2010 APPLICATION FOR ADMISSION

www.ncsu.edu/NRLI

Due November 23, 2009

NC STATE UNIVERSITY
College of Agriculture & Life Sciences

COOPERATIVE EXTENSION
Helping People Put Knowledge to Work
North Carolina is facing tremendous growth and development pressures in some of the most environmentally sensitive areas of the state. It is projected that by 2030, North Carolina will become the 7th largest state in the nation as its population level continues to rise. These increasing pressures place a premium on natural resource management, conservation, environmental protection, and solutions that often result in controversy. Disputes arise over such issues as endangered species; private property rights; resource management and use; urban and industrial development; and air and water quality. People with a stake in these issues tend to focus on their disagreements, rather than build on their common interests.

The Goal

In our 16th year, the Natural Resources Leadership Institute is a multifaceted instructional and community service program administered through the NC Cooperative Extension Service at NC State University. Since 1995, hundreds of professionals have participated in the Institute, building their leadership skills and knowledge in conflict resolution, multi-party negotiation, critical thinking, and collaborative problem solving. Our goal is to enhance leadership, leadership that will influence integrative solutions to complex environmental issues, both within and between organizations, and within North Carolina’s communities.

The NRLI Mission

The mission of the Natural Resources Leadership Institute is to educate and support a diverse group of North Carolinians who are committed to seeking consensus on issues affecting the sustainable development of North Carolina’s natural resources and the quality of our environment.

The NRLI Vision

Our vision for the future is to build the capacity of North Carolinians to solve problems effectively and to make decisions affecting our natural resources and environment through collaboration, critical thinking, and consensus. To attain this vision, we will build a network of leaders who:

- Are natural resources professionals from the public and private sectors, including landowners, local government officials, educators, and members of environmental, conservation, and community organizations.

- Represent North Carolina’s diversity in terms of affiliation, geographic location, race, gender, experience, income, and age.

- Appreciate and take into account the biological, economic, social, and political implications of natural resources management decisions in seeking policy changes.

- Respect the rights and opinions of individuals with different values.

- Cooperate with other people and organizations that have a stake in how North Carolina’s natural resources are managed by seeking solutions to controversial natural resource issues.

- Strengthen the capacity of people and communities to engage in effective dialogue and action in the sustainability of our environment and natural resources.
**The Participants**

The strength of the institute lies in the diversity of our participants. Men and women from across North Carolina and beyond reflect the varied life experiences of those who have a stake in the sustainability of our communities and environment. Out of this diversity comes a new and enduring interorganizational network.

The institute seeks participation from a wide range of groups, communities, and organizations including:

- Federal & state natural resource agencies
- Resource-based industries
- Environmental and conservation organizations
- Local government
- Private landowners and managers
- Educational institutions
- Elected officials
- People involved in resource policy and development
- Community organizations
- Concerned citizens
- Affiliates in other states

**The Program**

North Carolina State University provides leadership for the institute and professionals from North Carolina State University and the University of North Carolina Chapel Hill help provide instruction. Institute faculty draw on their own as well as the participant’s expertise, and that of other dispute resolution practitioners, university faculty, natural resources professionals, the NRLI Advisory Board, and the NRLI Fellows to help instruct the sessions. Theoretical, historical, and experiential learning are emphasized. Participants are active in their own leadership development through self-directed learning and relationship-building activities, case studies, and field trips. In tandem with other North Carolina leaders during session discussions and in mentored leadership projects, the participants enhance their leadership abilities and those of their fellow participants.

**Workshop Topics**

- Leadership development
- Communication skills
- Conflict management
- Interest-based and multi-party negotiation
- Public policy and decision-making
- Interpersonal skill development
- Collaborative problem solving
- Critical thinking
- Facilitation and facilitative leadership
- Working with the media

**The Leadership Practicum**

Toward the end of the classroom phase, participants embark on the leadership project known as the practicum. Working in groups or individually, participants apply the skills and information gained in the classroom to situations they face at work, in their organizations, or in their communities. Through the practicum, participants seek collaborative solutions to natural resources issues with others who have a stake in the outcome. Institute faculty guide participants in their practicum activities, and some grants are available to offset practicum expenses.

</table>

1. Please tell us about your future community service or civic goals; future career and/or organizational goals.

2. What do you consider is your highest responsibility, achievement, or contribution to your organization, profession, or community? Why?

3. In your opinion, what is the most important natural resources management or environmental issue in North Carolina today (or in the state where you reside)? Explain why, and tell what today's leaders can do to resolve this or these issues.

4. What do you hope to achieve from your experience in the **Natural Resources Leadership Institute**? How will this achievement benefit you professionally? Personally?
5. An important component of NRLI is the practicum project where you apply your collaborative leadership skills to your organization or community. List at least one potential project you might undertake and the people and/or organizations you might work with to make this happen. In your response, describe the outcomes that might result from your efforts.

6. Please tell us about the leadership development programs you have participated in the past. We are also interested in knowing whether you have participated in the following assessments.

___ Myers Briggs Assessment
___ Leadership Assessment (and what type of assessment)
___ Facilitation Techniques (and the name or a description of the techniques)

Leadership Development Program: what one or two things did you value about the program?

---

**ATTENDANCE AND PARTICIPATION**

Graduation from the Natural Resources Leadership Institute in June of 2011 is contingent on participants’ **full attendance and involvement** in the workshop sessions and fulfillment of the **practicum requirement**. Participants who miss more than half of a session can make up the session when it is offered in 2011. Tuition is not refundable if a participant withdraws from the program (though may be applied to a future year). Participants should anticipate three full days per session, which includes travel time (exceptions are the one-day review sessions and the trip to Washington DC). Sessions usually begin with a noon lunch on the first day and end in mid-afternoon on the third day.

PROGRAM COSTS

The institute tuition is $1,200. The tuition covers partial costs associated with instruction, educational materials, assessment instruments, review sessions, and other session amenities. The tuition is paid in full at the January session. Participants are responsible for travel and lodging such as:

- Travel costs to and from sessions (participants often carpool to offset travel costs).
- Session registration fees (designated workshop meals and/or lodging). We like to accommodate the diverse financial needs of our participants, and thus separate tuition costs from meals and lodging costs, providing flexible payment options. Participants may pay the entire program cost upfront (tuition plus pre-paid session fee option); or the tuition payment in January with respective session fee payments before each session. Several activities, including meals and receptions are sponsored by other organizations. In the past, these organizations have included Progress Energy, Columbia Forest Products, International Paper, Duke Energy, Weyerhaeuser, and the Manufacturers and Chemical Council of NC to help offset overall costs. The pre-paid session fee options in January are below (otherwise, payment is provided prior to each workshop and it is a bit more expensive):
  - Double occupancy rate: $850 covers most lodging and meals.
  - Single occupancy rate: $1,300 covers most lodging and meals.

Who will pay your tuition?

- Employer
- Yourself
- Other
- Combination

Who will pay your food and lodging expenses?

- Employer
- Yourself
- Other
- Combination

SCHOLARSHIPS

Progress Energy Scholarships (if available in 2010), can be requested for partial financial assistance by applicants who otherwise would be unable to attend. If you would like to be considered for financial assistance, please attach a letter indicating the amount you are requesting and the reason for your request. You may be contacted for additional information concerning your request. Except in rare circumstance, only partial scholarships are available. Please indicate your total scholarship request.

Scholarship Request

PARTICIPANT PLEDGE

I understand the goals and objectives of the Natural Resources Leadership Institute, and, if selected to participate, I will pay a nonrefundable tuition deposit of $100 by December 11, 2009 and the remaining $1,100 on January 27, 2010. I understand that the success of the Institute and that of my fellow participants depends on my participation in all workshop activities and in the practicum. Therefore, I am willing to devote the time to this program as described in this application.

To the Recommender: the name of the person above is applying for admission to the NATURAL RESOURCES LEADERSHIP INSTITUTE, an institute of the North Carolina Cooperative Extension Service at NC State University. The Institute seeks applicants who are, or possess the ability to become, principled leaders within their profession, organizations, or communities. Your evaluation is included as part of the information on which we will base our admission decision. We appreciate your candid evaluation and thank you for your time and effort.

1. How long and in what capacity have you known the applicant?

2. Please use the space below and additional sheets if necessary to make statements on the applicant’s qualifications for admission to a leadership program. Include his/her potential for becoming a leader within his/her organization, profession, or community, as well as an assessment of the applicant’s major strengths and leadership skills.
3. Using the table, please acknowledge the level of interpersonal skills you believe the applicant possesses.
