Look back at the information you have learned in Mission 4 and write a report to Commander Spud Goodroot answering the following questions:

1. What are the four things you learned in this Mission that plants need in order to live?

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

2. Which one of these four things do you think will be our biggest challenge when we try to grow plants on the Moon? Why?

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

3. Which one of these four things do you think will be easiest to handle when we try to grow plants on the Moon? Why?
