Evaluator KB and LIFE best practices

Drew Rivers, Ph.D.

Motivation

- “Where can I find that?”
 - It can be difficult to find information and tools on certain I/UCRC practices – project selection, IAB roles, IAB meeting agendas, LIFE discussion facilitation, P/O reporting, etc.
- “Honestly, this may or may not work.”
 - New evaluators must sometimes learn through trial and error rather than from the experiences of other evaluators
- “Someone, somewhere, knows more than you about something.”
 - There is an amazing evaluator community for the I/UCRC program; but no centralized place to share and disseminate information on many I/UCRC practices

Objectives

- Document best practices related to the facilitation of LIFE discussions
- Make those best practices easily available to the I/UCRC Evaluator community

Deliverables

- Documented best practices for LIFE discussions
- A scalable repository of these documents
 - Intuitive
 - Accessible
 - Scalable
 - Complementary to existing data sources

Resources

Who's involved

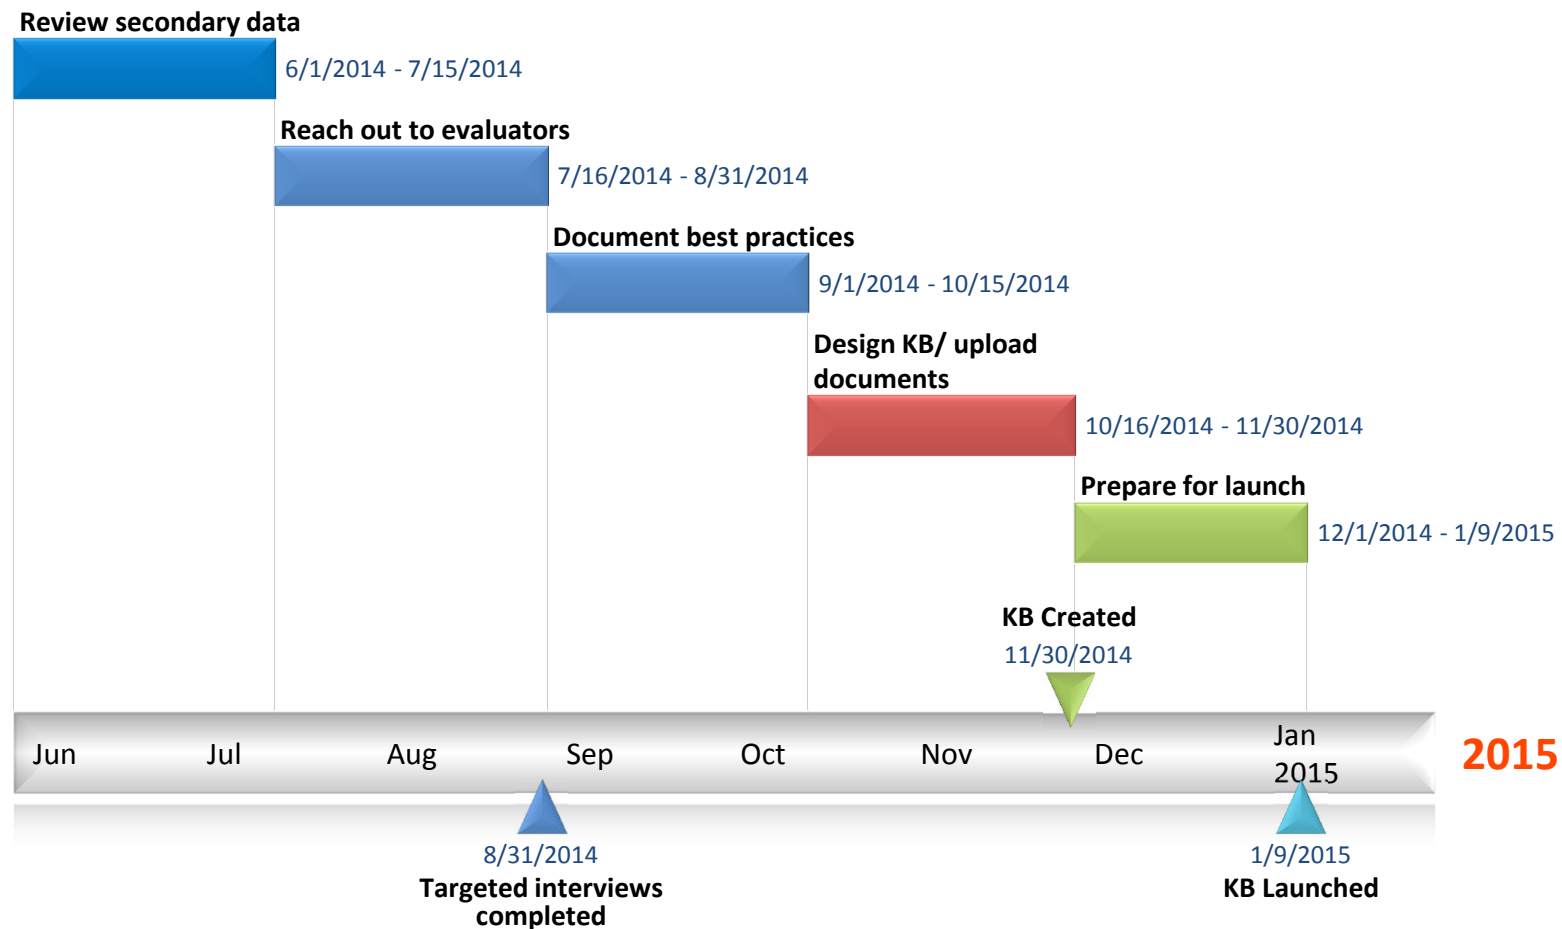

- Core team
 - Lindsey
 - Connie
 - Drew
- Advisors
 - Denis
 - Stephanie
 - Craig B
 - NSF

How you can help

- You might be asked to talk to one of us for 30 minutes.
- There's a small chance we'll do a survey... but only a small chance.
