, Walter Jerome, Ph.D., Professor Emeritus of Microbiology, Microbiology
Doerr, Phillip David, Ph.D., Professor, Forestry
Doggett, Wesley Osborne, Ph.D., Professor Emeritus of Physics, Physics
Dole, John M., Ph.D., Professor, Horticultural Science
Donaldson, Robert Alan, A.Design., Professor, Textile and Apparel Management
Donaldson, William Emmert, Ph.D., Professor Emeritus, Poultry Science
Dorgeloh, Werner Gunther, PhD, Adjunct Associate Professor, Forestry
Dorman, David C., Ph.D., Adjunct Associate Professor, Molecular Biomedical Sciences
Doster, Joseph Michael, Ph.D., Associate Professor, Nuclear Engineering
Dougherty, Phillip M., PhD, Adjunct Professor, Forestry
Douglas, Robert Alden, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
Dow, Thomas Alva, Ph.D., Professor, Mechanical and Aerospace Engineering
Dowdy, Alan K., PhD, Adjunct Associate Professor, Entomology
Downs, Murray Scott, Ph.D., Professor Emeritus of History, History
Downs, Robert Jack, PhD, Professor Emeritus, Plant Biology
Doyle, Jon, Ph.D., SAS Institute Distinguished Professor, Computer Science
Drake, MaryAnne, Ph.D., Associate Professor, Food Science
Dreher, Kevin L., Ph.D., Adjunct Professor, Molecular Biomedical Sciences
Dreves, Donald William, Ph.D., Professor, Psychology
Driggers, Louis Bynum, M.S., Professor Emeritus of Biological and Agricultural Engineering, Biological
Graduate Faculty Listing

- Driscoll, Catherine, PhD, Assistant Professor, Philosophy and Religion
- Ducoste, Joel J., Ph.D., Associate Professor, Civil Engineering
- Dudley, Marc Kevin, PhD, Assistant Professor, English
- Dudziak, Donald J., Ph.D., Professor Emeritus of Nuclear Engineering, Nuclear Engineering
- Duel-Hallen, Alexandra, Ph.D., Professor, Electrical and Computer Engineering
- Duffield, John Warren, Ph.D., Professor Emeritus of Forestry, Forestry
- Dunn, Joseph C., Ph.D., Professor Emeritus of Mathematics, Mathematics
- Dunn, Patricia Carolyn, PhD, Professor, Human Development & Family Studies
- Dunn, Robert R., PhD, Assistant Professor, Zoology
- Dunphy, Edward James, Ph.D., Professor, Crop Science
- Durant, Jack Davis, Ph.D., Professor Emeritus of English, English
- Duscher, Gerd Josef-Manfred, Ph.D., Associate Professor, Materials Science and Engineering
- Dutta, Rudra, Ph.D., Assistant Professor, Computer Science
- Dutton, John C. Jr., Ph.D., Associate Professor, Business Management
- Dvorak, William Stephen, Ph.D., Research Professor, Forestry
- Dye, Janice A., PhD, Adjunct Associate Professor, Department of Clinical Sciences
- Dykstra, Michael Jack, Ph.D., Professor, Population Health & Pathobiology

- Earp, Julie Brande, Ph.D., Associate Professor, Business Management
- Easley, James E. Jr., Ph.D., Professor, Economics
- Echekki, Tarek, PhD, Associate Professor, Mechanical and Aerospace Engineering
- Eckerlin, Herbert Martin, Ph.D., Professor, Mechanical and Aerospace Engineering
- Edens, Frank Wesley, Ph.D., Professor, Poultry Science
- Edmisten, Keith Lynn, Ph.D., Professor, Crop Science
- Edmonson, William W., PhD, Associate Professor, Electrical and Computer Engineering
- Edwards, Harriett C., EdD, Assistant Professor, 4H Youth Development
- Edwards, Jack Ray Jr., Ph.D., Professor, Mechanical and Aerospace Engineering
- Edwards, Louis Laird, Ph.D., Adjunct Professor, Wood and Paper Science
- Eggleston, David B., Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
- Ehm, Margaret G., Ph.D., Adjunct Assistant Professor, Statistics
- Eischen, Jeffrey Warren, Ph.D., Associate Professor, Mechanical and Aerospace Engineering
- Eisemann, Joan H., Ph.D., Professor, Animal Science
- Eisen, Eugene J., Ph.D., William Neal Reynolds Professor Emeritus, Animal Science
- El-Masry, Nadia A., Ph.D., Professor, Materials Science and Engineering
- El-Shiekh, Aly H. M., Sc.D., Professor Emeritus of Textile Apparel and Management, Textile and Apparel Management
- Eling, Thomas Edward, Ph.D., Adjunct Associate Professor, Molecular Biomedical Sciences
- Elkan, Gerald Hugh, Ph.D., Professor Emeritus of Microbiology, Microbiology
- Elleman, Thomas, PhD, Professor Emeritus of Nuclear Engineering, Nuclear Engineering
- Ellison, Donald C., Ph.D., Professor, Physics
- Ellovich, Risa S., Ph.D., Assistant Professor, Sociology and Anthropology
- Ellwood, Eric Louis, Ph.D., Dean Emeritus, Wood and Paper Science
- Elmghraby, Salah E., Ph.D., University Professor, Operations Research
- Ely, John Frederick, Ph.D., Professor Emeritus, Civil Engineering
- Emery, Donald Allen, Ph.D., Professor Emeritus of Crop Science and Genetics, Crop Science
- Emigh, Ted H., Ph.D., Associate Professor, Genetics
- Endicott, Ronald P., PhD, Assistant Professor, Philosophy and Religion
- Engen, Rodney L., Ph.D., Associate Professor, Sociology and Anthropology
- Erchul, William P., Ph.D., Professor, Psychology
- Erickson, Edward Walter, Ph.D., Professor Emeritus, Economics
- Ernst, Jeremy V., PhD, Assistant Professor, Mathematics, Science, & Technology Education
- Ebenshade, Kenneth Lee, Ph.D., Professor, Animal Science
- Escuti, Michael, PhD, Assistant Professor, Electrical and Computer Engineering
• Estes, Edmund Anthony, Ph.D., Professor, Economics
• Estes, Patricia A., Ph.D, Research Assistant Professor, Genetics
• Eun, Do Young, PhD, Assistant Professor, Electrical and Computer Engineering
• Evans, Robert Joseph, PhD, Adjunct Assistant Professor, Electrical and Computer Engineering
• Evans, Robert Oliver Jr., Ph.D., Professor, Biological and Agricultural Engineering
• Evans, T. Matthew, PhD., Assistant Professor, Civil Engineering

• Fackler, Paul L., Ph.D., Associate Professor, Economics
• Fahmy, Abdel-Aziz, Ph.D., Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
• Fang, Shu-Cherng, Ph.D., Walter Clark Chair Professor of IE and Director of Graduate Programs IE, Industrial Engineering
• Fantz, Paul R., Ph.D., Professor, Horticultural Science
• Farin, Charlotte E., Ph.D., Professor, Animal Science
• Farin, Peter W., Ph.D., Associate Professor, Veterinary Medicine
• Farkas, Brian E., Ph.D., Professor, Food Science
• Farnum, Peter, Ph.D., Adjunct Professor, Forestry
• Farr, A. Celeste, PhD, Assistant Professor, Communication
• Farrier, Maurice Hugh, Ph.D., Professor Emeritus of Entomology, Entomology
• Fathi, Yahya, Ph.D., Professor, Industrial Engineering
• Faulkner, Gary D., Ph.D., Associate Professor Emeriti, Mathematics
• Fauntleroy, Amassa C., Ph.D., Professor, Mathematics
• Favorov, Oleg V., PhD, Adjunct Associate Professor, Biomedical Engineering
• Fedkiw, Peter S., Ph.D., Professor, Chemical Engineering
• Feeny, Thomas, PhD, Professor, Foreign Languages and Literatures
• Felder, Richard Mark, Ph.D., Hoechst Celanese Professor Emeritus, Chemical Engineering
• Feldheim, Daniel L., Ph.D., Professor, Chemistry
• Fellner, Vivek, Ph.D., Associate Professor, Animal Science
• Fels, John, PhD, Adjunct Assistant Professor, Parks, Recreation and Tourism Management
• Felts, James Vernon, Ph.D., Adjunct Assistant Professor, Poultry Science
• Ferket, Peter Rudolf, Ph.D., Professor, Poultry Science
• Fernandez, Gina E., Ph.D., Associate Professor, Horticultural Science
• Ferrier, Brad S., PhD, Adjunct Associate Professor, Marine, Earth, and Atmospheric Sciences
• Ficca, Jeremy F., MARC, Assistant Professor, Architecture
• Figuers, Carol Casper, Ed.D., Adjunct Assistant Professor, Adult and Higher Education
• Fike, William Thomas Jr., Ph.D., Professor Emeritus of Crop Science, Crop Science
• Finley, Charles C., PhD, Adjunct Associate Professor, Biomedical Engineering
• Fiscus, Edwin Lawson, Ph.D., Professor (USDA), Crop Science
• Fish, Richard E., Ph.D., Associate Professor, Department of Clinical Sciences
• Fisher, Douglas, Ph.D., Professor Emeritus, Economics
• Fisher, John S., Ph.D., Professor, Civil Engineering
• Fisher, Loren R, Assistant Professor, Crop Science
• Fites, Roger Carl, Ph.D., Professor Emeritus of Botany, Plant Biology
• FitzGerald, Patrick, M.F.A., Associate Professor, Art and Design
• Fitzpatrick, Scott Michael, PhD, Assistant Professor, Sociology and Anthropology
• Flammer, Keven, D.V.M., Associate Professor, Department of Clinical Sciences
• Flath, David Joseph, Ph.D., Professor, Economics
• Fleener, John W., Ph.D., Adjunct Assistant Professor, Psychology
• Fleisher, Lloyd Norman, Ph.D., Professor, Molecular Biomedical Sciences
• Fleming, Henry Pridgen, Ph.D., Professor Emeritus (USDA) of Food Science, Food Science
• Fleming, Walker James, Ph.D., Adjunct Associate Professor, Zoology
• Fletcher, Oscar Jasper Jr., PH.D, Professor, Population Health & Pathobiology
• Flowers, James L., Ph.D., Professor, Agricultural and Extension Education
• Flowers, James R., PhD, Assistant Professor, Population Health & Pathobiology
Flowers, William Lucas, Ph.D., Professor, Animal Science
Floyd, Myron F., PhD, Professor, Parks, Recreation and Tourism Management
Fodor, Ronald Victor, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
Foegeding, Edward Allen, Ph.D., William Neal Reynolds Professor of Food Science, Food Science
Fonteno, William Carl II, Ph.D., Professor, Horticultural Science
Foote, Vincent Millard, B.S., Professor, Industrial Design
Ford, Richard Banbury, D.V.M., Professor, Department of Clinical Sciences
Fornaro, Robert Joseph, Ph.D., Professor, Computer Science
Fornes, Raymond Earl, Ph.D., Professor, Physics
Fountain, John C, PhD, Professor, Marine, Earth, and Atmospheric Sciences
Fox, Barbara J., Ph.D., Professor, Curriculum and Instruction
Fox, Thomas R., PhD, Adjunct Associate Professor, Forestry
Frampton, Lewis John Jr., Ph.D., Professor, Forestry
Franke, John Erwin, Ph.D., Professor, Mathematics
Frankel, Adam S., Ph.D, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Franklin, Edward Carlyle, Ph.D., Professor, Forestry
Franks, Robert G., PhD, Assistant Professor, Genetics
Franzen, Stefan, Ph.D., Professor, Chemistry
Franzon, Paul Damian, Ph.D., Professor, Electrical and Computer Engineering
Fraser, Angela M., Ph.D., Associate Professor, Human Development & Family Studies
Frederick, Douglas J., Ph.D., Professor, Forestry
Freeh, Vincent W., PhD, Assistant Professor, Computer Science
Freeman, Harold Stanley, Ph.D., Ciba-Geigy Distinguished Professor and Associate Dean for Research, Textile Engineering, Chemistry, and Science
French, Amanda, PhD, Assistant Professor, English
Frey, H. Christopher, Ph.D., Professor, Civil Engineering
Friend, Craig Thompson, PhD, Assistant Professor, History
Frink, Neal T., PhD, Adjunct Professor, Mechanical and Aerospace Engineering
Fuentes, Montserrat, Ph.D., Associate Professor, Statistics
Fuller, Frederick Joseph, Ph.D., Professor, Population Health & Pathobiology
Fulp, Ronald Owen, Ph.D., Professor, Mathematics
Funderlic, Robert E., Ph.D., Professor, Computer Science
Funkhouser, Edward Truman, Ph.D., Associate Professor, Communication
Fusarelli, Bonnie C., PhD, Assistant Professor, Educational Leadership and Policy Studies
Fusarelli, Lance D., PhD, Associate Professor, Educational Leadership and Policy Studies
Gabr, Mohammed A., Ph.D., Professor, Civil Engineering
Gadsby, John Evan, Ph.D., Associate Professor, Molecular Biomedical Sciences
Gallagher, Victoria J., Ph.D., Professor, Communication
Gallippi, Caterina M., PhD, Adjunct Assistant Professor, Biomedical Engineering
Gard, Kevin, PhD, Assistant Professor, Electrical and Computer Engineering
Gardner, Randolph Gilbert, Ph.D., Professor, Horticultural Science
Gardner, Robin Pierce, Ph.D., Professor, Nuclear Engineering
Gardner, Sarah Y., Ph.D., Assistant Professor, Department of Clinical Sciences
Garlick, Jimmy Dale, Ph.D., Professor Emeritus of Poultry Science, Poultry Science
Garroute, Dennis Evo, Ph.D., Associate Professor Emeritus of Mathematics, Mathematics
Garrett, Paul E., PhD, Adjunct Associate Professor, Physics
Garrigan, Shelley, PHD, Assistant Professor, Foreign Languages and Literatures
Garson, George David, Ph.D., Professor, Political Science and Public Administration
Garval, Michael David, Ph.D., Associate Professor, Foreign Languages and Literatures
Gebreyes, Wondwosen A., PhD, Adjunct Associate Professor, Population Health & Pathobiology
Genereux, David P., Ph.D., Associate Professor, Marine, Earth, and Atmospheric Sciences
Genzer, Jan, Ph.D., Professor, Chemical Engineering
● Gerard, Mathew Peter, PhD, Assistant Professor, Veterinary Medicine
● Gerig, Thomas Michael, Ph.D., Professor, Statistics
● Gerler, Edwin Roland Jr., Ed.D., Professor, Curriculum and Instruction
● Gernat, Abel, PhD, Adjunct Assistant Professor, Poultry Science
● Getzen, Forrest William, Ph.D., Professor Emeritus of Chemistry, Chemistry
● Ghashghaei, Troy, PhD, Research Assistant Professor, Veterinary Medicine
● Ghiladi, Reza A., PhD, Assistant Professor, Chemistry
● Ghosal, Subhashis, PhD, Associate Professor, Statistics
● Ghosh, Sujit K., Ph.D., Associate Professor, Statistics
● Ghosh, Tushar Kanti, Ph.D., Professor, Textile and Apparel Management
● Ghoovanloo, Maysam, PhD, Assistant Professor, Electrical and Computer Engineering
● Gibson, Gregory C., Ph.D., William Neal Reynolds Professor, Genetics
● Gibson, James E., PhD, Adjunct Professor, Toxicology
● Giesbrecht, Francis Gerhard, Ph.D., Professor Emeritus of Statistics, Statistics
● Gilbert, John Henderson, Ph.D., Associate Professor Emeritus of Political Science, Political Science and Public Administration
● Gilger, Brian, D.V.M., Associate Professor, Department of Clinical Sciences
● Gillan, Doug, PhD, Professor, Psychology
● Gilliam, James F., Ph.D., Professor, Zoology
● Gilliam, James Wendell, Ph.D., William Neal Reynolds Professor Emeritus, Soil Science
● Gilligan, John G., Ph.D., Professor, Nuclear Engineering
● Gilmartin, David Paul, Ph.D., Professor, History
● Gilmour, Matthew Ian, PhD, Adjunct Assistant Professor, Population Health & Pathobiology
● Gimeno, Isabel, Phd, Assistant Professor, Population Health & Pathobiology
● Glass, Joseph Conrad Jr., Ed.D., Professor Emeritus of Adult and Community College Education, Adult and Higher Education
● Glazener, Edward Walker, Ph.D., Professor Emeritus of Poultry Science, Poultry Science
● Glisson, Tildon H. Jr., Ph.D., Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
● Godfrey, Albert Blanton, PhD, Professor (Dean) and Joseph D. Moore Professorship of Textile and Apparel Management, Textile and Apparel Management
● Godwin, John, Ph.D., Associate Professor, Zoology
● Goetze, Alfred John, Ph.D., Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
● Gold, Harvey Joseph, Ph.D., Professor Emeritus of Statistics, Statistics
● Goldberg, Richard L., PhD, Adjunct Assistant Professor, Biomedical Engineering
● Goldfarb, Barry, Ph.D., Professor, Forestry
● Goldstein, Irving S., Ph.D., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
● Goldstein, Joyce Allene, Adjunct Professor, Toxicology
● Golub, Robert, PhD, Research Professor, Physics
● Gomez, Joseph A., Ph.D., Professor, English
● Gomez, Shawn M., PhD, Adjunct Assistant Professor, Biomedical Engineering
● Gonzalez, Gabriel F., Ph.D., Professor Emeritus of Foreign Languages and Literatures, Foreign Languages and Literature
● Goode, Candace, Re.D., Associate Professor, Parks, Recreation and Tourism Management
● Goode, Larry Richard, PhD, Adjunct Associate Professor, Civil Engineering
● Gooding, Guy Vernon Jr., Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
● Goodman, Major M., Ph.D., Distinguished University Professor and William Neal Reynolds Professor, Crop Science
● Goodnight, James Howard, Ph.D., Adjunct Professor, Statistics
● Goodwin, Barry Kent, Ph.D., William Neal Reynolds Professor, Economics
● Gookin, Jody, PhD, Assistant Professor, Molecular Biomedical Sciences
● Gopalarathnam, Ashok, Ph.D., Associate Professor, Mechanical and Aerospace Engineering
● Gordh, Gordon, PhD, Adjunct Professor, Entomology
Gorga, Russell E., PhD, Assistant Professor, Textile Engineering, Chemistry, and Science
Gorham, Bertha, PhD, Adjunct Associate Professor, Curriculum and Instruction
Gorman, Christopher B., Ph.D., Professor, Chemistry
Goshe, Michael B., PhD, Assistant Professor, Biochemistry
Gould, Christopher Robert, Ph.D., Professor, Mechanical and Aerospace Engineering
Govoni, John Jeffrey, PhD, Adjunct Professor, Zoology
Grable, Lisa, PhD, Adjunct Assistant Professor, Curriculum and Instruction
Grabow, Garry L., Ph.D., Assistant Professor, Biological and Agricultural Engineering
Grady, Perry Linwood, Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
Grainger, John Joseph, Ph.D., Professor, Electrical and Computer Engineering
Grand, Larry Frank, Ph.D., Professor, Plant Pathology
Grandage, Arnold Herbert, Ph.D., Professor Emeritus of Statistics, Statistics
Grant, Christine Sharon, Ph.D., Professor, Chemical Engineering
Grant, Edward, Ph.D., Professor, Electrical and Computer Engineering
Grant, William Cullen, Ph.D., Professor, Zoology
Grappendorf, Heidi, PhD, Assistant Professor, Parks, Recreation and Tourism Management
Graves, Alexandria K., PhD, Assistant Professor, Soil Science
Gray, Denis Owen, Ph.D., Professor, Psychology
Gray, Leon Earl, PhD, Adjunct Professor, Toxicology
Green, David Patrick, Ph.D., Professor, Food Science
Green, James T. Jr., Ph.D., Professor Emeritus, Crop Science
Greene, David B., Ph.D., Professor, Multidisciplinary Studies
Greene, Steven H., PhD, Assistant Professor, Political Science and Public Administration
Greenlaw, Ralph Weller, Ph.D., Professor Emeritus of History, History
Greenlee, William F., PhD, Adjunct Professor, Toxicology
Greenstein, Theodore N., Ph.D., Associate Professor, Sociology and Anthropology
Gregory, James Douglas, Ph.D., Professor, Forestry
Gregory, Max E., Ph.D., Professor Emeritus of Food Science, Food Science
Gremaud, Pierre A., Ph.D., Professor, Mathematics
Grennes, Thomas James, M.A., Professor, Economics
Griffin, Clifford E., Ph.D., Associate Professor, Political Science and Public Administration
Griffis, Dieter P., PhD, Visiting Associate Professor, Materials Science and Engineering
Grimes, Jesse Lee, Ph.D., Professor, Poultry Science
Grimmett, Marc Anderson, PhD, Assistant Professor, Curriculum and Instruction
Grimwood, James Michael, Ph.D., Professor, English
Grindem, Carol, Ph.D., Professor, Population Health & Pathobiology
Grochowski, Colleen O'Connor, PHD, Adjunct Assistant Professor, Adult and Higher Education
Gross, Charlotte, Ph.D., Professor, English
Gross, Harry Douglas, Ph.D., Professor Emeritus of Crop Science, Crop Science
Gross, Kevin, PhD, Assistant Professor, Statistics
Gross, Ruth V., PhD, Professor, Foreign Languages and Literatures
Grossfeld, Robert Michael, Ph.D., Professor, Zoology
Grouverman, Alexei, PhD, Research Associate Professor, Materials Science and Engineering
Grove, Thurman Lee, Ph.D., Professor, Zoology
Grozinger, Christina M., PhD, Assistant Professor, Entomology
Grunden, Amy M., Ph.D., Assistant Professor, Microbiology
Guarnieri, Charles Richard, PhD, Research Professor, Materials Science and Engineering
Gubbins, Keith E., Ph.D., W. H. Clark Distinguished Professor, Chemical Engineering
Guddati, Murthy N., Ph.D., Assistant Professor, Civil Engineering
Guerron, Pablo, PhD, Assistant Professor, Economics
Guion, Lisa, PhD, Associate Professor, Agricultural and Extension Education
Gumpertz, Marcia Lynn, Ph.D., Professor, Statistics
Gunnor, Thomas Brent, Ph.D., Assistant Professor, Chemistry
Gupta, Abhinav, Ph.D., Assistant Professor, Civil Engineering
Gupta, Ajaya K., Ph.D., Professor, Civil Engineering
Gupta, Bhupender S., Ph.D., Professor, Textile Engineering, Chemistry, and Science
Gurley, Edward Dewitt, Ph.D., Associate Professor Emeritus of Civil Engineering, Civil Engineering
Gustke, Larry D., Ph.D., Associate Professor, Parks, Recreation and Tourism Management
Guthrie-Nichols, Elizabeth, PhD, Professor, Forestry
Guy, James Stanley, Ph.D., Professor, Population Health & Pathobiology
Gwynn, George Richard, Ph.D., Professor Emeritus of Crop Science, Crop Science

Haaland, Perry D., Ph.D., Adjunct Professor, Statistics
Haase, David Glen, Ph.D., Professor, Physics
Haddad, Nicholas M., Ph.D., Associate Professor, Zoology
Hagler, Winston Murry Jr., Ph.D., Professor, Poultry Science
Haider, Mansoor A., Ph.D., Associate Professor, Mathematics
Haigler, Candace Hope, PhD, Professor, Crop Science
Hain, Fred Paul, Ph.D., Professor, Entomology
Halberstadt, Amy G., Ph.D., Professor, Psychology
Hale, Francis Joseph, Sc.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
Hale, Scott Andrew, Ph.D., Professor, Biological and Agricultural Engineering
Haley, Richard, EdD, Assistant Professor, Educational Leadership and Policy Studies
Hall, Alastair Robert, Ph.D., Professor, Economics
Hall, Anthony Douglas, Ph.D., Adjunct Professor, Psychology
Hall, Carol K., Ph.D., Camille Dreyfus Professor, Chemical Engineering
Hall, Charles E. Jr., Ph.D., Associate Professor, Mechanical and Aerospace Engineering
Hall, George Lincoln, Ph.D., Professor Emeritus of Physics, Physics
Hall, Janice S., Ed.D., Visiting Assistant Professor, Educational Leadership and Policy Studies
Hallen, Hans, Ph.D., Associate Professor, Physics
Halperen, Max, Ph.D., Professor Emeritus of English, English
Halpern, Nicholas, Ph.D., Associate Professor, English
Hambourger, Robert M., Ph.D., Associate Professor, Philosophy and Religion
Hamer, Lisbeth, PHD, Assistant Professor, Microbiology
Hamilton, Pat Brooks, Ph.D., Professor Emeritus, Poultry Science
Hamlett, Patrick W., Ph.D., Associate Professor, Multidisciplinary Studies
Hamme, John Valentine, Ph.D., Associate Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
Hammerberg, Bruce, Ph.D., Professor, Population Health & Pathobiology
Hamon, Nicholas M., PhD, Adjunct Professor, Entomology
Hamouda, Hechmi, Ph.D., Professor, Textile Engineering, Chemistry, and Science
Hanck, Kenneth William, Ph.D., Professor, Chemistry
Hancock, Tina U., DSW, Associate Professor, Social Work
Handfield, Robert B., Ph.D., Bank of America University Distinguished Professor, Business Management
Hanel, rita, PhD, Assistant Professor, Department of Clinical Sciences
Hankins, Orlando Elwood, Ph.D., Assistant Professor, Nuclear Engineering
Hanley-Bowdoin, Linda K., Ph.D., Professor of Biochemistry and Genetics and William Neal Reynolds Professor, Biochemistry
Hanna, Adel F., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Hannrup, Bjorn, PhD, Adjunct Assistant Professor, Forestry
Hansen, Arthur Paul, Ph.D., Professor Emeriti, Food Science
Hansen, Bernard D., D.V.M., Visiting Assistant Professor, Department of Clinical Sciences
Hansen, Donald Joseph, Ph.D., Assistant Professor Emeritus of Mathematics, Mathematics
Hanson, Dana J, PhD, Assistant Professor, Food Science
• Hanson, Durwin Melford, Ph.D., Professor Emeritus, Mathematics, Science, & Technology Education
• Hanson, John Melvin, Ph.D., Professor Emeritus, Civil Engineering
• Hanson, Warren Durward, Ph.D., Professor Emeritus of Genetics, Genetics
• Hardie, Elizabeth Mills, Ph.D., Associate Professor, Department of Clinical Sciences
• Hardin, Charles C., Ph.D., Associate Professor, Biochemistry
• Hardin, James Walker, Ph.D., Professor Emeritus of Botany, Plant Biology
• Hare, Jonathan A., PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Harfoush, Khaled A., PhD, Assistant Professor, Computer Science
• Hargrave, Harry Allen, Ph.D., Associate Professor Emeritus of English, English
• Harmon, Frank C., A.A.Dip., Associate Professor, Architecture
• Harms, Craig Alan, Ph.D., Research Assistant Professor, Department of Clinical Sciences
• Harper, James Douglas, Ph.D., Professor, Entomology
• Harrington, Walter Joel, Ph.D., Professor Emeritus of Mathematics, Mathematics
• Harris, James Ray, D.V.M., Professor Emeritus of Poultry Science, Poultry Science
• Harris, William Charles, Ph.D., Professor Emeritus of History, History
• Harrison, Antony Howard, Ph.D., Professor, English
• Harrison, William C., EdD, Adjunct Assistant Professor, Educational Leadership and Policy Studies
• Harrysson, Ola, PhD, Assistant Professor, Industrial Engineering
• Hart, Clarence Arthur, Ph.D., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
• Hart, Franklin Delano, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
• Hartwig, Robert Eduard, Ph.D., Professor, Mathematics
• Harvey, Raymond W., Ph.D., Professor Emeritus of Animal Science, Animal Science
• Harwood, Karey A., PhD, Assistant Professor, Philosophy and Religion
• Haskett, Mary Elizabeth, Ph.D., Associate Professor, Psychology
• Hassan, Awatif El-Domiaty, Ph.D., Professor, Forestry
• Hassan, Hassan Ahmad, Ph.D., Graduate Alumni Distinguished Professor, Mechanical and Aerospace Engineering
• Hassan, Hosni Moustafa, Ph.D., Professor, Microbiology
• Hassler, Tasnim, Ph.D., Associate Professor, Civil Engineering
• Hassler, William Walton, Ph.D., Professor Emeritus of Zoology, Zoology
• Hatcher, Timothy G., EDD, Associate Professor, Adult and Higher Education
• Hauck, Marlene L., Ph.D., Assistant Professor, Department of Clinical Sciences
• Haugh, Jason M., Ph.D., Associate Professor, Chemical Engineering
• Hauser, John Reid, Ph.D., Distinguished Professor of Electrical and Computer Engineering, Electrical and Computer Engineering
• Hauser, Peter J., Ph.D., Professor, Textile Engineering, Chemistry, and Science
• Havell, Edward A., Ph.D., Research Professor, Population Health & Pathobiology
• Havenstein, Gerald B., Ph.D., Professor, Poultry Science
• Havlin, John L., Ph.D., Professor, Soil Science
• Havner, Kerry Shuford, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
• Hawari, Ayman I., PhD, Associate Professor, Nuclear Engineering
• Hawkins, Eleanor C., D.V.M., Professor, Department of Clinical Sciences
• Hawkins, Mary Beth, PhD, Assistant Professor, Zoology
• Haynie, William J. III, Ph.D., Professor, Mathematics, Science, & Technology Education
• Hazel, Dennis, PhD, Assistant Professor, Forestry
• He, Lin, PhD, Assistant Professor, Chemistry
• He, Ruoying, PhD, Associate Professor, Marine, Earth, and Atmospheric Sciences
• Headen, Alvin E. Jr., Ph.D., Associate Professor, Economics
• Healey, Christopher G., Ph.D., Associate Professor, Computer Science
• Heatwole, Harold Franklin, Ph.D., Professor, Zoology
• Heber, Steffen, PhD, Assistant Professor, Computer Science
• Hebrank, John H., Ph.D., Adjunct Associate Professor, Mechanical and Aerospace Engineering
• Hedlund, Kye S., PhD, Adjunct Associate Professor, Entomology
• Heggen-Peay, Cherilyn Louise, PhD, Adjunct Assistant Professor, Poultry Science
• Heimbach, Clinton Louis, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
• Heiniger, Ronnie W., Ph.D., Professor, Crop Science
• Heise, Ryan W, PhD, Adjunct Assistant Professor, Zoology
• Heitmann, John A. Jr., Ph.D., Professor, Wood and Paper Science
• Helminck, Aloysius Gerardus, Ph.D., Professor, Mathematics
• Hemenway, Cynthia L., Ph.D., Professor, Biochemistry
• Henard, David H, PhD, Assistant Professor, Business Management
• Henderson, Karla A., PhD, Professor, Parks, Recreation and Tourism Management
• Henderson, Lori A., PhD, Adjunct Assistant Professor, Forestry
• Henderson, Warren Robert, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
• Herbert, David Ames Jr., Ph.D., Adjunct Associate Professor, Entomology
• Hergeth, Helmut H. A., Ph.D., Associate Professor, Textile and Apparel Management

• Israel, Daniel Wesley, Ph.D., Professor (USDA), Soil Science

• Istoook, Cynthia L., Ph.D., Associate Professor, Textile and Apparel Management

• Ito, Kazufumi, D.Sc., Professor, Mathematics

• Ivors, Kelly L., PhD, Assistant Professor, Plant Pathology

• Iyer, S. Purushothaman, Ph.D., Professor, Computer Science

• Jablonski, Margaret Ann, EdD, Adjunct Assistant Professor, Adult and Higher Education

• Jacka, Jerry K., Ph.D, Assistant Professor, Sociology and Anthropology

• Jackson, David Michael, Ph.D., Adjunct Professor, Entomology

• Jackson, Denis S., EdD, Adjunct Assistant Professor, Adult and Higher Education

• Jackson, Steven D., PhD, Associate Professor, Integrated Manufacturing Systems Engineering

• Jackson, Walter Anderson III, Ph.D., Associate Professor, History

• Jackson, William Addison, Ph.D., Professor Emeritus of Soil Science, Soil Science

• Jaeger, Audrey J., Ph.D., Assistant Professor, Adult and Higher Education

• Jahn, Larry G., Ph.D., Professor Emeritus, Wood and Paper Science

• Jaimes, Hector, PhD, Associate Professor, Foreign Languages and Literatures

• Jakes, Susan Scherffius, PhD, Assistant Professor, Human Development & Family Studies

• Jameel, Hasan, Ph.D., Elis and Signe Olsson Professor of Wood and Paper Science, Wood and Paper Science

• Jameson, Jessica Katz, Ph.D., Associate Professor, Communication

• Janet, Jason A., Ph.D., Adjunct Assistant Professor, Integrated Manufacturing Systems Engineering

• Jang, Carey, PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences

• Janowitz, Gerald Saul, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences

• Jasper, Warren J., Ph.D., Associate Professor, Textile Engineering, Chemistry, and Science

• Jayaratne, Koralalage, PhD, Assistant Professor, Agricultural and Extension Education

• Jaykus, Lee-Ann, Ph.D., Professor, Food Science

• Jenkins, Alvin Wilkins Jr., Ph.D., Professor Emeritus of Physics, Physics

• Jenkins, David Morris, Ed.D., Professor Emeriti, Agricultural and Extension Education

• Jennings, Gregory Donald, Ph.D., Professor, Biological and Agricultural Engineering

• Jennings, Katherine M., PhD, Research Assistant Professor, Horticultural Science

• Jesmok, Gary J., PhD, Adjunct Professor, Molecular Biomedical Sciences

• Jesseph, Douglas M., Ph.D., Associate Professor, Philosophy and Religion

• Jett, Jackson Bates Jr., Ph.D., Professor, Forestry

• Ji, Chueng Ryong, Ph.D., Professor, Physics

• Jin, Bong-Il, MR, Assistant Professor, Industrial Design

• Jing, Naihuan, Ph.D., Professor, Mathematics

• Joffe, Sharon, PhD, Visiting Assistant Professor, English

• Johnson, Charles Edward, Ph.D., Professor, Physics

• Johnson, Cynthia Wolf, EDD, Adjunct Assistant Professor, Adult and Higher Education

• Johnson, Mark Alan Lamonte, PhD, Assistant Professor, Materials Science and Engineering

• Johnson, Melissa A., Ph.D., Associate Professor, Communication

• Johnson, Sidney T., PhD, Adjunct Assistant Professor, Curriculum and Instruction

• Johnson, Thomas, Ph.D., Professor Emeritus of Agricultural & Resource Economics & Statistics, Economics

• Johnson, William Hugh, Ph.D., Professor Emeritus of Biological and Agricultural Engineering,
Biological and Agricultural Engineering
- Johnson, William L., Ph.D., Professor Emeritus of Animal Science, Animal Science
- Johnston, David West, Ph.D., Professor, Civil Engineering
- Johnston, Karen Lynn, Ph.D., Professor Emeritus of Physics, Physics
- Joines, Jeffrey A., Ph.D., Assistant Professor, Textile Engineering, Chemistry, and Science
- Joines, Sharon, PhD, Assistant Professor, Industrial Design
- Jones, Charles Parker, Ph.D., Professor, Business Management
- Jones, David W. W., PhD, Assistant Professor, Agricultural and Extension Education
- Jones, Edwin John, Ph.D., Professor, Forestry
- Jones, Guy Langston, Ph.D., Professor Emeritus of Crop Science, Crop Science
- Jones, James Robert, Ph.D., Professor Emeritus of Animal Science, Animal Science
- Jones, Lawrence Keith, Ph.D., Professor Emeritus, Curriculum and Instruction
- Jones, Melissa Gail, PhD, Professor, Mathematics, Science, & Technology Education
- Jones, Michelle R., Ph.D., Assistant Professor, Textile and Apparel Management
- Jones, Ronald Klair, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
- Jones, Samuel L., Ph.D., Associate Professor, Department of Clinical Sciences
- Jones, Victor Alan, Ph.D., Professor Emeritus of Food Science, Food Science
- Jordan, Chad, PhD, Assistant Professor, Plant Biology
- Jordan, David L., Ph.D., Associate Professor, Crop Science
- Jordan, Edwin C., MR, Visiting Assistant Professor, Industrial Design
- Jordan, William J., Ph.D., Professor, Communication
- Jou, Yih Liang, Ph.D., Adjunct Assistant Professor, Electrical and Computer Engineering
- Joyce, Thomas Wayne, Ph.D., Adjunct Professor, Wood and Paper Science
- Joyner, Charles Edward, M.F.A., Professor, Art and Design
- Kaber, David Ben, Ph.D., Associate Professor, Industrial Engineering
- Kadla, John F., Ph.D., Associate Professor, Wood and Paper Science
- Kahn, Joseph Stephan, Ph.D., Professor Emeritus of Biochemistry, Biochemistry
- Kalat, James William, Ph.D., Professor, Psychology
- Kalinga, Owen J., Ph.D., Professor, History
- Kaltofen, Erich L., Ph.D., Professor, Mathematics
- Kamprath, Eugene John, Ph.D., Professor Emeritus of Soil Science, Soil Science
- Kamynkowski, Daniel, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
- Kandilov, Ivan T., PhD, Assistant Professor, Economics
- Kang, Jaewoo, PhD, Assistant Professor, Computer Science
- Kang, Min, PhD, Assistant Professor, Mathematics
- Kanters, Michael A., Ph.D., Associate Professor, Parks, Recreation and Tourism Management
- Kaplan, Michael L., Ph.D., Adjunct Associate Professor, Marine, Earth, and Atmospheric Sciences
- Kaplan, Norman L., Ph.D., Adjunct Professor, Statistics
- Kasal, Bo, PhD, Adjunct Assistant Professor, Wood and Paper Science
- Kasichainula, Jagannadham, Ph.D., Associate Professor, Materials Science and Engineering
- Kasworm, Carol E., Ed.D., Professor, Adult and Higher Education
- Kathariou, Sophia, Ph.D., Associate Professor, Food Science
- Katz, Susan M., Ph.D., Associate Professor, English
- Katzin, Gerald Howard, Ph.D., Professor Emeritus of Physics, Physics
- Kay, Michael G., Ph.D., Associate Professor, Industrial Engineering
- Kearney, Richard C., PhD, Professor, Political Science and Public Administration
- Kebschull, Harvey G., Ph.D., Associate Professor Emeritus of Political Science, Political Science and Public Administration
- Keene, Bruce William, D.V.M., Associate Professor, Department of Clinical Sciences
- Keener, Kevin M., Ph.D., Adjunct Associate Professor, Food Science
- Kelley, Blair M., PhD, Assistant Professor, History
- Kelley, Carl Timothy, Ph.D., Professor, Mathematics
- Kelley, John H., Ph.D., Research Assistant Professor, Physics
Kelley, Patricia H., Ph.D., Adjunct Professor, Zoology
Kellison, Robert Clay, Ph.D., Professor Emeritus of Forestry, Forestry
Kellner, Hans, PhD, Professor, English
Kelly, John Rivard, Ph.D., Professor, Foreign Languages and Literatures
Kelly, Myron William, Ph.D., Professor, Wood and Paper Science
Kelly, Robert M., Ph.D., Alcoa Professor of Chemical Engineering, Chemical Engineering
Keltie, Richard F., Ph.D., Professor, Mechanical and Aerospace Engineering
Kennedy, George Grady, Ph.D., William Neal Reynolds Professor, Entomology
Kennedy-Stoskopf, Suzanne, Ph.D., Research Professor, Population Health & Pathobiology
Kessel, John Joseph, Ph.D., Professor, English
Kessler, Sanford H., Ph.D., Associate Professor, Political Science and Public Administration
Keys, Robert Dean, Ph.D., Associate Professor Emeritus of Crop Science, Crop Science
Khachatooorian, Haig, M.Sc., Professor, Industrial Design
Khaled, Morteza G., Ph.D., Research Professor, Population Health & Pathobiology
Khater, Akram Fouad, Ph.D., Associate Professor, History
Khan, Saad A., Ph.D., Professor, Chemical Engineering
Khater, Akram Fouad, Ph.D., Associate Professor, History
Kherfets, Arkady, Ph.D., Associate Professor, Mathematics
Khorram, Siamak, Ph.D., Professor, Forestry
Khosla, Narendra Prakash Paul, Ph.D., Professor, Civil Engineering
Kick, Edward L., PhD, Professor, Sociology and Anthropology
Kilara, Arun, PhD, Adjunct Professor, Food Science
Kilgo, John C., Ph.D., Adjunct Assistant Professor, Forestry
Kilpatrick, Peter Kelley, Ph.D., Professor, Chemical Engineering
Kim, Chong S., Ph.D., Adjunct Professor, Mechanical and Aerospace Engineering
Kim, Jung Hyoun, Ph.D., Interinstitutional Faculty, Electrical and Computer Engineering
Kim, Ki Wook, Ph.D., Professor, Electrical and Computer Engineering
Kim, Mi Gyung, PhD, Associate Professor, History
Kim, Youngsoo Richard, Ph.D., Professor, Civil Engineering
Kimbell, Julia S, PhD, Adjunct Assistant Professor, Statistics
Kimberley, Michael Murray, Ph.D., Associate Professor, Marine, Earth, and Atmospheric Sciences
Kimler, William C., Ph.D., Associate Professor, History
Kincheloe, Henderson Grady, Ph.D., Professor Emeritus of English, English
King, Doris Elizabeth, Ph.D., Professor Emeritus of History, History
King, John S., PhD, Assistant Professor, Forestry
King, Larry Dean, Ph.D., Professor Emeritus of Soil Science, Soil Science
King, Margaret Fontaine, Ph.D., Associate Professor Emeritus and Assistant to the Dean of the Graduate School, English
King, Martin W., Ph.D., Professor, Textile and Apparel Management
King, Russell E., Ph.D., Professor, Industrial Engineering
Kingon, Angus Ian, Ph.D., Professor, Materials Science and Engineering
Kinsella, William J., PhD, Assistant Professor, Communication
Kirby, Barbara Malamedi, Ed.D., Professor, Agricultural and Extension Education
Kirby, Sarah D., PhD, Associate Professor, Human Development & Family Studies
Kirkman, Adrianna Grant, Ph.D., Professor, Wood and Paper Science
Kirkpatrick, Gary J., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Kiserow, Douglas J., PhD, Adjunct Professor, Chemical Engineering
Kistler, Mark, PhD, Assistant Professor, Agricultural and Extension Education
Kiwanuka-Tondo, James, PhD, Associate Professor, Communication
Klaenhammer, Todd Robert, Ph.D., William Neal Reynolds Professor and University Distinguished Professor, Food Science
Klang, Eric Carl, Ph.D., Associate Professor, Mechanical and Aerospace Engineering
Klein, Katherine W., Ph.D., Associate Professor, Psychology
Kleinstreuer, Clement, Ph.D., Professor, Mechanical and Aerospace Engineering
Kleiss, Harold Joseph, Ph.D., Professor, Soil Science
• Klenin, Marjorie Anne, Ph.D., Associate Professor, Physics
• Kloos, Wesley Edwin, Ph.D., Professor Emeriti, Genetics
• Knapp, Detleff R., Ph.D., Associate Professor, Civil Engineering
• Knight, Joseph F., Ph.D, Adjunct Assistant Professor, Forestry
• Knisley, Steve B., Ph.D, Adjunct Professor, Biomedical Engineering
• Knoeber, Charles Robert, Ph.D., Professor, Economics
• Knopp, James Arthur, Ph.D., Associate Professor, Biochemistry
• Knowles, Albert Sidney, M.A., Professor Emeritus of English, English
• Knowles, Charles Ernest, Ph.D., Associate Professor Emeritus of Marine, Earth and Atmospheric Science, Marine, Earth, and Atmospheric Sciences
• Koch, Carl Conrad, Ph.D., Professor, Materials Science and Engineering
• Kochersberger, Robert C. Jr., Ph.D., Associate Professor, English
• Koci, Matthew, PhD, Assistant Professor, Poultry Science
• Kocurek, Michael J., Ph.D., Professor, Wood and Paper Science
• Kogan, Irina, PhD, Assistant Professor, Mathematics

Luginbuhl, James Emory Robinson, Ph.D., Professor Emeritus of Psychology, Psychology
Luginbuhl, Jean-Marie, Ph.D., Associate Professor, Crop Science
Luh, Jiang, Ph.D., Professor Emeritus of Mathematics, Mathematics
Lunardi, Leda, PhD, Professor, Electrical and Computer Engineering
Lundstrum, Leonard, PhD, Assistant Professor, Business Management
Luo, Ren-Chyuan, Ph.D., Adjunct Professor, Electrical and Computer Engineering
Luo, Tzy-Jiun Mark, PhD, Assistant Professor, Materials Science and Engineering
Lupton-Smith, Helen, Ph.D., Visiting Assistant Professor, Educational Leadership and Policy Studies
Luria, Keith Phillip, Ph.D., Professor, History
Lutz, Michael W., PhD, Adjunct Assistant Professor, Statistics
Lyons, Kevin M., Ph.D., Associate Professor, Mechanical and Aerospace Engineering
Lytle, Charles F., Ph.D., Professor, Zoology
Ma, Nancy, Ph.D., Assistant Professor, Mechanical and Aerospace Engineering
Ma, Xiaosong, PhD, Assistant Professor, Computer Science
Mabrito, Robert A., PhD, Assistant Professor, Philosophy and Religion
MacDonald, Jeffrey M, PhD, Adjunct Assistant Professor, Biomedical Engineering
Mackay, Trudy Frances, Ph.D., William Neal Reynolds Professor, Genetics
Mackenzie, John M. Jr., Ph.D., Professor, Microbiology
MacKethan, Lucinda Hardwick, Ph.D., Professor, English
MacNair, Douglas, PhD, Adjunct Assistant Professor, Economics
Magallanes, Fernando Hernandez, M.L.A., Associate Professor, Landscape Architecture
Maggard, Paul, PhD, Assistant Professor, Chemistry
Magill, Michele M., Ph.D., Associate Professor, Foreign Languages and Literatures
Maguire, Rory O., PhD, Assistant Professor, Soil Science
Mahaffey, James W., Ph.D., Associate Professor, Genetics
Mahnthakumar, Gnanamanikam, Ph.D., Assistant Professor, Civil Engineering
Maier, Chris, PhD, Adjunct Assistant Professor, Forestry
Main, Charles Edward, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
Mainland, Charles Michael, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
Malarkey, David E., Ph.D., Adjunct Assistant Professor, Population Health & Pathobiology
Malcom, Herbert Rooney Jr., Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
Malecha, Marvin J., M.AR.C., Professor, Architecture
Mallette, Bruce Ingram, Ed.D, Adjunct Assistant Professor, Adult and Higher Education
Marcellin-Little, Denis J., D.V.M., Assistant Professor, Department of Clinical Sciences
Marchi, Dudley Michael, Ph.D., Associate Professor, Foreign Languages and Literatures
Margolis, Stephen E., Ph.D., Professor, Economics
• Mari, Jorge, Ph.D., Associate Professor, Foreign Languages and Literatures
• Maria, Jon-Paul, Ph.D., Associate Professor, Materials Science and Engineering
• Markham, Stephen Keith, M.B.A., Associate Professor, Business Management
• Marks, Dianne, DVM, Associate Professor, Veterinary Medicine
• Marks, Steven L., BVSc, Associate Professor, Veterinary Medicine
• Marlin, Joe Alton, Ph.D., Professor of Mathematics, Mathematics
• Marra, Michele C., Ph.D., Professor, Economics
• Marshall, David S., PhD, Professor (USDA), Plant Pathology
• Marshall, Patricia L., Ed.D., Professor, Curriculum and Instruction
• Martin, David W., Ph.D., Professor, Psychology
• Martin, Donnis L., Ed.D, Research Assistant Professor, Adult and Higher Education
• Martin, Eden R., PhD, Adjunct Assistant Professor, Statistics
• Martin, James D., Ph.D., Professor, Chemistry
• Martin, Leroy Brown Jr., Ph.D., Professor Emeritus, Mathematics
• Martin, Linda D., Ph.D., Assistant Professor, Molecular Biomedical Sciences
• Martin, Pamela P., PhD, Assistant Professor, Psychology
• Martin, Robert H. Jr., Ph.D., Professor, Mathematics
• Masnari, Nino A., Ph.D., Distinguished Professor of Electrical and Computer Engineering, Electrical and Computer Engineering
• Mathews, Kyle G., D.V.M., Assistant Professor, Department of Clinical Sciences
• Mathies, Laura D, PhD, Assistant Professor, Genetics
• Matthews, Brian, EdD, Assistant Professor, Mathematics, Science, & Technology Education
• Matthews, Daniel Wayne, PhD, Associate Professor, Human Development & Family Studies
• Mattos, Carla, Ph.D., Assistant Professor, Biochemistry
• Matzen, Vernon Charles, Ph.D., Professor, Civil Engineering
• Matzinger, Dale Frederick, Ph.D., Professor Emeritus of Genetics, Genetics
• Maxa, Edward L., PhD, Associate Professor, 4H Youth Development
• Maxwell, Earl Stuart, Ph.D., Professor, Biochemistry
• May, Leila Silvana, Ph.D., Associate Professor, English
• May, Traci A., Ph.D., Assistant Professor, Textile and Apparel Management
• Mayhorn, Christopher B., PhD, Assistant Professor, Psychology
• Mayr, Richard Martin, PhD, Assistant Professor, Computer Science
• Mazzoleni, Andre P., PhD, Associate Professor, Mechanical and Aerospace Engineering
• McAllister, David Franklin, Ph.D., Professor, Computer Science
• McArtney, Steven J., PhD, Associate Professor, Horticultural Science
• McCall, Patricia Lou, Ph.D., Professor, Sociology and Anthropology
• McCants, Charles Bernard, Ph.D., Professor Emeritus of Soil Science, No Dept. Abbr
• McCarty, Gregory S., PhD, Assistant Professor, Biomedical Engineering
• McCaw, Monte Bruce, Ph.D., Associate Professor, Population Health & Pathobiology
• McClain, Jackson Mearns, Ph.D., Associate Professor, Political Science and Public Administration
• McClellan, Roger O., DVM, Adjunct Professor, Toxicology
• McClellan-Green, Patricia D., PhD, Research Assistant Professor, Toxicology
• McClelland, Jacquelyn W., Ph.D., Professor, Human Development & Family Studies
• McClure, William Fred, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• McCord, Marian Gayle, Ph.D., Associate Professor, Textile Engineering, Chemistry, and Science
• McCorkle, Jill, MA, Professor, English
• McCraw, Roger L., Ph.D., Professor, Animal Science
• McCreery, John K., Ph.D., Associate Professor, Business Management
• McCullough, Rex Ben, Ph.D., Adjunct Assistant Professor, Forestry
• McDaniel, Benjamin Thomas, Ph.D., Professor Emeritus, Animal Science
• McDaniel, Ellen, PhD, Visiting Associate Professor, Industrial Engineering
• McDermed, Elizabeth Ann, Ph.D., Associate Professor Emeritus of Business Management, Business Management
- McDonald, Steve, PhD, Assistant Professor, Sociology and Anthropology
- McElroy, Michael Bancroft, Ph.D., Associate Professor, Economics
- McFadyen, Margaret Ann, PhD, Assistant Professor, Business Management
- McFeeters, Roger Floyd, Ph.D., Professor (USDA), Food Science
- McGahan, Mary Christine, Ph.D., Research Professor, Molecular Biomedical Sciences
- McGraw, Darryl, Ph.D., Adjunct Assistant Professor, Adult and Higher Education
- McGraw, James Robert, Ph.D., Professor Emeriti Forestry, Forestry
- McGregor, Ralph, Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
- McKeand, Steven Edward, Ph.D., Professor, Forestry
- McKenzie, Wendell Herbert, Ph.D., Professor, Genetics
- McKinney, Thearon Thomas, Ph.D., Professor, 4H Youth Development
- McKinnon, Walter Huntley, MR, Adjunct Associate Professor, Architecture
- McLaughlin, Gail, Ph.D., Associate Professor, Physics
- McLaughlin, Richard Allen, Ph.D., Associate Professor, Soil Science
- McMillan, W. Owen, PhD, Associate Professor, Genetics
- McMurry, Linda O., Ph.D., Professor Emeritus of History, History
- McNeillis, David N, PhD, Interinstitutional Faculty, Nuclear Engineering
- McNeill, John Joseph, Ph.D., Associate Professor Emeritus of Animal Science, Animal Science
- McNinch, Jesse E., PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
- McNulty, Steven G., Ph.D., Associate Professor (USDA), Forestry
- McRae, David Scott, Ph.D., Professor, Mechanical and Aerospace Engineering
- McShane, Kathleen, PhD, Assistant Professor, Philosophy and Religion
- McTague, John Paul, Ph.D., Adjunct Professor, Forestry
- Meade, Adam Wesley, PhD, Assistant Professor, Psychology
- Medhin, Negash G, PhD, Professor, Mathematics
- Meeker, Rick, PhD, Adjunct Professor, Molecular Biomedical Sciences
- Mehlenbacher, Bradley S., Ph.D., Associate Professor, Adult and Higher Education
- Meier, Wilbur L. Jr., Ph.D., Professor, Industrial Engineering
- Melander, Christian C., PhD, Assistant Professor, Chemistry
- Mell, Julie L., PhD, Assistant Professor, History
- Melton, Thomas A. III, Ph.D., Philip Morris Professor, Plant Pathology
- Memory, Japer Durham, Ph.D., Professor Emeritus of Physics, Physics
- Mente, Peter Lawrence, Ph.D., Assistant Professor, Biomedical Engineering
- Mercer, D. Evan, Ph.D., Adjunct Assistant Professor, Forestry
- Merrick, Bruce Alexander, PhD, Adjunct Associate Professor, Toxicology
- Mershon, Donald Hartland, Ph.D., Professor, Psychology
- Mertz, John Pierre, Ph.D., Associate Professor, Foreign Languages and Literature
- Meskhidze, Nicholas, PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Meuten, Donald J., Ph.D., Professor, Population Health & Pathobiology
- Meyer, Carl Dean Jr., Ph.D., Professor, Mathematics
- Meyer, John Richard, Ph.D., Professor, Entomology
- Meyers, Walter Earl, Ph.D., Professor Emeritus of English, English
- Michael, Joan J., Ph.D., Professor, Psychology
- Michielsen, Stephen, PhD, Associate Professor, Textile and Apparel Management
- Mickle, James Earl, Ph.D., Associate Professor, Plant Biology
- Middleton, Stephen, Ph.D., Professor, History
- Middleton, Teena F., Ph.D., Adjunct Assistant Professor, Poultry Science
- Mila, Asima, PhD, Assistant Professor, Plant Pathology
- Milburn, Lee Anne A, MLA, Assistant Professor, Landscape Architecture
- Milholland, Robert Donald, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
- Miller, Carolyn Rae, Ph.D., SAS Distinguished Prof in Technical Communication & DPG, Communication, Rhetoric & Digital Media, English
- Miller, Conrad Henry, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
• Miller, Eric S., Ph.D., Professor, Microbiology
• Miller, Grady, PhD, Professor, Crop Science
• Miller, Grover Cleveland, Ph.D., Professor Emeritus of Zoology, Zoology
• Miller, Howard George, Ph.D., Professor Emeritus of Psychology, Psychology
• Miller, Jason, PhD, Assistant Professor, English
• Miller, John Maurice, Ph.D., Professor, Zoology
• Miller, Joseph Edwin, Ph.D., Professor (USDA), Crop Science
• Miller, Richard T., Ph.D., Adjunct Associate Professor, Toxicology
• Miller, Thomas Kenan III, Ph.D., Professor, Electrical and Computer Engineering
• Miller, William Laubach, Ph.D., William Neal Reynolds Professor, Biochemistry
• Miller-Cochran, Susan, PhD, Associate Professor, English
• Miner, Gordon Stanley, Ph.D., Professor Emeritus of Soil Science, Soil Science
• Mink, James Walter, Ph.D., Adjunct Professor, Electrical and Computer Engineering
• Minsky, Lauren Nauta, PhD, Assistant Professor, History
• Mirka, Gary A., Ph.D., Professor, Industrial Engineering
• Mirmiran, Amir, PhD, Visiting Professor, Civil Engineering
• Misra, Kailash C., Ph.D., Professor, Mathematics
• Misra, Veena, Ph.D., Associate Professor, Electrical and Computer Engineering
• Mitas, Lubos, Ph.D., Associate Professor, Physics
• Mitasova, Helena, PhD, Research Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Mitchell, Gary Earl, Ph.D., Graduate Alumni Distinguished Professor, Physics
• Mitchell, Karlyn, Ph.D., Associate Professor, Business Management
• Mitchell, Michael S., Ph.D., Adjunct Assistant Professor, Zoology
• Mitchell, Nancy, Ph.D., Associate Professor, History
• Mitchell, Philip H., Ph.D., Associate Professor, Wood and Paper Science
• Mitchell, Roger Emmit, Ph.D., Assistant Professor, Psychology
• Mitchell, Tony L., Ph.D., Associate Professor, Electrical and Computer Engineering
• Moazed, Khosrow Louis, Ph.D., Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
• Mochrie, Richard Douglas, Ph.D., Professor Emeritus of Animal Science, Animal Science
• Mock, Gary Norman, Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
• Mohamadzadeh, Mansour, PhD, Adjunct Associate Professor, Food Science
• Mohamed, Mansour H. M., Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
• Moll, Robert Harry, Ph.D., Professor Emeritus of Genetics, Genetics
• Moller, Gayle, EDD, Adjunct Assistant Professor, Adult and Higher Education
• Monaco, Malina, PhD, Adjunct Assistant Professor, Curriculum and Instruction
• Monaco, Thomas Joseph, Ph.D., Professor Emeritus of Horticultural Science and Head of the Department, Horticultural Science
• Monahan, John F., Ph.D., Professor, Statistics
• Moneta, Larry, EdD, Adjunct Assistant Professor, Adult and Higher Education
• Monks, David W., Ph.D., Professor, Horticultural Science
• Montalvo, Antonio, Ph.D., Adjunct Assistant Professor, Electrical and Computer Engineering
• Monteiro-Riviere, Nancy Ann, Ph.D., Professor, Department of Clinical Sciences
• Montgomery, Terry G., Ph.D., Adjunct Associate Professor, Textile Engineering, Chemistry, and Science
• Montoya-Weiss, Mitzi, Ph.D., Professor, Business Management
• Moog, Robert S., Ph.D., Associate Professor, Political Science and Public Administration
• Moon, Samuel David, M.D., Adjunct Assistant Professor, Industrial Engineering
• Moon, Sangkil, PhD, Assistant Professor, Business Management
• Moore, Catherine Elizabeth, Ph.D., Associate Professor Emeritus of English, English
• Moore, Charles Lee Sr., Ph.D., Professor Emeriti, Economics
• Moore, Frank Harper, Ph.D., Professor Emeritus of English, English
• Moore, Gary E., Ph.D., Professor, Agricultural and Extension Education
Graduate Faculty Listing

- Moore, Harry B. Jr., Ph.D., Professor Emeritus, Entomology
- Moore, Jeannette A., Ph.D., Associate Professor, Animal Science
- Moore, Kathryn M., Ph.D., Professor, Adult and Higher Education
- Moore, Robin C., M.C.P., Professor, Landscape Architecture
- Moore, Roger L., Ph.D., Associate Professor, Parks, Recreation and Tourism Management
- Moore, Ronald A.F., PhD, Adjunct Assistant Professor, Textile Engineering, Chemistry, and Science
- Moore, Susan, PhD, Visiting Assistant Professor, Forestry
- Moorman, Christopher Elliott, Ph.D., Associate Professor, Forestry
- Moreland, Charles Glen, Ph.D., Associate Vice Chancellor for Research and Professor Emeritus, Chemistry
- Moreland, Donald Edwin, Ph.D., Professor Emeritus of Crop Science, Crop Science
- Morgan, Paul H., PhD, Adjunct Professor, Statistics
- Morillo, John D., Ph.D., Associate Professor, English
- Morris, Arthur S. III, Ph.D., Adjunct Assistant Professor, Electrical and Computer Engineering
- Morrison, John Miller, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
- Morrow, W. E. Morgan, Ph.D., Professor, Animal Science
- Mott, Ralph Lionel, Ph.D., Professor Emeritus of Botany, Plant Biology
- Mowat, J. Richard, Ph.D., Professor, Physics
- Moxley, Robert Lonnie, Ph.D., Professor, Sociology and Anthropology
- Moyer, James William, Ph.D., Professor, Plant Pathology
- Mozdziak, Paul E., Ph.D., Associate Professor, Poultry Science
- Muddiman, David C., PhD, Professor, Chemistry
- Mueller, Frank, Ph.D., Associate Professor, Computer Science
- Mueller, James Paul, Ph.D., Professor, Crop Science
- Mulligan, James Colvin, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
- Mulvey, Paul W., Ph.D., Associate Professor, Business Management
- Munana, Karen R., D.V.M., Assistant Professor, Department of Clinical Sciences
- Murphy, Joseph Paul, Ph.D., Professor, Crop Science
- Murray, Raymond LeRoy, Ph.D., Professor Emeritus of Nuclear Engineering, Nuclear Engineering
- Murty, K. Linga, Ph.D., Professor, Nuclear Engineering
- Muse, Spencer V., Ph.D., Associate Professor, Statistics
- Mustian, Robert David, Ph.D., Professor Emeritus, Agricultural and Extension Education
- Muth, John F., Ph.D., Associate Professor, Electrical and Computer Engineering
- Myburg, Alexander, PhD, Adjunct Assistant Professor, Forestry
- Myers, Richard Monier, M.S., Professor Emeritus of Animal Science, Animal Science
- Mykyta, Larysa Anna, Ph.D., Associate Professor, Foreign Languages and Literatures
- Nacoste, Rupert W., Ph.D., Professor, Psychology
- Nadelman, Martin H., EdD, Adjunct Assistant Professor, Adult and Higher Education
- Naderman, George C. Jr., Ph.D., Associate Professor Emeritus of Soil Science, Soil Science
- Nagel, Robert T., Ph.D., Professor, Mechanical and Aerospace Engineering
- Nagle, H. Troy Jr., Ph.D., Professor, Biomedical Engineering
- Nalepa, Christine A., Ph.D., Adjunct Associate Professor, Entomology
- Narayan, Jagdish, Ph.D., John C. Fan Family Distinguished Chair in Materials Science and Engineering, Materials Science and Engineering
- Narayan, Roger Jagdish, PhD, Adjunct Associate Professor, Biomedical Engineering
- Nascone-Yoder, Nanette, PhD, Assistant Professor, Molecular Biomedical Sciences
- Nassar-McMillan, Sylvia, PhD, Associate Professor, Curriculum and Instruction
- Nau, James Michael, Ph.D., Professor, Civil Engineering
- Neal, Joseph C., Ph.D., Professor, Horticultural Science
- Nelson, Lawrence Alan, Ph.D., Professor Emeritus of Statistics, Statistics
- Nelson, Paul Victor, Ph.D., Professor, Horticultural Science
- Nelson, Stacy A. C., PhD, Assistant Professor, Forestry
Nemanich, Robert J., Ph.D., Professor, Physics
Neunzig, Herbert Henry, Ph.D., Professor Emeritus of Entomology, Entomology
Neupert, Shevaun D., PhD, Assistant Professor, Psychology
Newman, Slater Edmund, Ph.D., Professor Emeritus of Psychology, Psychology
Newmark, Craig M., Ph.D., Associate Professor, Business Management
Nfah-Abbenyi, Juliana Makuchi, PhD, Professor, English
Ngaile, Gracious, PhD, Assistant Professor, Mechanical and Aerospace Engineering
Nicholson, Jennifer Suzanne, PhD, Assistant Professor, Crop Science
Nickel, Paul Adrian, Ph.D., Professor Emeritus of Mathematics, Mathematics
Niedzlek-Feaver, Marianne N., Ph.D., Associate Professor, Zoology
Nielsen, Dahlia M., PhD, Research Assistant Professor, Genetics
Nielsen, Larry A., PhD, Professor, Forestry
Nietfeld, John, PhD, Assistant Professor, Curriculum and Instruction
Nilsson, Arne A., Ph.D., Professor, Electrical and Computer Engineering
Nilsson, Jan Urban, Ph.D., Adjunct Assistant Professor, Forestry
Ning, Peng, PhD, Associate Professor, Computer Science
Niyogi, Devdutta S., Ph.D., Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
Noble, Richard L., Ph.D., Professor Emeritus of Forestry and Zoology, Zoology
Noga, Edward Joseph, D.V.M., Professor, Department of Clinical Sciences
Noggle, Glenn Ray, Ph.D., Professor Emeritus of Botany, Plant Biology
Noori, Mohammad N., Ph.D., Adjunct Professor, Mechanical and Aerospace Engineering
Norris, Larry Keith, Ph.D., Associate Professor, Mathematics
Norwood, Karen S., Ed.D., Associate Professor, Mathematics, Science, & Technology Education
Novak, Bruce M., Ph.D., Howard J. Schaeffer Distinguished University Professor, Chemistry
Nowell, Branda, PhD, Assistant Professor, Political Science and Public Administration
Nunez, Karen, PhD, Assistant Professor, Accounting
Nunnally, Stephens Watson, PH.D., Professor Emeritus of Civil Engineering, Civil Engineering
Nuttle, Henry Lee, Ph.D., Professor Emeritus of Industrial Engineering, Industrial Engineering
Nychka, Douglas W., Ph.D., Adjunct Professor, Statistics

O'Brien, Gail W., Ph.D., Professor, History
O'Brien, Terrance P., Ph.D., Professor, Curriculum and Instruction
O'Driscoll, Tony, Ed.D., Adjunct Assistant Professor, Adult and Higher Education
O'Neal, John Benjamin Jr., Ph.D., Professor Emeritus, Electrical and Computer Engineering
O'Neal, W. Gilbert, PhD, Adjunct Professor, Textile Engineering, Chemistry, and Science
O'Sullivan, Elizabhanh, Ph.D., Associate Professor, Political Science and Public Administration
Oberhardt, Bruce J., PhD, Adjunct Professor, Biomedical Engineering
Oblinger, Diana G., PhD, Adjunct Professor, Adult and Higher Education
Oblinger, James L., Ph.D., Professor, Food Science
Ocko, Jonathan Kevin, Ph.D., Professor, History
Odlle, Jack, Ph.D., William Neal Reynolds Professor, Animal Science
Odom, Janice, PhD, Visiting Assistant Professor, Educational Leadership and Policy Studies
Olby, Natasha, PhD, Assistant Professor, Veterinary Medicine
Olf, Heinz G., Ph.D., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
Oliver, Kevin M., PhD, Assistant Professor, Curriculum and Instruction
Oliver-Hoyo, Maria Teresa, Ph.D., Assistant Professor, Chemistry
Olivry, Thierry, D.Vet., Professor, Department of Clinical Sciences
Ollis, David F., Ph.D., Distinguished University Professor, Chemical Engineering
Olson, Jonathan W., PhD, Assistant Professor, Microbiology
Olson, Neil C., Ph.D., Professor, Molecular Biomedical Sciences
Oltmans, Arnold W., Ph.D., Associate Professor, Economics
Olufsen, Mette, PhD, Assistant Professor, Mathematics
Opperman, Charles H., Ph.D., Professor, Plant Pathology
Oppewal, Tom, EdD, Visiting Associate Professor, Mathematics, Science, & Technology Education
• Orgeron, Devin, PhD, Assistant Professor, English
• Orgeron, Marsha, PhD, Assistant Professor, English
• Orndorff, Paul E., Ph.D., Professor, Population Health & Pathobiology
• Orr, David Boyd, Ph.D., Associate Professor, Entomology
• Orr, Miriam Elaine Neil, Ph.D., Professor, English
• Ort, Jon F., Ph.D., Professor, Poultry Science
• Osborne, Jason, Ph.D., Associate Professor, Curriculum and Instruction
• Osborne, Jason A, PhD, Assistant Professor, Statistics
• Osborne, Susan Sinclair, Ph.D., Associate Professor, Curriculum and Instruction
• Osburn, Carlton M., Ph.D., Professor, Electrical and Computer Engineering
• Osmond, Deanna Lynn, Ph.D., Professor, Soil Science
• Otto, Luther B., Ph.D., William Neal Reynolds Professor Emeritus, Sociology and Anthropology
• Otvos, James D., Ph.D., Adjunct Professor, Biochemistry
• Overbay, Amy, PhD, Research Assistant Professor, Curriculum and Instruction
• Overcash, Michael Ray, Ph.D., Professor, Chemical Engineering
• Overstreet, N. Andrew, EDD, Visiting Assistant Professor, Educational Leadership and Policy Studies
• Overton, Margery Frances, Ph.D., Professor, Civil Engineering
• Oviedo-Rondon, Edgar, PhD, Assistant Professor, Poultry Science
• Oxenham, William, Ph.D., Director of Graduate Programs and Abel C. Linberger Prof. of Yarn Manufacturing, Textile and Apparel Management
• Ozturk, Hatice O., PhD, Associate Professor, Electrical and Computer Engineering
• Ozturk, Mehmet C., Ph.D., Professor, Electrical and Computer Engineering
• Packer, Jeremy, PhD, Associate Professor, Communication
• Padilla, Arthur, Ph.D., Associate Professor, Business Management
• Paesler, Michael Arthur, Ph.D., Professor, Physics
• Pagach, Donald P., Ph.D., Professor, Accounting
• Page, Lavon Barry, Ph.D., Associate Professor Emeriti, Mathematics
• Palmour, Hayne III, Ph.D., Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
• Palmquist, Raymond Bruce, Ph.D., Professor, Economics
• Pan, Yong, PhD, Adjunct Professor, Food Science
• Pang, Tao, PhD, Assistant Professor, Mathematics
• Pantula, Sastry G., Ph.D., Professor, Statistics
• Pao, Chia-Ven, Ph.D., Professor Emeritus of Mathematics, Mathematics
• Papich, Mark G., D.V.M., Professor, Molecular Biomedical Sciences
• Parcel, Toby L., PhD, Professor, Sociology and Anthropology
• Pardue, Samuel Lloyd, Ph.D., Professor, Poultry Science
• Park, John Charles, Ph.D., Associate Professor, Mathematics, Science, & Technology Education
• Parker, Charles Alexander, Ph.D., Professor Emeritus of Communication, Communication
• Parker, George William III, Ph.D., Associate Professor Emeritus of Physics, Physics
• Parker, Matthew, PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
• Parker, Michael L., Ph.D., Associate Professor, Horticultural Science
• Parker, S. Thomas, Ph.D., Professor, History
• Parkhurst, Carmen Robert, Ph.D., Professor, Poultry Science
• Parks, Leo W., Ph.D., Professor Emeritus of Microbiology, Microbiology
• Parramore, Barbara Mitchell, Ed.D., Professor Emeritus, Curriculum and Instruction
• Parsons, Eileen, Ph.D., Assistant Professor, Mathematics, Science, & Technology Education
• Parsons, Gregory N., Ph.D., Professor, Chemical Engineering
• Pasalar, Celen, PhD, Adjunct Assistant Professor, Design
• Pasquinelli, Melissa, PhD, Assistant Professor, Textile Engineering, Chemistry, and Science
• Patiasaul, Heather B., PhD, Assistant Professor, Zoology
• Pattanayak, Subhrendu, Ph.D., Visiting Assistant Professor, Forestry
• Patterson, Robert Preston, Ph.D., Professor, Crop Science
• Patty, Richard Roland, Ph.D., Professor Emeritus of Physics, Physics
• Paur, Sandra Orley, Ph.D., Associate Professor, Mathematics
• Pause, Michael, Ph.D., Professor, Art and Design
• Pawlak, Joel J., PhD, Assistant Professor, Wood and Paper Science
• Payne, Gary Alfred, Ph.D., William Neal Reynolds Professor, Plant Pathology
• Payton, Fay Cobb, Ph.D., Assistant Professor, Business Management
• Pazienza, Epifanio, MArch, Assistant Professor, Architecture
• Peace, Robert L., J.D., Professor, Accounting
• Peacock, Charles H., Ph.D., Professor, Crop Science
• Pearce, Douglas K., Ph.D., Professor, Economics
• Pearl, Thomas P., PhD, Assistant Professor, Physics
• Pearson, Richard Gustave, Ph.D., Professor Emeritus of Industrial Engineering, Industrial Engineering
• Pearson, Ronald Gray, M.Eng., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
• Peasley, Donald D., PhD, Adjunct Assistant Professor, Agricultural and Extension Education
• Peck, Emily Mann, PhD, Adjunct Professor, Mathematics
• Peedin, Gerald Franklin, Ph.D., Professor Emeritus, Crop Science
• Peel, Joseph W., EDD, Adjunct Assistant Professor, Educational Leadership and Policy Studies
• Peet, Mary M., Ph.D., Professor, Horticultural Science
• Pelletier, Denis, PhD, Assistant Professor, Economics
• Pendlebury, Michael J., PhD, Professor, Philosophy and Religion
• Penick, John E., Ph.D., Professor, Mathematics, Science, & Technology Education
• Pennell, Joan T., Ph.D., Professor, Social Work
• Penrose, Ann M., Ph.D., Professor, English
• Peralta, Perry N., Ph.D., Associate Professor, Wood and Paper Science
• Perera, Imara Y., PhD, Research Assistant Professor, Plant Biology
• Peretti, Steven William, Ph.D., Associate Professor, Chemical Engineering
• Perkins, John Noble, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
• Perros, Harry G., Ph.D., Professor, Computer Science
• Perry, Jerome John, Ph.D., Professor Emeritus of Microbiology, Microbiology
• Peszlen, Ilona, PhD, Associate Professor, Wood and Paper Science
• Peters, Kara Jo, Ph.D., Assistant Professor, Mechanical and Aerospace Engineering
• Peterson, Richard Eric, Ed.D., Associate Professor, Mathematics, Science, & Technology Education
• Peterson, Wilbur Carroll, Ph.D., Associate Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
• Petitte, James N., Ph.D., Professor, Poultry Science
• Petters, Robert M., Ph.D., Professor, Animal Science
• Pettitt, John Mark, Ed.D., Adjunct Assistant Professor, Adult and Higher Education
• Petty, Ian Timothy Donald, Ph.D., Professor, Microbiology
• Pheanef, Daniel J., Ph.D., Associate Professor, Economics
• Pharr, David Mason, Ph.D., Graduate Alumni Distinguished Professor Emeritus, Horticultural Science
• Phillips, Richard B., Ph.D., Adjunct Associate Professor, Wood and Paper Science
• Phister, Trevor G., Phd, Assistant Professor, Food Science
• Picart, Jose A., PhD, Professor, Curriculum and Instruction
• Piedrafita, Santiago, MS, Associate Professor, Graphic Design
• Piedrahita, Jorge, PhD, Professor, Molecular Biomedical Sciences
• Pierce, Christine M., Ph.D., Professor, Philosophy and Religion
• Pietrafesa, Leonard Joseph, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
• Piggott, Nicholas E., Ph.D., Associate Professor, Economics
• Pijanowski, John, Ph.D., Visiting Assistant Professor, Educational Leadership and Policy Studies
• Pilkington, Dwain H., Ph.D., Professor Emeritus of Food Science, Food Science
• Pinto, Carlos R. F., DVM, Assistant Professor, Veterinary Medicine
• Pisano, Etta D, PhD, Adjunct Professor, Biomedical Engineering
Place, Jeffrey Wayne, Ph.D., Professor, Architecture
Plume, Vita K., MR, Assistant Professor, Art and Design
Poindexter, Julius Carl Jr., Ph.D., Associate Professor, Business Management
Poling, Edward Barclay, Ph.D., Professor, Horticultural Science
Pollock, Kenneth Hugh, Ph.D., Professor, Statistics
Pond, Samuel Barber III, Ph.D., Associate Professor, Psychology
Ponder, Gerald, PhD, Professor, Curriculum and Instruction
Poore, Matthew H., Ph.D., Professor, Animal Science
Pope, Carol A., Ed.D., Professor, Curriculum and Instruction
Poulton, Bruce Robert, Ph.D., Professor, Curriculum and Instruction
Pourdeyhimi, Behnam, Ph.D., William A. Klopfman Distinguished Professor, Textile and Apparel Management
Powell, Merle Autrey Jr., M.L.A., Professor Emeritus of Horticultural Science, Horticultural Science
Powell, Nancy B., MFA, Associate Professor, Textile and Apparel Management
Powell, Nathaniel T., Ph.D., Professor Emeritus, Plant Pathology
Powell, Roger Allen, Ph.D., Professor, Zoology
Prak, Anco Luning, Ph.D., Professor Emeritus of Industrial Engineering, Industrial Engineering
Pramaggiore, Maria T., Ph.D., Associate Professor, English
Prater, John Thomas, Ph.D., Adjunct Professor, Materials Science and Engineering
Pratt, Shannon Elizabeth, PhD, Assistant Professor, Animal Science
Prestemon, Jeffrey P., Ph.D., Adjunct Assistant Professor, Forestry
Preston, Robert Julian, Ph.D., Adjunct Professor, Toxicology
Prioli, Carmine Andrew, Ph.D., Professor, English
Pritchard, Donald E., Ph.D., Visiting Professor, Animal Science
Pritchard, Ruie Jane, Ph.D., Professor, Curriculum and Instruction
Proctor, Charles Harry, Ph.D., Professor Emeritus of Statistics, Statistics
Proctor, Dalton Ray, Ed.D., Professor Emeritus of Adult and Community College Education, 4H Youth Development
Purnell, Robert C., Ph.D., Adjunct Assistant Professor, Forestry
Purrington, Suzanne Townsend, Ph.D., Professor Emeritus of Chemistry, Chemistry
Putcha, Mohan S., Ph.D., Professor, Mathematics
Qian, Lei, PhD, Adjunct Assistant Professor, Textile Engineering, Chemistry, and Science
Qu, Rongda, Ph.D., Associate Professor, Crop Science
Quay, Thomas Lavelle, Ph.D., Professor Emeritus of Zoology, Zoology
Quensberry, Charles Price, Ph.D., Professor Emeritus of Statistics, Statistics
Quint, Stephen R., PhD, Adjunct Associate Professor, Biomedical Engineering
Rabiei, Afsaneh, Ph.D., Assistant Professor, Mechanical and Aerospace Engineering
Rahman, M. Shamimur, Ph.D., Professor, Civil Engineering
Rajala, Sarah Ann, Ph.D., Professor, Electrical and Computer Engineering
Raleigh, James Arthur, Ph.D., Adjunct Associate Professor, Molecular Biomedical Sciences
Raman, Sethu, Ph.D., Professor, Marine, Earth, and Atmospheric Sciences
Ramasubramanian, Melur K., Ph.D., Assistant Professor, Mechanical and Aerospace Engineering
Ramsay, Robert Todd, Ph.D., Associate Professor Emeritus of Mathematics, Mathematics
Rand, James Patrick, M.Arch., Professor, Architecture
Ranjithan, S. Ranji, Ph.D., Associate Professor, Civil Engineering
Ranney, Thomas G., Ph.D., Professor, Horticultural Science
Rao, Balaji, PhD, Assistant Professor, Chemical Engineering
Rao, S. Trivikrama, PhD, Adjunct Professor, Marine, Earth, and Atmospheric Sciences
Raper, Charles David Jr., Ph.D., Professor Emeritus of Soil Science, Soil Science
Rappa, Michael A., Ph.D., Alan T. Dickson Distinguished University Professor, Business Management
Rasdorf, William John, Ph.D., Professor, Civil Engineering
Raub, Cymbre, PhD, Associate Professor, Design
• Raubenheimer, C. Dianne, PhD, Adjunct Assistant Professor, Adult and Higher Education
• Rawlings, John Oren, Ph.D., Professor Emeritus of Statistics, Statistics
• Rayfield, John, PhD, Assistant Professor, Agricultural and Extension Education
• Raymond, Dana G., M.F.A., Associate Professor, Art and Design
• Rea, Phillip Stanley, Re.D., Professor Emeriti, Parks, Recreation and Tourism Management
• Reading, Nathan, PhD, Assistant Professor, Mathematics
• Reaser, Jeffrey L., PhD, Assistant Professor, English
• Reavis, Dick J., MA, Assistant Professor, English
• Rebach, Steve, Ph.D., Research Professor, Marine, Earth, and Atmospheric Sciences
• Reber-Horton, Chris, PhD, Assistant Professor, Crop Science
• Redding, William R., D.V.M., Clinical Assistant Professor, Department of Clinical Sciences
• Reddy, Doodipala, PhD, Assistant Professor, Molecular Biomedical Sciences
• Redfield, Wendeline H., M.Arch., Associate Professor, Architecture
• Reeb, Robert R, PhD, Adjunct Professor, Materials Science and Engineering
• Reed, Daniel A., PhD, Adjunct Professor, Computer Science
• Reeves, Douglas S., Ph.D., Professor, Computer Science
• Regan, Thomas Howard, Ph.D., Professor, Philosophy and Religion
• Reichard, Donald L., Ed.D., Adjunct Assistant Professor, Adult and Higher Education
• Reid, Jeffrey C., PhD, Adjunct Associate Professor, Marine, Earth, and Atmospheric Sciences
• Reid, Traciel Venise, Ph.D., Associate Professor, Political Science and Public Administration
• Reiland, Thomas W., Ph.D., Associate Professor, Statistics
• Reiman, Alan J., Ed.D., Associate Professor, Curriculum and Instruction
• Reisman, Arnold, Ph.D., Professor Emeritus of Electrical and Computer Engineering, Electrical and Computer Engineering
• Ren, Peifeng, PhD, Adjunct Assistant Professor, Molecular Biomedical Sciences
• Renkow, Mitchell Adam, Ph.D., Professor, Economics
• Reynolds, C. Lewis Jr., PhD, Assistant Professor, Materials Science and Engineering
• Reynolds, Richard, PhD, Adjunct Professor, Marine, Earth, and Atmospheric Sciences
• Reynolds, Stephen P., Ph.D., Professor, Physics
• Rhee, Injong, Ph.D., Associate Professor, Computer Science
• Rhoads, Jon Marc, M.D., Adjunct Associate Professor, Molecular Biomedical Sciences
• Rhodes, Donald Robert, Ph.D., University Professor Emeritus, Electrical and Computer Engineering
• Rice, Arthur R., M.L.A., Professor, Landscape Architecture
• Rice, James A., Ph.D., Professor, Zoology
• Richardson, Frances Marian, M.S., Professor Emeritus, Biological and Agricultural Engineering
• Richardson, Rob, PhD, Assistant Professor, Crop Science
• Ridgeway, Don Lee, Ph.D., Professor Emeritus of Statistics and Physics, Statistics
• Rieder, David M., PhD, Assistant Professor, English
• Rigsbee, James Michael, Ph.D., Professor, Materials Science and Engineering
• Riitters, Kurt H., Ph.D., Adjunct Associate Professor, Forestry
• Rindos, Andres John III, Ph.D., Adjunct Assistant Professor, Electrical and Computer Engineering
• Riordan, Allen James, Ph.D., Associate Professor Emeritus, Marine, Earth, and Atmospheric Sciences
• Risley, John Stetler, Ph.D., Professor, Physics
• Risman, Barbara, PhD, Adjunct Professor, Sociology and Anthropology
• Ristaino, Jean Beagle, Ph.D., Professor, Plant Pathology
• Ritchie, David Frey, Ph.D., Professor, Plant Pathology
• Riviere, Jim Edmond, Ph.D., Burroughs Wellcome Distinguished Professor and Director of Graduate Programs, Biomathematics, Population Health & Pathobiology
• Rizkalla, Sami H., Ph.D., Distinguished Professor, Civil Engineering
• Ro, Paul Il Hwan, Ph.D., Professor, Mechanical and Aerospace Engineering
• Robarge, Wayne Philip, Ph.D., Professor, Soil Science
• Roberson, Gary T., Ph.D., Associate Professor, Biological and Agricultural Engineering
• Roberts, George W., Sc.D., Professor, Chemical Engineering
• Roberts, John Frederick, Ph.D., Professor Emeritus of Zoology, Zoology
- Roberts, Malcolm Clive, Ph.D., Professor, Population Health & Pathobiology
- Roberts, Stephen D., Ph.D., Professor, Industrial Engineering
- Roberts, William L. IV, Ph.D., Professor, Mechanical and Aerospace Engineering
- Robertson, Dominique, Ph.D., Professor, Plant Biology
- Robertson, Ian Douglas, DVM, Assistant Professor, Molecular Biomedical Sciences
- Robertson, Robert LaFon, M.S., Professor Emeritus of Entomology, Entomology
- Robinson, Mendel Leno Jr., Ed.D, Associate Professor Emeritus of Textile and Apparel Management, Textile and Apparel Management
- Robison, Daniel J., Ph.D., Associate Professor, Forestry
- Robison, Odis Wayne, Ph.D., Professor, Animal Science
- Rodas, Daniel J., Ph.D., Adjunct Assistant Professor, Adult and Higher Education
- Rodman, Robert D., Ph.D., Professor, Computer Science
- Rodriguez, Jesus, Ph.D., Associate Professor, Mathematics
- Rodriguez-Puebla, Marcelo, PhD, Assistant Professor, Molecular Biomedical Sciences
- Roe, Richard Michael, Ph.D., William Neal Reynolds Professor of Entomology and Toxicology, Entomology
- Roe, Simon Charles, Ph.D., Associate Professor, Department of Clinical Sciences
- Roelle, Paul A., PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Rogers, John G., Ph.D., Adjunct Professor, Zoology
- Rohrbach, Roger Phillip, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
- Roise, Joseph P., Ph.D., Professor, Forestry
- Rojas, Orlando J., PhD, Associate Professor, Wood and Paper Science
- Roland, Christopher M., Ph.D., Professor, Physics
- Rollins, Yvonne Bargues, Ph.D., Professor, Foreign Languages and Literatures
- Rose, Robert B, PhD, Assistant Professor, Biochemistry
- Ross, Ann H., PhD, Assistant Professor, Sociology and Anthropology
- Ross, John Paul, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
- Rotenberg, Eric, Ph.D., Associate Professor, Electrical and Computer Engineering
- Rotunno, Richard, PhD, Adjunct Professor, Marine, Earth, and Atmospheric Sciences
- Rouphail, Nagui M., Ph.D., Professor, Civil Engineering
- Roush, Bill, PhD, Adjunct Professor, Poultry Science
- Rouskas, George N., Ph.D., Professor, Computer Science
- Rowe, John E., Ph.D., Adjunct Professor, Physics
- Royster, Larry Herbert, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
- Rozgonyi, George A., Ph.D., Professor, Materials Science and Engineering
- Rubin, Albert Robert, Ed.D, Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
- Rubin, Eva Redfield, Ph.D., Professor Emeritus of Political Science and Public Administration, Political Science and Public Administration
- Rufty, Rebeca C., Ph.D., Professor, Crop Science
- Rufty, Thomas W. Jr., Ph.D., Professor, Crop Science
- Rushing, John E., Ph.D., Professor, Food Science
- Russell, Burton L., Ph.D., Associate Professor Emeritus of Communication, Communication
- Russell, Dale A., Ph.D., Research Professor Emeritus, Marine, Earth, and Atmospheric Sciences
- Rust, Jon Paul, Ph.D., Professor, Textile Engineering, Chemistry, and Science
- Rzewnicki, Philippe E., PhD, Assistant Professor, Horticultural Science
- Sabornie, Edward J., Ph.D., Professor, Curriculum and Instruction
- Sack, Ronald Herbert, Ph.D., Professor, History
- Safley, Charles D., Ph.D., Professor, Economics
- Safley, Lawson McKinney, Ph.D., Adjunct Professor, Biological and Agricultural Engineering
- Safrit, R. Dale, EdD, Associate Professor, Curriculum and Instruction
- Sagui, Maria Celeste, Ph.D., Associate Professor, Physics
- Sair, Suleyman, PhD, Assistant Professor, Electrical and Computer Engineering
- Salstad, Mary Louise, Ph.D., Associate Professor, Foreign Languages and Literatures
- Sanchez, Felipe Garza, Ph.D., Adjunct Assistant Professor, Forestry
- Sanchez, Pedro A., Ph.D., Professor Emeritus of Soil Science and Forestry, Soil Science
- Sandeep, Kandiyan P., Ph.D., Associate Professor, Food Science
- Sanders, Marla S., PhD, Assistant Professor, Educational Leadership and Policy Studies
- Sanders, Michael Gary, Ph.D., Adjunct Associate Professor, Psychology
- Sanders, Timothy H., Ph.D., Professor (USDA), Food Science
- Sanii, Ezat T., Ph.D., Associate Professor, Industrial Engineering
- Sannes, Phillip L., Ph.D., Professor, Molecular Biomedical Sciences
- Sargent, Frank Dorrance, Ph.D., Professor Emeritus, Animal Science
- Saucier, Walter Joseph, Ph.D., Professor Emeritus of Marine, Earth and Atmospheric Sciences, Marine, Earth, and Atmospheric Sciences
- Savage, Carla D., Ph.D., Professor, Computer Science
- Sawhney, Man Mohan, Ph.D., Professor Emeritus, Sociology and Anthropology
- Sawyers, Roby Blake, Ph.D., Professor, Accounting
- Scales, Alice Y., EdD, Visiting Assistant Professor, Mathematics, Science, & Technology Education
- Scandalios, John G., Ph.D., Distinguished University Professor Emeritus, Genetics
- Scaglott, Ronald Otto, Sc.D., Professor, Materials Science and Engineering
- Scearce, J. Mark, PhD, Associate Professor, No Dept. Abbr
- Schaberg, Rex H., Ph.D., Research Assistant Professor, Forestry
- Schaefer, Thomas, PhD, Associate Professor, Physics
- Schaffer, Henry Elkin, Ph.D., Professor Emeriti, Genetics
- Schaffer, Kristen, PhD, Associate Professor, Architecture
- Schal, Coby, Ph.D., Blanton J. Whitmire Distinguished Professor, Entomology
- Scharton, Terry D., DS, Adjunct Professor, Mechanical and Aerospace Engineering
- Schecter, Stephen, Ph.D., Professor, Mathematics
- Schetzina, Jan Frederick, Ph.D., Research Professor, Physics
- Schiller, Anne L., Ph.D., Professor, Sociology and Anthropology
- Schlenzer, William E., Ph.D., Adjunct Professor, Psychology
- Schlesser, Raoul, Ph.D., Research Associate Professor, Materials Science and Engineering
- Schlosser, Paul M., Ph.D., Adjunct Professor, Mathematics
- Schmid, D. Neil, PhD, Assistant Professor, Philosophy and Religion
- Schoen, LaTefy, PhD, Assistant Professor, Educational Leadership and Policy Studies
- Scholle, Frank, PhD, Assistant Professor, Microbiology
- Schrag, Robert L., Ph.D., Professor, Communication
- Schramme, Michael, PhD, Associate Professor, Veterinary Medicine
- Schreiner, Anton Franz, Ph.D., Professor Emeritus of Chemistry, Chemistry
- Schrimper, Ronald Arthur, Ph.D., Professor Emeritus of Agricultural and Resource Economics, Economics
- Schroeder, Michelle, PhD, Assistant Professor, Crop Science
- Schuler, Jamie L., Ph.D, Adjunct Assistant Professor, Forestry
- Schulman, Michael D., Ph.D., Graduate Alumni Distinguished Professor - Sociology, Sociology and Anthropology
- Schulte, Ann C., Ph.D., Associate Professor, Psychology
- Schultheis, Jonathan Richard, Ph.D., Professor, Horticultural Science
- Schwalbe, Michael L., Ph.D., Associate Professor, Sociology and Anthropology
- Schwartz, Steven J., Ph.D., Professor Emeritus of Food Science, Food Science
- Schweitzer, Mary H., PhD, Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Scotford, Martha, M.F.A., Professor, Graphic Design
- Scroggs, Jeffrey S., Ph.D., Associate Professor, Mathematics
- Seagondollar, Lewis Worth, Ph.D., Professor Emeritus of Physics, Physics
- Seater, John Joseph, Ph.D., Professor, Economics
• Sederoff, Heike Inge Ada, PhD, Assistant Professor, Plant Biology
• Sederoff, Ronald R., Ph.D., Edwin F. Conger Professor, Forestry
• Sedransk, Nell, PhD, Research Professor, Statistics

• Sheldon, Brian W., Ph.D., Professor, Poultry Science
• Shelley, Rowland M., Ph.D., Adjunct Associate Professor, Zoology
• Sheppard, John D., PhD, Professor, Food Science
• Sherk, Julie, MLA, Adjunct Assistant Professor, Landscape Architecture
• Sherry, Barbara, Ph.D., Professor, Molecular Biomedical Sciences
• Shertzer, Kyle W., PhD, Adjunct Assistant Professor, Zoology
• Sherwood, Bruce, PhD, Distinguished Educator in Residence, Physics
• Shew, Barbara B, PhD, Research Assistant Professor, Plant Pathology
• Shew, Howard David, Ph.D., Professor, Plant Pathology
• Shi, Wei, PhD, Assistant Professor, Soil Science
• Shiffler, Donald, Ph.D., Adjunct Associate Professor, Textile and Apparel Management
• Shih, Jason C. H., Ph.D., Professor, Poultry Science
• Shim, Eunkyoung, PHD, Visiting Assistant Professor, Textile and Apparel Management
• Shimura, Fumio, Ph.D., Adjunct Professor, Materials Science and Engineering
• Shoemaker, Paul Beck, Ph.D., Philip Morris Professor Emeritus, Plant Pathology
• Shore, Scott Harold, Ph.D., Adjunct Associate Professor, Microbiology
• Showers, William J., Ph.D., Associate Professor, Marine, Earth, and Atmospheric Sciences
• Shultz, David A., Ph.D., Professor, Chemistry
• Sichitiu, Mihail L., PhD, Assistant Professor, Electrical and Computer Engineering
• Siciliano, Paul D., PhD, Associate Professor, Animal Science
• Siderelis, Chrystos Dmitry, Ph.D., Professor, Parks, Recreation and Tourism Management
• Siewert, Charles Edward, Ph.D., Professor, Mathematics
• Sikes, Michael L., Ph.D, Assistant Professor, Microbiology
• Silber, Robert, Ph.D., Associate Professor Emeritus of Mathematics, Mathematics
• Silliman, Benjamin, PhD, Associate Professor, 4H Youth Development
• Sills, Erin O., Ph.D., Associate Professor, Forestry
• Sills, Robert C., PhD, Adjunct Associate Professor, Veterinary Medicine
• Silverberg, Lawrence M., Ph.D., Professor, Mechanical and Aerospace Engineering
• Silverman, Jules, Ph.D., Charles G. Wright Professor, Entomology
• Silverstein, Jack William, Ph.D., Professor, Mathematics
• Simons, Theodore R., Ph.D., Professor (USDI/USFS), Zoology
• Simpson, Barbara S., PhD, Associate Professor, Department of Clinical Sciences
• Singer, Michael F., Ph.D., Professor, Mathematics
• Singh, Munindar P., Ph.D., Professor, Computer Science
• Siopes, Thomas David, Ph.D., Professor, Poultry Science
• Sirdeshmukh, Deepak, PhD, Assistant Professor, Business Management
• Sisler, Edward Carroll, Ph.D., Professor, Biochemistry
• Sitar, Zlatko, Ph.D., Professor, Materials Science and Engineering
• Sivaramakrishnan, Kartik, PhD, Assistant Professor, Mathematics
• Skaggs, Richard Wayne, Ph.D., Distinguished University, Graduate Alumni Distinguished, and Wm. Neal Reynolds Professor, Biological and Agricultural Engineering
• Skroch, Walter Arthur, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
• Slatta, Richard Wayne, Ph.D., Professor, History
• Slenning, Barrett Durand, D.V.M., Associate Professor, Population Health & Pathobiology
• Small, Judy Jo, Ph.D., Professor Emeritus of English, English
• Smallwood, James E., D.V.M., Professor, Molecular Biomedical Sciences
• Smart, Robert Charles, Ph.D., Professor, Toxicology
• Smetana, Frederick Otto, Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
• Smialowicz, Ralph J., Ph.D., Adjunct Associate Professor, Population Health & Pathobiology
• Smirnov, Alexej I., Ph.D., Associate Professor, Chemistry
• Smirnova, Tatyana I., Ph.D., Assistant Professor, Chemistry
• Smith, Cindy, Ph.D., Professor, Statistics
• Smith, Craig Allen, PhD, Professor, Communication
• Smith, Donald E., Ph.D., Professor Emeritus of Zoology, Zoology
• Smith, Frank James, Ph.D., Professor, Psychology
• Smith, Gary William, Ph.D., Associate Professor, Textile and Apparel Management
• Smith, Geoffrey, DVM, Assistant Professor, Population Health & Pathobiology
• Smith, J. C., Ph.D., Associate Professor Emeritus of Civil Engineering, Civil Engineering
• Smith, James, PhD, Adjunct Assistant Professor, Agricultural and Extension Education
• Smith, James Russell, EdD, Assistant Professor, Curriculum and Instruction
• Smith, James W., PhD, Adjunct Associate Professor, Entomology
• Smith, Lee, B.A., Professor Emeritus of English, English
• Smith, Norwood Graham, M.A., Associate Professor Emeritus of English, English
• Smith, Ralph C., Ph.D., Professor, Mathematics
• Smith, V. Kerry, Ph.D., University Distinguished Professor, Economics
• Smith, William Adams Jr., Eng.Sc.D., Professor Emeritus of Industrial Engineering, Industrial Engineering
• Smith, William David, Ph.D., Philip Morris Professor of Crop Science, Crop Science
• Smith, William R., Ph.D., Associate Professor, Sociology and Anthropology
• Smoot, Jean Johannessen, Ph.D., Professor Emeritus of English, English
• Smyth, Thomas Jot, Ph.D., Professor, Soil Science
• Sneed, Ronald Ernest, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
• Snyder, Samuel S., Ph.D., Associate Professor, Psychology
• Snyder, Wesley Edwin, Ph.D., Professor, Electrical and Computer Engineering
• Solihin, Yan, PhD, Assistant Professor, Electrical and Computer Engineering
• Solomon, Daniel L., Ph.D., Professor, Statistics
• Sommerich, Carolyn M., Ph.D., Adjunct Associate Professor, Industrial Engineering
• Sonenshine, Daniel E., Ph.D., Adjunct Professor, Entomology
• Sood, Avneet, PhD, Adjunct Assistant Professor, Nuclear Engineering
• Sorensen, Kenneth Alan, Ph.D., Professor Emeriti, Entomology
• Sorenson, Clyde E., Ph.D., Associate Professor, Entomology
• Soroos, Marvin Stanley, Ph.D., Professor, Political Science and Public Administration
• Sorrell, Furman Yates Jr., Ph.D., Professor Emeritus of Mechanical and Aerospace Engineering, Mechanical and Aerospace Engineering
• Sosinski, Bryon R., Ph.D., Associate Professor, Horticultural Science
• Sosower, Mark L., Ph.D., Professor, Foreign Languages and Literature
• Southern, Phillip Sterling, Ph.D., Professor Emeriti, Entomology
• Sowell, Robert Seago, Ph.D., Professor, Biological and Agricultural Engineering
• Spafford, Anne M., MLA, Assistant Professor, Horticultural Science
• Spayd, Sara E., Ph.D, Professor, Horticultural Science
• Spears, Janet Ferguson, Ph.D., Professor, Crop Science
• Spears, Jerry W., Ph.D., Professor, Animal Science
• Spencer, Stephanie Laine, Ph.D., Associate Professor, History
• Spiker, Steven L., Ph.D., Professor, Genetics
• Spires, Hiller Abernathy, Ph.D., Professor, Curriculum and Instruction
• Spivey, James J., Ph.D., Adjunct Professor, Chemical Engineering
• Spontak, Richard J., Ph.D., Professor, Chemical Engineering
• Sprinthall, Norman A., Ed.D., Professor Emeritus of Counselor Education, Curriculum and Instruction
• Spurr, Harvey Wesley Jr., Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
• St. Amant, Robert A., Ph.D., Associate Professor, Computer Science
• Stadelmaier, Hans Heinrich, Dr.reer.nat, Professor Emeritus of Materials Science and Engineering, Materials Science and Engineering
• Stafford, Thomas H. Jr., Ph.D., Visiting Associate Professor, Educational Leadership and Policy Studies
• Stalker, Harold Thomas Jr., Ph.D., Professor, Crop Science
• Stallmann, Matthias Friedemann Martin, Ph.D., Associate Professor, Computer Science
• Stam, Ephraim, Ph.D., Professor Emeritus of Nuclear Engineering, No Dept. Abbr
• Stark, Charles R., PhD, Assistant Professor, Poultry Science
• Starnes, Wayne C., Ph.D., Adjunct Assistant Professor, Zoology
• Steel, Robert George, Ph.D., Professor Emeritus of Statistics, Statistics
• Steele, Brooke N., PhD, Assistant Professor, Biomedical Engineering
• Steelman, Jane D., Ed.D., Assistant Professor, Curriculum and Instruction
• Steelman, Todd A., Ph.D., Associate Professor, Forestry
• Steer, Michael B., Ph.D., Lampe Professor of Electrical and Computer Engineering, Electrical and Computer Engineering
• Stefanski, Leonard A., Ph.D., Professor, Statistics
• Stein, Allen Frederick, Ph.D., Professor, English
• Stein, Sarah R., Ph.D., Associate Professor, Communication
• Stejskal, Edward O., Ph.D., Professor Emeritus of Chemistry, Chemistry
• Stephen, Roland F., Ph.D., Associate Professor, Political Science and Public Administration
• Stephenson, James L. Jr., PhD, Adjunct Associate Professor, Microbiology
• Stewart, Debra Wehrle, Ph.D., Professor, Political Science and Public Administration
• Stewart, John Stedman, Ph.D., Research Professor, Wood and Paper Science
• Stewart, Ralsa Marshall, EdD, Associate Professor, 4H Youth Development
• Stewart, Tony Kevin, Ph.D., Associate Professor, Philosophy and Religion
• Stewart, William James, Ph.D., Professor, Computer Science
• Stiff, Lee V., Ph.D., Professor, Mathematics, Science, & Technology Education
• Stikeleather, Larry Franklin, Ph.D., Professor, Biological and Agricultural Engineering
• Stiles, Phillip J., Ph.D., Professor Emeritus of Physics, Physics
• Stinner, Ronald Edwin, Ph.D., Professor, Entomology
- Stipe, Robert Edwin, M. R. P. gi, Professor Emeritus of Landscape Architecture, Landscape Architecture
- Stitzinger, Ernest Lester, Ph.D., Professor, Mathematics
- Stoddard, Edward Forrest, Ph.D., Associate Professor Emeritus, Marine, Earth, and Atmospheric Sciences
- Stoll, Regina, PhD, Adjunct Associate Professor, Industrial Engineering
- Stomp, Anne-Marie M., Ph.D., Associate Professor, Forestry
- Stone, Eric Alan, PhD, Assistant Professor, Statistics
- Stone, John Randolph, Ph.D., Associate Professor, Civil Engineering
- Storberg-Walker, Julia, PHD, Assistant Professor, Adult and Higher Education
- Stoskopf, Michael K., Ph.D., Professor, Department of Clinical Sciences
- Straus, Stephen K., Ph.D., Visiting Assistant Professor, Political Science and Public Administration
- Strenkowski, John S., Ph.D., Professor, Mechanical and Aerospace Engineering
- Struble, Raimond Aldrich, Ph.D., Professor Emeritus of Mathematics, Mathematics
- Struett, Michael, PhD, Assistant Professor, Political Science and Public Administration
- Stubbs, Harriet S., Ph.D., Research Associate Professor, Mathematics, Science, & Technology Education
- Stuber, Charles William, Ph.D., Professor Emeritus of Genetics, Genetics
- Stuckey, William Clifton Jr., M.S., Professor Emeritus of Textile and Apparel Management, Textile and Apparel Management
- Stucky, Jon M., Ph.D., Associate Professor, Plant Biology
- Stumpf-Downing, Mitzi, EDD, Assistant Professor, Curriculum and Instruction
- Suggs, Charles Wilson, Ph.D., Professor Emeritus of Biological and Agricultural Engineering, Biological and Agricultural Engineering
- Suh, Moon Won, Ph.D., Professor, Textile and Apparel Management
- Sullivan, Craig V., Ph.D., Professor, Zoology
- Sullivan, Gene Autry, Ph.D., Professor Emeritus of Crop Science, Crop Science
- Sullivan, Leila Gonzalez, EdD, W. Dallas Herring Distinguished Professor of Community College Education, Adult and Higher Education
- Sumner, Emmett, PhD, Assistant Professor, Civil Engineering
- Sun, Ge, PhD, Adjunct Associate Professor, Forestry
- Surh, Gerald D., Ph.D., Associate Professor, History
- Suter, Steven E., VMD, Assistant Professor, Veterinary Medicine
- Sutton, John C. III, Ph.D., Adjunct Assistant Professor, Electrical and Computer Engineering
- Sutton, Rhonda Craver, PhD, Visiting Assistant Professor, Educational Leadership and Policy Studies
- Sutton, Turner Bond, Ph.D., Professor, Plant Pathology
- Swaisgood, Harold Everett, Ph.D., William Neal Reynolds Professor Emeritus, Food Science
- Swallow, William H., Ph.D., Professor, Statistics
- Swanson, Clifford Richard, D.V.M., Associate Professor, Molecular Biomedical Sciences
- Swarts, Jason, PhD, Assistant Professor, English
- Swartzel, Kenneth Ray, Ph.D., William Neal Reynolds Professor, Food Science
- Swink, Rodney, MR, Visiting Assistant Professor, Landscape Architecture
- Swiss, James Edwin, Ph.D., Associate Professor, Political Science and Public Administration
- Switzer, William Lawrence, Ph.D., Associate Professor, Chemistry
- Sykes, Larry M., Ph.D., Adjunct Professor, Biological and Agricultural Engineering
- Sylla, Edith D., Ph.D., Professor, History
- Szanto, Agnes, PhD, Assistant Professor, Mathematics
- Tacker, Robert Christopher, PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Taheri, Javad, Ph.D., Adjunct Associate Professor, Integrated Manufacturing Systems Engineering
- Tai, Eiko, PhD, Associate Professor, Foreign Languages and Literatures
- Taj, Afroz, PhD, Associate Professor, Foreign Languages and Literatures
- Taliaferro, Jocelyn DeVance, PhD, Assistant Professor, Social Work
- Talley, Banks Cooper, PhD, Associate Professor Emeritus of Counselor Education, Educational Leadership and Policy Studies
- Tarpy, David R., PhD, Assistant Professor, Entomology
Graduate Faculty Listing

- Tate, Lloyd Patrick Jr., V.M.D., Professor, Department of Clinical Sciences
- Tayebali, Akhtarhusein A., Ph.D., Associate Professor, Civil Engineering
- Taylor, Andrew J., Ph.D., Associate Professor, Political Science and Public Administration
- Taylor, Eileen, PhD, Assistant Professor, Accounting
- Taylor, Raymond G. Jr., Ed.D., Professor Emeritus, Educational Leadership and Policy Studies
- Tector, John O., Ph.D., Associate Professor, Architecture
- Temple, William, MFA, Assistant Professor, Graphic Design
- Terry, Stephen, PhD, Assistant Professor, Mechanical and Aerospace Engineering
- Tesar, Paul, Ph.D., Professor, Architecture
- Tharp, Alan Lee, Ph.D., Professor, Computer Science
- Thayer, Paul W., Ph.D., Professor of Psychology and Head of the Department, Psychology
- Theil, Elizabeth C., Ph.D., Adjunct Professor, Biochemistry
- Theil, Michael Herbert, Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
- Theuer, Richard C., PhD, Adjunct Professor, Food Science
- Theyson, Thomas W., PhD, Adjunct Professor, Textile and Apparel Management
- Thies-Sprinthall, Lois, Ed.D., Associate Professor Emeritus of Curriculum and Instruction, Curriculum and Instruction
- Thigpen, John F., Ph.D., Adjunct Associate Professor, Sociology and Anthropology
- Thomas, Carrie, PhD, Visiting Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Thomas, Erik R., Ph.D., Associate Professor, English
- Thomas, Frank Bancroft, Ph.D., Professor Emeritus of Food Science, Food Science
- Thomas, Judith Fey, Ph.D., Professor, Plant Biology
- Thomas, Melvin, Ph.D., Associate Professor, Sociology and Anthropology
- Thomas, Richard Joseph, Ph.D., Professor Emeritus of Wood and Paper Science, Wood and Paper Science
- Thompson, Alton, PhD, Adjunct Professor, Sociology and Anthropology
- Thompson, Donald Loraine, Ph.D., Professor Emeritus of Crop Science, Crop Science
- Thompson, Elizabeth Alison, Adjunct Professor, Statistics
- Thompson, Jeffrey Ray, PhD, Research Assistant Professor, Statistics
- Thompson, Jon Francis, Ph.D., Professor, English
- Thompson, Lori Foster, PhD, Assistant Professor, Psychology
- Thompson, Maxine Seaborn, Ph.D., Associate Professor, Sociology and Anthropology
- Thompson, William F., Ph.D., Distinguished University Research Professor, Plant Biology
- Thomson, Randall J., Ph.D., Associate Professor, Sociology and Anthropology
- Thoney, Kristin, Ph.D., Assistant Professor, Textile and Apparel Management
- Thorne, Jeffrey L., Ph.D., Professor, Genetics
- Thrall, Donald E., Ph.D., Professor, Molecular Biomedical Sciences
- Thuente, David J., Ph.D., Professor, Computer Science
- Thuente, Mary Helen, PhD, Professor, English
- Thurman, Walter N., Ph.D., Professor, Economics
- Tilley, David Ronald, Ph.D., Professor Emeritus of Physics, Physics
- Tilotta, David, PhD, Associate Professor, Wood and Paper Science
- Timothy, David Harry, Ph.D., Professor Emeritus of Crop Science, Crop Science
- Ting, Siu-Man Raymond, Ph.D., Associate Professor, Curriculum and Instruction
- Tittle, Charles S, Ph.D., Glaxo Wellcome Endowed Chair, Sociology and Anthropology
- Titus, Marvin A., Ph.D, Assistant Professor, Adult and Higher Education
- Tolson, Robert H., PhD, Research Professor, Mechanical and Aerospace Engineering
- Tomas, Carmelo R, PhD, Adjunct Associate Professor, Marine, Earth, and Atmospheric Sciences
- Tomasino, Charles, Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
- Tomlinson, James Davis, M.LAR., Research Associate Professor, Landscape Architecture
- Tommerdahl, Mark A., PhD, Adjunct Associate Professor, Biomedical Engineering
- Tompkins, Mary B., Ph.D., Professor, Population Health & Pathobiology
Graduate Faculty Listing

- Tompkins, Wayne A. F., Ph.D., Professor, Population Health & Pathobiology
- Tonelli, Alan Edward, Ph.D., Kosa Professor of Fiber and Polymer Chemistry, Textile Engineering, Chemistry, and Science
- Tong, Quansong, PhD, Adjunct Assistant Professor, Marine, Earth, and Atmospheric Sciences
- Tonkonogy, Susan L., Ph.D., Associate Professor, Population Health & Pathobiology
- Toole, William Bell III, Ph.D., Professor Emeritus of English, English
- Toplikar, Susan M., M.F.A., Associate Professor, Art and Design
- Tornatzky, Louis G., Ph.D., Adjunct Professor, Psychology
- Tove, Shirley R., Ph.D., Adjunct Professor, Microbiology
- Townsend, J. Keith, Ph.D., Professor, Electrical and Computer Engineering
- Townsend, Scott, M.F.A., Associate Professor, Graphic Design
- Tran, Hien T., Ph.D., Professor, Mathematics
- Tredway, Lane, PhD, Assistant Professor, Plant Pathology
- Trettin, Carl Clyde, Ph.D., Adjunct Assistant Professor, Forestry
- Trew, Robert J., PhD, Alton and Mildred Lancaster Distinguished Professor and Department Head, Electrical and Computer Engineering
- Triantaphyllou, Anastasios Christos, Ph.D., Professor Emeritus of Genetics, Genetics
- Triantaphyllou, Hedwig Hirschmann, Ph.D., Professor Emeritus of Plant Pathology, Plant Pathology
- Troost, Kay Michael, Ph.D., Associate Professor, Sociology and Anthropology
- Troyer, James Richard, Ph.D., Professor Emeritus of Botany, Plant Biology
- Truong, Van-Den, PhD, Professor, Food Science
- Truskey, George A., Ph.D., Adjunct Associate Professor, Mechanical and Aerospace Engineering
- Trussell, Henry Joel, Ph.D., Professor, Electrical and Computer Engineering
- Tsiantis, Anastasios A., Ph.D., Professor, Statistics
- Tsoulouhas, Theofanis C., Ph.D., Associate Professor, Economics
- Tsuji, Jun, PhD, Assistant Professor, Toxicology
- Tsuji, Yoshiaki, PhD, Assistant Professor, Toxicology
- Tsynkov, Semyon Victor, Ph.D., Associate Professor, Mathematics
- Tu, Juei Feng, PhD, Professor, Mechanical and Aerospace Engineering
- Tucker, Paul Arthur Jr., Ph.D., Professor Emeritus of Textile Engineering, Chemistry and Science, Textile Engineering, Chemistry, and Science
- Tucker, William Preston, Ph.D., Professor Emeritus of Chemistry, Chemistry
- Tung, Chi Chao, Ph.D., Professor Emeritus of Civil Engineering, Civil Engineering
- Turinsky, Paul J., Ph.D., Professor, Nuclear Engineering
- Turner, Lynn Gilbert, Ph.D., Professor, Food Science
- Tyler, Beverly B., Ph.D., Associate Professor, Business Management
- Tzeng, Jung-Ying, PhD, Assistant Professor, Statistics
- Ullrich, David Frederick, Ph.D., Associate Professor Emeritus, Mathematics
- Underwood, Herbert A. Jr., Ph.D., Professor, Zoology
- Uni, Zehava, PhD, Adjunct Professor, Poultry Science
- Unrath, Claude Richard, Ph.D., Professor Emeritus of Horticultural Science, Horticultural Science
- Upchurch, Robert Gregory, Ph.D., Associate Professor (USDA), Plant Pathology
- Vaden, Shelly L., Ph.D., Associate Professor, Department of Clinical Sciences
- Vahedi Tafreshi, Hooman, PhD, Visiting Assistant Professor, Textile and Apparel Management
- van der Vaart, Donald Robert, Ph.D., Adjunct Associate Professor, Civil Engineering
- van der Veer, Hendrick Willem, Ph.D., Adjunct Associate Professor, Zoology
- Van Der Wiele, Cynthia F., PhD, Adjunct Assistant Professor, Landscape Architecture
- Van Duyn, John Wey, Ph.D., Philip Morris Professor, Entomology
- Van Dyk, Pamela, PhD, Adjunct Assistant Professor, Educational Leadership and Policy Studies
- Van Dyke, Cecil Gerald, Ph.D., Professor, Plant Biology
- van Heugten, Eric, Ph.D., Associate Professor, Animal Science
van Kempen, Theo A., Ph.D., Adjunct Professor, Animal Science
van Zanten, John H., Ph.D., Assistant Professor, Chemical Engineering
Van Zyl, Leonel, PhD, Research Assistant Professor, Forestry
Vandenbergh, John Garry, Ph.D., Professor Emeritus of Zoology, Zoology
Vander Wall, William John, Ed.D., Assistant Professor Emeritus, Mathematics, Science, & Technology Education
Vargo, Edward L., Ph.D., Associate Professor, Entomology
Varnado, Terri E., PhD, Assistant Professor, Mathematics, Science, & Technology Education
Vasu, Ellen Storey, Ph.D., Professor, Curriculum and Instruction
Vasu, Michael Lee, Ph.D., Associate Professor, Political Science and Public Administration
Vaughan, George B., Ph.D., Professor Emeritus of Adult and Community College Education, Adult and Higher Education
Veal, Matthew W., PhD, Assistant Professor, Biological and Agricultural Engineering
Velev, Orlin D., PhD, Associate Professor, Chemical Engineering
Venditti, Richard A., Ph.D., Associate Professor, Wood and Paper Science
Vepraskas, Michael John, Ph.D., Professor, Soil Science
Verghese, Kuruvilla, Ph.D., Professor Emeritus of Nuclear Engineering, Nuclear Engineering
Veronese, Paola, PhD, Assistant Professor, Plant Pathology
Vickery, Kenneth Powers, Ph.D., Associate Professor, History
Vilches, Elvira, PhD, Assistant Professor, Foreign Languages and Literatures
Vincent, Kenneth Steven, Ph.D., Professor, History
Viniotis, Ioannis, Ph.D., Professor, Electrical and Computer Engineering
Volk, Richard James, Ph.D., Professor Emeritus of Soil Science, Soil Science
von Haefen, Roger H., PhD, Assistant Professor, Economics
Vose, James M., Ph.D., Adjunct Associate Professor, Forestry
Voss, Glenn B., Ph.D., Associate Professor, Business Management
Vouk, Mladen Alan Velimir, Ph.D., Professor, Computer Science
Vukina, Tomislav, Ph.D., Professor, Economics

Wade, Robert W, PhD, Assistant Professor, Parks, Recreation and Tourism Management
Wages, Dennis P., D.V.M., Professor, Population Health & Pathobiology
Wagger, Michael Gary, Ph.D., Professor, Soil Science
Wagner, F. Peter, PhD, Associate Professor, Political Science and Public Administration
Wahl, George Henry Jr., Ph.D., Professor, Chemistry
Wahls, Harvey Edward, Ph.D., Professor Emeritus, Civil Engineering
Waites, Cheryl, Ed.D., Associate Professor, Social Work
Walden, Michael Leonard, Ph.D., William Neal Reynolds Professor of Agricultural and Resource Economics, Economics
Waldvogel, Michael G., Ph.D., Assistant Professor, Entomology
Walek, Mary Louise, Ph.D., Associate Professor Emeritus of Sociology and Anthropology, Sociology and Anthropology
Walgenbach, James F., Ph.D., Professor, Entomology
Walker, Glenn M., PhD, Assistant Professor, Biomedical Engineering
Walker, Mark D, PhD, Assistant Professor, Business Management
Wall, John Nelson Jr., Ph.D., Professor, English
Wallace, Andrew, PhD, Assistant Professor, Toxicology
Wallace, James Macauley III, Ph.D., Associate Professor, Sociology and Anthropology
Walter, William M. Jr., Ph.D., Professor Emeritus of Food Science, Food Science
Wang, Huixia (Judy), PhD, Assistant Professor, Statistics
Wang, Lingjuan, PhD, Assistant Professor, Biological and Agricultural Engineering
Wang, Wenye, PhD, Assistant Professor, Electrical and Computer Engineering
Wang, Xiaogang, PhD, Adjunct Assistant Professor, Computer Science
Ward, Donn R., Ph.D., Professor, Food Science
Warfield, Colleen Y., Ph.D., Assistant Professor, Plant Pathology
- Warr, Richard S, PhD, Assistant Professor, Business Management
- Warren, Catherine A., Ph.D., Associate Professor, English
- Warren, Marlin Roger Jr., Dr. Rec., Professor Emeritus of Parks, Recreation and Tourism Management, Parks, Recreation and Tourism Management
- Warren, Sarah Timberlake, D.F., Associate Professor, Multidisciplinary Studies
- Warren, Stuart L., Ph.D., Professor, Horticultural Science
- Wasing, Donald, PhD, Assistant Professor, Business Management
- Waschka, Rodney A. II, D.M.A., Professor, Multidisciplinary Studies
- Washburn, Steven P., Ph.D., Professor, Animal Science
- Waters, William Meade Jr., Ph.D., Associate Professor Emeritus, Mathematics, Science, & Technology Education
- Watson, Benjamin Allen, PhD, Associate Professor, Computer Science
- Watson, David Wesley, Ph.D., Associate Professor, Entomology
- Watson, Gerald Francis, Ph.D., Associate Professor Emeritus of Marine, Earth and Atmospheric Science, Marine, Earth, and Atmospheric Sciences
- Wear, David N., Ph.D., Adjunct Assistant Professor, Forestry
- Weber, Jerome Bernard, Ph.D., Professor of Crop Science, Crop Science
- Wechsberg, Wendee M., PhD, Adjunct Associate Professor, Psychology
- Wechsler, Monroe S., Ph.D., Adjunct Professor, Nuclear Engineering
- Weed, Sterling Barg, Ph.D., Professor Emeritus of Soil Science, Soil Science
- Weeks, Willard Wesley, Ph.D., Professor Emeritus of Crop Science, Crop Science
- Weems, Kimberly S., PhD, Assistant Professor, Statistics
- Wehner, Todd Craig, Ph.D., Professor, Horticultural Science
- Wehring, Bernard W., PhD, Research Professor, Nuclear Engineering
- Weinhold, Paul S., PhD, Adjunct Associate Professor, Biomedical Engineering
- Weinstein, Ellen, MA, Visiting Associate Professor, Architecture
- Weir, Robert John, Ph.D., Associate Professor, Forestry
- Weisel, Deborah Lamm, Ph.D., Research Assistant Professor, Political Science and Public Administration
- Weiss, Ira R., PhD, Professor, Business Management
- Weissinger, Arthur K., Ph.D., Professor, Crop Science
- Weissinger, Sandra, PhD, Research Assistant Professor, Crop Science
- Weisz, P. Randall, Ph.D., Professor, Crop Science
- Welby, Charles William, Ph.D., Professor Emeritus of Marine, Earth and Atmospheric Sciences, Marine, Earth, and Atmospheric Sciences
- Wellman, J. Douglas, Ph.D., Professor, Parks, Recreation and Tourism Management
- Wells, J. C., M.S., Professor Emeritus of Plant Pathology, Plant Pathology
- Wells, Janice Gross, PhD, Associate Professor, Social Work
- Wells, Randy, Ph.D., Professor, Crop Science
- Welsch, Frank, Dr.Med.Vet, Adjunct Professor, Molecular Biomedical Sciences
- Wenig, Robert Emery, Ph.D., Associate Professor Emeritus, Mathematics, Science, & Technology Education
- Weninger, Keith R., PhD, Assistant Professor, Physics
- Wentworth, Thomas Ralph, Ph.D., Professor, Plant Biology
- Werner, Dennis James, Ph.D., Professor, Horticultural Science
- Wertz, Dennis William, Ph.D., Associate Professor, Chemistry
- Wesler, Oscar, Ph.D., Professor Emeritus of Statistics, Statistics
- Wessels, Walter John, Ph.D., Professor, Economics
- West, Harry Carter, Ph.D., Associate Professor Emeritus of English, English
- West, Harvey A. II, PhD, Research Assistant Professor, Industrial Engineering
- Westerman, Philip Wayne, Ph.D., Professor, Biological and Agricultural Engineering
- Whangbo, Myung Hwan, Ph.D., Professor, Chemistry
• Wheatley, John H., Ph.D., Associate Professor, Mathematics, Science, & Technology Education
• Wheeler, Elisabeth Anne, Ph.D., Professor Emeritus of Wood and Paper Science and Forestry, Wood and Paper Science
• Wheeler, Mary Elizabeth, Ph.D., Professor Emeritus of History, History
• Whetten, Ross W., Ph.D., Associate Professor, Forestry
• Whipker, Brian E., Ph.D., Associate Professor, Horticultural Science
• Whisnant, Charles Scott, Ph.D., Associate Professor, Animal Science

HISTORY OF THE UNIVERSITY OF NORTH CAROLINA

In North Carolina, all the public educational institutions that grant baccalaureate degrees are part of the University of North Carolina. North Carolina State University is one of 16 constituent institutions of the multi-campus state university.

The University of North Carolina, chartered by the N.C. General Assembly in 1789, was the first public university in the United States to open its doors and the only one to graduate students in the eighteenth century. The first class was admitted in Chapel Hill in 1795. For the next 136 years, the only campus of the University of North Carolina was at Chapel Hill.

In 1877, the N.C. General Assembly began sponsoring additional institutions of higher education, diverse in origin and purpose. Five were historically black institutions, and another was founded to educate American Indians. Several were created to prepare teachers for the public schools. Others had a technological emphasis.
One is a training school for performing artists.

In 1931, the N.C. General Assembly redefined the University of North Carolina to include three state-supported institutions: the campus at Chapel Hill (now the University of North Carolina at Chapel Hill), North Carolina State College (now North Carolina State University at Raleigh), and Woman's College (now the University of North Carolina at Greensboro). The new multi-campus University operated with one board of trustees and one president. By 1969, three additional campuses had joined the University through legislative action: the University of North Carolina at Charlotte, the University of North Carolina at Asheville, and the University of North Carolina at Wilmington.

In 1971, the General Assembly passed legislation bringing into the University of North Carolina the state's ten remaining public senior institutions, each of which had until then been legally separate: Appalachian State University, East Carolina University, Elizabeth City State University, Fayetteville State University, North Carolina Agricultural and Technical State University, North Carolina Central University, the North Carolina School of the Arts, Pembroke State University, Western Carolina University, and Winston-Salem State University. This action created the current sixteen-campus University. (In 1985, the North Carolina School of Science and Mathematics, a residential high school for gifted students, was declared an affiliated school of the University).

The UNC Board of Governors is the policy-making body legally charged with "the general determination, control, supervision, management, and governance of all affairs, of the constituent institutions." It elects the president, who administers the University. The 32 voting members of the Board of Governors are elected by the General Assembly for four-year terms. Former board chairmen and board members who are former governors of North Carolina may continue to serve for limited periods as non-voting members emeriti. The president of the UNC Association of Student Governments, or that student's designee, is also a non-voting member.

Each of the 16 constituent institutions is headed by a chancellor, who is chosen by the Board of Governors on the president's nomination and is responsible to the president. Each institution has a board of trustees, consisting of eight members elected by the Board of Governors, four appointed by the governor, and the president of the student body, who serves ex-officio. (The NC School of the Arts has two additional ex-officio members.) Each board of trustees holds extensive powers over academic and other operations of its institution on delegation from the Board of Governors.
Universities are unique communities committed to creating and transmitting knowledge. They depend on freedom - individuals' freedom to explore ideas and to explore and further their own capabilities. Those freedoms depend on the good will and responsible behavior of all the members of the community, who must treat each other with tolerance and respect. They must allow each other to develop the full range of their capabilities and take full advantage of the institution's resources.

North Carolina State University sets out the kind of behavior that disrupts and inhibits the normal functioning of the University, and what actions it will take to protect the community from such disruption. Like civil authorities (such as the federal, state, and county governments, to which the members of the community are also subject), the University has expectations about how its students will behave, and rules to follow when students are accused of violating those expectations.

UNIVERSITY PATENT PROCEDURES

**Graduate School Requirement to Sign Patent Agreement:** All students must sign the Patent Agreement by the end of their first semester of enrollment. Master's students must have a signed Patent Agreement in the Graduate School before they will have either their Request to Schedule the Master's Oral Examination or Request for Option B Graduation Checkout approved. Doctoral students must sign a statement agreeing to abide by the University's patent policies before their Plan of Graduate Work will be approved.

GRIEVANCE PROCEDURES FOR GRADUATE STUDENTS

Most problems encountered by graduate students can be resolved through communication between the student and his/her advisory committee. If, however, a matter arises which cannot be resolved through student-instructor or student-committee interaction, the student should bring the matter to the attention of the Director of Graduate Programs (DGP) or Department Head. If still unresolved, the problems should be brought to the attention of the academic school/college dean who would respond in accordance with the NC State University Administrative Regulations Grievance Procedure for Students.

Should the school/college dean fail to resolve the problem, the matter may be appealed to the Dean of the Graduate School who will review the record of the grievance, make a decision, and end that decision by certified mail, return receipt, to the student. When bringing a grievance to the Graduate Dean, the written appeal must:

- be delivered within ten (10) university business days after the student receives (or there has been attempted delivery of) the decision of the college dean or vice chancellor;
- be delivered to the office of the Dean of the Graduate School; and
- contain a statement of grounds for appeal, a requested remedy, a copy of the decision being appealed, and the signature of the applicant.

OTHER NC STATE POLICIES
