Historical Overview of the Southern District

Our Purpose The Southern District of the Institute of Transportation Engineers (SDITE) is composed of professionals who have united to contribute individually and collectively toward meeting human needs for mobility and safety, and to promote the professional development of SDITE members.

Our History The national organization was formed October 2, 1930 in Pittsburgh, Pennsylvania. In 1952, four southern members of national ITE agreed to start a “Southern Section” and began to piggyback their meetings with the Southern Safety Council annual meetings. In 1953 twelve ITE members drafted a petition requesting a Charter for the Southern Section (SSITE), granted on November 1, 1953. SSITE began to actively represent the interests of transportation engineers in the Southeast. Since then, there have been several routine changes in structure as states joined and withdrew from the organization and as the national organization matured. Over the years, sub–units of SSITE were formed. These were initially called Divisions: Virginia – 1958, Georgia – 1962, North Carolina – 1963, Tennessee – 1963, Kentucky – 1969, South Carolina – 1969, Alabama – 1973, and Deep South (Louisiana/ Mississippi) – 1975. In 1975, Virginia withdrew from the Southern Section and petitioned to become its own Section, and was granted a charter.

International ITE created a system of districts in 1973; District 5 was composed of the Southern, Florida, and Texas Sections. Over time, separate districts were created for Florida and Texas, and in 1987 SSITE and Virginia Section voted to merge and form a single district. International ITE granted a charter to SDITE the next year. At the same time, the seven Divisions became Sections. For those members who are interested in the rich history of the District, two documents are available. The SDITE website contains an interesting article entitled, “Our Roots: 1920–1989, An Executive History of the Southern District.” A more detailed document entitled, “A History of the Southern Section of the Institute of Transportation Engineers” was prepared in 1988 by a committee of past presidents led by Jack C. Marcellis.

Associated Business Division (ABD)
Following a four-year effort by Cater Lee, the Section Executive Board chartered the Associated Business Division (ABD) in 1975. This action culminated a long-standing effort to achieve a more meaningful relationship with the Section's Industrial Affiliates. The contributions and support of the ABD to the Section have proven to be very beneficial to the membership.
